Please read this sheet carefully. Tear it out and write your order on it.
IMPORTANT—If Plants, Onion Sets, Asparagus Roots, Potatoes, or other Perishable Goods are included in your order we will use our best judgment as to time of shipment, unless otherwise instructed by you (Give date you wish perishable goods shipped).

NOTICE—Oftentimes when goods are ordered by mail we can send them much more safely by express, charges being prepaid by us. If convenient, and you do not live too far from express office, we should prefer shipping in this way. When it is satisfactory that we should do this, please write YES here _________.

Please keep your order for SEEDS separate from Plants, Bulbs and other goods you may order.
ORDER SHEET FOR
Plants and Bulbs

Notice: Will you kindly assist us in our efforts to get school teachers to interest children in gardening? If you will write the name of a teacher in this space we will write her at once.

Teacher's Name ___________________________ Post Office ___________________________

They are Tested, Reliable Seeds for all Soils and all Climates

They Have Satisfied Every Buyer for 49 Years

No Book Accounts

TERMS CASH WITH ORDER

USE ORDER BLANK AND ENVELOPE WHICH YOU WILL FIND INCLOSED WITH THIS CATALOGUE IN MAKING OUT YOUR ORDER

Customers from Canada and Foreign Countries

Must Send Twenty-Five Cents Additional for Postage and Packing on Each Dollar's Worth of Seeds Ordered

REMEMBER—We cannot accept Canadian and Foreign Postage Stamps

Plant Shipments We always recommend having plants sent by express, when there is an express office near, as we can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by mail). We always try to add enough extra plants of our own selection to help pay charges.

Kindly write your list of plants, bulbs and roots all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. We do not ship plants to Foreign Countries.

READ THESE FEW WORDS ABOUT RELIABLE SEEDS

From good seeds only can good crops be grown. Yet a great many contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productivity, or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

FAIR PLAY GUARANTEE

First—We guarantee that all seeds sold shall reach customers in good condition.

Second—We guarantee to hold ourselves responsible for the safe arrival of all remittances sent us by F. O. Order, Bank Draft, Express Order, or Registered Letter.

Third—We guarantee to deliver free of charge in the United States all garden and flower seeds listed in this catalogue, except those quoted at wholesale prices on pages 2 and 3, and Field Seeds, Grass Seeds, Potatoes and such other items that are plainly marked to be shipped by Express or Freight at purchaser's expense.

Fourth—We guarantee Buckbee's "Full of Life" Seeds to be just as represented—if they prove otherwise, notify us promptly upon receipt of seeds, sending us the numbered shipping tag which was on the shipment and we will refund the order free of charge, or refund the money paid us for same.

This catalogue cancels all former prices.

- Buckbee's Early Maryla...
ASPARAGUS

Every home and kitchen garden should have a bed of Asparagus. The growing popularity which this most delightful and wholesome vegetable has attained in the past few years is remarkable. Without any question, it is one of the most favorite and profitable garden crops, and makes a return in the spring before any other outdoor crop can be marketed, and when a bed is thoroughly established will yield splendid crops for a number of years.

Buckbee's Perfection—This is unquestionably the most valuable new variety and the most satisfactory introduction of recent years. At three years old this variety has yielded at the rate of $50.00 per acre. In short, it has all the qualities demanded for the market and will prove itself to everyone who grows it to be true to its name. Perfection. It is deliciously tender, extra large, early, uniform, prolific, crisp and white. Pkt, 10c; oz. 15c; 2 oz. 25c; ½ lb. 10c; ¼ lb. 50c; lb. $1.00.

BONVALET'S GIANT—This grand variety is now planted by the market growers in the Middle West, to the exclusion of almost all others, on account of its extreme vigor and rust resistant qualities. Usually it produces a crop a year in advance of other sorts. Moreover, the cutting period is longer than other sorts, as stalk crowns do not divide until quite tall. Our strain has been improved each year by careful reselection. Pkt. 5c; oz. 10c; 2 oz.; 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

COLUMBIA MAMMOTH WHITE—Furnishes white shoots which stay white as long as 2 ft. in length and may be used without earthing up, or any other artificial blanching and case-hardening and are excellent for forcing to give 80 to 90 per cent of white plants. Pkt. 5c; oz. 10c; 2 oz.; 15c; ½ lb. 25c; ¼ lb. 50c; lb. 90c.

CONOVER'S COLOSAL—A standard variety, any size and delicious quality. Pkt. 5c; oz. 10c; 2 oz. 17c; ½ lb. 25c; lb. 45c.

BROCCOLI

Similar to Cauliflower, of less delicate flavor but harder; of value in the Northern States.

EARLY PURPLE CAPE—This is the best variety for our climate. It produces large heads of a purple-bronze color, very close and compact. Pkt., 10c; oz. 90c.

NEW WHITE CAPE—Medium sized heads, close and compact, of creamy-white color. A sure header. Pkt., 10c; oz. 75c.
New Jackson Wonder Bush Lima

Buckbee's Improved Bush Lima

Superior Quality, Exquisite Flavor, Fine Color, Good Shipper, Hardy Grover, Enormously Productive, Matures Early, Excellent Keeper.

This is the very "newest" in the Bush Lima Bean. It greatly excels all other Bush Limas in productiveness, being practically loaded down with pods continuously from early Summer till frost.

It Matures Extremely Early. Is Suitable, Therefore, for All Sections North and South, and is a Continuous Bearer Until Frost.

In size the beans are what might be termed intermediate, not so large as the Burpee Bush Lima, but considerably larger than the Henderson's Bush Lima, making it, in our estimation, the finest size for all purposes. The bush is sturdy in habit and about 2½ inches high, having good large leaves. It bears its fruit on long spikes in heavy clusters well out from the plant.

There are several pods in each cluster, as many as ten having been counted. Each pod contains on an average of four Beans, though there are more containing five than three, so you see that it is a great improvement over the old-fashioned Bush Limas which oftentimes have only one or two in a pod.

Considering the large number of pods on a bush, the yield is amazingly enormous. In quality the Bean is par excellence, flavorful, unsurpassed, and color the very best, both before and after cooking. Valuable also as a shell bean for winter use.

It has become very popular and our sales of it are enormous, far exceeding those of any other Bush Lima variety. Send to BUCKBEE for originator's stock seed.

FORDHOOK BUSH LIMA

Exceptionally Fine Quality. The Leading Bush Lima in the East. An improved Dreer's Bush Lima. The plant is vigorous and erect growing, bearing the pods well above the ground. The pods, which are produced in large clusters, are medium green, about 4½ inches long, and each contains three to five large Beans of exceptionally fine quality. Both pods and Beans are twice the size of Dreer's Bush Lima; in season it is two weeks earlier. Seed large, irregularly oval in shape, very thick, white with greenish tinge. We consider this a decided acquisition to the Dwarf Limas and one of the very best. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 50¢.

BURPEE'S BUSH LIMA

Erect, stout bushes, 18 inches high, and with a diameter of 2 to 3 feet. Very productive. Large pods filled with large beans of luscious quality. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 10¢.

DREER'S BUSH LIMA

Pods short, containing three to four beans which are closely packed and are thick, sweet and succulent. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 45¢.

BURPEE'S IMPROVED BUSH LIMA

The Earliest Large Seeded Bush Lima. One of the Best for Market as Well as the Home Garden.

This is the earliest of the large seeded Bush Lima Beans. The first pickings fit for the table may often be taken in July and from that time until frost a continuous supply may be gathered. It is fully 6 days earlier than the old Burpee's Bush Lima and produces larger pods and more and larger Beans in the pod than this variety; the seed is also considerably thicker. The plants grow upright about 30 inches in height and measure often 2½ inches across the top. They are very productive, producing immense crops of showy pods which measure from 5 to 6 inches in length. The Beans are of enormous size and of most luscious flavor.

Postpaid, pkt. 10¢; ½ lb. 35¢; lb. 45¢.

NEW JACKSON WONDER BUSH LIMA

Immensely Productive.

This is the most productive and very earliest of the Bush Limas. It is of true bush form, about 2 feet high, bearing in greatest profusion, broad, flat pods, each having from three to five medium-sized, handsomely speckled Beans, which cook quickly and are of superior quality. Good for Summer use, and as Winter shell Bean. A splendid Bean for the home garden.

Postpaid, pkt. 8¢; ½ lb. 20¢; lb. 38¢.

HENDERSON'S BUSH LIMA

Compact bushes one foot high. Valuable on account of its earliness and productiveness. Pods short, flat, with three small Beans of delicious flavor.

Postpaid, pkt. 7¢; ½ lb. 18¢; lb. 32¢.
Best Dwarf Green Potted Beans

BUCKBEE'S IMPROVED EARLY VALENTINE
Standard Round Pod Snap Bean.

Buckbee's Improved Valentine is the earliest, hardiest, and finest strain of this popular variety in the country; it is a heavy cropper; true round podded; the pods are very uniform in size and of excellent quality. This strain produces edible pods in less than five weeks from sowing. For snaps there is nothing superior to this variety among the green podded sorts. Vines erect, with coarse dark green leaves and large white blossoms. Pods medium length, curved, cylindrical, with crease in back; very dehy, crisp and tender. Beans medium size, long, irregular, pink marbled with red. Largely grown by market gardeners for an early crop. Postpaid, pkt. 8c; ½ lb. 18c; lb. 34c.

EARLY MOHAWK
Very Early and Productive.

Very hardy, can be planted early. Pods very long and straight. Beans kidney-shaped, variegated drab, purple brown. Postpaid, pkt. 8c; ½ lb. 17c; lb. 32c.

NEW EXTRA EARLY REFUGE
Splendid Pod of Excellent Quality.

A very early green-podded Bean, furnishing shelly pods of fine quality. About two weeks earlier than the Late Refugee, with pods of same size and shape, except slightly flatter. Postpaid, pkt. 8c; ½ lb. 17c; lb. 32c.

VARIETIES FOR SHELL BEANS

The following kinds are used exclusively as shelled beans, either green or dried for winter:

BOSTON WHITE BAKING BEAN
Famous for Baking.

A sure cropper and more prolific than the common white Bean and also of better quality. Ripening its crop early and all at once. Pods straight short, small; Beans small, oval, white. Postpaid, pkt. 8c; ½ lb. 18c; lb. 36c.

NEW DWARF CRANBERRY OR WREN'S EGG
Excellent for Soup or Baking.

Vines compact, upright and very productive. Pods medium length, cylindrical and curved, with splashes of bright red on a yellowish ground. The ripe Beans are large, plump, oval and nearly covered with splashes of bright red. Equal to Lima Beans in quality. Postpaid, pkt. 10c; ½ lb. 18c; lb. 34c.

EXTRA EARLY BOUNTIFUL
Strongless, Tender, Continuous Bearer.

One of the very earliest and largest podded green bush Beans. Pods handsome, long and straight, of very fine quality. The plants are quite large, grow erect, commence to bear very early and continue for a long time. They are very productive. The pods are from 7 to 1½ inches long, are flat, of light green color, solid, meaty, brittle, tender, stringless at all stages of growth, and of delicious flavor. They are also of very uniform size and shape. The dried seeds resemble those of the Yellow Six Weeks, but Bountiful is much superior in quality, entirely stringless; also earlier and more productive. A splendid variety for the home garden. Pkt. 8c; ½ lb. 18c; lb. 36c.
BEST DWARF GREEN PODDED BEANS

Buckbee’s Early Wonder
The Earliest Bean, an Ideal Snap Bean.

The plants are quite large, grow erect and carry their crop well above the foliage. The pods average about 5 inches in length, usually containing about six seeds, and are round, broad, of a dark green color, solidly meaty, extremely brittle and entirely stringless. They are almost free from disease. Flavor is most delicious. It has the peculiarity of preserving its delicate color almost intact when prepared for the table. Its bearing qualities are unexcelled and it matures its crop very regularly, even under adverse conditions. Buckbee’s Early Wonder is one of the most popular Beans grown, on account of its extreme earliness, hardiness, great productiveness, freedom from stringiness, and splendid quality. Postpaid, pkt. 10c; ½ lb. 32c; lb. 38c.

Black Valentine
Matures Early. Very Hardy.
Productive green-podded sort with strong, vigorous vines. The pods are handsome, nearly round, one-third longer and straighter than the Red Valentine; the plant a little more spreading and in season a little later. A large crop can be depended on and the product is very attractive on the market. The pods are of dark green color. Is a great favorite with market gardeners in many sections on account of its blight resistant qualities. A long distance shipper. Postpaid, pkt. 8c; ½ lb. 17c; lb. 32c.

New Longfellow
A Boon for the Market Gardener.
The pods are very attractive, long, straight and round. They are very fleshy, of dark green color, measuring from 7 to 8 inches in length, and usually contain about six seeds. The quality is of the finest, wonderfully tender, brittle, and there are no strings except when pods are quite old. A very early variety and exceedingly prolific. This Bean has proven one of the most profitable varieties to grow for the market. Postpaid, pkt. 8c; ½ lb. 18c; lb. 34c.

Early Yellow Six Weeks
Standard Reliable Variety.
Vines large, vigorous, branching, productive, with large leaves and lilac blossoms; pods long, straight, narrow, handsome; Beans long kidney-shaped, color yellowish-drab. Very hardy and extra early. Postpaid, pkt. 8c; ½ lb. 18c; lb. 33c.

New Stringless Green Pod
Valuable for Good Quality and Lack of Stringiness.
Early and very prolific; long, round, straight, thick, meaty pods, entirely free from strings or fibre, of rich, deep green color. Their great attractiveness, productiveness and excellent quality is giving them an ever-growing popularity. It is now a great leader and standard for general purposes. In the garden where green pod Beans are desired this sort is quite indispensable. Plant every two weeks for succession until September. Postpaid, pkt. 8c; ½ lb. 18c; lb. 34c.

Tennessee Green Pod
An Early Intermediate Snap Bean.
This is a very popular Bean wherever known. The plants are large, somewhat spreading and prolific. The pods are very long, often 8 to 10 inches, flat, irregular in shape, bright but rather dark green and of exceptionally fine flavor. Postpaid, pkt. 8c; ½ lb. 18c; lb. 34c.

Refugee or 1,000 to 1
Splendid Quality. Extremely Productive.
Highly esteemed for late planting and for canning and pickling. Pods long, cylindrical, green becoming white, streaked with purple as they mature; of good quality and snaps. Seed long, light drab, thickly dotted and splashed with purple. Postpaid, pkt. 8c; ½ lb. 18c; lb. 33c.
Best Dwarf Wax Yellow Pod Beans

Buckbee’s New Wonder Wax

This variety is a flat podded sort. Plant is strong, sturdy grower, 18 inches high and 2 feet across. Well loaded with pods 5 to 7 inches long, slim, flat, plump and handsome. Quality tender, brittle and of fine texture of a clean waxy-yellow color. Very early, coming into edible condition much sooner than any other wax podded sort. Rust-proof. You will make no mistake by placing this new sort. Postpaid, pkt. 10c; 1/2 lb. 25c; lb. 45c.

New Early Prolific or Improved Black Wax

The Earliest Wax Bean and One of the Best for the Market and Home Gardener. You will be thoroughly satisfied with this greatly improved strain of Black Wax, which is more vigorous and by far more productive and much earlier than any other strain. The pods are fleshy, of medium length, borne up well among the foliage, and are curved, cylindrical, of a clear waxy-white color, with long, slightly curved points. Vines of medium size, vigorous and hardy. Beans small, oblong and jet black. Postpaid, pkt. 8c; 1/2 lb. 18c; lb. 35c.

Davis Kidney Wax

Big Money Maker for Gardeners and Truckers.

The vine is rustless and very vigorous, bearing its pods near the center in clusters. When young, the pods are brittle, crisp and tender. Seed kidney-shaped, clear white and excellent for baking. A vigorous, hardy, very productive variety, ripening medium early; pods 7 inches long, straight, very showy. The length, uniformly straight, perfect shape, fine color of the pods and the enormous productiveness make this one of the best Beans for the market gardener as well as the canner. Postpaid, pkt. 8c; 1/2 lb. 26c; lb. 37c.

Wardwell’s Kidney Bean

Most Profitable Market Gardener’s Shipping Bean.

The Bean is entirely distinct from that of all other wax varieties. It is a very early variety, ripening only a little later than Golden Wax and yields a larger crop. Pods 5 1/2 to 7 inches long, straight, flat, waxy-yellow, brittle and stringless. Desirable for every climate. Can be grown with great profit in the South for early shipment North. They always command a ready sale in every market. Postpaid, pkt. 10c; 1/2 lb. 22c; lb. 38c.

New Perfection Wax

Rich golden yellow, 3 to 10 inches long, broad; hang in great clusters. Extremely tender and brittle. Combines great productiveness with high quality. Postpaid, pkt. 10c; 1/2 lb. 22c; lb. 40c.

New Brittle Wax

Extreme Earliness—Great Productiveness—Superb Quality—The Best Wax Bean for the Home Garden.

An extremely early Wax Bean, exceedingly handsome and very desirable, especially for snaps for the home garden. The vines are dwarf, spreading and enormously productive. The leaves are roughened. The pods are round, 5 1/2 to 6 inches long, slightly curved, wax-like, light, yellow, solidly fleshy, tender, brittle and entirely stringless at all stages of growth. They are uniformly perfect, an ill-shaped one being rarely seen. The best of the new round podded sorts and excellent for all purposes. Seed long, medium sized, nearly white, with a little dark marking about the eye. Postpaid, pkt. 10c; 1/2 lb. 22c; lb. 40c.
Best Dwarf Wax Yellow Pod Beans—Continued

Jones New Stringless White Wax
An Exceptionally Valuable New Early Bean.
This Bean has often been called the White Seeded Golden Wax. It resembles this old and popular variety very much, but it is superior to it in being of more robust and vigorous growth and more productive. Furthermore, the seed is pure white. This feature gives it a decided advantage over all colored Beans, as used as snap Beans they cook without discoloring, and are, therefore, more attractive at the table; besides that, the dry Beans can be used the same as any other staple white Beans. Pods 4½ to 5 inches long, golden yellow, broad, very meaty and of the finest quality. Postpaid, pkt. 10c; ½ lb. 35c; lb. 45c.

Improved Golden Wax
The well known “good old fashioned” sort, very popular for all purposes. Postpaid, pkt. 8c; ½ lb. 20c; lb. 37c.

Hodson Wax
The Most Productive Garden Bean
Plants of vigorous growth, late maturing, hardy, very productive and free of blight and rust. Pods seven inches long, straight, flat but thick, of cream-yellow color. Postpaid, pkt. 8c; ½ lb. 18c; lb. 35c.

The Yosemite Mammoth Wax
High Quality Monster Podded Wax Bean.
The pods frequently attain a length of 10 to 14 inches, with the thickness of a man’s finger, and are nearly all solid pulp, the seeds being very small when fit for use. They are of rich golden color and are absolutely stringless, cooking tender and delicious. A popular wax Bean for family or market purposes. It is enormously productive, as many as fifty of its monster pods having been counted on one bush. Postpaid, pkt. 10c; ½ lb. 25c; lb. 37c.

Currie’s Rust-Proof Black Wax
Great Rust Resistant Market Gardener’s Bean.
Early and enormously productive, with large golden-yellow pods and in many localities extensively grown for both market and shipping. One of its chief features is its freedom from blight and rust. Postpaid, pkt. 8c; ½ lb. 20c; lb. 37c.

Buckbee’s Rust-Proof Golden Wax
The Standard Wax Variety for General Use.
One of the most reliable early sorts. Our own original stock, unequalled in size, color and quality of pods. In this variety we have a Bean that possesses all the good points of the old favorite—Golden Wax—but is larger in pods, much more prolific and handsome in appearance, being of a dark, rich yellow color and of perfect shape. Of grand quality, showing no string or coarseness, even when past its best, but is of tender and melting flavor at all stages of its growth. Being so exceedingly prolific it is not injured by rust. Dwarf, thick-stemmed plants with oval, straight pods which are brittle and entirely stringless. For market gardeners or private families no better variety can be planted. Postpaid, pkt. 8c; ½ lb. 25c; lb. 40c.
BUCKBEE'S BEST POLE OR CLIMBING BEANS

BURGER'S GREEN POD STRINGLESS
This variety is also called White Seeded Kentucky Wonder; it resembles this variety in form of pods, but is earlier, and covers a longer period of productiveness. The pods are straight, long, of a rich dark green, very meaty, of fine quality and entirely stringless. Seed small and pure white. Postpaid, pkt. 8c; 1/2 lb. 20c; lb. 35c.

LAZY WIFE POLE
Enormously Productive. Splendid Quality. Pods wonderfully broad, thick, entirely stringless; when fully grown from 4 to 6 inches long and exceedingly rich, buttery and fine flavored when cooked. Fine for snap sorts; also as dry shell or Winter Bean. The seed is medium sized, nearly round and pure white. Postpaid, pkt. 8c; 1/2 lb. 25c; lb. 40c.

BUCKBEE'S GOLDEN HARVEST CLUSTER WAX
The New World-Resting Wax Pole Bean. A magnificent variety that bears very early and continually the entire season, producing clusters of 3 to 5 pods of fine light yellow color. Pods average about 8 inches in length, exceedingly tender and entirely stringless. Owing to its earliness and hardness this magnificent Pole Bean is well adapted even to very Northern latitudes. Its very large Pods are beautiful in appearance and are unequalled in quality by any Wax Bean. Postpaid, pkt. 10c; 1/2 lb. 25c; lb. 45c.

BUCKBEE'S EVERBEARING STRINGLESS

This splendid Pole Bean originated on Rockford Seed Farms, and has been bred up to the highest degree of perfection by years of careful work and selection. An excellent heavy yielding Pole Bean for the home garden and for the market garden and trucker. Robust, hardy and one of the very earliest.

The enormous rich dark green pods which are produced in immense clusters often measure from 7 to 9 inches long and contain from 6 to 7 Beans. They are of admirable form, free from coarseness, exceedingly tender and of delicious mild and sweet flavor. The dry Beans are white.

We own the entire stock of Buckbee's Everbearing, and this variety can only be had from us. Postpaid, pkt. 10c; 1/2 lb. 25c; lb. 45c.

BUCKBEE'S BEST POLYPOLE OR CLIMBING BEANS

This splendid Pole Bean originated on Rockford Seed Farms, and has been bred up to the highest degree of perfection by years of careful work and selection. An excellent heavy yielding Pole Bean for the home garden and for the market garden and trucker. Robust, hardy and one of the very earliest.

The enormous rich dark green pods which are produced in immense clusters often measure from 7 to 9 inches long and contain from 6 to 7 Beans. They are of admirable form, free from coarseness, exceedingly tender and of delicious mild and sweet flavor. The dry Beans are white.

We own the entire stock of Buckbee's Everbearing, and this variety can only be had from us. Postpaid, pkt. 10c; 1/2 lb. 25c; lb. 45c.

BUCKBEE'S EVERBEARING STRINGLESS

This splendid Pole Bean originated on Rockford Seed Farms, and has been bred up to the highest degree of perfection by years of careful work and selection. An excellent heavy yielding Pole Bean for the home garden and for the market garden and trucker. Robust, hardy and one of the very earliest.

The enormous rich dark green pods which are produced in immense clusters often measure from 7 to 9 inches long and contain from 6 to 7 Beans. They are of admirable form, free from coarseness, exceedingly tender and of delicious mild and sweet flavor. The dry Beans are white.

BEST POLE OR CLIMBING BEANS

Famous Kentucky Wonder or Old Homestead

The Old Reliable Standard Green Pod Pole Bean.

Very early and enormously productive, single vines often yielding as much as a peck; entirely stringless. Pods of a silvery green color. Postpaid, ptt. 8c; ½ lb. 18c; lb. 34c.

Mammoth Potted Horticultural

The mammoth pods are striped and splashed with brilliant crimson. The Beans are of immense size and of the finest quality, used either green or dry. They are by many preferred to Limas. Best suited for cool climate. Postpaid, ptt. 8c; ½ lb. 18c; lb. 34c.

Early Golden Cluster Wax

A most productive main crop variety of the Wax Potted Pole Beans. It is medium early, and of excellent quality if used either as snap or green and dried shell Beans. The beans are large, vigorous. The pods average 5 to 6 inches in length, are very attractive and much used for exhibition purposes; they are flat, straight, very broad, thick and fluffy, entirely stringless. The dry seed is medium sized, oval and pure white. A splendid variety for the home garden and for market. Postpaid, ptt. 10c; ½ lb. 22c; lb. 45c.

White Dutch Caskeknife

A medium late variety, very productive, with pods 8 inches long, containing 7 to 8 pure white seeds. This variety is very largely planted all over the country and is mostly used for green or dried shell Beans which are of splendid quality. Postpaid, ptt. 8c; ½ lb. 18c; lb. 34c.

Scarlet Runner

Good for snaps and for green shellied Beans, often used in place of Limas. Mostly used, however, as an ornamental climber, the plants bearing large sprays of brilliant scarlet flowers which are twice the size of common Bean blossoms. Postpaid, ptt. 8c; ½ lb. 18c; lb. 34c.

White Creaseback

Valuable for its extreme earliness and its habit of ripening all of its pods within a short time. Very prolific, bearing round, fleshy pods in clusters of 4 to 12. Best quality as snacks. Seed small, oval, white, much used for baked beans. Postpaid, ptt. 8c; ½ lb. 18c; lb. 34c.

New Striped Creaseback

An extremely early variety with medium sized vigorous vines which are wonderfully productive and bear round, fleshy pods, about 5 inches long, of light green color which are of best quality as snacks. Much used as baked beans. Postpaid, ptt. 8c; ½ lb. 18c; lb. 34c.
TABLE BUCKBEE’S BEETS
“Full of Life”
Buckbee’s Earliest of All

Extremely Early
As early as the earliest; makes good crops in less than seven weeks from sowing.

Of Beautiful Appearance
Perfect globe shape, smooth, free from side roots; of rich red color.

Buckbee’s Earliest of All—The Best Extra Early Red Turnip Beet, not only for market gardeners, but for canning, and especially for the home garden, making a strikingly handsome product, much superior to that obtained from any other variety equally as early. Its small top, early maturing and the splendid shape and color of the root make it popular with everyone who plants it. Top small, upright growing, so that the rows may be close together. Leaves are rich bronze-purple borne on slender stems, growing quite compactly. Root globular or ovoid and very smooth. Color of skin dark blood red; flesh rich deep vermilion red zoned with a darker shade. Very crisp, tender and sweet and remaining so for a long time.

Of Superlative Quality
In quality the finest, most delicious of all extra early Beets. It has no superior, and in some respects no equal.

The Standard of Excellence of an Extra Early Beet

Detroit Dark Red Turnip

Detroit Dark Red Turnip
A most excellent medium early turnip-rooted sort. It grows to a large size, is of most handsome appearance, and is very productive in all soils and locations and in all seasons. The tops are small, upright growing, so that the rows may be planted close together. Leaf stems and veins are dark red, blade green, roots globular, perfectly smooth, dark blood red. Flesh bright red, zoned with a darker shade; very crisp, tender and sweet, remaining so a long time. Our stock is very uniform in size, shape and color. One of the best Beets for gardener or canner. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 36c; ½ lb. 60c; lb. $1.10.

Crosby’s Egyptian Extra Early
One of the Earliest Beets in the Market.
Deep red, almost black in color; an improvement over the old Egyptian, being sweeter, more tender, smoother, and also more round in form and larger, although equally as early. The most desirable sort for small Beets for early market, as it is in presentable market shape quicker than any other sort. It is a very rapid grower and can be sown outside as late as July. Crosby’s Egyptian is one of the best Beets and a sure money maker for the market gardener. Our strain is exceptionally fine, extremely early, and very uniform in shape and color. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.
Buckbee's Sunset

Without Exception the Best Second Early and Main Crop Variety

Extended experience has shown this variety of our own introduction to be one of the best sorts, not only for market gardeners, but for the home garden. An improvement in turnip-shaped Beets for table use, and by far the best early, dark red turnip Beet in cultivation. Roots are globular and smooth, with flesh deep vermilion red, crisp and sweet. Tops small, upright growing, which allows close planting, making possible the biggest yield per acre of any turnip-shaped variety. The stock which we offer will produce a crop more uniform in shape, color and quality than any other Beet; a little later, but larger than Earliest of All. We control the entire stock of this variety. Pkt. 10c; oz. 14c; 2 oz. 23c; ½ lb. 45c; ½ lb. 80c; lb. $1.50.

The Bismarck

A Superb Main Crop Turnip Beet.

Of fine turnip shape, very smooth, free of all side roots; about 4 inches in diameter. The tops are small, of dark bronze-red color; the flesh deep blood-red, exceedingly tender, entirely free of fibre and of rich sugary flavor. Medium early; very handsome. A splendid variety for the home and market gardener. We control the entire supply of seed of this variety. Pkt. 8c; oz. 12c; 2 oz. 18c; ½ lb. 35c; ½ lb. 65c; lb. $1.25.

Edmand's Early Blood Turnip

Roots round and smooth, good marketable size; skin and flesh dark blood-red, tender and sweet. It is an excellent keeper. A very desirable second early for market and home garden. Pkt. 5c; oz. 10c; 2 oz. 16c; ½ lb. 28c; ½ lb. 50c; lb. 95c.
MARKET GARDENERS

Profitable Money Making Variety

The root is deep red, very symmetrical, two or three times as long as thick, and always smooth and handsome. The flesh is rich, very dark red, sweet, crisp and tender, never becoming woody even in the portions above the ground. It is a late variety and particularly valuable to store for winter use. Pkt. 5c; 1 oz. 10c; 2 oz. 15c; 4 lb. 25c; 5 lb. 50c; lb. 90c.

COLUMBIA

Deep Blood Red — Splendid Quality

The roots are of a neat turnip shape, with smooth skin and deep blood-red flesh of rich, tender quality. It is ready to use very early, growing almost as quickly as does the Egyptian, while it does not become coarse and stringy when of large size. Gives a good crop from seed sown in July. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

BLACK QUEEN

Darkest of All Blood Red Beets
Black Queen is particularly valuable where a late summer or winter variety is wanted. The roots are pear-shaped, of medium size and fine form. Nearly buried in soil, Deep flesh blood-red color; almost black, making a strongly handsome beet. Exceedingly tender and never woody. It is a large cropper; a good keeper till spring. Its nicely crumber leaves are of a beautiful dark red color, giving it a striking appearance on the market stall and making it a fine variety for ornamental bedding. Pkt. 5c; oz. 10c; 1 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. 81.00.

BUCKBEE’S EXTRA EARLY EGYPTIAN
One of the very earliest and best varieties for forcing; also excellent for first early crop out of doors. Leaves are dark green, nearly globular, with a small tap root and collar. A splendid variety. Flesh dark red, zoned with lighter red; sweet, crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

EARLY BLOOD TURNIP
Roots nearly round, flesh deep red with lighter zones; sweet and tender; medium early; later than Detroit and has larger tops. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

DEWING’S
Flesh deep blood red, very tender and sweet; medium sized roots; medium early. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

BUCKBEE’S NEW HALF-LONG BLOOD
The Very Best for Winter Use
Roots half as long as Long Blood, but on account of their thickness worth just as much. Always smooth, sweet, crisp, tender and never woody. Both flesh and leaves are intensely dark crimson in color. One of the best late sorts. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

EARLY YELLOW TURNIP
A Very Popular Variety
Similar to the Blood Turnip Beet, except in color, which is bright yellow. It is of a very sweet, fine flavor and is deservedly popular. The roots are round and smooth and are of good marketable size. The shape is the kind most desired. As a matter of fact, the Early Yellow has much to recommend it and should please you. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

BUCKBEE’S IMPROVED LONG DARK SMOOTH BLOOD
The Standard Long Blood Beet, Excellent for Greens
Without question the finest long beet grown for fall and winter use. It is of deep red color, almost black, rich, excellent flavor. An enormous cropper, and keeps solid and fresh throughout the long winter. Cooks sweet, tender and crisp; is very desirable for pickles. It must not be compared with the common Long Smooth Blood offered by many seedsmen at a less price, as its high grade was attained by long years of care and selection. The roots are thick shouldered grow largely under ground; are, when mature, about 9 in. in diameter and 10 inches long. They are very prolific, as much as 10 to 12 tons having been grown per acre. Foliage dark crimson. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.
MANGEL WURZELS

Any land that will grow a good crop of Corn will produce a good crop of Mangels or Sugar Beets, which are surer crops than any other root.

Mangels give one-third greater increase of milk in feeding cows than does the same weight of Potatoes. Forty tons Mangels (a crop of an acre) have as much nutritive matters as 140 bu. of corn, and are more digestible, according to Secretary of Agriculture Washington, D. C., for Special Bulletin on Mangels and Beets.

Plant five pounds of Seed per acre.

BUCKBEE’S MASTODON

The Heaviest Cropping and Largest of All Mangels.

It is truly a Mammoth, a single root often weighing 75 pounds and over in yield it is enormously productive—1,500 to 1,800 bushels per acre is not uncommon on good soil. It grows well anywhere, and an account of its shape is easily harvested. In length is about the same as Buckbee’s Mammoth Long Red, but is more remarkable for its handsome shape and broad shoulders, the diameter being greater, and in weight much heavier; flesh deep red, fine texture, roots solid, tops small. In fact, it combines all the fine points possible to combine in a Mangel of the highest nutritive value, and is without question the host and most profitable Mangel for dairy farmers. It is our pedigreed stock—especially selected, and can be had on as the best money can buy and our moderate prices place it within the reach of all.

**Oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; 1 lb. 75c. postpaid.**

BUCKBEE’S MAMMOTH LONG RED

A Wonderful Yields.

A standard and favorite Mangel, producing a very large root uniformly straight and well formed, weighing from 30 to 40 pounds each, of a beautiful dark red color, wonderfully productive, producing 1,000 to 1,500 bushels per acre. Keeping qualities not exceed. Our stock is a great improvement over the old variety. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c. postpaid.

**GOLDEN TANKARD**

The Great Milk Producer.

This distinct variety is a most important addition to our list of roots for stock feeding, as it contains less water and more sugar than any other Mangel. Sheep and all other stock thrive wonderfully on it; its great milk-producing qualities and richly colored yellow flesh have made it a favorite with every dairy farmer. It is an Immense yellder and 60 to 70 bushels per acre have often been grown on good ground and under good cultivation. The roots are handsome, of an ideal cylindrical form, with small neck, clean, generally with only one tap-root, and can easily be lifted, and are excellent keepers. The skin is light gray above and deep orange below the ground, the flesh is brilliant golden yellow, differing from all other varieties, which cut white. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c postpaid.

**BUCKBEE’S GOLDEN MONARCH**

This entirely new and distinct Mangel grows to the largest size and is of a beautiful russet yellow color. The flesh is white, firm and sweet, greatly relished by cattle and other stock. The roots are large, solid, with sharp shaped with small tops admitting close planting. Easily lifted, growing more than half above ground, producing enormous crops, and is an excellent keeper. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c postpaid.

**GIANT RED ECKENDORF**

The roots are smooth, of cylindrical shape, very much like the Tankard Mangel, and weigh from 25 to 25 pounds each. The flesh is firm, solid, of white color and of highly nutritious value. The Eckendorf Mangels are phenomenal growers and are valued for market or home garden. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c postpaid.

**GIANT YELLOW ECKENDORF**

The same as the Red Eckendorf, but with yellow skin. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c. postpaid.

**CHAMPION YELLOW GLOBE**

One of the best for stock feeding. The roots grow almost entirely above ground and are therefore best adapted for shallow soils and are easily harvested. It produces as much per acre as most of the longer growing Mangels. It is a good keeper. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c. postpaid.

**CHAMPION RED GLOBE**

Similar to above except in color, which is a light red or pink. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c. postpaid.

**GIANT OR MAMMOTH JUMBO OR EIFELL TOWER**

A large long red variety of excellent quality. Very similar to Mammoth Long Red. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c. postpaid.

**MIXED MANGEL SEED**

Cholcest sorts mixed. Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c. postpaid.

**NOTE**—Write for special prices on larger quantities.

---

*Gus Basye, Mahovala, Ark.—Have planted Buckbees Extra Early Bountiful Beans for three seasons, find it to be the most tender Bean it is unexcelled. It should be advertised as your best bush Bean in your catalogue and we cannot recommend it too highly to all those who wish a good*

*L. C. Carson, Kelly Station, Pa.—I received all of the seed I ordered from you. I ordered about $15.00 worth and they were all good and they sure did produce fine. I want you to send me your catalogue again as I wish to order my seed from you next year.*
BUCKBEE’S SUGAR BEETS FOR STOCK FEEDING

GIANT FEEDING SUGAR

The Greatest Beet for Feeding Stock.
This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of Mangolds, supplies a food of very much higher nutritive value, being much richer in sugar. They yield under equally favorable conditions, more than double that of sugar beets and not being so sweet, are less liable to injure the kidneys, when fed in large quantities.

Winter crops, therefore, are possible. The roots grow about two-thirds out of the ground and because of this and their shape the crop can be harvested and stored at less expense than any other root crop. Roots very large, smooth, clean and of oval shape; white skins, white flesh. Every farmer should try it. Oz. 8c; 2 oz. 15c; ½ lb. 20c; ½ lb. 35c; lb. 60c. Postpaid.

BUCKBEE’S SUGAR BEETS FOR STOCK FEEDING

BUCKBEE’S NEW IMPERIAL SUGAR

This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is extremely rich in sugar, thousands of analyses showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated as from 15 to 16 tons an acre, but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. We sell thousands of pounds each year to the large growers and Beet sugar factories throughout the country, always with the most satisfactory results. Postpaid, oz. 8c; 2 oz. 13c; ½ lb. 20c; ¼ lb. 35c; lb. 60c.

KLEIN WANZLEBEN SUGAR BEET

This variety at the present time has probably a wider cultivation than any other Sugar Beet. While not, as a rule, equal to BUCKBEE’S NEW IMPERIAL SUGAR in saccharine richness, it is considerably more productive. We offer seed the second year from polarized roots. Postpaid, oz. 8c; 2 oz. 13c; ½ lb. 20c; ½ lb. 35c; lb. 55c.

THE BEST STOCK CARROTS

Every farmer should plant a few acres of Carrots for stock food; they are very productive, less liable to disease than many other root crops, and being sown earlier do not interfere so much with the labor in the busy time. They can be stored over Winter like Potatoes. Make excellent nutritious feed for all stock. Horses are very fond of them and they increase the flow of milk in cows, improve the quality of butter and give it a beautiful golden color.

Buckbee’s Champion

The World-Beating Stock Carrot

Buckbee’s Champion is not, properly speaking, a table Carrot, although the flesh is remarkably firm and sweet. But it is most emphatically a Stock Carrot for the farmer and stock raiser, and once used nothing will take its place. It is the heaviest cropping variety grown, yielding more tons to the acre than any other sort. The flesh is white, crisp, solid and very sweet in flavor. The roots are of medium size, very broad and heavy at the shoulder and are therefore easily harvested. They frequently measure 15 to 20 inches in circumference and 25 to 50 tons per acre is not an extravagant statement as to yield. Our own growth, Choicest Northern Home-Grown Pedigreed Stock Seed. Pkt. 6c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE’S IMPROVED SHORT WHITE—Roots 7 to 9 inches long, smooth, very heavy at the shoulder, having a diameter of 2 to 4 inches, but taper regularly to a point, growing almost entirely in the ground. Flesh rich, white, solid, crisp and of excellent flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE’S MAJESTIC—The largest, heaviest cropping and most nutritious yellow variety. The roots are of excellent quality, possessing high feeding value. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

LARGE WHITE VOSGES—A Field Carrot especially suited for soils that are not very deep. One of the most productive and cleanest feeding. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

MAMMOTH WHITE BELGIAN—Splendid variety for fattening stock. The roots are mammoth in size and very productive, often yielding ten tons roots per acre. Pkt. 1c; oz. 2c; 2 oz. 3c; ½ lb. 20c; ¼ lb. 35c; lb. 55c.

MAMMOTH YELLOW BELGIAN—Identical to the White Belgian except in color. Pkt. 4c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ¼ lb. 35c; lb. 60c.
BUCKBEE'S "Full of Life" CARROTS

One Ounce Will Sow a low 100 Feet Long. Four to Five Pounds Will Sow an Acre.

BUCKBEE'S EARLIEST GARDEN
The Earliest Variety in Cultivation and Best for the Table.

Tops small, finely divided. The reddish orange colored roots are nearly round with a groove along the crown and when fully matured they are about two inches in diameter, but they should be used before they are full grown, when they are tender and delicious. Much used for forcing, and pulled when they have only 4 or 5 leaves. Pkt. 6c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. 81.00.

BUCKBEE'S GOLDEN BALL FORCING
Standard Extra Early Forcing Carrot.

Nearly round roots of yellowish brown color; smaller than the foregoing, and not quite so early. Best for use when young. Pkt. 6c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. 81.00.

EARLY SCARLET HORN
A good variety to grow for the market.

A favorite for early crop; a little later than Early Golden Ball. Color deep beautiful orange; has a short, stump-shaped root about 5 inches long, large at top, therefore easily pulled. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 85c.

BUCKBEE'S CHAMPION HORN
A splendid new Carrot from Holland where it is very largely grown for the market and considered the finest of all table Carrots. It is an extremely early variety, as early as Scarlet Horn and will be ready for the market in about 45 days from sowing, but it is about 6 to 7 inches long or twice the size of Scarlet Horn. It is the sweetest of all Carrots being without any yellow core. The roots are cylindrical, blunt at the end and having a fine neck and small top can be planted close together. The color is very attractive bright red. They are entirely free from any stringy, coarse heart, which is found in most other Carrots; are of fine texture and most delicious quality. Of its excellent quality, it ought to have a place in every garden and its extreme earliness and great productiveness make it an indispensable variety and a great money-maker for the market gardener. Pkt. 6c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. 81.00.

OX HEART OR GUERANDE
Early, Handsome; Ready Selling.

Tender and Delicious.

Roots small for the size of the roots, which are comparatively short, about 5 inches long, but thick and often weighing a pound apiece; they terminate abruptly in a small tap root. Flesh bright orange, fine grained and sweet. About ten days earlier than Danvers. A splendid variety. This is a desirable variety for soil so hard and stiff that longer growing sorts would not thrive in it. When young, excellent for table use, and when matured, equally good for stock. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 80c.

BUCKBEE'S SELECT DANVERS
The Best Carrot for Every Purpose.

Adapted to all soils and enormously productive, yielding more than any other table Carrot, and often more than the large field Carrots, and is much easier harvested than these. The flesh is very tender and sweet; it is a valuable Carrot for both table use and for stock. The leading carrot. We have an extra fine strain of this favorite sort, which is of very fine bright color, and exceptionally uniform in shape, size and color. We have sold this strain for years and it is giving the greatest satisfaction to our customers. Pkt. 7c; oz. 10c; 2 oz. 15c; ½ lb. 30c; ½ lb. 55c; lb. 81.00.

NEW EARLY CHANTENAY OR MODEL
A Fine Bunching Carrot. Private Stock.

This is one of the best early Carrots in existence, one which market gardeners should plant for their early crop; it matures between Carrots and Danvers. The Carrots grow about 6 inches long, are stump-rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seeds most carefully selected. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 35c; ½ lb. 45c; lb. 86c.

BUCKBEE'S PRIDE of the MARKET

A large, handsome, main crop variety. Roots grow ten to twelve inches in length, very broad at the neck, tapers evenly to the small tap root. Grows smoothly and uniformly; flesh tender, sweet and entirely free from woodiness or coarseness. Unsurpassed for table use and most valuable for market purposes. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 30c; ½ lb. 45c; lb. 86c.

IMPROVED LONG ORANGE
The Best Keeper.

The most popular of the older sorts for farm use on mellow soil. Roots proportionately shorter than the Long Orange and smoother. Fine table quality but also much planted for feeding, being very productive. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 35c; ½ lb. 40c; lb. 86c.
BUCKBEE'S RELIABLE CABBAGE SEED
EXTRA EARLY POINTED HEADS

BUCKBEE'S NEW RACE HORSE
Absolutely the earliest Cabbage in cultivation. Indispensable to the market gardener for his very earliest crop.
Buckbee's Race Horse is ready for use in sixty days from the sowing of the seed—ten days earlier than Jersey Wakefield or Lightning and other so-called earliest sorts of other seedsmen. The plants are very hardy and can be set out very early; they are always sure to head, making good sized, solid and firm pointed heads, which, though a little smaller than Jersey Wakefield, are always marketable and being the first in the market bring high prices. There are but few outer leaves and the plants may therefore be set closely together, they will then yield large crops, and as many as 14,000 heads have been grown of this variety on one acre, which brought a larger profit per acre than later and heavier varieties. The heads are very attractive in appearance, of splendid quality, tender, fine grained and of sweet, delicious flavor.

Some space should be given in every garden to this variety, as coming ahead of every other kind, it is bound to make money for the market gardener, and its sweet, delicate flavor will bring a welcome change from the coarse winter sorts for the table.

We control the entire stock of this earliest of all Cabbage. Pkt. 10c; oz. 28c; 2 oz. 75c; ½ lb. $1.25; ½ lb. $2.25; lb. $4.25.

BUCKBEE'S SELECTED TRUE EARLY JERSEY WAKEFIELD
The Standard Extra Early Cabbage in Cultivation.
Buckbee's stock of Jersey Wakefield is grown from selected heads only and is the earliest and finest strain of this variety in the market; it is sold by others also as Lightning. It forms fine solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. The seed is remarkably pure and always gives satisfaction. Buckbee's Jersey Wakefield is about ten days later than Buckbee's Race Horse, but has larger heads and is much more productive. It is the variety mostly planted by market gardeners for the bulk of their extra early crop. Pkt. 8c; oz. 28c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.25; lb. $3.90.

CHARLESTON OR LARGE WAKEFIELD
A splendid strain of Jersey Wakefield, about a week later, with heads twice as large, weighing from 8 to 12 pounds each and more, and not so pointed as the original Charleston Wakefield; is a good keeper and may be planted as a second crop, to mature in Autumn, if desired. It is much used by market gardeners to follow Jersey Wakefield; a fast rate shipper, and in great favor with everybody who knows it. Pkt. 8c; oz. 28c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.25; lb. $3.65.

EXTRA EARLY WINNINGSTADT
A very fine header and will grow a hard head under circumstances where most sorts would fail. It will stand more frost, drought, wet, insects and diseases than any other early Cabbage. Plants very compact, with short thick leaves. Heads regular, conical and very hard. It is the latest of the pointed varieties. Pkt. 5c; oz. 25c; 2 oz. 50c; ½ lb. 75c; ½ lb. $1.25; lb. $2.50.
BUCKBEE'S "FULL OF LIFE" CABBAGE SEED  
EXTRA EARLY FLAT AND ROUND HEADS

The Heaviest Yielding First Early Cabbage.

The Earliest, Large, Round-Headed Variety.  
A Distinct and Most Desirable Sort.

Very Popular With Market Gardeners and Most Excellent for the Home Garden.

Copenhagen Market

An extra early Summer Cabbage maturing fully as early as Jersey Wakefield but producing larger heads than any other Cabbage equally as early. The heads average about 10 pounds each in weight, are ball-shaped, solid and firm, with a small core, fine veins, of splendid quality, and remain in marketable condition for a considerable length of time. The type is thoroughly fixed and the heads mature all at the same time, so that the entire crop can be harvested at one time and the field cleared for other crops. The leaves are of light green color, tightly folded together in a remarkably solid and compact form; it has few outer leaves curving inwards, is of upright growth permitting closer planting than any variety with heads of similar size; it has a short stem, growing close to the ground.

Our stock is grown by the originator in Denmark; it is that strain which produces the large, heavy, round heads of excellent quality, which have made this variety famous.

Pkt. 10c; oz. 40c; 2 oz. 75c; ½ lb. $1.25; lb. $2.25; lb. $4.25.

Early Spring

The Earliest Flat-Headed Variety. A few days earlier than Jersey Wakefield, producing heads of the same weight but different shape, being flat, slightly rounded. They are intensely solid, of vivid green color, with short stems and but few outer leaves. Small heart, fine veins, flavor delicious. Pkt. 5c; oz. 25c; 2 oz. 40c; ½ lb. $1.30; lb. $3.00.

Enkhuizen Glory

Very early, 10 days later than Jersey Wakefield but heads twice as heavy, ball-shaped, thin ribbed, very firm, splendid keepers and of excellent quality. The color is a pale green. In appearance the heads are those of a small Danish Ballhead. The plants grow very uniform in size and shape, are always sure to head. Pkt. 8c; oz. 25c; 2 oz. 50c; ½ lb. $1.15; lb. $2.00; lb. $3.00.

All-Head Early

A sure header. Matures at the same time as Enkhuizen Glory. The plant is compact, with few outer leaves, stem short. Head very large for so early a variety, very solid, flat, but very deep and uniform in size and shape. Well adapted for kraut. Finely planted late it can be used also as a Winter Cabbage. Our strain is the finest. Pkt. 5c; oz. 25c; 2 oz. 45c; ½ lb. 80c; ½ lb. $1.45; lb. $2.35.

Buckbee's Early Greenback

If a gardener will plant but one kind of Cabbage this is the one to use. It is a large, solid, flat-headed Cabbage, fully as early and as large as All-Head, and can be planted in Spring andSummer and keeps splendidly over Winter. Practically every plant will produce a fine, hard head, measuring from 10 to 14 inches in diameter. Pkt. 8c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.70; lb. $3.00.
CABBAGE

BUCKBEE'S
Extra Early
Large New
Queen

Some Cabbage will do, others please, but Buckbee's Early
Large New Queen has satisfied and made more money for
Cabbage growers throughout the country during the past nearly
half a century than any variety ever offered.

Unquestionably it is the finest bred and earliest of the very
large (weighs from 17 to 25 pounds) Cabbages and the most
solid headed, thoroughbred of this class. It is a dwarf, comp-
pact grower, allowing close planting, a sure header, most uni-
form in growth, beautiful in appearance, free from coarse
veining of the leaves, of much better quality than the big ribbed
Winter sorts; in fact, it possesses all the fine qualities of the
best early varieties, it is unexcelled in flavor and always the
leader in every market. Practically every plant will form a
very large, solid head and will mature earlier than any variety
of equal size. It is suitable for every growing season; in the

Gaines, Cole & Co., State Line, Miss., write: "Have used Buckbee's Queen since its introduction. It is a week earlier and much
finer in every way than Henderson's Early Summer, and markets more to the acre."
SECOND EARLY CABBAGES

BUCKBEE'S ROCKFORD MARKET

A Fine Second Early Cabbage.

It has the peculiarity of heading firmly at an early stage in its growth so that the finest Cabbage can be obtained long before it has attained its natural size. Its uniformity in shape and large yield per acre render it particularly valuable to truckers, and its compact form and good quality make it also one of the finest of the second early Cabbages for the home garden. It is about a week later than New Queen. Pkt. 10c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.70; lb. $8.00.

BUCKBEE'S EARLY MARVEL

The heads are extremely hard and solid, round, flattened on top and ready to market fully as early as Early Summer, but larger. It is as good for Autumn or Winter as for early Summer. Pkt. 10c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.70; lb. $8.00.

HENDERSON'S EARLY SUMMER

Standard Midsummer Variety.

This variety is deeded popular with the market gardeners. It forms large, solid, round, flattened, compact heads of excellent quality, which average more than double the size of the Jersey Wakefield, while it matures only ten days later. Pkt. 5c; oz. 25c; 2 oz. 50c; ½ lb. 60c; ½ lb. $1.15; lb. $3.25.

LATE OR WINTER CABBAGE

BUCKBEE'S MAMMOTH LATE BRIDGEPORT DRUMHEAD

A Standard Fall Shipping Sort.

It makes a large, round, firm head, uniform in shape and color, which seldom bursts or rots. With good cultivation, heads attain a weight of 20 to 30 pounds, and are of the finest quality. Sureness in heading and reliability in weight has made this one of the most popular standard sorts for Winter keeping. Its quality, either for slicing, for kraut, and for general table use is unsurpassed. It is as natural for this Cabbage to form heads as leaves. This variety is much used by market gardeners in northern localities, and has proven a great moneymaker to them. It is a very fine strain of late Cabbage and can be profitably grown anywhere in this country. It is a splendid sort for general use, giving abundant satisfaction. Pkt. 10c; oz. 25c; 2 oz. 50c; ½ lb. 55c; ½ lb. $1.70; lb. $3.00.

SURE HEAD

A Famous Main Crop Cabbage.

Of the "Flat Dutch" type. Heads uniform in size and color, round, flattened on top, extra hard, and firm and fine in texture, weighing under average cultivation from 10 to 15 pounds; sweet flavored; has scarcely any loose leaves. One of the most reliable and sure-heading Cabbages. It is a sure header. Its great solidity makes it an excellent shipping as well as keeping variety. Pkt. 5c; oz. 25c; 2 oz. 50c; ½ lb. 60c; ½ lb. $1.15; lb. $2.25.

BUCKBEE'S MAMMOTH LATE FLAT DUTCH

Everywhere a Favorite Market Variety. Always Sure to Head.

This is a money-maker among late Cabbages for gardeners, and for family use it ranks the highest. No variety of late Flat Dutch surpasses it for fine quality and uniform reliability to produce solid, firm heads. Even during the most unfavorable weather the heads are large. They are usually very well shaped, solid, in form are round, flat on top and of a bluish-green color with but few outer leaves. The quality is fine and flavor excellent, heads being crisp, tender and white, and they keep in good condition until Spring. Outside of Buckbee's Christmas King this is the variety planted by more gardeners than any other late sort and one of the best to grow for the family table. Always sure to make a crop where other sorts fail, and sure to please everybody on all soils North, South, East or West. If you grow late Cabbage, do not fail to plant some of my selected and famous "Full of Life" strain of this variety. Pkt. 10c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.70; lb. $3.00.

GREGORY'S ALL SEASONS

Nearly as early as Early Summer, but considerably larger in size and one of the largest and most desirable of the second early varieties. The heads are large, nearly round, extremely hard and solid, with finely ribbed leaves; the eating quality is not excelled by any other Cabbage and is far better than that of the big-ribbed Winter sorts, and considered one of the best for kraut. It is suited to all growing seasons, is a sure header under most adverse conditions, and keeps well even if planted very late. Remarkable for its ability to stand the hot sun and dry weather, remaining an exceptionally long time in condition for use. Our strain is the finest on the market. Pkt. 5c; oz. 25c; 2 oz. 40c; ½ lb. 70c; ½ lb. $1.30; lb. $5.50.

SUCCESION

A great favorite with market gardeners. About two weeks later than New Queen, a sure cropper and long keeper. The heads are very large, deep, solid and firm, of a beautiful light green color and free of all coarse veining, they run very uniform in size and shape and are of splendid quality. Pkt. 5c; oz. 25c; 2 oz. 50c; ½ lb. 60c; ½ lb. $1.15; lb. $2.25.

PREMIUM LATE FLAT DUTCH

An old and popular variety, remarkably uniform in size and type. Very heavy, late and a fine shipper. Pkt. 5c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.70; lb. $3.00.

LARGE LATE DRUMHEAD

Closely allied to our Mammoth Bridgeport Drum Head. Pkt. 5c; oz. 25c; 2 oz. 40c; ½ lb. 60c; ½ lb. $1.10; lb. $2.20.

BUCKBEE'S NEW CENTURY

One of the very best for general use, being very hardy and sure to head well at all seasons. Heads regular, very hard and keeps well both Summer and Winter. Pkt. 5c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ½ lb. $1.70; lb. $3.00.
Buckbee's "Full of Life" Cabbage Seed

Buckbee's Christmas King Cabbage

The Grandest Winter Cabbage
The Largest Cabbage in the World
The Longest Keeper and Surest Header

The grandest late Cabbage ever introduced. This truly wonderful late variety of our own introduction gives the greatest yields of any Cabbage grown. Thousands of acres are annually sown with this one kind; it is a favorite among the largest and most discriminating growers everywhere and none of them have ever been disappointed in the results.

Nine hundred and ninety-nine out of every thousand plants will produce marketable heads, which are of mammoth size, on good, rich soil, reaching the sensational weight of 60 pounds each.

The leaves are deep blue, very wide and overlapping each other forming tight, compact heads, which are all very uniform in size and in time of maturity, and are of the most delicious flavor, crisp and sweet. It never bursts, has but few outside leaves and can be planted closer than most sorts and will then produce a larger crop per acre than any other variety. It is the best Winter keeper; there is no other variety which maintains its fresh appearance so long after it has matured. It is also the best for kraut.

Buckbee's Christmas King is the finest late Cabbage known today; for the market, for shipping and for the home garden it has no superior. We have grown this variety for many years, but improved it continuously and it is today better than ever.

There is big money in Cabbage, but your harvest depends on the seed you sow. Always remember that the seed is the cheapest thing about your entire crop, therefore buy the best, regardless of price, buy the right varieties, and varieties that have been tried out and yield bumper crops in the North, South, East and West. These are Buckbee's Early Queen and Buckbee's Christmas King. We control the complete stock of Christmas King and offer the choicest "FULL OF LIFE" Seed of our own growing at the following reasonable prices. Send to Buckbee for the true "Christmas King."

Pkt. 10c; oz. 40c; 1 oz. 70c; 1/4 lb. $1.30; 1/2 lb. $2.40; lb. $4.25.
BUCKBEE'S “Full of Life” CABBAGE SEED

Late or Main Crop Varieties—Danish Grown Cabbages

Buckbee's Great Dane

The Hardest Headed Late Cabbage. The Gardener’s Favorite, the Best Shipping and Longest Keeping Cabbage.

For years large quantities of Danish Cabbage have been imported to our leading markets, the heads being of such solidity that the demand has been far in excess of the supply, and always at a price far above the ruling market rate. To get to the source of this supply I sent an expert to Denmark, who after careful inspection of the Cabbage-growing localities found at the Island of Amagar the GREAT DANE Cabbage, which he considered by far the finest and most productive of all the types and strains of the Ball Head Winter Cabbage grown in Denmark, and he contracted with its originator for all the seed he could supply.

I have handled his stock now for many years, have supplied annually large quantities of it to the Cabbage growers of this country and every year the orders for it show an enormous increase over those of the previous one; proving without doubt the better adaptability to our climate and the great superiority in many other respects of the GREAT DANE to other similar types.

I give herewith the description of this great Cabbage—by the originator, Mr. Torgeson: “For more than twenty years I have worked in perfecting this variety. The stem is medium sized, heads are almost as round as a ball, of good size, perfectly solid, very fine grained, of the best quality. They average larger and heavier, also mature earlier than the other strains of Hollander or Ball Head grown here. Because of the larger size, heavier weight, greater solidity of its heads, its unequalled keeping and shipping properties and its more tender quality, it will supplant all other varieties for winter use. I cannot too highly recommend it to gardeners in your land (America).”

We control the entire seed supply and offer the choicest “FULL OF LIFE” Seed (grown by the originator in Denmark), at the following reasonable prices. Send to Buckbee for the true “Great Dane.”

Pkt. 10c; oz. 40c; 2 oz. 70c; 1/2 lb. $1.30; 1 lb. $2.40; lb. $4.25.

Danish Ball Head

Extra Selected Danish Grown Seed.

The heads, which are of medium size, average a weight of about eight pounds, are very solid and deep, and of a fine white color. Their quality is excellent, and the heads being just as solid and perfect when taken up in the Spring as when they are put away in the Fall. Stem about 5 inches high. Pkt. 50c; oz. 35c; 2 oz. 60c; 1/2 lb. $1.15; 1 lb. $2.00; lb. $3.50.

New Round Head Danish

A Short-Stemmed Type.

Two weeks earlier than Ball Head, heads more round, unusually solid, average larger, with less outer foliage, of more robust growth, and is better able to resist blight. The heads are beautifully white when trimmed. It especially recommended for high and light soils. Are splendid keepers. Short stems about 1 1/2 inches high. The Round Head requires less space; can therefore be set closer together than Ball Head. Pkt. 8c; oz. 5c; 2 oz. 65c; 1/4 lb. $1.20; 1/2 lb. $2.15; lb. $3.75.

Wisconsin Hollander

Introduced by the Wisconsin Experiment Station. A strain of the Hollander grown in Wisconsin, resistant against the Yellow Rot disease. Has been grown successfully on the sickest old cabbage fields. Pkt. 8c; oz. 5c; 2 oz. 65c; 1/4 lb. $1.25; 1/2 lb. $2.25; lb. $4.00.
RED CABBAGE

New Dutch or Pickling
Raised extensively for pickling purposes. Always the first of the Red Cabbage in market. Small, handsome, hard heads of blood-red color and of the finest quality. Average weight, 8 pounds. Pkt. 6c; oz. 30c; 2 oz. 50c; ½ lb. 85c; 1 lb. $1.70; 1½ lb. $2.00.

Mammoth Red Rock
One of the finest Red Cabbages on the market. Heads average over 10 pounds each, and are always of rich color, very solid and of excellent flavor. Always sure to head. Try it. Pkt. 6c; oz. 30c; 2 oz. 55c; ¼ lb. $1.00; ½ lb. $1.80; 1 lb. $3.25.

New Red Polish
The Best Red Cabbage for Pickling or Table Use.
This New Red Cabbage is a vigorous grower and quite hardy. The heads are of a dark red color, and are extremely firm and heavy. The outside leaves are somewhat crumpled at the edges, giving the plant a pleasing and rather ornamental appearance. It is the largest and surest-heading Red Cabbage. New Red Polish is the most profitable red sort with which we are acquainted, and will prove satisfactory in all respects to growers, cook and pickle-maker. Pkt. 8c; oz. 32c; 2 oz. 65c; ¼ lb. $1.20; ½ lb. $2.15; 1 lb. $3.75.

Savoy Cabbages
Savoy Cabbage have crimped leaves and are more tender, of milder and sweeter flavor than the smooth-leaved varieties; their flavor will improve after being frosted. They are equal in quality to Cauliflower and make a good substitute for it where this vegetable cannot be grown. They should be in every private garden and when once used they will always be planted.

Improved American Savoy
Very Valuable Variety.
Adapted for private use. Grown in fall and allowed to be touched by frost, it is one of the most profitable of all vegetables. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.10; 1 lb. $2.50.

Buckbee’s Sugar Loaf Savoy
Noted for Fine and Delicate Flavor.
This improved variety is the very best of the Savoys for home use or the market. Most attractive, matures early, hardest headed. Plants vigorous, densely crumpled and very sure heading. Blanches beautifully. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. $1.30; 1 lb. $2.50.

Buckbee’s Chinese or Celery Cabbage
A new, most delicious vegetable which should be in every garden and which is one of the most profitable crops to grow for the market. Although introduced in this country not very long ago, already hundreds of carloads of it have been grown last year in Florida, California and other states and shipped to Eastern markets. It is offered now in the markets of all large cities and has proven a source of great profit for the grower, yielding three times as much as any other early Cabbage and selling at $1c to 15c per pound when other Cabbage brings only $2.60 to $3.00 per ton. Yields in Florida are reported to have been about 30 tons per acre. This vegetable, I believe, is destined to have a wide sale, and whoever grows it will be surprised at the great demand that already exists for it.

The Chinese or Celery Cabbage belongs to the Cabbage family; when young it resembles a smooth-leaved Chard-Beet, leaves being light green and crimped; the plant as it matures forms heads much like Cos Lettuce, which are about 15 inches high, have a diameter of 6 to 8 inches, weigh often 4 lbs., and are as firm and solid as Cabbage; their heart blanches to a crystalline white, whiter than any Lettuce or Cabbage. The leaf is as tender as Lettuce and has a distinctive flavor both delicate and pleasant; every leaf, including the outside ones, is tender and edible.

It is served on the table like Lettuce with French dressing; or if cut up like Cabbage and served with mayonnaise or French dressing it makes a splendid cold salad. It can also be cooked like Cabbage, but it is without the strong Cabbage flavor and tastes more like Cauliflower.

Chinese Cabbage thrives well in any good soil, but low, moist and even wet ground is the best suited. The seed is like Cabbage seed, and it should be treated like late Cabbage, sowing during July; early plantings are likely to run to seed in hot weather. The seed is sown in drills about 20 inches apart and the plants thinned out to stand 15 inches apart in the row; if grown for the market start seed in boxes and transplant. Cultivate the same as Cabbage. It will not stand frost and for Winter use it should be stored in a cool, frost-proof cellar.

Our seed is Chinese grown, which is the only reliable stock for good solid heads. Prices: postpaid, pkt. 10c; oz. 5c; 1 oz. 15c; ½ lb. 75c.

For Cabbage Plants See Page 88
BUCKBEE'S EXTRA EARLY CHIEF CAULIFLOWER

The Earliest Grown—A Sure Header—Drought Resister—Large Solid Heads of Snowy Whiteness

The best variety for either market or family purposes, by far the earliest and surest large header and the most profitable grown. The greater part of Cauliflower seed offered is of European growth, but after years of careful study and perseverance we are able to offer this thoroughbred American variety—"CHIEF." It is of very compact growth, with very short stalks. The plants can be set very close together, and the leaves growing upward naturally protect the heads, which are handsome beyond description, measuring fully 12 to 15 inches across, and even more under careful cultivation; they are pure snow-white, very close, compact and of the most superior quality. The heads being so extremely solid and deep, weigh heavier than any other early variety.

It can be used for early or late planting, for forcing or the open ground; used any way, I recommend it with the full assurance that it will give entire satisfaction and that it is not surpassed by any other variety in earliness and sure heading quality.

In no vegetable is there so vital a relationship between seed and crops as in the Cauliflower. I make Cauliflower a specialty and I know Extra Early Chief will never fail to please the most exacting; it is a thoroughbred, pedigree-strain, the grandest, large-heading, early Cauliflower ever grown. I have sold it for years, supplying the largest Cauliflower growers with it in every part of this country and have received nothing but praise from everybody.

Comparative tests have proved conclusively that Buckbee's Chief matures earlier, is a surer and heavier cropper and produces more marketable heads per acre than any other Cauliflower of equal size. No grower of Cauliflower need fear the outcome of the crop if he is relying on this superb, world-beating variety.
BUCKBEE'S "FULL OF LIFE" CAULIFLOWER—Cont'd

TRUE EARLY SNOWBALL, Pedigree Seed
Certainly a fine variety, a great favorite with market gardeners and a standard throughout the country; very early, close growing, of compact habit; is well adapted for forcing under glass during winter and spring. The heads are large. For early or late planting, for the family or the market garden, this variety can be depended upon for excellent results. Snowball is but a few days later than "Buckbee's Chief" and it is not quite so large. We have the finest strain of the Snowball in the country; this can be attested to by our many market gardener customers who used it for many years with great success. Pkt. 10c; ½ oz. $1.25; oz. $2.25; 2 oz. $4.00; ½ lb. $7.50.

EXTRA EARLY DWARF ERFURT SELECTED
Remarkable for reliability of heading; dwarf; solid, pure white heads of most superior quality. If planted the first of March, heads 8 to 10 inches in diameter will be ready early in June. This is a fine old sort and as yet a favorite with many; Snowball and Buckbee's Chief are highly developed strains of this variety and produce somewhat larger heads earlier in the season. Pkt. 10c; ½ oz. $1.00; oz. $1.85; 2 oz. $3.50; ½ lb. $6.75.

EXTRA EARLY PARIS
An extra early variety, useful for Spring planting. Heads of medium size with narrow and straight leaves; they are snow white and of fine quality, but not as large nor as firm as the Erfurt type of Cauliflower. Dwarf habit. Pkt. 8c; ½ oz. 40c; oz. 75c; 2 oz. $1.45; ½ lb. $2.75.

LE NORMAND'S SHORT STEM
Sure Heading Standard Late Variety.
The very best large late variety grown. Sure to please. Curd is well protected by broad, short leaves of deep green color; the stems are extremely short and stout. Head very large, solid, pure white and of superb quality. Very hardy, stands drought very well, and also frost. It is a sure header. Fine in every way. Very popular with market gardeners. Will be ready for use in about 170 days from sowing. Pkt. 8c; ½ oz. 40c; oz. 75c; 2 oz. $1.45; ½ lb. $2.75.

CAULIFLOWER PLANTS
Ready about March 25th—See page 88 for Prices

BUCKBEE'S "FULL OF LIFE" CELERY

BUCKBEE'S ALL HEART
Crisp and Brittle—Rich Golden Color—Exquisite Nutty Flavor.
The latest and best creation in Celery. Originated on Rockford Seed Farms after years of careful trial and experiment and has given unparalleled satisfaction in every part of the country. It is the earliest of the Winter Colivers—ready for use about 14 days later than the early self-blanching sorts listed on page 28. It is a very showy sort, with very broad, medium sized stalks, of fine ivory-white color and a rich golden heart. Crisp, tender and brittle. The flavor is delightfully rich and nutty. This is the best celery for Winter storage. It is unsurpassed for the professional Celery grower, the home and market garden. We control the entire stock of Buckbee's All Heart Celery. Pkt. 10c; oz. 35c; 2 oz. 60c; ½ lb. $1.15; ¼ lb. $2.00; lb. $3.50.

BUCKBEE'S GENUINE GOLDEN HEART
Original Private Stock. This variety is of a short, stocky growth with a large heart which blanches a beautiful golden yellow, and is crisp, brittle, tender and of fine flavor. An old, very popular, long-keeping sort. Pkt. 5c; oz. 20c; 2 oz. 35c; ½ lb. 60c; ½ lb. $1.10; lb. $3.00.

BUCKBEE'S PERFECTED KALAMAZOO
It is an acknowledged fact that more good Celery is grown in the famous "Kalamazoo Celery Fields" than anywhere in the country. For years our heaviest sales of Celery Seed have been in that section, and we have devoted much time to the improvement of the Celery industry in that section, and Buckbee's Perfected Kalamazoo will be found greatly superior to the old strain. The stalks are quite thick, solid, crisp and of creamy white color, growing very uniform in size and shape. It is profitable alike for market or family use. There is no waste in preparing it for the table. Pkt. 6c; oz. 35c; 2 oz. 60c; ¼ lb. $1.15; ½ lb. $2.00; lb. $3.50.

GIANT PASCAL OR WINTER KING RE-SELECTED STOCK SEED
A selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are short, broad, heavy, thick, solid, crisp, and of a rich nutty flavor, free from any trace of bitterness. They blanch to a paper whiteness. One of the very finest of our Winter Celeries. Pkt. 5c; oz. 20c; 2 oz. 35c; ½ lb. 60c; ½ lb. $1.10; lb. $3.00.

WINTER QUEEN
A very popular sort, and an excellent winter keeper, with short, broad and extra heavy stalks; of compact growth, with very large heart. Blanches easily and quickly. Crisp and delicious nutty flavor. As a late Winter keeper it is unsurpassed. It is worthy of a place in every garden and is a money-maker for the market grower. Pkt. 5c; oz. 20c; 2 oz. 35c; ½ lb. 60c; ½ lb. $1.10; lb. $2.00.

CELERY PLANTS—Ready early in June—See page 88.
Buckbee's Easy Blanching Celery

Easiest Blanching and Longest Keeping Celery.

A most valuable Celery of recent introduction. An entirely new and distinct variety, and the only easily-blanced green or long-keeping sort known. It is already quite extensively grown by the most progressive Celery growers, and is bound to become one of the most popular varieties in this country.

Its remarkable combination of easy blanching and long-keeping qualities—not found in any other variety—make it at once the most valuable of all Celeries for those who grow for market as well as for all private gardeners, both for an early crop and for Winter use.

The plants are of strong and stocky growth with green foliage, showing a slight tinge of yellow in the inner leaves. The stalks are very large, heavy, thick and solid with shallow ribs and with extra large and firm hearts.

Our strain blanches so quickly and easily that even those who have never been successful in growing good Celery can now produce Celery equal in quality and appearance to that grown by professional growers and can enjoy this wholesome vegetable during the season.

Easy Blanching is of most attractive appearance, largely on account of its large, finely colored heart, and the quality is superb, tender and brittle, with an excellent nutlike, aromatic flavor.

It grows well on muck and upland soil and keeps better in the trench than any other Celery.

Easy Blanching is displacing Golden Self Blanching wherever it becomes known, as it is less liable to blight and is far superior to it in eating and keeping qualities. It is a trifle taller, fully as stout and ready for the market about two weeks later than Golden Self Blanching, but when bleached and ready for sale it can hardly be distinguished from that variety.

Prices of Buckbee's Easy Blanching Celery Pedigreed Seed

Pkt., 10c; oz., 60c; 2 oz., $1.10; ½ lb., $2.00; ½ lb., $3.00; lb., $7.50.
BUCKBEE’S “Full of Life” CELERY

BUCKBEE’S GOLDEN YELLOW SELF-BLANCHING
Originator’s French Grown Seed.

This is the strain used by gardeners and extensive growers in every large Celery district in the United States. No other strain of seed gives such universal satisfaction, and it is without question the most popular and dependable early strain of Celery grown. The plants are medium sized, stocky, and the stalks crisp, solid, heavy and of a yellowish-green color when young, but as they mature the inner stems and leaves turn a beautiful golden yellow, which adds much to their attractiveness and makes the work of blanching much easier. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor of this variety make it only necessary to be tried in order to establish it as the standard of excellence as an early sort. Pkt. 10c; oz. 65c; 2 oz. $1.15; ½ lb. $2.15; ½ lb. $4.10; lb. $8.00.

Select American grown seed. Pkt. 8c; oz. 45c; 2 oz. 80c; ¼ lb. $1.50; ½ lb. $2.75; lb. $5.00.

PERFECTED WHITE PLUME
Buckbee’s Private Stock.

Is too widely known to require extended description. We will only say that we have not yet found a strain that is as early and of as good a flavor, crisp and tender, as our selection of this sort. It is unsurpassed for Fall and early winter use. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 75c; ½ lb. $1.15; lb. $2.50.

NEW COLUMBIA
Buckbee’s Perfected Strain.

An early maturing sort, only a few a few days later than Golden Self-Blanching, and unsurpassed in shape and quality. The plant is of medium height, but very stocky and heavy. The stalks are thick, almost round, resembling in shape those of Giant Pascal, but the color has in it more of the rich yellow tint of Golden Self-Blanching which variety it resembles very much in appearance when trimmed and bunched for the market. Pkt. 8c; oz. 35c; 2 oz. 60c; ¼ lb. $1.15; ½ lb. $2.00; lb. $3.50.

CELERIAC, OR TURNIP ROOTED CELERY

Celeriac is grown for the bulbous roots, which are excellent for stews, soups and salads.

NEW DELICATESSE—Root turnip-shaped; much larger, smoother and of more tender, sweeter taste, stronger flavor than other varieties. Pkt. 10c; oz. 40c.

LARGE ROOTED GIANT PRAGUE—Improved form of turnip-rooted Celery, producing large and smooth roots, almost round, few side roots. Large green foliage. Pkt. 5c; oz. 25c.

CELERY SEED FOR FLAVORING

Oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 30c; lb. 45c.

CELERY PLANTS READY EARLY IN JUNE. SEE PAGE 88.
The Best First Early Sweet Corns

Buckbee's New Early Sunrise
Absolutely the Earliest Good Sweet Corn

The beauty and quality of this remarkable variety give it prominence over all others for family, market, canning, shipping, and, in fact, all purposes. Ears large (the fat kind), grains of great depth, exceedingly tender and sweet, the sort that fairly melts in the mouth. Something in Sweet Corn that makes everybody talk Early Sunrise as the very best introduction to present date. Our seed stock is carefully grown and selected with the sole object of keeping it up to the highest standard of excellence as the earliest, largest and best on record. This is a very distinct variety, which was originated many years ago by a market gardener in northern Iowa. It always proved with us earlier than any other so-called extra early variety of other seedsmen. The ears are about 6 inches long, 10 to 12-rowed; they are very uniform and handsome and have a small white cob. Postpaid, pkt. 10c; ¼ lb. 20c; ½ lb. 35c.

Golden Bantam
A very early Sweet Corn, about ten days later than Sunrise; more hardly and can therefore be planted earlier than most other sweet corn. It grows 3½ to 4 feet high, produces two or more ears to the stalk; the ears, which are 6 to 7 inches long and covered with eight rows of golden yellow grain, are very tender and of exceptionally rich and delicious flavor. Golden Bantam has a distinct taste and many people prefer it to all other varieties. Market gardeners will find it a well-paying crop wherever it has been tried. Our stock has been carefully selected. Postpaid, pkt. 8c; ¼ lb. 17c; ½ lb. 32c.

New Early Sunrise

Golden Bantam
Buckbee’s First of All

Extra Early Large Size, Heavy Cropper, Sweet and Tender

Comparative tests made by Sweet Corn experts throughout the country as well as at Rockford Seed Farms have proven it to be from three days to a week earlier than Cory, making it very desirable, not only for family gardens, but an especial boon to market gardeners who desire to have the first Sweet Corn in market. Ears are of good size, well filled with large grains to the very tip. Many of the ears contain from ten to twelve rows, while the Cory generally has only eight rows. In habit of growth it excels all other early varieties, being stocky and exceptionally vigorous. The quality is excellent and surpassing sweet. Postpaid, pkt. 8c; ½ lb. 16c; lb. 30c.

Mammoth Early White Cob Cory

A very fine extra early variety, but somewhat later than Buckbee’s Early Sunrise, and is very largely planted by market gardeners to follow this variety; it has proven a well-paying crop for them.

Mammoth Cory is a selection from the old White Cob Cory, but its ears are 12-rowed and the kernels sit very close together, so that there is no lost space on the cob. The grain is large, broad, very white and of sweet, delicious quality. The plants are vigorous growers of medium height and are very prolific. This is a finely bred sweet corn with handsome, symmetrical ears and is worthy a place in every garden. Postpaid, pkt. 7c; ½ lb. 16c; lb. 28c.

Buckbee’s Best of All

Early, prolific, sweet, tender, large, handsome. "Best of All" is of exceptionally stocky growth and an abundant and satisfactory yielder; ears of large size; kernels very broad and especially sweet, rich, white and tender. Not only is it valuable for family use, but for early market and shipping purposes it is also in the lead. Mr. Crane, one of the most prominent Sweet Corn specialists, writes: "Gave Buckbee’s ‘Best of All’ a fair trial, and will say that it surpasses every claim that you make for it, and more, too. I can highly recommend it for all general purposes." Postpaid, pkt. 8c; ½ lb. 16c; lb. 30c.

Peep o’ Day

Very early small-eared variety. Stalks grow three feet high, have few leaves and produce generally more than one ear to the stalk. Ears small, measuring not more than five inches long and filled from butt to tip with ten rows of small grains of a very sweet flavor. Much grown in the Northwest: not quite as early nor as large as Sunrise. Postpaid, pkt. 7c; ½ lb. 16c; lb. 28c.

Extra Early Cory

One of the most popular varieties and extra early. Ears of good size, well filled to the very top with eight rows of broad kernels of excellent quality; vigorous grower; about four feet high. Postpaid, pkt. 7c; ½ lb. 16c; lb. 27c.

Early Crosby

A most excellent variety, remarkably early and of the best flavor. Ears of medium size, 12 or more rowed, grain very thick and sweet. Largely grown for canning. Pkt. 7c; ½ lb. 16c; lb. 28c.

Early Minnesota

This popular variety is one of the best early sorts for the market and the private garden. By careful selection we have developed a stock which is remarkably uniform, and in which all the good qualities are intensified. The stalks are about six feet high, bearing one or two ears which are about 6 inches long, 8 rowed and have very broad, white, sweet and tender kernels. Pkt. 7c; ½ lb. 15c; lb. 27c.

Kendall’s New Large Early Giant

Ears large and long; 10 to 12 rowed. Kernels white, sweet and tender. Very desirable for both market and family purposes. Postpaid, pkt. 7c; ½ lb. 16c; lb. 28c.

Improved Adams Early

While not a Sweet Corn, this is a tender corn often used for the table, particularly in the South. The ears are about 8 inches long, 12 to 14 rowed and the kernels are white, somewhat deeper than broad and indented at the outer end. The stalks are about six feet high. Can be planted earlier than any Sweet Corn. Pkt. 7c; ½ lb. 16c; lb. 25c.

Buckbee’s Best of All Sweet Corn.
BUCKBEE’S NEW GOLDEN EVERGREEN

The Sweetest Corn Ever Eaten
The Greatest Sweet Corn Yet Introduced
The One Best Sweet Corn

BUCKBEE’S GOLDEN EVERGREEN is the result of a cross between white Evergreen and Golden Bantam, and proved to be a happy and complete blending of each kind, combining the deliciously sweet flavor of Golden Bantam and the evergreen habit of the White Evergreen; those who tasted it say that it outclasses the parent sorts in sweetness and tenderness. It is a true Evergreen, as the ears remain evergreen and edible for many weeks.

BUCKBEE’S GOLDEN EVERGREEN is ready for the table about five days after Golden Bantam, but the ears are much longer than those of that sort, being intermediate in size between those of its parents; they are none too small nor too large and bulky, but just the right size for eating off the cob. The stalks are 5 to 7 feet high, of very strong growth, very close-jointed and sturdy, never blowing over; they bear at convenient height two or more ears, covered with 12 to 14 rows of deep, sugary grains with a tender skin, which is light yellow in the green state, but cooks to bright golden yellow. The Corn comes true to type.

BUCKBEE’S GOLDEN EVERGREEN is of the right size, nice appearance and considered by all who tried it the sweetest Corn ever eaten. It is sure to outstrip in a few years all other varieties in popularity. We believe it is the best all-around Corn and the most desirable one for the family garden; it is also particularly well adapted for market gardeners having a discriminating trade and has always been sold at a premium, there never having been enough to supply the demand. Pkt. 10c; ½ lb. 20c; 1 lb. 35c.

MEDIUM EARLY VARIETIES

NEW HONEY SWEET

An exceptionally fine variety for second early use, being from one to two weeks later than any extra early varieties. Ears twelve-rowed, medium size, very handsome. Grains of a beautiful creamy white color, deep and cob very small. Fine quality. Postpaid, pkt. 8c; ½ lb. 16c; 1 lb. 30c.

We Can Also Supply:

- Black Mexican
- Everbearing
- Moore’s Concord
- Perry’s Hybrid

Pkt. 8c; ½ lb. 16c; 1 lb. 30c.
COUNTRY GENTLEMEN

This variety is often called the "Shoe Peg" Corn, owing to the arrangement of the crowded kernels, which are long and very sweet. Our seed of this variety has been carefully selected and is true to name. It is considered by many the best of the late varieties. It remains tender and fit for use longer than most sorts, as the ear is enclosed in a thick husk, which keeps it "in the milk." Slender, very deep, white, very tender and deliciously sweet. Postpaid, pkt. 8c; ½ lb. 16c; lb. 32c.

STOWELL'S EVERGREEN

The best known and most largely planted of all the late varieties. This Corn is distinguished by the large ear, the long, deep kernels, its rich, sugary flavor and its long keeping quality. Our seed has been selected for its sweetness, productivity and large size. No better can be obtained. It is Northern grown. Our strain is particularly fine and our price is very reasonable. Buckbee's Private Stock Evergreen, listed below, is exceptionally fine early strain of Stowell's. Postpaid, pkt. 8c; ½ lb. 16c; lb. 32c.

MAMMOTH LATE OR SUGAR

Produces the largest ears of any variety, a single ear often weighing 2 or 3 pounds. Of excellent quality.
Very late. Postpaid, pkt. 5c; ½ lb. 10c; lb. 20c.

Buckbee's Pedigreed Sweet Corn

Late, Best for Main Crop. For table use the quality of Buckbee's Private Stock Evergreen Sweet Corn cannot be excelled. It is very tender, sugary and remains a long time in condition suitable for cooking. Owing to the fine bright color, the fine shape of the kernels, it is by far the most salable canned corn. The ears are large; the grains long and slender. Earlier than and with larger grains than the ordinary Stowells. Outyields all other varieties. Many of our customers reported yields of over 200 bushels of ears per acre. You cannot possibly be disappointed by planting Buckbee's Private Stock Evergreen. Postpaid, pkt. 8c; ½ lb. 16c; lb. 32c.

Buckbee's Private Stock Evergreen

Buckbee's "Full of Life" Pop Corn

Pop Corn should be found in every garden, especially if there are children to enjoy it during the long Winter evenings which bring young people together for social amusement. Pop Corn pops best when more than one year old, and when well popped it becomes twenty times its natural size; thus a quart and a half will make nearly a bushel of popped Corn. For Corn is a money-making crop. It always brings a very much higher price than any other Corn and usually a ready market is easily found for any quantity, while in the event of an inductive market it can always be fed and a farmer cannot raise better feed.

Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.

Buckbee's Snowball—The finest white variety in existence, belonging to the rice family. The best yielder and far in advance of any other variety, ears averaging 6 inches in length. Beautiful shape; the best popper. Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.

New Red Beauty—Fine variety. The stalks grow 6 feet high, and average three to four ears each from 5 to 6 inches long and covered with large flue-shaped kernels of a deep red color. Postpaid, pkt. 10c; ½ lb. 25c; lb. 40c.

Queen's Golden—One of the very best and most prolific varieties grown. Its quality and handsome appearance when popped are very noticeable. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow 6 feet high and the large ears are produced in abundance. Postpaid, 8c; ½ lb. 20c; lb. 35c.

Mapledale Prolific—The stalks grow 6 feet high, and the ears are all large in size, with grains nearly clear white in color. An average ear measures six inches and a half long and contains 255 perfect kernels. Pops pure paper white, of fine quality. Be sure to include this remarkable variety in your order for Pop Corn. Postpaid, 8c; ½ lb. 20c; lb. 35c.

New Striped or Variegated—A fancy variety, very showy and of the best quality. Rarer larger ears, finest colored with clear, transparent white kernels, beautifully striped with bright crimson. A good packet. Postpaid, pkt. 10c; lb. 25c.

New Red Beauty Pop Corn—The Most Delicious of All—An extra early variety which pops very large and is the most tender and crisp of all. Although the kernels are black, this color does not seem to show at all when popped, being then a pearly white. This new variety has been loved in Wisconsin and is extremely early. Ripening so early it may be popped the same season as grown, without kiln drying. Ears about 6 inches long, twelve-rowed; kernels smooth, shallow, nearly square. Postpaid, pkt. 10c; ½ lb. 30c; lb. 50c.

Special Offer—For only 35c we will send postpaid one liberal packet each of the 7 grand varieties of pop corn listed on this page.
BUCKBEE’S “FULL OF LIFE” PICKLING CUCUMBERS

BUCKBEE’S NEW ROCKFORD PICKLE

Without question the finest variety for pickling, possessing every qualification required of a perfect pickling Cucumber and is four-to-one in productivity compared with other standard sorts.

It has become a general favorite everywhere and is used exclusively by many pickle factories throughout the country. The fruit is of medium size, slender, cylindrical, with large spines and of dark green color. It is wonderfully even in growth and the whole crop can be depended upon to make fine shaped pickles.

The vines begin to set the fruit when quite young and continue to bear longer than any other variety, yielding many hundred bushels per acre. You will find this variety valuable for slicing also, being of fine flavor, crisp and delicious. We control the entire stock of this variety. Pkt. 10c; oz. 10c; 2 oz. 25c; ½ lb. 40c; $1.25.

EARLY GREEN CLUSTER

Fruit is of the form desirable for pickling. Extraordinarily prolific, growing in clusters of 2 to 3 Cucumbers. Nothing more desirable for small pickles. If the fruit is kept closely gathered the vines will continue bearing all summer. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE’S INTERNATIONAL

This grand, good, early variety of our own introduction more than pleased all who have tried it. Has no thick ends; of rich, luxuriant growth, an abundant yielder; has beautiful medium-sized fruit always of good, even shape. In flavor it has no superior, always tender and crisp. You should not fail to try it. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. $1.25.

EARLY PROLIFIC SHORT GREEN, or EARLY FRAME

A most excellent sort for pickling as well as for slicing. Vigorous, productive plants. Fruit straight, handsome, crisp and tender. Keeps green a long while. Our stock is A1. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 85c.

NEW EVERBEARING

The merit of this variety is in the fact that the vines produce fruit continuously until killed by frosts. They exhibit at the same time Cucumbers in every stage of growth, but invariably of perfect form, even when quite small. The fruit is of fine green color and very desirable for pickling. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. $1.00.

SNOW’S PICKLING

An early maturing, very small, dark green Cucumber, cylindrical, square ended and very popular with growers for small pickles. We have been growing this variety ourselves for several years, giving special attention to purity and uniformity of type, and we believe the seed we offer meets the requirements of those who want an ideal bottle pickle. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 80c.

WESTERFIELD’S CHICAGO PICKLE

A very desirable sort; fruits of medium length, tapering at each end, with very large and prominent spines. The color is deep green. This is a most prolific variety and is very largely grown for pickles. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 50c; lb. 90c.

BUCKBEE’S NEW EXTRA EARLY LONG GREEN

The Ideal Variety to Plant for General Crop.

Produced by selection from Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts. Fruits often measure 15 to 20 inches when fully matured. They are of fine quality, firm and crisp. Highly valued for slicing. The young fruits make the best pickles, and when ripe are preferable to any for sweet pickles. Our strain is the finest in the market, producing fruits uniformly long, slender, of fine dark green color and of good form, with the large warts and spines well distributed over the surface. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ½ lb. 75c; lb. $1.25.

Buckbee’s New Extra
Early Long Green.
BUCKBEE'S "FULL OF LIFE" CUCUMBERS WHITE SPINE SORTS

An extra early White Spine Cucumber; fruits are ready to gather only 5 or 6 days later than Buckbee's First Crop, which is the earliest Cucumber grown. But they are much larger, growing usually from 8 to 10 inches in length. They are nearly cylindrical in form, slightly pointed at the ends; very smooth, straight and of intensely rich dark green color; are very uniform in shape, size, color, always retaining their beautiful color until fully ripe, and presenting the finest appearance on the market. The flesh is white, fine grained, solid and of excellent flavor. The vines are robust, free of disease, setting on fruit quite early and bearing continuously until frost. They produce the largest crop of any known variety.

The Monarch is a sport of the Early White Spine. We have devoted many years to perfect it by careful re-selection of the finest specimens, but it has been tried new throughout the entire country and has not been found wanting in a single point. We recommend it as the best strain of Extra Early White Spine for the market and for the home garden. It is one of the finest Cucumbers for slicing and one of the best for small pickles. This is the variety mostly grown for the market in the South, yielding crops there of more than $1,000.00 per acre and is matchless for shipping long distances. Pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 60c; lb. $1.25

BUCKBEE'S FIRST CROP

This is the earliest of all cucumbers producing marketable fruits of good size; the fruits are 6 to 7 inches long, straight, cylindrical, blunt at the ends and of very dark green color, which they retain a long time after picking. They grow very uniform in shape, size and color. The flesh is firm, crisp and of the finest flavor. The vines are healthy, very vigorous and produce a good crop much before any other variety and continue bearing for an unusually long time. Owing to its extreme earliness, good size, and its beautiful dark green color, it is of great value for the market gardener and is grown on a large scale in many localities of the South to ship North, having proven a big money maker for the Southern shippers. As a pickle for bottle goods, they are also much used, being of ideal size and shape.

Pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 65c; lb. $1.25

BUCKBEE'S NEW ALASKA

Beautiful in shape and color and of the finest quality. An entirely distinct sort developed by ourselves. The vine is vigorous and productive and comes into full bearing very early. The fruit is of fine shape with crisp and tender flesh. An excellent sort for culture under glass. The fruits are about 7 to 8 inches long and are ready for the market between Buckbee's First Crop and Monarch. Pkt. 5c; oz. 15c; 2 oz. 15c; 1/4 lb. 30c; 1/2 lb. 55c; lb. $1.00.

DAVIS PERFECT—BUCKBEE'S PRIVATE STOCK

By using this variety, gardeners can produce out-of-doors Cucumbers that will sell in the market for hot-house forcing varieties. The shape is ideal. It is almost seedless one-third of its length from the stem, and the few seeds that are contained in its blossom end when in eating condition are so small and tender that they are hardly noticeable. Pkt. 5c; oz. 15c; 2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 65c; lb. $1.25.
BUCKBEE'S "Full of Life" CUCUMBERS

Buckbee's New Ivory King

The Only Pure White Cucumber

During the whole period of growth, from the time they first set until full grown, the form is exceptionally straight and symmetrical, making them an excellent choice for a slicing variety as for pickles. The flesh is firm, very crisp, and tender at all stages. Fruit large with clear white skin, tender and excellent in flavor. Splendid for home garden. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ¼ lb. 80c; lb. $1.25.

Klondike

An extra fine new strain of White Spine, of very beautiful dark green color. Extremely popular in the South to ship North. Good for table, market or pickling. Comes into bearing early and continues through the season. The fruit is firm and hard and keeps in prime condition a long time after picking. It grows about 8 inches long and matures between Monarch and Davis Perfect. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¾ lb. 35c; 1 lb. 50c.

New Cumberland

Fruits light green, long, straight, thickly set with fine spines. Fine for pickles and slicing; Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 35c; ½ lb. 50c; lb. $1.00.

New Parisian Prolific Pickling

Decidedly the best of all in quality for pickling. The fruit is of an unusually dark green color, so deep that no coloring matter is necessary in preparing them for pickling. Very crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 30c; ½ lb. 50c; lb. $1.00.

Odd ‘Cucumbers

Snake or Serpent

This Cucumber is curious as well as useful. We have seen it 6 feet in length, coiled like a serpent. It is an interesting thing in the garden and for exhibition purposes. It is good for food, of fine quality. Pkt. 5c; oz. 25c.

Lemon Cucumber

A real Cucumber, not to be confounded with the Garden Lemon. An entirely distinct variety, similar in shape to that of a lemon and when ripe of same color. Skin smooth, flesh white, tender, crisp, of a sweetness and luscious flavor surpassing all other Cucumbers. Will yield four times as many Cucumbers as any other variety. Should be in every garden. Pkt. 5c; oz. 20c; 2 oz. 35c.

GIANT PERA

Of enormous length, often 2 feet long and of great beauty. Crisp, brittle, of mild flavor, with but few seeds. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ¼ lb. 65c; lb. $1.25.

Japanese Climbing

Japanese Climbing Cucumber

The vines are of vigorous growth, with dark green foliage and have strong tendrils, enabling them to climb trellises, brush, etc. Comes into bearing quickly and continues abundantly through the season, while the climbing habit enables the fruit to grow perfectly straight—from 12 to 18 inches in length. Flesh pure white, thick, tender and of delicate flavor. When young makes attractive pickles. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ¼ lb. 65c; lb. $1.25.

Improved Long Green

Early White Spine

New Emerald

Nichol's Medium Green

West India Gherkins

Used exclusively for pickling. Small oval-shaped, prickly fruit. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 65c.
CHICORY—WITLOOF CHICORY or FRENCH ENDIVE

The Finest Variety of Chicory.

The Choicest of All Winter Salads

This is the new salad which is sold at such high prices by dealers of fancy fruit during winter and is so much relished by epicures at the leading hotels. For some time French gardeners have been exporting their produce to this country, but it is easily grown, can be made a very profitable crop here and American gardeners are now taking it up more generally.

Witloof is used principally during winter, furnishing a delightful salad when other fresh vegetables are not available, and is becoming very popular.

The seed is sown in May or June in the open ground in drills 12 to 18 inches apart, and the plants thinned out to 3 inches apart. The plants form long parsnip-shaped roots and these should be lifted in fall, the top foliage cut off 1½ inches above the neck and the lower ends shortened, making the roots of a uniform length of about 8 inches; they are stored in soil in a cool place until wanted for growing on.

Witloof may be grown indoors in a cellar or shed where a temperature of about 60 degrees can be maintained. Use a frame or box at least 18 inches deep; fill about 19 inches high with loose soil mixed if possible with some leaf-mold, then set in the roots upright 2 inches apart each way and so that the crown is just covered. The empty room in the bed can now be filled with light soil or sand. Keep the bed dark by covering with an old carpet or boards and water if necessary; the soil should be kept fairly moist, but never soggy.

The blanched heads are the edible portion of the plant and they are ready to use as soon as they show above the sand, which should be in 2 or 3 weeks.

The heads are oblong and very solid, they blanch ivory white and are often quite large, equal to a compact Cos Lettuce. When lifting cut whole head with small portion of the roots attached to it to hold the leaves together. They are generally eaten raw with French dressing and are the tenderest and are the tenderest and most flavored of all salads.

Pkt. 5¢; oz. 25¢; 2 oz. 45¢; ¼ lb. 85¢.

CHICORY—LARGE ROOTED OR COFFEE

Dried and prepared roots are used quite extensively as a substitute for and an adulterant of Coffee. Pkt. 5¢; oz. 15¢; 2 oz. 25¢; ¼ lb. 45¢.

CHUFAS OR EARTH ALMOND

In sweetness and flavor very much resembles a cocaanut or almond and greatly liked by all children. Vary in size from a large pea to aинificant. The nuts grow under and very near the surface of the ground, easily reached and relished by pigs and poultry. As soon as the crop is grown, turn those animals into the field, thus saving the labor of harvesting and feeding. Pull up a few plants by the roots and leave them on the ground, and when either hogs or chickens get a taste of them they will go over the whole field in search for them.

Pkt. 5¢; 2 pks. 70¢; 1 lb. 1.50¢.

CHIVES—SCHNITTLAUCH

Also Called Schnittlauch.

Chives are perfectly hardy perennial plants of the Onion type. They are grown for their small leaves which are used as early as possible in the spring and are used for giving a mild onion flavor to various salads. Easily raised from seed that may be sown early in May. Selected clumps or plants by mail, 20c each; $1.50 per doz. postpaid.

Collards

A variety of Cabbage known in different sections as "Coll," "Colewort" or simple "Greens." It is extensively used in the South. We offer the true white or green stemmed sort so popular in the South. Forms a large, loose, open head, on tall stems. Freezing does not injure, but rather improves their quality.

Pkt. 5¢; oz. 10¢; 2 oz. 18¢; ½ lb. 30¢; ¼ lb. 50¢; lb. $1.00.

THE WONDERFUL COFFEE BERRY

The Greatest Health Drink—Once Tried Always Used

All pronounce it the better than the genuine. It is certainly the best beverage to mix with either sugar or coffee. Half a pint will produce a drink claimed by many to be equal to a good cup of Rio. You can raise your own coffee for one cent a pound. Full directions on every package. Large pkt. 5¢; ¼ lb. 15¢; ½ lb. 25¢; lb. 40¢.

Witloof Chicory

Chervil, Curled.

CORN SALAD

This delightful salad is used during the late Fall, Winter and Spring months as a substitute for Lettuce. It is also cooked and used like Spinach.

Pkt. 5¢; oz. 10¢; 2 oz. 18¢; ¼ lb. 25¢.

CRESS

NEW UPLAND CRESS—Has the highly prized flavor of Water Cress. Its usage should be more general, as it is of as easy culture as Spinach. It is a perennial plant and can be grown for several years without renewal. Pkt. 5¢; oz. 25¢.

CULLED OR PEPPER GRASS—Much used with Lettuce, to the flavor of which its warm, pungent taste makes a most agreeable addition. Pkt. 5¢; oz. 25¢; 2 oz. 45¢; ¼ lb. 85¢.

True Water Cress—Distinct from the last; thrives only when its roots and stems are submerged in water. Grown best along moist banks of small, rapid streams, or in a tub, in water-covered soil. The plants will increase rapidly by self-sown seed and extension of the roots. One of the most delicious of small salads.

Pkt. 10¢; oz. 35¢.

CHERVIL

Hardy annual, worthy of more general use for flavoring and garnishing. More beautiful than Parsley.

CURLED—Greatly superior to the old, plain variety, earlier, more handsome, having fully as fine perfume and flavor. Pkt. 10¢; oz. 35¢; 2 oz. 45¢; ¼ lb. 85¢.

CORN SALAD

This delightful salad is used during the late Fall, Winter and Spring months as a substitute for Lettuce. It is also cooked and used like Spinach.

Pkt. 5¢; oz. 10¢; 2 oz. 18¢; ¼ lb. 25¢.

**BUCKEE’S “FULL OF LIFE” EGG PLANT**

BUCKEE’S NEW LARGE PURPLE

Better variety than New York Purple. Its earliness, large size, high quality of fruit, and its extreme productiveness make it the most profitable to grow. Plants large, spreading; foliage light green. Fruit very large, oval or short, pear-shaped; skin smooth, deep purple; flesh nearly white. Plants ripen two to six large fruits, entirely free from spines. Pkt. 10c; oz. 45c; 2 oz. 80c; ½ lb. $1.50.

**New Black Beauty**

This recently introduced Egg Plant is from 19 days to 2 weeks earlier than the old New York Purple variety, and of rich, lustrous, purple black color, and is a most distinct sort and a favorite where known. The plants are remarkably healthy in their growth, and yield an abundance of large fruits, which are very attractive in appearance. This variety is entirely spineless. The fruits are of the finest possible quality. Pkt. 8c; oz. 45c; 2 oz. 80c; ½ lb. $1.40.

**Buckee’s New White**

Produces large fruits, and is very productive. The flesh is more tender and flavor more delicate than that of many purple varieties. Pkt. 8c; oz. 40c; 2 oz. 70c; ½ lb. $1.35.

**Improved New York Purple**

Large, round or oval, of excellent quality: highly esteemed in market. Pkt. 7c; oz. 30c; 2 oz. 60c; ½ lb. $1.35.

**Extra Early Long Purple**

One of the earliest and most productive varieties. Fruit long, dark, rich purple, and of fine quality; earlier but smaller than New York Purple. Pkt. 8c; oz. 35c.

---

**FOR PLANTS SEE PAGE 88**

---

**Honey Plant Seed**

SPECIAL MIXED—From all the best honey plants that bees feed upon. Pkt. 5c; oz. 10c; ½ lb. 30c; ½ lb. 55c; lb. $1.00.

**GIANT FRINGED OR OYSTER**—When fully grown, the center portion can be blanched to a creamy white by tying up, and contrasts finely with the deep green tips of the outer leaves. It is of excellent flavor served as salad. Pkt. 5c; oz. 10c; ½ lb. 35c; ½ lb. 65c; lb. $1.25.

**GREEN CURLY**—An attractive sort. Dense heads with divided leaves of bright green color, blanching readily to creamy white. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. 85c.

**NEW MOSS CURLY**—A dense cluster of finely cut-in green leaves, resembling a tuft of moss. When properly blanched they are crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. 85c.

**BATAVIAN OR ESCAROLLE**—Large, solid heads, thick leaves which can be blanched a fine white and are unsurpassed for salad or make excellent cooked greens. Probably used more than any other variety. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. $1.00.

**Endive or Winter Lettuce**

**Horse Radish**

Horse Radish rarely produces seed, but is grown from pieces of the roots.

**NEW BOHEMIAN OR MALINER KREN**

Ordinary Horse Radish is a very profitable crop, but with this magnificent new sort from Bohemia the possibilities are wonderful. The roots are so much larger and heavier that the yield is about doubled. Then, too, it matures so much quicker that the crop can be sold in October. The flesh is pure white. Three and four tons per acre can be grown easily. Fine Sets, postpaid, 25c per doz.; $1.50 per 100. By express or freight, not prepaid, 100 for $1.15; 500 for $4.75; 1000 for $8.00.

**COMMON HORSE RADISH**

The old-fashioned standard variety. Sets or Root; postpaid, 20c per doz.; $1.00 per 100. By express or freight, not prepaid, 100 for 85c; 500 for $3.75; 1000 for $7.00.

---

**Dandelions**

**Improved Large Leaf**

An improved variety of Dandelion, very early. Leaves fully double the size of the common Dandelion. Sow in May or June and cultivate during the Summer, and the following Spring the leaves will be fit to cut. Cultivated Dandelions are a fast becoming favorite Spring Greens. If blanched like celery they make a fine and delicious salad. The roots when dried and roasted are often employed as a substitute for coffee. Pkt. 10c; oz. 50c.

---

**Garlic**

The Garlic is the most pungent in taste and has the strongest odor of all the Onion family. It is largely used in the South of France, where it is esteemed for flavoring soups, stews, etc. The root or bulb is composed of many small bulbs called “cloves,” which are planted in the Spring. We frequently receive orders for Garlic seed, but can supply the bulbs only. Fine bulbs—½ lb. 55c; ½ lb. 40c; lb. 85c; postpaid.

---

**Endive—New Moss Curled**

**Horse Radish, New Bohemian**
Buckbee's New Calabash Pipe Gourd—Light and attractive pipes can be made from the fruits of this Gourd by any one at a nominal cost. They are the lightest pipes made for their size, are graceful in shape, color like meerschaum, and are delightful smokers. Pipes made from the imported gourds are very expensive. American dealers usually charging $1.00 to $3.00 apiece for them. The plant thrives and grows luxuriantly in all parts of the United States, from New England to the Gulf, and from the Atlantic to the Pacific, producing in great abundance the fruits or gourds from which the pipes are made. The Vine is also very ornamental and useful for covering fences, arbors, etc., etc. Pkt. 5½ oz. 20c.

New Japanese Dish Cloth, or Luffa—Ornamental enough for a house vine and fruit is very useful. Fruit enormous, two feet in length, and borne in great profusion. The lining of mature fruit, when washed and bleached, is porous, tough, elastic, sponge-like, making the nicest cloth and substitute for dish cloths and bath sponges imaginable, besides being useful for various articles of fancy work. Pkt. 5½ oz. 20c.

Sugar Trough—Enormous, hard-skinned fruit, holding from 3 to 10 gallons each, and as they never rust or rot, and are very light and strong, are just right to use as receptacles for lard, salt, seed corn, soap, etc., or to use as nesting boxes, etc. They last for years. Pkt. 5½ oz. 20c.

Kale or Borecole

1 oz. of seed for 2,500 plants.

Dwarf Excelsior Green Moss Curled Kale—(Greens or Sprouts.)—This is harder than Cabbage and makes excellent greens for Winter use. The leaves are as curly as Parsley, tender, and of very fine flavor. It is improved by frost. Sow the seed in May or June, transplant in July and August. The same as Cabbage. Immense quantities of this are grown in the South and shipped to Northern markets. Pkt. 5½ oz. 18c; 2 oz. 30c; ½ lb. 50c.

Fall Green Curled Scotch—This variety is very hardy and is improved by a moderate frost. About thirty inches tall, with abundant green leaves, which are densely curled and crinkled. Stands the Winter in the Middle States without protection. Pkt. 5½ oz. 12c; 2 oz. 25c; ¼ lb. 40c.

Siberian—One of the best known and most largely used varieties of Kale. It is sometimes called Sprouts or Greens. The leaves are very large, and comparatively plain in the center, but coarsely cut and tinged green, with a reddish scarlet tint on the edges. The plant is low but spreading and very hardy. Pkt. 5½ oz. 12c; 2 oz. 20c; ¼ lb. 35c.

Kohl Rabi

A vegetable intermediate between the Cabbages and Turnip, combining the flavor of both. Edible part is a turnip-shaped bulb, formed by swelling of stem. When used for the table this should be cut when quite small, as it is then very tender and delicious.

King of the Earliest—White—Early and choice. Handsome white bulbs. Pkt. 5½ oz. 10c; ½ lb. 25c.

Improved Early Imperial—Purple—Color bright purple, with leaf stems tinged with purple. Pkt. 5½ oz. 20c; 2 oz. 35c; ½ lb. 65c.

Leek

Belongs to the Onion family. Sow the seed and care for the young plants as for Onions.

New Flag—We offer a very superior stock of this popular variety, so largely grown for Fall and early Winter use. It is of quick growth, producing long stems of uniform shape and size, averaging 2 inches through by 10 inches long, blanching beautifully white and fine, mild flavor. Pkt. 5½ oz. 12c; 2 oz. 25c; ¼ lb. 45c.

Rotten Very Best Winter—The best variety for winter and spring use, being very hardy; it keeps well when earthed up. Splendid for flavoring. Immense stocky stems 3 inches in diameter, 6 to 8 inches long, snow white and of delicious flavor. Pkt. 5½ oz. 18c; 2 oz. 35c; ¼ lb. 60c.
### HERBS

**Pot, Sweet and Medicinal**

Save a corner of the garden for a few Pot and Sweet Herbs (for flavoring soups, meats, etc.); they are indispensable to every garden, while some of the Medicinal Herbs will be found very useful. They thrive nicely along the sunny side of the fence, in a deep and fairly rich soil.

Buckbee's "Full of Life" Lettuce

Curled or Loose Leaved Varieties

BUCKBEE'S EARLIEST FORCING

The Earliest Lettuce Grown.

For those who like a large, thin, exceedingly tender leaf, and for those markets which demand a large, loose cluster of leaves rather than a solid head, this is the best variety for forcing and growing in the open ground.

EARLY PRIZE-HEAD

This old standard sort still stands at the head of the large, thin-leaved clustering sorts for the home garden. Exceedingly tender, crisp and sweet. There is more Prize Head Lettuce grown in this country than any other variety. It is a most reliable variety for all-the-year-round cultivation. Leaves light brown, varying to bright green.

Cos Lettuce

Cos Lettuce is distinct from other varieties, in having long, narrow, spoon-shaped leaves, folding into loose, sugar-leaf shaped heads which blanch better by having the outer leaves drawn about them and tied. The heads are always crisp and mild and considered by many superior to other kinds.

PARIS WHITE COS—Grows to very large size, producing long, pointed, compact bunches of light green color and fine flavor. Succeeds well in summer, grows to immense size. Plants often weigh 5 to 6 pounds each. Pkt. 6c; oz. 10c; 2 oz. 18c; 1 lb. 35c; ½ lb. 55c; lb. $1.00.

DWARF WHITE OR CELERY—Noted for its most excellent flavor. Earlier in cultivation. The plants grow about 5 inches high and 2 to 3 inches across. Of stiff growth, every plant making a well-developed head of the most excellent flavor, and crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ¼ lb. 65c; lb. $1.25.

Tomhannock.
Entirely New and Distinct

The Most Wonderful Market Gardeners' and Shippers' Lettuce Known

The Best Smooth Leaved Firm Heading All Season Lettuce

Slow to Run to Seed, Unaffected by Hot Weather

A Sure Header and a Large Header

MAMMOTH ALL HEAD is bound in a few years to supersede all other head Lettuces, as it surpasses them all in size, beauty and perfection of head, also in hardness, resisting both heat and cold, earliness, uniformity and in excellency of flavor.

Sow thinly in rows about one foot apart and thin out to 15 inches apart in the rows, giving the plants plenty of room to fully develop and they are sure to form a large, perfect head.

Mammoth All Head is a great improvement on the well-known Big Boston Lettuce. It forms larger heads, more compact and tightly folded, and is about 10 days earlier than either the white or black seeded variety. It is without the reddish brown tinge on the leaves and, furthermore, it can be sown all through the growing season, and stands heat remarkably well. Is slow to run to seed, and will not scald or burn and will make a head when other varieties fail. In our repeated trials we have found it to be the best smooth leaved, firm heading Lettuce to grow through the summer months.

Mammoth All Head is one of the earliest, large Cabbage-Lettuces grown, forming heads in six weeks from sowing, and the heads grow to a large size, often more than 12 inches across, are solid and compact with few outer leaves; of an attractive bright light green color, never spotted or reddish in any part. They blanch creamy white, have a decidedly buttery flavor and are crisp, tender and sweet.

This is the grandest, most valuable Lettuce ever introduced. There is no other variety giving such general satisfaction under so many varying conditions. Grown in the open ground, or forced in cold-frames or eool greenhouses, it produces a perfect head of extra large size, which never fails to please both grower and user.

Pkt. 10c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. $1.30; 1 lb. $2.50.
Buckbee’s "Full of Life" Lettuce—Butterhead Varieties—Cont’d

Buckbee’s Extra Early May King

The Earliest Head Lettuce Grown.

An ideal Lettuce for planting in the open ground in Spring, as well as in Fall, and also splendid for forcing. Extremely hardy and very quick growing. Plants grown from 7 to 8 inches in diameter with outer leaves so closely folded that the plant is practically all head. Outer leaves are light green, slightly tinged with yellow, of a specially fine, rich, buttery flavor. The round, compact heads are very solid, so that they will carry well to market. It attains a size suitable for use before any other large heading variety. Buckbee's May King is an extra fine strain and is much earlier than that mostly sold by others.
Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1/2 lb. 75c; lb. $1.25.

Buckbee’s Mammoth Big Boston

A very popular variety with market gardeners. It heads well in the open ground during cool weather in Spring and Fall and is grown very extensively in the South for shipping North during the Winter. It is also a fine forcing variety for cold-frames during the Winter months. Our strain is very hard, sure to head and produces solid heads of large size, often 10 to 12 inches across, which are slow to go to seed. The leaves are thin, hard and crisp, comparatively smooth but wavy at the edges and are of bright, light green color, slightly tinged with reddish brown. The inner head blanches to an attractive greenish white. The quality is excellent.

Our seed of this famous variety is used by thousands who purchase it year after year, testifying by that to its wonderful quality. Pkt. 7c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1/2 lb. 75c; lb. $1.25.

Buckbee’s Ice Drumhead

A Sure Header, Slow to Run to Seed, Unaffected by Hot Weather, Crisp, Tender and Delicious. Absolutely Free from Bitterness.

It grows rapidly; heads very early, only little later than May King, but the heads are much larger, as large as Dutch Cabbage and solid as that. The leaves are thick, broad, light green outside, changing towards the center from a golden yellow to a creamy white. The heads are as palatable as beautiful; very tender; never bitter; of deliciously sweet, buttery flavor.

Buckbee’s Ice Drumhead is a sure header and an all-headers. It stands hot weather better than any other variety of its class. Ready for use when quite young until it runs to seed. Buckbee’s Ice Drumhead is one of the best sellers of Lettuce we grow. It is immensely popular, especially in the Northern and Central States, and justly so, as it is unexcelled in its superb quality, beautiful appearance, heat resistance, keeping and shipping qualities. We control the entire stock of this variety. Pkt. 8c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1/2 lb. 75c; lb. $1.25.
BUCKBEE’S “FULL OF LIFE” LETTUCE—CRISP HEAD OR SUMMER VARIETIES

WONDERFUL

A Big Money Maker. The Standard Main Summer Crop Hot Weather Head Lettuce.

A grand Head Lettuce, called also New York and Los Angeles, furnishes fine crisp Lettuce during the hot Summer months. This is one of the largest varieties grown, producing heads more than 15 inches in diameter and weighing more than 2 pounds each. The outer color is rich dark green, but the heart blanches beautifully and is crisp, tender and delicious. It is reliable, a sure header, and is slow to go to seed. Extensively grown in all sections of the country for Summer use, but also planted in Fall and Winter, especially in the Southwest, from where thousands of earloads of it are shipped during the Winter to Eastern cities. It stands shipping as well as Cabbage and remains in good condition longer than most heading sorts. Most desirable for the private as well as the market gardener. Not used for forcing. Pkt. 8c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ¼ lb. 75c; lb. $1.25.

NEW ICEBERG

Quick growing and of exquisite flavor. The large curly leaves which cover the outside of the solid head are of bright, light green, with a slight reddish tinge on the edges. They have small indents which are constantly filled with dewdrops, keeping it fresh and showing a remarkable crystalline appearance. We can confidently recommend New Iceberg as always crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ¼ lb. 50c; lb. 90c.

IMPROVED HANSON

Heat-Resisting. Much Used for Midsummer Planting Outdoors.

Large, firm cabbage-like heads with broad outer leaves frilled at the edges and of light green color. The inner leaves are white and deliciously sweet, crisp and tender. An old, most popular variety grown everywhere and extensively used for the kitchen garden, as well as forcing. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

BUCKBEE’S COMBINATION LETTUCE MIXTURE

One Sowing Produces Salad for the Whole Season.

Contains a grand assortment of decidedly distinct and excellent Lettuces. They mature early, medium and late; some curled and crimped, others produce heads. Colors range from almost pure white, through delicate shades of green and yellow to rich golden. All are delightfully fresh, crisp, tender and of excellent flavor. All sizes, from the small early to the mammoth Summer varieties. Liberal pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; lb. $1.00.
Buckbee's Giant Wonder Gem

A Field of Giant Wonder Gem

THE BEST MELON KNOWN TODAY. AN ENTIRELY NEW AND DISTINCT MELON, MAGNIFICENT IN EVERY RESPECT, THE LARGEST IN SIZE AND FINEST IN QUALITY.

Resembling the old Emerald Gem in shape, color and flavor, but though this old standby is considered the standard of excellence in quality among melons, it is only of small size and will not stand shipping; Buckbee's New Giant Wonder Gem, however, is much larger; in fact, it is the largest good melon growing, weighing under ordinary conditions as much as seventeen and eighteen pounds each and with special care much more, and it is also much more netted and of good shipping quality.

The melons are globular, slightly flattened, deeply but irregularly ribbed, covered more or less with shallow netting; the skin is of rich emerald green color while young, becoming slightly tinged with yellow as the fruit matures. The flesh is of deep, rich salmon color, about 3 inches in thickness, thicker than the flesh of any other sort we know of; the melon is indeed almost all solid meat, the cavity being very small, hardly large enough to accommodate the seeds. In quality it is like Emerald Gem when at its best, highly aromatic, of the richest and most luscious flavor, most tender, entirely stringless, practically melting in your mouth. This delicious flavor extends to the very rind.

The vines are of vigorous growth, and the foliage of firm texture, resisting the attack of insects and blight.

These fine, large melons will always sell at good prices, as they closely resemble in appearance and flavor the large, greenhouse grown melons sold at fancy prices at the fruit stands.

Pkt. 10c; oz. 20c; 2 oz. 35c; ¼ lb. 65c; ½ lb. $1.25; lb. $2.25, postpaid.
BUCKBEE'S "Full of Life" ROCKY FORD MUSK MELONS

Buckbee's New Honey Boy
Planted by 50,000 of Our Customers Last Year.

This is the earliest strain of all Rocky Ford Melons. It always brings the highest prices in the market.

Exceedingly early — very prolific — ever-bearing—yielding heavy crops from early Summer until Fall. The fruit is oval, trifl elongated—solid netting—ideal shipper. Flesh is light green, very thick meat, sweet and delicious flavor. These Melons weigh on an average about 1/2 lbs. each. They grow very uniform and a large percentage of them are of standard size, forty-five of them filling a crate 12x12x24 inches. You can't go wrong on Buckbee's Honey Boy. Choicest home grown Seeds. Large pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 45c; 1/2 lb. 80c; lb. $1.50.

Buckbee's Famous Rocky Ford
Unsurpassed in Luscious Flavor
Always brings the highest price on the market. Most desirable size. Ideal for dessert. A healthy, vigorous grower. Exceedingly prolific. It is one of the most popular of all melons for shipping in baskets. The fruit is oval, slightly ribbed, and densely covered with fine netting. It has a thick flesh, very sweet; finely flavored. They will grow very uniform in shape and color. Pkt. 5c; oz. 12c; 2 oz. 18c; 1/4 lb. 35c; 1/2 lb. $1.50; lb. $3.00.

Buckbee's New Gold Fleshted Rocky Ford
The Biggest Cropper of All Rocky Ford Melons
A selection from Buckbee's famous Rocky Ford, with salmon (not orange) flesh, maturing about ten days later than Buckbee's Honey Boy. Gold fleshed Rocky Ford is the biggest cropper and finest flavored Melon grown in Rocky Ford. It is covered with heavy gray netting over the entire surface, grows very uniform, and is more disease-resistant than any other variety; under unfavorable conditions when other strains rust badly, the plants of this variety remain green and thrifty and will produce blossoms and fruit for a long time. The flesh is quite firm, deep, leaving but a very small seed cavity, and is of superb quality and delightful, rich, aromatic flavor not excelled by any other variety. Pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 45c; 1/2 lb. 80c; lb. $1.50.
Buckee's "Full of Life" Musk Melons—Green Fleshe Varieties

Buckee's New Prolific Nutmeg
Unsurpassed in Luscious Flavor. This is a very early Melon of great productivity. Particularly adapted for home garden, but also grown for market. Fruit medium size, slightly ribbed, globular. Skin dark green becoming yellow when over ripe, and nearly covered with broad, shallow netting. Flesh thick, sweet and of light green color. Large Pkt. 5c; oz. 12c; 2 oz. 20c; 4 lb. 50c; 1/2 lb. 60c; lb. $1.00.

True Jenny Lind "FULL OF LIFE" STEAM.
This is the earliest of all Musk Melons, and one of the sweetest. Size small, from 3 to 5 inches in diameter; flattened, deeply ribbed and well netted. Much sold under other names such as Earliest Ripe, etc. Our strain of seed is the best. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

New Early Hackensack
This is a Splendid Melon. The fruit is medium sized, nearly round, evenly and deeply ribbed, with a very coarse netting, and almost as large as the Large Hackensack. The flesh is green, a little coarse, but very juicy, sweet and well flavored. A very early Melon and wonderful yielder and splendid shipper. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; lb. $1.00.

Large Hackensack
The Noted "Turk's Cap" Melon. About ten days later than the foregoing variety. Fruit very large, weighing from 5 to 8 pounds each; nearly round, somewhat flattened; ribs large and of irregular width, densely covered with coarse netting; flesh green, thick, coarse, but very sweet and fine flavored. A favorite with market gardeners and a good shipper. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

New Bush Musk Melon
A VALUABLE NOVELTY—A wireless Musk Melon that can be grown in every garden. The bush habit of growth of this new variety enables it to be grown in small gardens, where the vine sorts could not be grown for lack of room, and they yield about twice as much of the fruit as on the same space of land as the vine sorts. The fruits are of the popular "Jenny Lind" type, but larger, averaging 5 inches in diameter; they vary somewhat in shape from flattened-round to almost spherical; the flesh is deep green, the surface is dark green, but so densely netted that it appears almost russeted colored. The flesh is very deep, edible almost to the rind, and is colored light green flushed with salmon towards the center. The seed cavity is small. The quality is superb, luxuriously sweet and juicy, with a cool, gratifying flavor and a delightful aroma. They ripen a little in advance of "Rocky Ford." The plants grow from 15 to 18 inches in length and two or three plants can be grown in a hill 2'/2 to 3 feet apart. Pkt. 5c; oz. 12c; 2 oz. 15c; ¼ lb. 25c.

Queen Ann's See Cut
Sweet Scented Pocket Melon or Pomegranate. A pretty climbing variety; fruit round, size of an orange, of yellow color, striped and spotted red. Flesh not edible for ornament and agreeable pungent fragrance, sweetly perfuming the room for days. Trained on trellises or arbors it is very ornamental. It is easy to grow. Cultivate like Musk Melons. Pkt. 5c.

New Garden Lemon
Resembles the Mango Lemon in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and when ripe is not russeted. Fruit a trifle smaller than the Mango Melon. Has a finer flesh and most desirable acid flavor, thus dispensing with slice lemon, which is so important in putting up the Mango Melon. Unexcelled for general canning purposes. Cultivate similar to Musk Melons. It is an enormous yielder. Pkt. 10c; oz. 25c.

The Mango Melon or Vegetable Peach
Very striking in color, most wonderful yielder. Vines of Mango Melon are somewhom smaller than the Musk Melon, requiring smaller support and much more accustomed to cooler climates than the latter. Often started under glass, Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. $1.50.

New Garden Lemon, a Single Plant.
BUCKBEE’S “Full of Life” MUSK MELONS—Salmon Fleshed Varieties

**EMERALD GEM**

Splendid Size, Color and Flavor.

The standard of excellence among the salmon-fleshed varieties. Fruits small to medium size, globular or very slightly flattened at the ends, only slightly netted and ribbed. Skin deep green while young, becoming tinged with yellow as the fruit matures. Flesh deep salmon yellow, thick, ripening close to the rind; sweet, juicy, melting and unsurpassed in flavor. For home use and nearby markets it leads all other kinds on account of its delicious flavor. Choicest stock seed and of our own growing. Large pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

**BUCKBEE’S OSAGE**

**IMPROVED MILLER’S CREAM**

The Best Home and Market Melon—Original Stock.

This Melon has made its way into public favor from the market rather than the garden, and is highly prized by those who like an exceedingly sweet and highly flavored Melon. It is medium to large sized, oval, slightly ribbed, dark green in color, covered more or less with shallow netting. The flesh is deep salmon color, very thick and deliciously rich, sugary, there being but a slight cavity in the center of even the largest fruit. The best-general purpose Melon yet introduced. The most popular market Melon in the Northern States, not more than a week later than the small earliest Melons, but producing fruits three times as large. Our stock is unequaled, producing fruits larger, earlier and more netted than seed commonly sold by other dealers. Large pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. $1.25.

**BURRELL’S GEM**

One of the best yellow-fleshed Melons; it is excellent for shipping and a most desirable medium early sort for the home garden. Larger, more elongated, and about a week later than the standard Rocky Ford kinds. It has well-arched ribs covered with a closely laced and interlaced gray netting. Flesh of a redish orange color, very thin, fine grained and of rich, spicy flavor. The Melons average 2½ pounds, 6 inches long, 4½ inches thick, and will create more evenly than any other Melon grown. vines very vigorous and productive. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 55c; lb. 90c.

**PAUL ROSE OR PETOSKEY**

The Favorite Basket Melon.

In general appearance much like Rocky Ford Netted Gem, but about one inch larger in diameter; oval fruits, lightly ribbed and densely netted. It has flesh of the color and quality of the Osage, very thick, orange yellow, sweet, highly flavored and sufficiently firm to stand shipping short distances to the market. A splendid variety for the home garden. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 65c; lb. $1.00.

**BUCKBEE’S WESTERN GIANT**

Noted Not Only for Its Great Size, But for Its Most Magnificent Flavor and General Good Quality.

A large Melon ripening about the same time as Osage; the flesh is rich, melting and sugary. As an exhibition and large market variety it is grand. It will astonish everyone by its merits, being exceptionally desirable for family and market purposes. For shipping it has no superior. Where size is an object, and there is not a particle of danger of sacrificing quality, Buckbee’s Western Giant will always give the most complete satisfaction. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 45c; ½ lb. 80c; lb. $1.50.
**Buckbee’s “Full of Life” Musk Melons—Salmon Fleshed Varieties—Cont’d**

**TRUE TIP TOP**

The Can’t-Be-Beat Melon.

We heartily recommend our pedigreed strain of this variety to every lover of this luscious fruit and to every gardener who grows for the market. Spiced with large oval fruits, distinctly ribbed, fairly covered with a shallow netting; flesh salmon colored; firm and edible almost to the rind. Sweet, Juicy, melting and delicious. Larger and about a week later than Osage. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ½ lb. 65c; lb. $1.00.

**BUCKBEE’S IDEAL**

A Most Delicious Melon.

That is the verdict of everyone who has tried this magnificent sort. Weighs from 10 to 15 pounds; exceedingly thin skin. Good keeper and an excellent shipper. The flesh is of a rich salmon color of a sweet, pleasing and delicious flavor. Pkt. 5c; oz. 12c; 2 oz. 20c; ½ lb. 35c; ½ lb. 65c; lb. $1.25.

**BUCKBEE’S PRIZE TAKER**—A new Melon ten days earlier than Osage, only little smaller, more round, and fully equal to it in delicious sweet flavor. Pkt. 5c; oz. 12c; 2 oz. 30c; ½ lb. 35c; ½ lb. 65c; lb. $1.25.

**HODODO**—A new orange-fleshed variety, ideal for a shipping Melon and of the very finest quality. The Melons are of medium size, round, heavily netted; flesh very thick, of rich orange color and sweet flavor. Average weight of Melon 1½ pounds. Large pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 85c.

**NEW YELLOW MEATED JAPAN**—Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 45c; ½ lb. 80c; lb. $1.50.

**NEW BANANA MELON**

This most curious and most exquisitely flavored Melon grows to a length of 18 to 20 inches and is 2 to 4 inches in diameter. The flesh is yellow and quite deep. In appearance and odor it greatly resembles a banana. Seed always scarce. Order early. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ½ lb. 65c; lb. $1.25.

**NEW Golden Cassaba Melon.**

**BUCKBEE’S NEW STRAWBERRY**

Flavor Like That of a Strawberry.

A grand new Hybrid Musk Melon. The fruits weigh from 5 to 8 pounds each. Their smooth, deep flesh is of an attractive orange-red color, melting and of an exceptionally delicious strawberry flavor. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 45c; ½ lb. 80c; lb. $1.50.

**HONEY DEW**

A Wonderful New Melon: the Sweetest Melon Ever Grown; Sold at Fabulous Prices.

A new type of Melon, a cross between a Cantaloupe and a Cassaba. The fruit is oval-shaped, about 6 inches in diameter and 7 to 8 inches long, weighing from 8 to 10 pounds each. It ripens about two weeks later than Rocky Ford Cantaloupe and in the North it should be started in hot beds to give plenty time to ripen. The skin is smooth, dull white when ripe. The rind is thin but tough. The flesh is thick, of rich, light green color. This Melon has been appropriately named; it is of a distinct honey-like flavor, more luscious and juicy than any other Musk Melon. It is the best keeper and shipper of all and will stay in good condition from three to five months after it is ripe. Melons not ripe when frost comes may be stored in a cellar and will there ripen slowly and can be used all winter. Pkt. 5c; oz. 10c; 2 oz. 20c; ½ lb. 35c; ½ lb. 65c; lb. $1.25.

**CASSABAS—The Long-Keeping Melon**

A great acquisition and destined to become a standard vegetable. These are late maturing Musk Melons, which are largely grown in California, and hundreds of carloads of them are shipped from there to the East every year. They do not ripen on the vines in the North, but are gathered there before freezing weather and are properly stored all Melons, even half grown ones, will ripen gradually. Sow and cultivate like other Musk Melons. Do not pick until the long stems become quite yellow. Draw away so they do not touch each other in a cool, dark, dry place. When the rind becomes slightly softened and moist they are ready to eat. Some of the Melons will actually keep until February. The seed cavity is small and the flesh thick, of fine texture, juicy and palatable to within one-quarter inch of the skin. The flavor is delicious—similar to Pineapple.

**NEW WINTER PINEAPPLE**—The original round form, the best keeper of all; will keep all Winter; flesh deep lemon colored, of excellent rich juicy flavor. Pkt. 5c; oz. 20c.

**NEW GOLDEN CASSABA**—Of the same shape as pineapple, golden yellow colored flesh; the best flavored of all Cassabas, but does not keep quite as long as Pineapple. Pkt. 10c; oz. 25c.
Buckbee's Earliest Water Melons

Baby Delight

The Baby of the Watermelon, a Delight for the grower on account of its extraordinary prolificness, yielding fully as much in weight per acre as any of the larger Melons and being earlier than any other, finds always a ready market and brings very high prices; a delight also for the consumer on account of its convenient size and its luscious sweetness.

This Melon is almost round, and measures from 5 to 7 Inches each way and weighs from 3 to 6 pounds. The skin is dark green, the rind thin but strong. The flesh of rich carmine color, always solid and of exceptionally sweet flavor. The seeds are very small, resembling apple seed, but of gray color.

Pkt. 10c; ½ oz. 15c; oz. 25c.

New Excel

This Watermelon has become a favorite sort with the Southern growers for shipping north; does equally as well planted here in our Northern climate. The large oblong Melons are of a dark green color with faint stripes. The tough rind permits rough handling in transit, making it a good long distance shipper. The red flesh is very solid, crisp and of excellent flavor. The vines produce an enormous crop of medium early melons, which are handsome in appearance, making them a quick selling melon on the market.

A characteristic of this melon is the seeds are of mixed color, some black, some white with black border. Postpaid, pkt., 5c; oz., 10c; 2 oz., 15c; ½ lb., 25c; ¼ lb., 50c; lb., 90c.

Harris' Early

The Best Earliest Large Shipping Melon.

In form the Melon is oval to oblong; beautifully striped with green and gray; bright red flesh, which is sweet and tender. It is very productive. It is the Melon for everybody to grow who wants to be first in the market with fine large Melons weighing from 30 to 40 pounds. It bears shipment very well. Harris' Early ripens about the same time as Cole's, but having a tougher skin it is a better shipper; it also grows larger, but for quality we prefer Cole's.

Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¼ lb. 40c; lb. 75c.

Cole's Early

The Best Earliest Large Melon for the Home Garden.

Cole's Early is not only one of the earliest varieties in cultivation, but it continues to bear throughout the season. The beautiful bright red flesh is crisp and of delicate texture—granulated, cool and sparkling. In flavor it is lusciously sweet and refreshing. The Melons are not large, seldom over 12 inches in length by 9 inches in diameter, but what they lack in size is more than made up in number and solidity. The heart is large, there is little or no cavity and very few seeds—all solid flesh, the quality of which is sustained clear to the rind. It can be grown successfully over a larger latitude than most other Watermelons, and it will mature large crops in the Northern States when the season is at all favorable. This is a Melon for the family garden and local market, the skin being rather tender, making it unfit for shipping.

Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¼ lb. 45c; lb. 85c.
THE PRIZE WINNER EVERYWHERE
BUCKBEE'S GENUINE PERFECTED
MONTE CRISTO

Trade Mark Registered 1914—By H. W. Buckbee, El. Al.

The World's One Unbeatable Water Melon
THE SWEETEST FLAVORED MELON KNOWN

In hundreds of markets every season it finds ready sale at good prices when all other sorts go begging for buyers. This grandest of all varieties has been extensively grown the past few seasons in almost every melon growing locality of the world, and in not one single instance has it failed to meet the expectations of the planter. The reports received from every section, that all are delighted with it, prove that in the hands of our customers Buckbee's Monte Cristo has given the same surpassing results as in our careful trials on Rockford Seed Farms. The greatest yielder. The sweetest, juiciest, crispest and most solid Melon ever produced, never having a hollow or pithy center when ripe. The easiest to sell on the market, for when once tried, people will have no other. Many of our customers have written us, that they have cleared $100 or more per acre by growing Buckbee's Monte Cristo Melons. Under average cultivation you can do as well or better. Will you not try it this year? This is an early variety, ripening about a week or ten days later than the extra early kinds on the preceding page. It is a grand, good shipper, has a firm, solid rind, not too thick, yet will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a somewhat lighter color. Certainly the finest appearing Melon ever grown for market, shipping or table purposes. While our supply of seed is fairly large, we always have advance orders from our customers, who have planted Monte Cristo in past seasons, and we would advise all who care to plant this "King of Melons" in 1918 to place their orders as early as possible. Please remember that we control the entire product of this variety, so send to Buckbee for choice stock seed of Buckbee's Monte Cristo Melon. The price is within the reach of all.

Price of choicest stock seed of our own growing: Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 45c; 1 lb. 80c; 1 lb. $1.50.

T. H. Dixon, Houston, Texas: "After repeated failures, I this year tried Buckbee's Water Melon Seed and had splendid results."
John R. Cooper, Syracuse, N. Y.: "I received second prize on my city garden, using your seed."
J. J. Hayman, Berwick, Pa.: "Although I am 76 years old, I had the finest garden in Berwick this year, using your seed."

Gilman T. Carlson, Pontiac, Ill.: "After trying your seeds, I have decided they are better than any I have ever used."
Ernest Austin, Paragould, Ark.: "I have been ordering seeds of you for six or seven years and always liked them."
BUCKBEE'S "Full of Life" WATERMELON SEED

BUCKBEE’S GOLDEN HONEY

Golden Fleshed, Crisp, Tender and Delicious.

Some people are prejudiced against a yellow-flushed Melon, but this prejudice will quickly disappear once they taste Golden Honey, as this Melon is one of the finest grown, the flesh being very juicy, and of a most delicious flavor, similar to that of the celebrated Monte Cristo, known all over the world for its luscious quality.

Golden Honey is early, of oblong shape, medium size. The rind is light green with mottled stripe. The flesh is solid, crisp, of golden yellow color and has a delightful aroma; it is entirely free from hard centers or stringy sections.

This is one of the finest Melons for the home garden and nearby market, but is not a shipper. We believe it will soon be one of the most popular melons grown.

Pkt. 10c; 1 oz. 20c.

NEW SUGAR STICK

A large light green or grayish Melon of oblong form, combining handsome appearance with the finest flavor and excellent shipping qualities. Flesh red, of luscious quality. These Melons measure about 2 feet in length and weigh on an average about 50 pounds. We highly recommend this fine Melon; it is one of the best paying and most satisfactory varieties to grow. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 85c.

THE TOM WATSON

Best Quality, Fine Shape, Large Size, Good Shipper.

The "Tom Watson" is an extra long Melon of attractive appearance, uniform in shape and quality; the luscious crimson flesh is "as sweet as honey," melting and of superb flavor. The average Melon will weigh 50 to 60 pounds and measures about 28 inches long and about 12 inches in diameter. This skin is dark green, with thick netting all over, quite distinct from other varieties. Its appearance and quality strongly recommend it both for home use and for market. Sure to take a leading place with large Melon growers and shippers. Our choice seed was grown from selected stock under our most painstaking care and is a great improvement over the introducer's stocks. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 80c.

KLECKLEY SWEETS

(Kleckley's Original Strain.)

Without question, it is one of the sweetest flavored of all Melons. Oblong in shape, skin dark green; flesh bright red, solid and luscious. Valuable for local market and family purposes. The first original strain can be had from no other seedman. Beware of imitations. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 45c; lb. 85c.

Buckbee's Golden Honey.

Buckbee's Everbearing. Always Sweet.

ALABAMA SWEETS

The Ideal Shipping Melon.

Extensively grown in the South for shipping to distant markets. Large, oblong, with firm, dark green and slightly striped rind. The flesh is a bright red and of delicious flavor; seeds are white. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c.

Image of Kleckley Sweets.
BUCKBEE’S “FULL OF LIFE” WATERMELON SEED

GEORGIA RATTLESNAKE
The Old Reliable Branch’s Original Strain.
One of the finest Melons ever grown; a splendid keeper, excellent shipper. Sometimes called Striped Gypsy. A very large Melon of good shipping qualities. Shape oblong, striped and mottled with various shades of green. Flesh bright, sweet and first-class. Rind not thick. Pkt. 5c; oz. 10c; 2 oz. 25c; ¼ lb. 50c; ½ lb. 90c.

THE HALBERT NEW RUBBER RIND
One of the Finest Shipping Melons on Earth.
After years of patient labor and careful breeding, Mr. Halbert, of Texas, the well-known Melon breeder, has succeeded in perfecting this grand Melon. Shape of fruits, oblong and quite large in size, weighing from 50 to 100 pounds. Flesh dark red color, sweet and quite tender. Rind very dark green, almost black; very thin and exceedingly tough, almost as a piece of rubber, hence the name. It is decidedly a most handsome Melon in shape and color and will bring the highest price in every market. Excellent for shipping purposes. Genuine originator’s stock seed. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

NEW CLIMBING WATERMELON
A Superb Variety, Novel and Attractive.
The vine may be allowed to trail on the ground or may be trained and tied to trellises, etc. The Melons are about the size of a coconut, with seed no larger than apple seed. They are very solid, rich crimson flesh and of the highest quality, perfectly ideal for the home garden. Fruit ripens for a long period, unlike other sorts which ripen their fruit mostly at one time. Pkt. 10c; 3 pkts. 25c.

BUCKBEE’S NEW LIBERTY
See Painting from Nature on Front Cover of this Catalogue.
Without question this is the largest of all Melons and one of the best flavored, specimens weighing fifty pounds, having fully as fine and delicate flavor as a small melon. We control the entire stock of this variety so send to Buckbee for originator’s stock seed. Prices: Genuine Buckbee’s New Liberty, pkt. 15c; oz. 25c; 2 ozs. 40c; 1/4 lb. 75c; 1/2 lb. 1.25; lb. 2.00. Postpaid.

FLORIDA FAVORITE
Delicately Sweet—Second Early Shipper.
A splendid very popular Melon in appearance similar to Rattlesnake, but with darker skin. Enormous oblong fruits with dark green skin, faintly striped with a still deeper shade. The rind is thin, but firm; the flesh is of a beautiful clear crimson, extending clear up to the rind, and is very sweet and tender. The vines are very vigorous and productive. Our strain is highly bred and is in great demand. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/4 lb. 30c; 1/2 lb. 50c; lb. 75c.

WONDERFUL SUGAR
Excellent variety of oblong shape and large size, averaging 28 inches in length and 40 to 60 pounds in weight. Flesh red and deliciously sugary. One of the finest for the home garden and for shipping. Pkt. 5c; oz. 10c; 3 ozs. 15c; 1/4 lb. 25c; 1/2 lb. 40c; lb. 75c.
BUCKBEE’S “Full of Life” WATERMELON SEED

BUCKBEE’S NEW SWEETHEART

Most Popular for Market.

Medium early, large, handsome, heavy; good shipper, long keeper; bright color and of best quality. Vine vigorous and productive, ripening its fruit early. Fruit large, oval, heavy, uniform, mottled light and dark green; rind thin, but firm; flesh bright red, firm, solid, very sweet and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ⅓ lb. 40c; lb. 75c.

NEW CHILIAN

A new Melon of splendid quality, which is already very popular on the Pacific Coast and will doubtless take high rank elsewhere as soon as its desirable characteristics have become more generally known. Fruits nearly round or slightly oblong, skin rich deep green, mottled and striped with a still darker shade; flesh of decidedly bright vermilion red, remarkably fine grained, firm and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ⅓ lb. 25c; ½ lb. 35c; lb. 65c.

BUCKBEE’S PERFECTED KOLB’S GEM

One of the Best Long-Distance Shippers.

Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark red and light green, while the underside is of a creamy yellow color. Outer rind may exceedingly hard and firm, making it one of the best sorts for keeping and shipping long distances. Flesh bright red, solid, sweet, tender and mellow. The fruits grow very uniform in size. Very solid, and are medium early. Pkt. 5c; oz. 8c; 2 oz. 12c; ⅓ lb. 20c; ½ lb. 35c; lb. 65c.

NEW ICEBERG

One of the Best Round Melons for Shipping.

Often called Blue Gem; has a very firm, hard rind, and it is as good a shipper as the Kolb’s Gem, but the rind is much darker and richer in color and the flesh is much deeper colored, extends nearer to the rind, is much more tender and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ⅓ lb. 25c; ½ lb. 40c; lb. 75c.

Citron Melons—The Best for Preserves

APPLE PIE MELON—A Wonderful Fruit for Pies, Preserves, Etc.—This is a novelty which will be appreciated in many sections of the country, and especially so during seasons when apples are scarce or high in price. The vine and fruit are quite similar to a Watermelon and they are easily grown on any good soil. Each vine produces from five to fifteen fruits and one large fruit will make as many pies as half a bushel of apples. The flesh is white, solid throughout and of excellent quality for making pies, sauce, preserves, etc., and it resembles apples in flavor. They keep nice and fresh all Winter, so that they can be used at any time and any surplus may have can be fed to the live stock. In fact, it would pay to raise them for this purpose alone, as they can be kept and fed fresh all Winter. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ¼ lb. 75c; lb. 1.25.

COLORADO PRESERVING—Very Productive, Rich Quality—Makes beautiful, nearly transparent preserves of unsurpassed flavor. Superior to the preserving Citron in quality. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ⅔ lb. 45c; lb. 85c.

RED SEeded CITRON—Used exclusively for preserves. Slightly striped, round. Extremely productive, splendid flavor. Flesh white. Pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ¼ lb. 35c; lb. 65c.

GREEN SEeded CITRON—Flesh white. Makes beautiful preserves of unsurpassed flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.
Buckbee's Sure Crop Mushrooms

GROWING MUSHROOMS IS NOT DIFFICULT.
Get Reliable Spawn. Start Right and the Results Are Certain and Profitable.

The Mushroom is a delicious, edible fungus. It produces no seed, but instead a white fibrous substance in broken threads called spawn. The mushroom is grown and preserved in horse manure and pressed in form of bricks. No expensive equipment is or ever will be necessary for the propagation, in money-making quantities, of Buckbee's Sure Crop Mushrooms. Professional growers have had much to do with spreading the idea that process and equipment are both costly. The plain fact is that anyone who starts right can grow Mushrooms successfully. He must know how to prepare the beds, where to locate them, and how to care for his crop. But the grower of Radishes must know that much about the crop he expects to raise. So that, after all, success in growing Mushrooms is landing about by no more mystery and difficulty than is the growing of Radishes. An abandoned outhouse, or waste space, fenced, a basement or a cellar can be used for growing Mushrooms and will answer the purpose excellently. Contrary to popular belief, the culture of Mushrooms in a cellar is healthy, as they absorb all the moisture and keep the cellar dry and the air pure.

Mushrooms can be grown in tube in the house, but the culture requires careful attention and the temperature of the rooms must be kept at an unhealthy degree. A city man, however, can dig a "dug out" on the north side of his house, roof is over with rough boards and grow enough Mushrooms for home use. If he wants to roof over a part of an old deserted quarry he can grow Mushrooms for the market. We know an almost totally blind man in Chicago who keeps a goodly supply of Mushrooms growing constantly in a corner of the basement of the flat building in which he lives.

WHAT A MUSHROOM GROWER SAYS:
VICTOR FINEZ, "The Rockefeller of the Mushroom" Industry in St. Louis, opened a small place in Urig's Care recently and set out a Mushroom bed. Then he sat in his easy chair and in three months cleared $250,000 worth of Mushrooms from the bed he had planted. Monsieur Finez is an untrained laborer. He might, if he had good luck, have earned $55 a month during the three months he spent cutting 50 a day, worth of fungi from his Mushroom bed—see Louis Post Dispatch.

On a bed of 50 feet square one can do a profitable marketing business. A bed of this size, it is estimated, will yield 10 quarts of Mushrooms a day, or about $1.00 worth. This will pay the butcher, grocer and candlestick maker. A boy or girl ten years old can attend to the bed after it is started. The trouble is in the initial work. Afterwards a Mushroom bed piles up money like a money-lender's interest.

FACTS ABOUT BUCKEE'S SURE CROP Spawn.

This Spawn is prepared solely for us by a specialist in this country who has not only devoted a lifetime to the work, but who is a profound student of the industry. His work has been securing the beds and the spawn in the world. Under our contract it is impossible for the grower to secure any Sure Crop Spawn from anyone except Buckbee.

We can safely assure all Mushroom growers, as well as those who have never grown any, that are on the point of trying it, that they will find Sure Crop Spawn to be all that is claimed for it and more. It produces Mushrooms true to type. In much greater abundance, of much earlier maturity and of much larger size than those grown by any other method, and these Mushrooms are in great demand at the very highest market prices. It is absolutely certain that our customers will all be furnished with Spawn that will germinate, grow, mature and ripen the Mushroom. They can be kept in the proper condition, properly and they will prove to be a big return.

We have made the price as low as Spawn of such an exceedingly high grade can possibly be sold for.

BUCKEE'S SURE CROP Spawn.

On mail, postpaid, brick (weight about 1½ lbs.) $1.50. At buyer's expense: Bricks 35c; 5 bricks $1.50; 10 bricks $2.50; 25 bricks $6.00; 100 bricks $21.00.

Arthur Young, 561 Superior St., Racine, Wis., writes: You will note this is my second order for Sure Crop Mushroom Spawn. The first order of Spawn has been planted two weeks yesterday, and the last few days I have picked quite a few.

BUCKEE'S HIGH GRADE ENGLISH Spawn.

Prices postpaid, brick (weight about 1½ lbs.) 40c. Not prepaid, brick 30c: 5 bricks $1.50; 25 bricks $6.50; 100 bricks $21.00.

Remember, that BUCKBEE’S “FULL OF LIFE” ONION SEED is grown on Buckbee’s Seed Farms from carefully hand-picked, selected, pedigreed bulbs—all fresh new crop of unusual vigor and superlative vitality. Thousands of customers in the large Onion-growing districts from Maine to California send in their orders every year, as our Onion Seed has an excellent reputation in every prominent Onion-growing district in the country and is unsurpassed by that of any other house in the trade, and in many sections is planted to the exclusion of all other strains. We are determined, as usual, to furnish our customers the very choicest strictly fine stock seeds that grow.

**BUCKBEE’S PEDIGREED ONION SEED**

Took the Leading Prizes at the World’s Largest Onion Shows Held at Nappanee and Wolf Lake, Ind.

**Buckbee’s New Wampum**

This grand new variety, which was sent out for trial in 1898, has proven, as its name indicates, the MONEY-MAKING ONION. Its color is a beautiful golden yellow, very attractive and striking. It is the most perfect globe-shaped Onion in existence today. The bulbs are firm and solid and excellent keepers. The necks are small and cure down to almost nothing. It is an enormous yielder; various customers claim from 1,000 to 2,000 bushels per acre. If you wish the best Onion you ever planted, try this greatest of all Onions. This variety received medals by the score for superior quality and vouchers by the thousands were sent us from our customers as the most satisfactory strain for largest cash returns.

Buckbee’s Great Pedigree Onion Seed of this variety produces the biggest, finest crops of large Onions obtainable. We advise early orders, as our stock is not very large, and this variety cannot be procured elsewhere. Our own growth, choicest Northern grown, high-grade, pedigreed stock seed. Pkt. 10c; oz. 25c; 2 oz. 50c; ¼ lb. 95c; ½ lb. $1.70; lb. $3.00.
MONEY MAKING ONIONS

Southport Globe Onions are most attractive in appearance and most economical in use. They command the highest price in the market. These Onions are big croppers and splendid keepers. Harvested in September, they keep perfectly sound and merchantable until the following June. Our strains of these varieties have been carefully bred and are unequalled by those of any other grower in size, beauty, yielding and keeping qualities.

Southport Red Globe

Buckbee's Re-Selected Pedigree Seed.

The celebrated Blood-Red Globe Onion. This variety has for many years proved one of the most profitable for the market and shipping trade, commanding uniformly good prices in carload lots. It is of large size and splendid appearance, and frequently yields from 500 to 800 bushels per acre under average culture. It is an Onion of unusual merit. Flesh is firm, finely grained, very rich, yet unusually mild for a red Onion, and is sure to please the most fastidious. The crop is ready to harvest in early Fall and keeps well until the late Spring months. No one that we have ever known has been disappointed with the results obtained by planting this great Onion.

Our own growth, choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 20c; 2 oz. 50c; 1/2 lb. 50c; 1/2 lb. 90c; lb. $1.75.

Southport Yellow Globe

Buckbee's Re-Selected Pedigree Seed.

 Entirely distinct from Onions of the Danvers type, having notable and striking characteristics of its own. Exceeds in size, excellence in yield, excellence in keeping qualities, excellence in mildness and flavor. Matures in early Fall. It is sure to satisfy the one who buys a packet or the one who sows 50 pounds or more of seed for carload shipments. A truly grand Onion, whose large golden-yellow spheres make a beautiful appearance, sacked, crated or baled for the market. Our own growth, choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 15c; 2 oz. 50c; 1/2 lb. 50c; 1/2 lb. 90c; lb. $1.75.

Southport White Globe

Buckbee's Re-Selected Pedigree Seed.

 Handsome of all Onions. It is of true globe form, pure white, hard, small necked, ripening regularly and evenly; a splendid keeper. The flesh is firm and fine grained and mild to taste. Average yields of 500 to 700 bushels per acre are of frequent occurrence. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it. When seed like ours is to be had as reasonable, the results of planting a few ounces often paying many times the first cost of the best seed.

Our own growth, choicest Northern-grown, high-grade pedigreed stock seed. Pkt. 8c; oz. 20c; 2 oz. 50c; 1/2 lb. 60c; 1/2 lb. 90c; lb. $1.15; lb. $2.25.

Buckbee's Great Cardinal

The largest American grown red globe Onion. The color is rich, very deep cardinal-purple, darker than that of other red Onions. The flesh is thick and of splendid flavor. It is one of the very best keepers ever introduced. It has the size and shape to recommend it in the highest degree for the market. We would not praise it so highly if we did not believe it to be alone in its class. It is one of the real money makers. No one but Buckbee can furnish GREAT CARDINAL SEED. Pkt. 10c; oz. 30c; 2 oz. 55c; 1/2 lb. 60c; 1/2 lb. $1.15; lb. $2.25.
TWO GIANT GLOBE ONIONS

Denia Onion

The Largest Onion Grown.
An Improved Prizetaker.
American Grown Seed.

This is probably a new onion to many of our customers, but it has been grown now for several years in the southwestern states, creating a sensation wherever used. It is of Spanish origin, supposed to be the parent type of the well-known Prizetaker, but it is far superior to the latter. It is the largest variety of onions grown of commercial value, and is considerably larger than Prizetaker, in fact, it will take two large Prizetakers to equal one Denia in weight. Denia is extraordinarily tender and sweet, surpassing Prizetaker in its mild, delicious flavor. Denia is fully as early and as good a keeper as Prizetaker.

Our stock is very fine and pure, producing uniform bulbs of the largest size, of splendid globe shape, with small necks, and these bulbs will ripen up hard and are exceptionally good keepers.

To reach the heaviest weight, the seed is best started early indoors, giving the bulbs a long season in which to mature. If you want the largest possible yield of onions of your land grow the Denia.

Pkt. 10c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.45; lb. $2.75.

Buckbee’s Prizetaker

Unexcelled Either for Home Use or for Market.

Buckbee’s Prizetaker Onion has proved itself to be the greatest acquisition in years and is by far the handsomest, most productive and largest of all Yellow Globe Onions which are grown extensively today. Always grows to a uniform shape, which is a perfect globe; has a very small neck and ripens up without stiffness of the neck.

It succeeds everywhere—East, West, North and South—and whether grown for home use or for marketing it gives universal satisfaction, yielding from 1,200 to 1,500 bushels per acre and the bulbs are generally three times the size of yellow Globe Danvers. Its immense size will recommend it to all, particularly when it is known that its keeping qualities are excellent. The exterior color is pale yellow and the interior clear, sparkling white. Easily grown, medium early in maturing, mild flavor.

Pkt. 10c; oz. 25c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.15; lb. $2.25.
BUCKBEE'S PEDIGREE LARGE RED WETHERSFIELD

OUR LEADING SPECIALTY

One of the chief departments of our seed growing business consists of growing Buckbee's Pedigreed Red Wethersfield Onion for seed purposes only. Our stock has reached such a high point of merit that it is a household word everywhere that "Buckbee's Pedigree Red Wethersfield Onion Seed" is used. It is the most reliable and produces more good marketable Onions per acre than any other seed that we offer." And from the many thousands of unsolicited testimonials which we have received from all over the country, we have every reason to believe that the time which we personally spend in our onion fields is truly appreciated by our many thousands of customers who stand by us and say: "Buckbee's Seeds are Full of Life."

There are many strains of this justly celebrated Onion offered, but we venture to say none can surpass Buckbee's Prize Medal Stock of this famous variety. The various strains, good, bad, and indifferent that are generally offered to the unwary planter, come to maturity all the way from August up until as late as October. This unreliability of cropping is very disastrous to most localities.

BUCKBEE'S PEDIGREED LARGE RED WETHERSFIELD—"Full of Life" stock seed. Pkt. 5c; oz. 15c; 2 oz. 35c; ½ lb. 50c; ½ lb. 90c; lb. $1.75.

BUCKBEE'S NEW GOLDEN GLOBE DANVERS

A most perfect type of the globe-shaped Onion and an extra early variety. It has a very small neck, the entire crop drying down at one time. The bulbs are of an attractive golden yellow color. Trial tests have shown this variety to yield over 3,900 bushels per acre, while under ordinary cultivation in past seasons several of our customers have reported yields of 1,900 bushels per acre. The bulbs are very hard, solid and are exceptionally good keepers.

Remember, that we control the entire supply of this variety of onion, and offer for sale, choicest Northern-grown, high-grade pedigree stock seed. Pkt. 8c; oz. 25c; 2 oz. 55c; ½ lb. 80c; ½ lb. 1.10; lb. $2.00.

BUCKBEE'S SELECTED YELLOW GLOBE DANVERS

Standard of Excellence for Home and Market Use.

Buckbee's strain of Yellow Globe Danvers, developed by careful selection and breeding, is pedigreed stock of the highest type, far superior to the seed mostly offered by others. This stock produces bulbs of fine symmetrical shape, large size, average specimens weighing from 1 to 2 lbs. each. These bulbs have small necks and ripen evenly. The skin is a light golden brown, the flesh is finely grained, pure white, crisp, mild and of excellent flavor. It is a grand, magnificent keeper and shapper. Frequently produces 80 bushels or more to the acre from seed. About a week earlier, but not quite so large nor so perfectly globe-shaped as Southport Yellow Globe. Our own growth, choicest Northern-grown, high-grade, pedigreed stock seed. Pkt 5c; oz. 15c; 2 oz. 35c; ½ lb. 45c; ½ lb. 80c; lb. $1.50.

THE GREATEST OF ALL RED ONIONS

The seed which we are offering is of the earliest maturity; grown from hand-sorted bulbs that will produce Onions of immense size; 1½ to 2½-pound Onions from our seed are of frequent occurrence. BUCKBEE'S RED WETHERSFIELD grows with unusual regularity, scallions being unknown. It is a magnificent keeper. An enormous cropper—240 to 1,600 bushels have frequently been raised upon a single acre. The shape is accurately shown in the illustration above. In color the skin is a deep rich, purplish red, while the flesh is of a beautiful white, firmly grained and of good flavor. Our customers throughout the country indorse it as the best Red Onion ever grown.

NEVER HAS BEEN KNOWN TO FAIL

We trust no Onion Grower who receives our catalogue will fail to try at least a small quantity of BUCKBEE'S RED WETHERSFIELD ONION, for all ought to know how much superior it is to other strains offered. This seed will produce highly-colored, long-keeping Onions, sure to command the highest price in the market. Will yield double the crop that seed from most other dealers will produce.

QUALITY

NOTHING BUT

OK QUALITY

Buckbee's New Golden Globe Danvers

BUCKBEE'S LARGE RED WETHERSFIELD

The Greatest of All Early Red Onions
Buckbee's Pedigreed "Full of Life" Onion Seed

New White Silverskin or White Portugal

The Standard White Onion for Market and Family Use.

Medium sized bulbs of flat shape, which ripen evenly and quite early—about 10 days earlier than Southport White Globe. They are of handsome appearance; have a clear, white skin as beautiful as any on the market. The flesh is of mild, delicious flavor. For keeping, this is the best of all white varieties.

A gardener who does not care to plant more than one variety should use this one, and everyone should make a liberal sowing of it for continuous use. These Onions make fine bunching of Green Onions and are also grown for the market as large White Onions. They are also much used for pickling and for Onion Sets. Buy your seeds from first hand growers. Our own grow such choicest Northern-grown, high-grade pedigree stock seed. Pkt. 8c; oz. 20c; 2 oz. 55c; ½ lb. 60c; ½ lb. $1.10; lb. $7.00.

Extra Early Red

The Earliest Red Onion in the World.

A favorite early variety of fine shape. Always a good yeilder and magnificent keeper, its beautiful shape and rich purplish crimson skin making it extremely attractive and desirable. Medium sized, flat bulbs. Adapted for a great variety of soils and succeeds in very fine and mucky land. Very desirable for early market use. Selected stock seed. Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 50c; ½ lb. 90c; lb. $1.75.

Buckbee's Round or Yellow Danvers

A Magnificent Sort in Every Way. The Earliest Yellow Onion.

Very handsome in appearance. Flattened, but thick through, of fine size; in fact, is ideal in every respect for market and family purposes. Skin is thin, of a rich straw color. Flesh is very white; firm, glossy, firm and of excellent quality. Ripens early, keeps well and sells rapidly. Our own growth, chosen from the choicest Northern-grown, high-grade pedigree stock seed. Pkt. 5c; oz. 12c; 2 oz. 21c; ½ lb. 40c; ½ lb. 70c; lb. $1.35.

Selected Yellow Strassburg or Dutch

Quite similar to the foregoing, but the bulbs are rather more flattened, of a darker skin, a little larger and mature a few days later. One of the best to grow for sets and for keeping. High-grade pedigree seed. Pkt. 5c; oz. 12c; 2 oz. 21c; ½ lb. 40c; ½ lb. 70c; lb. $1.35.

Extra Early Long Keeping Australian Brown Onion

Hardest of All. Sure Cropper. Abundantly productive. Very fine quality. You can't go wrong on this at the exceptionally low prices at which we offer our home-grown stock. This remarkable Onion is of medium size, wonderfully hard and solid and most attractive for market, both in form and appearance. They are extremely early, ripening very quickly. Every seed seems to produce a good-sized Onion, and the bulb begins to form very quickly when the plant is not over three inches high. Planted with the Red Wethersfield it will average nearly four weeks earlier, and uniformly it has the reputation of both firmness and increase that it will keep in good condition longer than any other Onion known. The color of the skin is a clear amber-brown. These Onions have been known to keep nearly a whole year in good condition, and on this and other accounts it will commend itself to Onion Set growers, who often lose heavily in carrying their crop because the sets do not "keep." Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ½ lb. 60c; lb. $1.85.

Bermuda Onions

Bermuda Onions are largely grown in the South and have proved a most profitable crop. They are planted there in the fall and shipped North in May and are the earliest large new Onions in the market. Growers can do equally well with them in the North. They are the perfect cutting and storage Onion. Soon at the same time as Danvers and White Portugal, they will produce full grown bulbs about 3 inches in diameter when the others are only 1-inch in size.

White Bermuda—The bulbs are quite broad and flat in form. The color is not a clear white, but rather a pale straw; flesh crisp, solid and mild, early ripening. Pkt. 8c; oz. 25c; 2 oz. 45c; ½ lb. 75c.

Red Bermuda—Similar in form and early ripening to the Bermuda, white, but grow larger in size, ranging from 3 to 4 inches in diameter; very flat and of a light pink color. The flesh is white, slightly suffused with pink; very mild. Pkt. 8c; oz. 25c; 2 oz. 45c; ½ lb. 75c.

Crystal White Wax—This new variety is a large, pure-white, flat Onion. It is the earliest and most popular Onion with the large growers in the South. It produces the mildest and sweetest Onions of them all. It is very fine for slicing, with the color being so clear and pure. Pkt. 8c; oz. 35c; 2 oz. 65c; ½ lb. $1.25.

Note—For larger quantities write for special prices.
PICKLING ONIONS

BUCKBEE’S WHITE PICKLING

Nothing Earlier in Onions.

This distinct variety is the very earliest Onion in cultivation. Of a pure paper-white color, very mild and delicate in flavor; from 1 to 1 1/2 inches in diameter and 5 of an inch in thickness. Its extreme earliness makes it very valuable for early table use as well as bunch Onions for market. Pedigreed stock seed. Pkt. 50c; 1 oz. $1.00; 2 oz. $1.50; 1/4 lb. $3.00; 1/2 lb. $5.00.

EXTRA EARLY WHITE OR
WHITE PEARL

A silver-skin variety of remarkably quick growth. Small bulbs, flat, of mild flavor. Particularly valuable for pickles. Pkt. 10c; oz. 25c; 1 oz. 45c; 1/4 lb. 80c; 1/2 lb. $1.45; lb. $2.75.

EARLY WHITE WELSH (For Green Onions)

A most desirable green bunch Onion. It does not form bulbs, only scallions or enlargements at the base of each shoot, which are quite attractive and, being extremely early, sell well before Onions grown from sets are brought to the market. We recommend this variety very much and know market gardeners will find it an exceedingly profitable crop. A hardy perennial can remain in the ground for years. Pkt. 10c; oz. 25c; 2 oz. 50c; 1/4 lb. $1.25; 1/2 lb. $2.50; lb. $4.50.

Buckbee’s Early White Pickling Onions.

BUCKBEE’S “Full of Life” ONION SETS

Bottom Onion Sets produce an Onion ready for market or the household from 4 to 6 weeks earlier than can be done by sowing the seed, and the product of the set is identical with that of the seed. This gives the market gardener ample time to sell his entire crop at the early high prices and permits the sowing of another crop on the land the same year. Every private garden should contain a sowing of sets.

BUCKBEE’S IMPROVED SPRING TOP SETS

These are planted to produce both early green Onions and large eating Onions. This variety increases by producing sets at the top of the stalk and does not produce seed. They are the best Onions to eat, will yield at least one-third more and ripen very early. It is the best keeper that we know of.

WHITE MULTIPLIERS

Produce clusters of small silvery-white Onions from a single bulb; mature earlier than any other sort. They’re very sweet and of mild flavor. Fine for Green Bunching Onions and just the right size for pickling.

BUCKBEE’S

NEW YELLOW POTATO SETS

Of reddish yellow color, excellent quality and good keepers. The large bulbs produce clusters of small ones often as many as twenty from a single bulb. Small bulbs produce no clusters; they yield large Onions which are ripe much before any other variety. Excellent for Green Onions and also for pickling.

BUCKBEE’S

SELIGHT NOTICE.

Prices on Onion Sets in bulk frequent-ly change as the market ad-;ances or de-scines. See Or-der Sheet for prices by peck or bushel or more.

YELOW MULTIPLIERS OR SHALLOTS SETS

Multiplier Onion Sets multiply by division of the parent bulb. They are very early and productive. You will be pleased with results by planting this variety. Postpaid, pt. 25c; qt. 45c.

EGYPTIAN OR PERENNIAL TREE WINTER SETS

This variety never forms a large bulb. Its value lies wholly in its special adaptability to produce green Onions for Spring or Fall uses. It is perfectly hardy, and when once set out will come up year after year. Can be planted either in Spring or Fall. We can supply these sets for shipment from September 1 to the following March 1. This variety increases by producing sets at the top of the stalk and does not produce seed.

PARSLEY

Parsley is used for seasoning soups and stews, for salads, for garnishing; also for ornamental borders in the flower garden.

BUCKBEE'S BEAUTY

A distinct and handsome variety of quick, robust growth forming compact, ornamental plants, densely furnished with strong-stemmed graceful leaves, finely cut, most beautifully curled, and of that brilliant emerald green color so highly attractive when used for garnishing. The flavor of the leaves is also unusually rich and aromatic, rendering this variety of special value where used for flavoring, in souces, dressing, etc., either when fresh or dried. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; ½ lb. 70c; lb. $1.00.

NEW MOSS CURLED—Invaluable as a garnishing plant and suited for mixing with dwarf, ornamental plants in the garden. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 75c.

EXTRA DWARF CURLED, OR EMERALD—The moss-like leaves are a handsome, bright green color and are finely crimped and curled. Pkt. 5c; oz. 8c; 2 oz. 13c; ½ lb. 20c; ½ lb. 35c; lb. 60c.

HAMBURG TURNIP ROOTED—The edible portion of this variety is the Bushy root which resembles a small parsnip and has a flavor similar to Celeriac; it is extensively used for flavoring souces and stews. Large pkt. 6c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 85c.

PEANUTS

Peanuts have always been an important farm crop in this country; millions of acres have been planted with them in the southern states, but now that their great value for producing oil and oil-cake is being better realized, a much larger acreage will be grown with them. Last year about a hundred million bushels of Peanuts have been ground up by oil mills for oil and oil-cake, and some have also been used for feeding. Peanuts is a crop in pods produces 80 gallons of oil and oil-cake, as well as 750 pounds of feeding cake. This oil and cake are superior to that from cotton seed. Peanut oil is fully equal to olive oil and Peanut meal makes hard hogs. The Spanish Peanut containing a large percentage of oil than the other kinds, is mostly wanted by the oil mills who now pay a higher price for a bushel of them than for cotton seed. In the South, especially in sandy soil, Peanuts will yield plants in a money crop, being more profitable. The cultivation of this crop is easy and every year extending farther north, and on suitable soil in the northern states Peanuts will make a profitable crop for stock feed where it is hardy, thrives and with a season of only four months free from frost.

SPANISH PEANUT

The earliest variety grown; maturing in about 100 days; in some parts of the South two crops are raised in a year. Plants upright, with abundant and heavy foliage; the pods cluster at their base. Pods are small but well filled with nuts of sweeter and finer flavor than the larger sorts. The yield is on an average from 50 to 60 bushels of nuts and a ton of hay per acre, but frequently 200 bushels of nuts have been harvested. Can be cultivated with the plow. Because of its earliness, easy cultivation and the great production it is the best variety for farm use, for fattening hogs and other stock. In harvesting the nuts hang to the vine and tops and nuts are fed together as a complete hay and grain ration. This variety has also a commercial value as it is for feeding; it is the kind mostly used for Peanut candy and salted Peanuts is also the best for oil, containing 10 per cent more oil than others. Pkt. 7c; ½ lb. 15c; ¼ lb. 30c; lb. 60c.

NEW MAMMOTH VIRGINIA

This Mammoth Virginia Peanut is more profitable and desirable than the common spreading kind, because more productive, earlier, yields fewer imperfect pods and more easily cultivated and harvested, having very erect stems and upright foliage. The vines make valuable forage for stock. Will ripen as far north as Canada. Highest of the young kind in appearance of the wonderful crop this past season. The standard variety for roaming. Choice Seed, pkt. 7c; ¼ lb. 15c; ½ lb. 30c; lb. 65c.

NEW DIXIE GIANT

The Jumbo of the Peanuts family; owing to its extremely large size and handsome appearance is very desirable in every market always bringing fancy prices. Plants grow about 15 inches high, with heavy, erect stalks and large leaves, fruits near the tap root. Can be planted close together, thus producing a large yield, and are more easily cultivated than the running varieties. The pods fill out well forming few, if any, pods. Yields a gallon of nuts to one kernel planted. Price, large pkt. 10c; ½ lb. 20c; ¼ lb. 35c; lb. 60c.

NEW EARLY LONG POD BUSH

Originated by one of the best Peanut growers in the South and is certainly a distinct improvement in appearance over any Southern variety now in use. Will do well on most all kinds of soil, and fill out better than any other large variety. Can be pulled up with the vise eases as the old Spanish Peanuts. The distinct long pods grow close and are well filled, containing 3 to 4 nuts to each pod. Very productive and of a mild, sweet flavor. Well adapted for stock feeding. Postpaid, pkt. 10c; ½ lb. 30c; ¼ lb. 55c; lb. 65c.
BUCKBEE'S NEW SUGAR

Parsnips are one of the few Winter vegetables. The roots are hardy and are improved in flavor by the action of the frost. Where the climate is mild the roots can be left in the ground over Winter and dug as needed. Parsnips are also of great value for stock feeding. They yield immense crops and the roots are very rich in saccharine food.

After repeated trials at Rockford Seed Farms we have no hesitancy in offering Buckbee's New Sugar as the best Parsnip grown. Roots fine size, of good diameter, enabling them to be easily gathered; are exceedingly smooth; the flesh fine grained and of the most excellent quality. A magnificent cropper, yielding as high as 175 bushels per acre under good cultivation. You will not be disappointed by planting BUCKBEE'S NEW SUGAR PARSNIP. Pkt. 10c; oz. 15c; 2 oz. 25c; ½ lb. 40c; 1 lb. 75c; 1½ lb. $1.00.

PIE PLANT OR RHUBARB

A saving of from two to three years is made by planting the roots. BUCKBEE'S NEW PINEAPPLE—Price by mail, postpaid, 25c each; $2.50 per doz. By express or freight, not prepaid, 25c each; $2.00 per doz.; $15.00 per 100. BUCKBEE'S WESTERN MARKET—Price, by mail, postpaid, 25c each; $2.00 per doz. By express or freight, not prepaid, 25c each; $1.25 per doz.; $7.00 per 100. SMALL RHUBARB ROOTS—Postpaid, 15c each; $1.25 doz.

NEW MALTESE—A wonderfully fine strain. The roots do not grow as long as the Hollow Crown, but are of greater diameter and more easily gathered. Very heavy cropper. Flesh fine grained and of most excellent quality. Pkt. 3c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 40c; lb. 50c.

IMPROVED HOLLOW CROWN—An excellent variety for the table. The roots grow to a length of about 15 inches with a diameter at the top of 3 inches. Very productive. Pkt. 5c; oz. 5c; 2 oz. 12c; ½ lb. 25c; ½ lb. 40c; lb. 90c.

NEW INTERMEDIATE—Root smooth, in form of an elongated top. Usually about half as long as Buckbee's New Sugar with a diameter of 2 or 4 inches. Leaves short; early cropper. Excellent for stock as well as table. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 35c; ½ lb. 50c; lb. 90c.

PIE PLANT OR RHUBARB SEED

BUCKBEE'S NEW PINEAPPLE—Without doubt this is the earliest of all Pie Plant and a variety that can be used not only in the early Spring, but Summer as well. The very best of the Giant Ever-bearig varieties. Quality simply superb. Stalks of good size, soft and juicy. Skin so thin and tender that it is not necessary to remove it before cooking. Flavor sprightly and refreshing and has the true pineapple flavor. This variety is about two or three times the size of the common Rhubarb. This is the first vegetable of the season and no garden should be without it. Choice "Full of Life" Seed. Large pkt., 10c; oz. 15c; 2 ozs. 25c; ½ lb. 45c; ½ lb. 80c; lb. $2.50.

BUCKBEE'S WESTERN MARKET—A very fine variety, very productive, large size, and very early. Stalks are numerous, broad, heavy, but very tender. Pkt. 5c; oz. 10c; 2 ozs. 15c; ½ lb. 35c; ½ lb. 65c; lb. $2.50.
BUCKBEE'S "Full of Life" PEAS

CHIOEST EXTRA EARLY RNOUD, SMOOUTH Sorts

Buckbee’s Lightning Express

Earliest Pea in the World—Ready for Picking in 40 Days.

They are much harder, more productive and withstand greater changes in the weather than any other variety. They are not only the largest podded white seeded early, but they are ENTIRELY FREE FROM RUNNERS and the entire crop can be taken off in one or two pickings.

10,000 BUSHELS SOLD ANNUALLY

Where earliness, productiveness, uniformity of ripening, large-sized pods and sweetness of flavor are desired, this is the variety to grow. It may be truly called THE BLOODED STOCK OF ALL finest early Peas, and stands at the head for the above fine qualities. In a favorable season ready for the market in 40 days. The entire crop can be taken off in one or two pickings. To the market gardener earliness is of the greatest importance, as even a few days make a great difference in price, often a depreciation of from $2.00 to $4.00 per barrel. The inexperienced find this out when too late. Therefore, the earliest is what is required, and BUCKBEE'S LIGHTNING EXPRESS IS THAT VARIETY. SOW THEM. YOU WILL MAKE NO MISTAKE.

Please observe that the true stock of BUCKBEE'S LIGHTNING EXPRESS can be had through our house only. Postpaid, pkt. 10c; ½ lb. 22c; lb. 40c.

Buckbee’s Selected First and Best

Vines vigorous and hardy, 2 to 2½ feet high, unbranched, bearing 7 or 8 straight pods having 5 to 7 medium-sized smooth Peas of good quality. A very early and very even strain of White Extra Early Pea, surpassed in productiveness and earliness only by Buckbee’s Lightning Express. Postpaid pkt. 8c; ½ lb. 35c; lb. 70c.

Earliest of All or Alaska

By careful selection we have developed a stock of this smooth, green seeded Pea, which in evenness of growth of vine and early maturity of pods is unequaled by any other extra early green seeded Pea. Vines 2 to 2½ feet high are unbranched, bearing 4 to 7 long pods, which are filled with medium-sized dark green or bluish green Peas of excellent flavor. Ripens the crop all at once and is an invaluable variety for market gardens and canners. Buckbee’s "Full of Life" Pedigreed Stock. Postpaid, pkt. 8c; ½ lb. 18c; lb. 35c.

Bountiful or Ameer

A grand Mammoth Poddled Extra Early Pea and a Splendid Market Gardener Sort. The largest podded of all green seeded Extra Early Peas. In our trials none of the numerous Extra Earlies compared with Bountiful in size of pod, number of Peas in a pod, or number of pods to the vine. It is also one of the sweetest and finest flavored of the green round seeded varieties. Grows about 30 inches high and crop can be gathered in one or two pickings. Only a few days later than Buckbee’s Earliest of All, but with much larger pods and more Peas in the pods. Postpaid, pkt. 8c; ½ lb. 20c; lb. 35c.

Buckbee’s Extra Early Tom Thumb

Extremely early; dwarf vines 9 inches high, completely covered with medium-sized pods well filled with smooth white Peas of fine flavor. Postpaid, pkt. 8c; ½ lb. 22c; lb. 40c.
BUCKBEE’S “FULL OF LIFE” PEAS
CHOICEST, EXTRA EARLY, SWEET, WRINKLED VARIETIES

GIAN'T LAXTONIAN OR BLUE BANTAM
A giant podded, dwarf, extra early pea. The most valuable Pea introduced in many years. This handsome new wrinkled Pea is the largest podded of all the dwarf early Peas. It grows only 16 to 18 inches high and requires no support, and has the same large pods as Gradus, even a few days earlier in season and of a little darker green color. The Peas are almost double the size of any other early dwarf Pea, are wrinkled, of bluish-green color, and have the true rich marrow flavor, tenderness and quality of the best main crop varieties. Its great earliness, the very large size and dark green color of the pods commends this variety particularly for market gardeners’ use, while the handsome quality makes it especially desirable for the table.

POSTPAID, pkt. 10c; ½ lb. 30c; lb. 55c.

BUCKBEE’S NEW EXTRA EARLY HONEY SWEET
The Earliest Wrinkled Sweet-Flavored Pea in Existence.
READY FOR PICKING IN FORTY DAYS.
A wonderfully luxuriant grower and a splendid drought resister. The vines attain a height of 24 inches, do not require staking, prodigiously prolific, the pods are from 2½ to 3 inches long, nearly round, and are always well filled. Honey Sweet has made a splendid record for both quality and quantity on the market. It is as early as Alaska, but far superior to it in quality and yield. POSTPAID, pkt. 8¢; ½ lb. 25¢; lb. 49¢.

THOMAS LAXTON
Extra Early Large Podded Sweet wrinkled Peas.
The rival to the famous Gradus—as a long-podded, extremely early wrinkled Pea. The growth is identical but the pods are deeper, richer green, square at the end and contain more Peas. In the opinion of some experts, Thomas Laxton is even sweeter and finer in flavor, while all the large Peas are of a deeper green, they present a more attractive appearance on the table. The crop ripens only 3 to 4 days after Gradus. A splendid market gardener sort, but especially recommended for the home garden. POSTPAID, pkt. 8¢; ½ lb. 25¢; lb. 47¢.

NEW EARLY GRADUS OR PROSPERITY
This popular Pea matures only two or three days later than the small-podded, round-seeded Extra Earlies, but has pods as large as those of the Telephone Pea and is fully equal to it in quality. Gradus is probably the most popular of all the extra early wrinkled Peas. It has taken the place of the smooth early Peas in many districts. It grows from 3 to 3½ feet high, requiring no stakes or brush, but sticks may be used if preferred. The vines are of pale green color and bear in great profusion from top to bottom immense round, dark green pods, 4½ to 5 inches long, well filled with from 8 to 16 or more Peas of delicious quality as large and as rich in flavor as the Telephone Pea, and these Peas can be had only a few days later than the small extra early Peas. These Peas retain their color and attractive appearance after cooking. Gradus is adapted to all purposes of the market gardener and does equally well in the home garden. POSTPAID, pkt. 8¢; ½ lb. 25¢; lb. 48¢.
BUCKBEE’S “Full of Life” PEAS
CHOICEST EXTRA EARLY SWEET WRINKLED VARIETIES—Continued

LITTLE MARVEL
A New Dwarf Extra Early Pea of
Unusual Value, in Enormous
Demand Among Market
Gardeners.

We are sure that as soon as a
gardener becomes acquainted with this
variety he will quit growing the old
varieties like American Wonder,
Little Gem, etc.

In season this new sort ripens
with the American Wonder, while
the pods, usually borne in pairs, are
more numerous, larger and contain
one or two more Peas. Its two
striking features are: The beautiful
dark green color of the pods and its
great keeping qualities, which
ready for the table staying in excellent
condition for a week longer than
“Nott’s” or “Wonders.” Little
Marvel is an extraordinary cropper,
and although the pods are only of
medium size, it is fully as produc-
tive as most large podded kinds.
Vines 15 inches high; pods in pairs
2½ to 3 inches long, square at bot-
tom, jammed with 6 to 8 quite large,
dark green, wrinkled Peas, which
are of luscious, sugary flavor. Post-
paid, pkt. 10¢; ½ lb. 25¢; lb. 40¢.

POTLATCH OR BIG DINNER

The Best Main Crop Variety
of Large Podded Dwarf Peas.

Potlatch is Chinook Indian for Big Dinner. The vines are
sturdy and vigorous, growing about 30 inches high, with coarse
and unusually dark green foliage which can be distinguished
from that of other peas a quarter of a mile away. The pods,
which are borne in pairs, are long, often measuring 6 inches or
more. They are broad, pointed, rich dark green in color and in
size and fullness fully equal to those of the Tall Telephone Pea.
They contain 9 to 11 Peas, which are very large and in sweet-
ness and flavor rank with the finest. Potlatch is a wonder of
productiveness and the way the Peas shell out is astonishing.
On account of its large, beautiful pods, enormous productiv-
ness, is a great favorite with market gardeners, and owing to
delicious quality one of the best for the table. Potlatch is a
second early, dwarf, very large podded Pea; it has become the
leading and most popular variety of its class. Postpaid, pkt.
10¢; ½ lb. 30¢; lb. 50¢.
BUCKBEE’S “FULL OF LIFE” PEAS
Second Early and Main Crop. Sweet, wrinkled varieties.

DAISY OR DWARF TELEPHONE

Thoroughbred Main Crop Sweet wrinkled Peas.

The vines, though growing only about 18 inches in height, are very thick, stout and bear a big crop of large, well-filled pods. The pods average 5 to 6 inches in length, containing 7 to 9 large Peas of a light green color which are tender and sweet. Compared with the tall Carter’s Telephone in size, shape and color of pods and exquisite flavor, the two varieties are alike, but the Daisy being dwarf can be grown without support and the rows of it can be made closer together and furthermore it is about ten days earlier than the tall sort. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 45¢.

IMPROVED STRATAGEM

High Grade Standard Dwarf Late Pea.

One of the best of the large-podded sorts. The pods are of immense size and uniformly filled with very large dark green Peas of the finest quality. The vines grow 15 to 16 inches in height. About 5 to 6 days later than the Daisy. It is vastly superior to the stocks now generally sold as Stratagem. Vines require no support. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 45¢.

CARTER’S TELEPHONE

Selected Stock

A Standard Large-Podded Main Crop Variety in Every Market.

The Telephone has become the leading Pea with market gardeners whose trade appreciates fine appearance and high quality. Vines vigorous, growing about 4 feet high, producing an abundance of very large pods filled with immense Peas which are tender, sweet and of excellent flavor. Foliage and pods are of light, bright green color. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 45¢.

ALDERMAN OR IMPROVED TELEPHONE

This comparatively new Pea is, in many respects, the very best early main crop variety of the valuable Telephone type. The vines grow nearly 5 feet high, are dark green. Vigorous and exceedingly productive. Pods are very large, long, dark green. They appear a little later than those of Carter’s Telephone, but are larger, often measuring 6 inches and over. The Peas are of the largest size and of unsurpassed quality. Market gardeners are demanding the large podded, dark-colored sorts, which retain their fine appearance even after shipping a long distance. The Alderman answers these requirements and furthermore is the most productive variety of this class. We recommend it unreservedly as one of the finest and most desirable for the home as well as for the market gardener. Postpaid, pkt. 8¢; ½ lb. 25¢; lb. 45¢.

PRINCE EDWARD OR PRODIGIOUS

This is an English strain of the Telephone type, selected and bred from the Alderman, which also belongs to that type, especially for size of the pods. Prince Edward is considered by all who have tried it the most profitable variety to grow for the trucker, and where it is known there is an enormous demand for it. This is the largest garden Pea we grow. It is truly the giant of the Pea family and is unsurpassed for exhibition purposes. In England, where it has been exhibited in the last few years at the leading shows, it has always taken the first prize. The vines grow about 6 feet in height, are of vigorous and robust habit and have dark green foliage and pods. The pods are produced in pairs and in great profusion. They attain the extraordinary length of 7 inches and upwards and are closely packed with 11 to 13 large, dark green Peas of delicious quality. Postpaid, pkt. 10¢; ½ lb. 33¢; lb. 60¢.

Prince Edward.
BUCKBEE'S "Full of Life" PEAS

Second Early and Main Crop; Sweet, Wrinkled Sorts—Continued

NEW EVERBEARING
The Great Continuous Everbearing Variety.
Vine stout, about two and one-half feet high, bearing at the top six to ten broad pods. If these are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The Peas are very large and wrinkled, cook very quickly, are tender, of superior flavor and preferred by many in any other sort. Postpaid, pkt. 9c; ½ lb. 25c; lb. 45c.

IMPROVED CHAMPION OF ENGLAND
The Standard Sweet Flavored Late Wrinkled Pea.
Very productive and universally admitted to be one of the richest and best flavored Peas. Height four to five feet; seed light green and much shrivelled. Very inferior and mixed stocks of this sort are frequently offered, but when the seed is as well grown and selected as that we offer, we consider the variety equal in quality to any in cultivation and one of the best of its season, either for the amateur or market gardener. This is the latest pea we grow; it it about a week later than Telephone. Postpaid, pkt. 7c; ½ lb. 22c; lb. 10c.

HORSFORD'S MARKET GARDEN
A first-class wrinkled Pea; medium late. Height 3 to 3.5 feet. It is a profitable sort for market gardeners, equally good for the home table and also much used by canners. Medium-sized pods, enormously productive. Postpaid, pkt. 8c; ½ lb. 20c; lb. 38c.

YORKSHIRE HERO
The vines are stout, of medium height, about two or two and one-half feet, bearing near the top a number of rather broad pods of medium size, about three inches long, filled with large peas that remain a long time in condition for use and which never become as hard as most sorts. The peas are of fine quality and will be preferred to any other by those who like a rich marrow-like pea. Seed large, wrinkled and flattened. Postpaid, pkt. 8c; ½ lb. 20c; lb. 38c.

GRANT'S FAVORITE
This fine variety of our own introduction is unquestionably the sweetest late Pea ever offered, coming into use just after the early varieties are through bearing. Luxuriant grower from 3 to 4 feet high. The pods are of good size, and always well filled with exceptionally sweet and highly flavored Peas. It is nearly an upright grower, but will do better if staked or planted along a fence. Postpaid, pkt. 8c; ½ lb. 25c; lb. 45c.

Buckbee's New Vigorosa

THE MOST MAGNIFICENT OF ALL NEW PRODUCTIONS

Nothing like it for a second early Pea has ever been produced. It requires no support. There is no Pea more prolific. It is a leader in the market and in demand among epicures. To try it is to surely succeed.

This grand, exceptionally good, new Pea is beyond all reasonable doubt by long odds the very best Second Early variety that has ever been introduced. The extended history of Pea culture gives us no example of a production anything near the equal of Vigorosa. It is ABSOLUTELY UNPARALLELED.

No bushing at all is required. The vines grow to be but 20 inches tall and are so stout that they bear immense crops without falling. As an enormous yielder the New Vigorosa ranks first and has no close rival. When it comes to quality—well, that is one of its many strong points. No one who knows the merits of real Peas could possibly find fault with it. It pleases Critical Judges, which means it is all that we claim for it. Those of our customers who have tried it say it is better than we represent it to be. Postpaid, pkt. 10c; ½ lb. 25c; lb. 45c.
BUCKBEE'S "FULL OF LIFE" PEAS
THE CREAM OF THE BEST LATE VARIETIES

THE ACKNOWLEDGED WORLD BEATERS

BUCKBEE'S MELTING SUGAR PEA Edible Pods
An excellent edible podded Pea with large sized pods, of delicious quality. This class of Peas is used in the same way as the Snap or String Beans, not being shelled, but the pod and peas all being eaten when they are picked. The peas in the pods have reached about half their full size. Pods are very large, sweet, smooth, extremely tender, so brittle that they snap, absolutely without any string and of the most delicious flavor. Vines are tall, about five feet high, and do better if supported. Postpaid, pkt. 8c; ½ lb. 25c; lb. 45c.

MAMMOTH LUSCIOUS SUGAR
The Finest Edible Podded Pea.
These peas are not shelled, but are eaten like snap beans; the pods are stringless and are unequalled in flavor, brittleness and sweet succulence. They may be served with butter or white sauce, and can be made ready in 10 to 15 minutes; they are good when quite old. Excellent also for pickles.

The vines grow 5 to 6 feet tall, require support: the pods are 6 to 7 inches long and 1 ½ inches broad and are produced continuously for a long period in the greatest abundance. Postpaid, pkt. 8c; ½ lb. 25c; lb. 45c.

LARGE BLACK EYED MARROWFAT
One of the largest of the Marrowfats, with a distinct black eye. Vines grow about 5 feet high; pods 3 inches long; Peas very large, smooth and round, of ordinary quality. Immensely productive. Postpaid, pkt. 8c; ½ lb. 16c; lb. 30c.

LARGE WHITE MARROWFAT
Cultivated extensively for the Summer crop. About 5 feet high, of strong growth. Pods about 3 inches long, filled with large, round, creamy, yellow Peas. Enormous croppers. Postpaid, pkt. 7c; ½ lb. 18c; lb. 30c.

BUCKBEE’S MAMMOTH-PODDED SUGAR MARROWFAT
The Largest Podded, Most Productive and Best Flavored of the Marrowfat Peas; a Good Variety for Late Crop.

Here is an excellent Pea for the home gardener—and a profitable shipping variety for the professional Pea Growers. Extremely prolific, outyielding any known sort. Pods are 4 or 5 inches long, completely filled with large peas of good flavor. Vines grow about 4 feet high; should be bushed for best results, although great results are obtained without. The productivity of this variety, in large pods as well as heavy crop, is a distinctive feature of special interest and importance. Uniformity in type, large pods, and the fine, cool looking, rich, green color of the pods, giving them the highest marketable value in appearance, which is retained several days longer than pods of lighter color could be, are all points for the market gardener to figure on. We have harvested a fine crop of the choicest seed of Buckbee's Mammoth Podded Sugar Marrowfat Peas the past season and will put the price within reach of all. Postpaid, pkt 8c; ½ lb. 25c; lb. 45c.
GROW PEPPERS, ALWAYS MONEY-MAKERS

BUCKBEE'S GREAT WEST—The giant of all. The heaviest cropper; the mildest flavor; the finest appearing; the surest to grow. The one you can't do without. Beautiful red color and of mild flavor. Our stock is limited, so order early. Large pkt 10c; ½ oz. 35c; oz. 60c; 2 oz. $1.10; ½ lb. $2.00.

CHINESE GIANT—Double the size of Ruby King and equally as mild. The compact plants produce four or more extra large Peppers at the base very early in the season, which ripen while a second crop is setting on the branches. Very vigorous, hardy grower, and a valuable variety for either the home or market garden. Large pkt. 10c; ½ oz. 30c; oz. 50c; 2 oz. 95c; ½ lb. $1.75.

CORAL GEM BOUQUET—Plant tall, bearing a profusion of round, bright red fruit which is very pungent when ripe. The plant, when in fruit, is very ornamental. Pkt. 5c; oz. 60c.

SWEET MOUNTAIN—Plants very Vigorous and productive. Fruit large, long, very smooth and handsome, being, when green, of a bright, deep green color, entirely free from any purple tinge, and mature of a rich red. Flesh very thick, sweet and mild flavored. Well suited to use for stuffed pickles or mangoes. Pkt. 5c; oz. 40c; 2 oz. 75c; ½ lb. $1.15.

LONG RED CAYENNE—(The Red Hot Pepper)—A long, slim-pointed pod, and when ripe of a bright red color. Strong and pungent. Pkt. 5c; oz. 40c; 2 oz. 75c; ½ lb. $1.15.

NEW PIMENTO—A new variety, absolutely without pungency. Very early. Fruits 4½ inches long by 2 inches across. It should be grown largely in the family garden because it is delicious with salads and sandwiches. The green Peppers are excellent stuffed with slaw and pickled or filled with meat and baked. It is largely used by canners. Pkt. 5c; oz. 30c; 2 oz. 55c; ½ lb. $1.00.

NEAPOLITAN—The earliest large, mild Red Pepper. Fruits about 4½ inches long by 2 inches across. Pkt. 5c; oz. 40c; 2 oz. 75c; ½ lb. $1.40.

IMPROVED RUBY KING—An improved American sort, reaching the largest size, yet retaining the symmetrical shape of the smallest sorts. It is very bright colored, temptingly sweet, mild flavored, and one of the best for stuffed pickles or mangoes. Pkt. 5c; oz. 45c; 2 oz. 85c; ½ lb. $1.45.

FINIEST MIXED PEPPERS—The above and many other valuable Peppers in choice mixture. Price per pkt. only 5c; oz. 45c; 2 oz. 85c; ½ lb. $1.55.

We can also supply the following varieties:

LARGE BELL OR BULL NOSE, GOLDEN QUEEN, RED CHILI, SWEET SPANISH for—Pkt. 7c; ½ oz. 25c; oz. 40c; 2 oz. 75c; ½ lb. $1.45.

FOR PEPPER PLANTS

SEE PAGE 88
BUCKBEE'S "Full of Life" PUMPKINS

BUCKBEE'S TRUE SUGAR PIE
One of the very earliest and very best pumpkins. The fruits are small, round, with orange-colored skin and flesh. Remarkably prolific and an excellent keeper. The flesh is thick, fine-grained, dry, sweet, sugary, and of the finest quality for pies. It cannot be beat for table use. Pkt. 5c; oz. 10c; lb. 30c; lb. 50c; lb. 60c; lb. 75c.

NEW JAPANESE PIE
The earliest pumpkin, the seeds marked with curious indentations like Japanese letters. Fruits medium size, good keepers and weigh 15 to 20 pounds each. The flesh is a rich salmon, unusually fine grained. For making pies, custards, etc., they certainly have no superior. Containing but little water, can easily be cut and dried like dried apples and make excellent pies or sauce for winter use. Pkt. 5c; oz. 15c; oz. 2 oz. 50c; oz. 1 lb. 15c.

BUCKBEE'S KING OF THE MAMMOTHS
Wonderfully grand and colossal variety, astonishing every one by its mammoth size and heavy weight. Think of it, one single Pumpkin weighing 469 pounds! Many of our customers saw this specimen on exhibition at the World's Fair, King of Mammoths is always a prize winner at fairs and exhibitions. Amazing and fit for the lawn of the most beautiful residence, or for the field. The pumpkin weighs 469 lbs. Its enormous size, it is one of the best pie and table varieties grown. A splendid keeper, and exceptionally valuable for feeding purposes. We control the complete stock of this variety, and send to Buckbee for true stock seed. We do not save seed from specimens weighing less than 200 pounds. Pkt. 10c; oz. 1 oz. 1 lb. 2 oz. 50c; 1 lb. 50c; 1 lb. 90c; lb. 81.75.

GOLDEN OBLONG
Very hardy and productive; pumpkins fifteen to twenty inches in length and eight to ten inches in diameter. Skin of a rich golden orange, thin but tough, making it almost as good a keeper for Winter as the hard shelled squashes. Flesh is light golden yellow, of very rich, fine quality. Pkt. 6c; oz. 10c; 2 oz. 1 oz. 15c; 1/2 lb. 30c; 1 lb. 50c; lb. 90c; postpaid.

NEW CALHOUN
Fine variety, heavy and solid; very productive. Skin rich cream color, flesh salmon yellow, very thick, fine grained and of superior quality. Pkt. 5c; oz. 15c; 2 oz. 25c; 1/2 lb. 50c.

LARGE CHEESE
Sometimes called Kentucky Field—Flattened fruit with broad ribs; creamy but skin; averages 3 feet in diameter. It is an excellent keeping variety, with thick flesh of exceptionally fine quality. Pkt. 5c; oz. 7c; 2 oz. 1 oz. 1 oz. 25c; 1/2 lb. 30c; lb. 50c.

CUSHAW OR CROOKNECK WHITE
Creamy-white skin. Flesh yellow, solid and sweet. Popular for the table. Pkt. 5c; oz. 1 oz. 2 oz. 25c; 1/2 lb. 35c; 1/2 lb. 40c; 1 lb. 60c; lb. 90c.

BUCKBEE'S PURE GOLD
Acknowledged by all the best field Pumpkins, either for growing with Corn or in the field by itself. Excellents for feeding stock and, best of all, makes most delicious Pumpkin pies. Deep, rich, creamy yellow color; flesh fine-grained and of excellent flavor. Choice stock seed, by mail, postpaid, oz. 10c; oz. 1 oz. 1 oz. 25c; 1/2 lb. 35c; 1/2 lb. 40c; 1 lb. 50c. By express or freight at buyer's expense, 5 lbs. $3.35; 10 lbs. $6.50.

WESTERN FIELD
Sometimes Called Big Tom or Connecticut Field.
One of the best varieties for field purposes, particularly desirable for stock feeding. Grows to a fine size. Color rich yellow, flesh fine-grained, of good flavor. Postpaid, oz. 10c; oz. 1 oz. 1 oz. 25c; 1/2 lb. 35c; 1/2 lb. 40c; lb. 75c. By express or freight at buyer's expense, 5 lbs. $3.35; 10 lbs. $6.50.

BUCKBEE'S NEW SANDWICH ISLAND
A splendid variety, coming from a remote section of the Sandwich Islands, where by chance our representative found it. It has created a great furore in its new home. Remarkably distinct in every way. Fine size, very prolific bearer and deliciously thick flesh. An excellent keeper. Seed of our own growth. Pkt. 10c; oz. 1 oz. 1 oz. 25c; 1/2 lb. 35c; 1/2 lb. 40c; lb. 75c; postpaid. By express or freight at buyer's expense, 5 lbs. $3.35; 10 lbs. $6.50.

ENGLISH SUGAR MIX
A magnificent all-purpose variety of medium size; a little ribbed. Color creamy white. When cooked it has somewhat the appearance of sweet potatoes, but is of more delicious taste. Flesh thick, creamy white, remarkably fine-grained, dry and brittle. There is no superior for making pies and custards. Hardy and productive, and keeps perfectly sound until late in the Spring. Pkt. 5c; oz. 1 oz. 1 oz. 25c; 1/2 lb. 30c.
The Cream of the Extra Early Radishes

Buckbee's selected strains of Extra Early Radishes, listed on this page, are grown from transplanted roots and are the earliest and finest known. Will invariably produce roots even in size, shape, maturity with small tops, rich, bright colors and command the highest market prices.

BUCKBEE'S ROCKFORD BEAUTY

The Handsomest Radish.

Very early—only a day or two later than Rapid Forcing. Of bright scarlet color, with a large white tip covering almost one-half of the roots. Flesh crystal white, tender and crisp. This is one of the most popular Radishes grown for the home as well as for the market, being of most beautiful appearance and exquisite flavor. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 70c; lb. $1.25.

BUCKBEE’S RAPID FORCING

The Earliest of All Radishes.

Quick growth is one of the main essentials for a crisp and tender Radish. Buckbee's Rapid Forcing matures in about 14 days from sowing; that is several days ahead of any other variety known today. This Radish is of a fine turnip shape. It remains in good condition without getting hollow or pithy longer than any other extra early variety. The flesh is pure white, crisp and of very pleasant flavor. The skin is a most attractive bright scarlet. The leaves are very short, which admits of close sowing. Its extreme earliness, maturing before all other kinds—its beautiful bright scarlet color, and its unusually brittle and delicious quality, make it most desirable for kitchen garden, and a source of great profit for the market gardener. Remember, that we control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. $1.25.

BUCKBEE’S BRILLIANT GLOBE

Buckbee's Brilliant Globe is a great improvement on the well-known Scarlet Globe, as it runs more even in shape and size, is of a richer and brighter color and is very much earlier. It will surely take the place of the older variety where known. It is well suited for greenhouse and hotbed forcing, and also for growing outdoors. It is of attractive globular form, of magnificent, glowing, bright scarlet color, and has pure white, crisp, tender and juicy flesh. We especially recommend this variety to the market gardener, but it is also one of the finest for the home garden. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. $1.25.
BUCKBEE’S EXTRA EARLY RADISHES

BUCKBEE’S NEW EARLY RED KING
The Earliest and Best; Sweet, Crisp, Juicy, Mild; Wonderful Yields, Beautiful Color, Uniform Size.

This new variety is our own production and is one of the earliest ever grown—fully matured Radish being pulled on our Rockford Trial Grounds in the short space of 14 days from time seed was planted. Won favorable comment and helped to secure First Prize and Diploma at the State Exhibit at the Springfield, Illinois, State Fair. It is of small size; just right for the purpose; beautiful dark red skin; ivory white flesh; extremely mild and sweet flavor; retains its crispness even after quite old and never becomes pithy. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 40c; ½ lb. 75c; lb. $1.25.

BUCKBEE’S CRYSTAL FORCING
The Quickest Growing White Radish.

Without an equal. Matures in 14 days. Pure snow-white in color—fairly crystal—so clear and transparent. Nothing is more tempting and pleasing than a combination of Buckbee’s Crystal Forcing and Buckbee’s Rapid Forcing when arranged in market or on the table. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

VICK’S SCARLET GLOBE
Its color is a rich scarlet. It has a small top and is a highly bred Radish. A grand forcing variety and excellent for sowing outdoors. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

EARLY WHITE TURNIP
Very handsome; of quick growth; sweet, juicy and tender. Skin ivory white; flesh pure white. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

EARLY SCARLET TURNIP
The famous standard variety. One of the finest, quickest, sweetest and best Radishes for early use grown. Rich, red color; flesh white. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

NEW ROSY GEM
Handsome Turnip Radish, a great favorite in many markets and for early planting outdoors. But little later than the preceding and will give entire satisfaction where extreme earliness is not the object. Roots slightly flattened on the underside, color very dark scarlet with a white tip; flesh white and of the best quality. One of the best, either for home or market use. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

NEW LEAFLESS

The extra early forcing Radishes lately introduced are remarkable for the small size of their leaves; they develop their roots in so short a time that the latter are practically in advance of the leaves. The character is still more noticeable in this new variety. The seed leaves, which are noted for great development from the start, are the only green parts to be seen on the plants until the bulbs are almost large enough for pulling. At that time one or two short leaves only are produced. The roots are of the shape and color of our Rapid Forcing Radish. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

EARLY SCARLET TURNIP WHITE-TIPPED
For many years we have found this variety to be the most popular of all among private gardeners, and unsurpassed as a Table Radish, where, by reason of the strong, contrasting colors of the root, it makes a most attractive appearance. The flesh is crisp, white and tender, and extremely mild. Roots smooth, fine bright scarlet, with clear white tips. Very early. Very popular for planting outdoors and a splendid market variety. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 45c; lb. 85c.
BUCKBEE'S Long and Half Long EARLY RADISHES

EARLY SCARLET OLIVE SHAPED

This variety has a small top and is very early, making it one of the best for forcing under glass. Roots ready to pull may be had in three weeks, and they remain fit for use longer than any other early variety. They are small, true olive shaped, smooth, very deep red in color; flesh is white, crisp, tender and mild in flavor. May be planted very closely owing to their small tops. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

EARLY WHITE OLIVE SHAPED

A splendid olive-shaped radish, pure white in color. Distinctly earlier than any other half long white sort. Good-sized radishes may be pulled in 20 to 25 days which are solid and crisp, of good flavor and first-class in every respect. A splendid companion to Early Scarlet Olive Shaped. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 95c.

PARIS BEAUTY OR HALF LONG DEEP SCARLET

A brilliant deep, rich red color, changing to a pure white in the lower portion. About 3 to 4 inches long, but thicker than the foregoing variety. The flesh is very white, crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

BUCKBEE'S NEW ICICLE

The Finest of All Radishes. The Earliest of the Long White Sorts

Ready for the table in about three weeks. The roots are perfectly white in color, long, slender and tapering in shape. They quickly grow to market size and remain tender during the entire growing period, and are quite as good when an inch in diameter as when only half an inch. The leaves are short, very few in number, and the roots can, therefore, be grown very closely together. The flesh is crisp, tender and mild in flavor. Admiringly adapted for growing under glass as well as in the open ground. Excellent for market and private gardeners. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 30c; ½ lb. 55c; lb. $1.00.

CARDINAL OR LONG BRIGHTEST SCARLET

The Earliest and Finest of Long Red Radishes

Of the same size and shape as the old and well-known Long Scarlet, but it is a few days earlier and the color is of a much brighter scarlet, with a distinctly clear white tip. It has a small top. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

LONG SCARLET SHORT TOP

The Very Best Long Red Radish

Our strain of this very popular long radish is the finest to be had on the market. In picture and quality, the very best long, brittle, brightest scarlet radish we are acquainted with. It matures beautiful radishes which are always brittle and sweet. 30 days from the sowing of the seed. Size and shape cannot be improved. It is undoubtedly the standard long red variety that will withstand the hot dry weather and remain firm and crisp and of fine flavor. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 90c.
BUCKBEE'S SUMMER RADISHES

BUCKBEE'S ROCKFORD MARKET

A World Beater Among Radishes

The Best Long Radish.

The extraordinary earliness is remarkable in view of the fact that it grows to such a large size and keeps in good condition for such a long time. The shape is regular, smooth and nearly conical; it grows to a very large size about twice as long as Brightest Scarlet. In brightness of color it is quite unique, being the handsomest scarlet we have yet seen in a Radish and tipped at the end of the roots with just enough white to present an ideal appearance. Crisp, tender and juicy. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 30c; ½ lb. 55c; lb. $1.00.

IMPROVED CHARTIER

A standard variety. The roots come to usable size very early, remaining hard and crisp three times as long as any other sort. Flesh, white, crisp and mild-flavored. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 90c.

NEW WHITE LADY FINGER

Beautiful in shape and the skin and flesh are pure snow white. Crisp, brittle and of rapid growth. Order early. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 90c.

WHITE STRASBURG

This grows to the largest size, but is usable when quite small, thus covering a long season. Four to five inches long and about two inches thick. Very white, crisp and tender. One of the finest of the large summer sorts. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ½ lb. 45c; lb. 90c.

BUCKBEE'S WINTER RADISHES

MAMMOTH CELESTIAL—Edible at all seasons of the year. It can be planted from Spring until late Fall, and keeps in perfect condition all Winter, while the other Winter Radishes are not sown not before June 15th. Roots frequently grow 11 to 12 inches in length and 6 to 8 inches in diameter, growing mostly above the ground. Skin and flesh pure white, very tender, crisp, juicy, mild. There is no other Winter Radish equal to it in quality. It is the most juicy, luscious of them all and it keeps its solidity, crispness and sweetness when all others have become pithy and worthless. This is a Radish to tie to and plant in every garden. It is a treasure and quality and beauty and quality will please everyone. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 30c; ¼ lb. 55c; lb. $1.00.

CHINESE ROSE—Chinese Rose requires about fifty days from sowing to be fit for the table. It is a beautiful, showy Radish with a bright scarlet skin, growing 4 to 6 inches in length and from 1 to 3 inches in diameter. The roots are cylindrical, somewhat larger at the bottom than on top, blunt at both ends. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

CALIFORNIA MAMMOTH WHITE—Pure white about 1 foot long and 2 or 3 inches through, tapering regularly to the tip. Flesh tender and crisp. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

ROUN BLACK SPANISH—The roots are from 3 to 4 inches in diameter, almost round and very black skinned. The flesh is white, very compact, pungent and well flavored. Keeps well all winter. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

LONG BLACK SPANISH—Later than the Round—Black Spanish, growing to 10 to 12 inches long, having a diameter of from 2 to 3 inches. The skin is black and the flesh white, firm and pungent. Grows well throughout the winter. A favorite sort with many people. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; ¼ lb. 85c; lb. 90c.

RADISH MIXTURES

Price each of the following varieties: Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. $1.00.

EARLIEST RADISHES MIXED—For family gardens, earliest varieties.

SUMMER RADISHES MIXED—For family gardens; we offer a mixture of all summer varieties.

WINTER RADISHES MIXED—Seed of the best white, black and rose-skinned varieties, which will produce all the best Radishes for Autumn and Winter use.
This delicious vegetable should be more generally grown. It surpasses for table use both parsnips and carrots, acquiring, after a good frosting, a decided oyster flavor.

**BUCKEES NEW LONG SEASON—** Also Carol Triumphant—The best variety to sow in Spring and also continuously all summer as it remains firm and fresh during the hot summer months. Plants are comparatively small of compact but progenitive growth. The leaves are thicker and heavier than those of any other sort; they are heavily crumpled and blistered, of dark green color, and do not wilt or run to seed as quickly as any other kind. Pkt. 6c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ½ lb. 35c; lb. 60c.

**MONSTROUS VIROFLAY—** Strong, quick grower, immense yielder, the largest spinach; the plants sometimes measure 2 feet in diameter with leaves 10 inches long and 6 inches wide at the base. Leaves handsome in appearance and deservedly popular. Pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 18c; ½ lb. 35c; lb. 60c.

**PRICKLY WINTER—** Very hardy and productive; slow to run to seed for fall and spring sowing. Pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 17c; ½ lb. 37c; lb. 55c.

**NEW ZEALAND—** An exceptionally fine variety available for use during the hottest months of the year. Quite different from any other Spinach, being of branching habit. Stems and leaves are thick, fleshy, tender and succulent; in color and flavor fully equal to the best Spinach. Very productive, sends out fresh growth after being cut continuously until frost. Should be in every garden. Large pkt. 6c; oz. 10c; 2 oz. 16c; ½ lb. 30c; ½ lb. 55c; lb. 1.00.

**SORREL**

**LARGE-LEAVED GARDEN—** The best garden variety, having large pale green leaves of fine quality. Pkt. 6c; oz. 8c; 2 oz. 15c; ½ lb. 29c; ½ lb. 50c; lb. 90c.

**SWISS CHARD or SUMMER SPINACH**

**LARGE RIBBED WHITE—** Also called Silver Beet and Sea Kale Beet—The leaves are used for greens the same as Spinach or beet tops; they are equal in quality and easier to prepare than Spinach, and far superior to beets. Nothing in the garden requires less care, and yet it yields a constant crop from July to winter and can be used all summer when spinach is not available. Pkt. 5c; oz. 8c; 2 oz. 12c; ½ lb. 20c; ½ lb. 45c; lb. 80c.

**LUCULLUS**—A new and distinct variety is a great acquisition. The stalks are as thick and broad as Rhubarb. The plants grow to a height of 2 to 2½ feet, and stalks are from 1½ to 1½ inches long and 1½ inches broad. Pkt. 6c; oz. 10c; 2 oz. 15c; ½ lb. 29c; ½ lb. 50c; lb. 90c.
BUCKBEE'S "Full of Life" SQUASH
SUMMER SQUASHES

BUCKBEE'S NEW GIANT SUMMER CROOKNECK
Standard Early—Splendid Quality.

Twice as large as the ordinary Crookneck, more warty and earlier. This combination makes it the most desirable for the market or private garden. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 53c; ½ lb. 65c; lb. $1.35.

BUCKBEE'S NEW MAMMOTH WHITE BUSH
Scallop or Improved Patty-Pan.

Great improvement over the Early White Bush. Very uniform in shape and wonderfully prolific. Fit to use very early, of a beautiful clear white color, and grows to a large size—12 to 15 inches across. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 53c; lb. $1.00.

MAMMOTH EARLY GOLDEN CUSTARD OR YELLOW BUSH, SCALLOPED
Standard early Summer variety. Nice to use in its green state and valuable for making pies when it has attained full size. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 53c; lb. $1.00.

NEW FORDHOOK
This Squash is very early, but in a cool, dry place it will keep as long as a Winter Squash. The outside color is bright yellow; inside color, straw yellow. The skin is so thin that it need not be removed for cooking. The meat in thick, dry and sweet and can be used at any stage of their growth. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 53c; lb. $1.00.

WINTER SQUASHES
NEW DELICATA
Rind orange-yellow, splashed and striped with dark green. The flesh is rich, dry and particularly fine. A desirable feature is its small size—not too large for an ordinary family; is wonderfully solid and heavy, the seed cavities being very small. It is also extremely early, maturing about the same time as the Summer Squashes, and for early use will doubtless supplant this class on account of its superior dryness and flavor, while its extreme solidity renders it fully as good a keeper as any of the Winter varieties. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 30c; ½ lb. 53c; lb. $1.00.

FAXON'S NEW BRAZILIAN
It is remarkably prolific in habit; quality dry and rich, without regard to the size, coloring or time of ripening of the fruit—something entirely different in this respect from any other Squash. Its valuable points are earliness, long-keeping and high table qualities. We are recommending it all for general use in the garden. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 53c; ½ lb. 65c; lb. $1.35.

PIKE'S PEAK or SIBLEY
One of the best keepers of the finest quality. Flesh solid, thick, sweet; orange color. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 53c; ½ lb. 65c; lb. $1.35.

BOSTON MARROW
A desirable Fall and Winter variety, very popular everywhere. Oval form; skin thin; when ripe, bright orange mottled with light cream color; flesh rich salmon yellow, fine grained, and for sweetness and excellence unsurpassed. We have an unusually good stock of this sort. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 53c; ½ lb. 65c; lb. $1.35.
BUCKBEE’S “FULL OF LIFE” HUBBARD SQUASH

Four varieties that have been perfected until they are now absolutely unequaled

NEW GOLDEN HUBBARD
First Offered by Us as a Novelty in 1901. Now Known and Grown in Every State in the Union.

This is a true Hubbard Squash, except in color, which is bright golden. The vine is a vigorous but not rampant grower and wonderfully productive, expending the energy derived from liberal fertilizing in the production of an increased number rather than of overgrown and coarse fruits, as some varieties are apt to do. It ripens its crop very early and uniformly, thus making it a certain cropper. The fruits are very uniform in size, weighing from 6 to 8 pounds, and in shape are like the Hubbard. Though maturing early, they are wonderfully long keepers, so they can be held over in good condition for spring use. The shell is warty, hard and strong, and a very beautiful orange red color, except for a bit of olive green on the blossom end. The flesh is deep orange and uniformly so to the rind, never having the green tinge so objectionable in other sorts. It cooks very dry, fine grained and good flavored. We believe this is the best fall and winter sort yet introduced and that it deserves to and will become a most popular variety. It certainly has no superior as a table Squash. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ¾ lb. 60c; lb. $1.15.

CHICAGO WARTED HUBBARD
A Standard Variety and a General Favorite.

The leader in many markets. Our strain of the above will produce what we consider the Ideal Hubbard for home or for market. For thirty or forty years this Squash has ranked first as a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Choicest stock seed of our own growing. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ¾ lb. 65c; lb. $1.25.

BLUE HUBBARD or MARBLEHEAD
Good Size, Splendid Keeper, Excellent Shipper.

Without question this is one of the best fall and winter varieties; flesh bright, creamy yellow; fine grained, very dry, sweet and delightfully flavored; keeps splendidly throughout the winter. Splendid for all purposes.

The shell is hard and heavily warty. Just wash it clean, cut in half, take out the seeds, bake twenty minutes and you will have the most delicious squash you ever tasted. Splendid for pies because of its sweetness and dainty flavor. Ripens in the fall and keeps as long as Buckbee’s Improved Hubbard. Pkt. 5c; oz. 12c; 2 oz. 21c; ½ lb. 10c; ¾ lb. 15c; lb. $1.35.

BUCKBEE’S IMPROVED HUBBARD

The Famous American Standard Winter Squash.

The Grand Old Favorite—This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow, fine grained, very dry, sweet and rich flavored; keeps perfectly good throughout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartiness of the shell, but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 5c; oz. 10c; 2 oz. 18c; ½ lb. 35c; ¾ lb. 60c; lb. $1.15.

BUCKBEE’S IMPROVED HUBBARD SQUASH

PRODUCTIVE
BEAUTIFUL
GOOD

Rockford Seed Farm H.W. Buckbee Rockford, Illinois Forest City Greenhouses.
THE Earliest Scarlet Tomatoes

BUCKBEE'S Earliest Market

The Earliest, Large, Smooth, Scarlet Tomato in Existence.

This variety bears fruit which in size, shape, color, solidity and quality compares favorably with the noted later kinds, and by repeated trials at Rockford Seed Farms and elsewhere has demonstrated that it ripens up a larger portion of its crop the earliest of any variety. It is, without question, the earliest good, large scarlet Tomato. Gardeners and Tomato fanciers will readily see the advantage obtained over their competitors by growing Buckbee's Earliest Market. This is the variety which will give them the opportunity to be first on the market with a large crop of beautiful large fruits, selling readily at good prices.

Compared with the well-known Earliana, Earliest Market is about a week earlier, the fruits are fully as large, smoother, have no hard core, while Earliana is often rough and has large seed cavities. Furthermore, Earliest Market is much more prolific. An excellent wonderful variety a trial, be sure to include it in your order for 1920. Pkt. 10c; oz. 25c; 2 oz. 50c; ½ lb. 95c; ¼ lb. $1.70; lb. $3.00.

MANSFIELD TREE OR MAMMOTH PRIZE

This wonderful variety grows from 10 to 15 feet in height, and will begin to ripen by July 4th and bear until killed by frost. Flesh firm and solid, almost seedless and of the most delicious flavor. Pkt. 5c; oz. 35c; 2 oz. 65c; ¼ lb. $1.25.

BUCKBEE'S NEW 50-DAY TOMATO

The Largest Fructed, the Smoothest, the Finest in Quality of all Extra Early Scarlet Tomatoes.

Originated on our Rockford Seed Farms. Called 50-Day Tomato because it produces large, ripe fruits on strong plants in 50 days from time they are set in the open ground.

The vines are short, very vigorous, enormously productive and ripen a very much larger crop at the early part of the fruiting season than any other extra early variety. The fruits are globular, always entirely free from cripples, wrinkled or cracked fruits, and weigh on an average about 5 oz. each, although many fruits as heavy as 6½ oz. each and over have been found in our fields. The color of the fruits is a beautiful bright scarlet. They ripen evenly, well up to the stem, have no hard core, small seed-cells, and are practically all heavy, solid meat of mild and most delicious sweet flavor. The skin is thin, but very tough, making it a splendid long-shipping variety.

Compared with Earliana, 50-Day is a much heavier cropper and its fruits of much larger size, smoother, of better quality, containing less seed and more meat. They are of better appearance and therefore better sellers; furthermore, they ripen practically as early. Fifty-Day will soon replace Earliana, and it should also be planted in place of second early sorts like Bonny Best and Chalk's Jewel, being earlier, more productive and producing fruits fully equal in size, beautiful appearance and of better quality; only Buckbee's Earliest Market is a few days earlier than 50-Day, but has somewhat smaller fruit. Price, pkt. 10c; oz. 35c; 2 oz. 60c; ½ lb. $1.15; ¼ lb. $2.00; lb. $3.50.

BUCKBEE'S NEW 50-DAY TOMATO
BUCKBEE’S “Full of Life” TOMATOES—Scarlet Varieties—Continued

NEW EARLIANA
An extremely early, smooth, bright red Tomato of good size and flavor. Is among the very first ready for the market, and not only remarkable for its earliness, but for its very large size, handsome shape and bright color. The vines are small but vigorous and very productive, bearing the fruits in clusters near the base of the plant. The fruits grow about 3 inches in diameter, have solid thick flesh of splendid quality and are excellent shippers. Go to Buckbee for the earliest strain. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. $1.30; lb. $4.50

BUCKBEE’S BONNY BEST
One of the very best early Tomatoes yet introduced; within a week as early as Earliana, but a much heavier cropper, producing Tomatoes of much larger size, more attractive in shape and color. The fruits are very smooth, round, very deep, solidly meaty, with only a few small seed cells; of bright deep scarlet color and of excellent quality. The plants are very vigorous, of robust growth and fruit continuously throughout the season. Very desirable for the home garden and one of the best for market gardeners whose trade demands extra fine fruits. As a canning sort it yields from 12 to 13 tons to the acre, grading as No. 1. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. $1.30; lb. $2.50.

NEW JOHN BAER
An extra early Tomato, large, smooth, bright scarlet fruits of excellent quality. Short, vigorous vines, enormously productive. Fruit larger, smoother, with less seeds than those of Earliana, but somewhat later.

For early crops the New John Baer Tomato is planted exclusively in many sections supplying large city markets.

Plants are compact in growth, with short, close-jointed branches, setting fruits very freely in the center. So freely are the fruits set that one plant usually will produce 1/4 to 1/3 of a bushel of uniform Tomatoes in a season. Most valuable for the market gardener and very desirable for home use. Pkt. 5c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.15; lb. $2.75.

THE NEW STONE
Buckbee’s Improved Strain
A standard main crop variety of red Tomatoes. Late, enormously productive, with very large, very deep solid and very smooth fruits of splendid shape and fine quality. Enormously favored for slicing and canning. The vines are large, vigorous and very productive. Buckbee’s Improved Strain of this old and valuable variety is the finest on the market, being larger, smoother, more uniform in size and shape and of brighter color than that offered by others. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 50c; ½ lb. $1.10; lb. $2.90.

BUCKBEE’S NEW EARLY BANQUET
The Earliest and Finest Very Large Scarlet Tomato.

The most valuable variety introduced in the last 30 years. As large and more productive and earlier than Stone, the king of all main crop tomatoes for the canner and market gardener.

This new variety which we introduced in 1918 has all the good qualities of the old Stone, it has the same large solid, smooth fruits, and its immense productiveness but it far excels it in earliness, beginning to fruit about 2 weeks earlier, hence, lengthening the bearing season. The fruits are brilliant, bright-red, often weigh a pound and a pound and a half each and are borne in large clusters averaging six and more to the cluster; all fruits are invariably of marketable size and have flesh of the richest, brightest red color, which makes them especially suitable for canning and catsup making. Price, pkt. 8c; oz. 35c; 2 oz. 65c; ¼ lb. $1.20; ½ lb. $2.15; lb. $3.75.
Buckbee's BEEFSTEAK
The King of All Main Crop Tomatoes

NOTHING in the way of a Tomato Creation has ever achieved in so short a time, the tremendously excellent reputation that has come to BUCKBEE'S BEEFSTEAK. Growers from every section of the wide world have sent in unsolicited praise, and the tests to which they have subjected it leave no room for doubt that it has all the qualities required in a Tomato. Its important features are:—Earliness, Large Size, Perfect Shape, Solidity, Handsome Color (which is rich red), Productiveness, Everbearing, Fine Flavor, Best Keeper, Splendid Shipper.

Without question—the King of All Tomatoes—and unqualifiedly Superior to any other variety grown, for market, for family use or canning. It is a sturdy healthy grower and is practically Everbearing, yielding enormous quantities of tomatoes always smooth and handsome until killed by frost. For a main crop there is no variety that can equal Buckbee's Beefsteak, and it is particularly desirable for large growers and shippers as it stands rough handling well, while its beautiful bright red color and handsome shape makes it very valuable as a market sort. It never fails to please every one, the amateur as well as the market gardener.

We supply over 150,000 of our customers with Buckbee's Beefsteak Tomato Seed annually. This speaks for itself, and substantiates our claim that Buckbee's Beefsteak is the "King of All Tomatoes," and the most extensively planted of any variety.

THE WORLD'S ONE UNBEATABLE TOMATO
We control the entire seed supply and offer the choicest "Full of Life" Seed of our own growing at the following reasonable prices. Send to Buckbee for the true "Beefsteak." Pkt. 10c; 3 pkts. 25c; ½ oz. 30c; oz. 50c; 2 oz. 90c; ½ lb. 81.75; 1 lb. $1.00; lb. $5.00, postpaid.

Ten Reasons Why You Should Plant Buckbee's Beefsteak Tomatoes
1—Introduced by us in 1904, and has never failed to give satisfaction.
2—Reputation. Less than 1000 packets were sold in 1904. Over 150,000 of our customers were pleased in 1919. This is a wonderful record.
3—Has been grown in every state in the Union with splendid results.
4—Large size; in fact, the largest smooth Tomato ever grown.
5—Matures early, and continues to set fruits until frost.
6—A splendid shipper, even when sent long distances.
7—Enormously productive; in fact, we claim and believe that you can raise more bushels per acre from Beefsteak than from any other variety.
8—Handsome color, which finds it a ready sale in any market.
9—Good keeper. Holds up a long time after picking.
10—Flavor unequalled, practically all meat, having few seeds.

True Originator's Stock Can Only Be Obtained from H. W. Buckbee
PINK or PURPLE TOMATOES
BUCKBEE’S NEW EARLY JUNE PINK

The Earliest Pink in Cultivation.

The earliest of the pink fruited Tomatoes, similar to the popular scarlet-fruited Earlana in growth of vines, shape and size of fruit and time of maturing. This is of exceptional value to market gardeners, who want an early, pink-fruited Tomato. The vines are compact and branch freely, bearing their handsome, good-sized deep pink fruits in large clusters continuously throughout the season until frost. It is very popular as a market and shipping variety and most desirable for the home garden. Our seed is superior to that commonly offered by others and will produce fruits earlier, larger, smoother, of better shape and color. Pkt. 5c; oz. 25c; 2 oz. 45c; ¼ lb. 80c; ½ lb. $1.45; lb. $2.75.

BEAUTY

- We have been perfecting this to a larger, smoother fruit than the original stock, and think we have made it one of the smoothest and best of the large purple sorts. Fruit large, uniform, very smooth; color purplish pink, flesh light pink, excellent flavor. The vines are large, vigorous, not subject to rust or blight and bear enormous crops until killed by frost. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. $1.15; lb. $2.25.

BUCKBEE’S IMPERIAL

Unquestionably the Most Productive of the Large Purple Tomatoes.

BUCKBEE’S IMPERIAL is fully as early as Beauty, but the fruits are much larger and heavier. They are very showy, smooth, of fine shape, beautiful, glossy, purplish crimson color, and command the highest prices in every market. The vines are hardy, vigorous and enormous croppers, single plants often yielding under field culture more than a bushel of fully grown, ripe fruits. The plants bear continuously until destroyed by frost. The flesh is firm, of the finest flavor; ripens evenly to the stem. The skin is thin but tough.

BUCKBEE’S IMPERIAL is the best purple variety to grow for the market. A splendid long-distance shipper and most desirable for the home market. Pkt. 10c; oz. 28c; 2 oz. 50c; ¼ lb. 95c; ½ lb. $1.70; lb. $3.00.

HENDERSON’S PONDEROSA or No. 400

Shape Perfect, Size Massive, Extra Prolific, Early and Late, Finest Quality

Monster Tomatoes, the largest of all Tomatoes, often weighing 2 to 3 pounds each. The fruits are oblong in form, deep through, of rich, bright solid meat, exceptionally free from seed and unsurpassed in sweet delicious flavor; used raw or cooked; a single Tomato enough for a meal. The vines are healthy and vigorous, medium early, and bear large crops continuously until frost. Buckbee’s strain is exceptionally fine, bearing smoother and larger fruits than any other one. Pkt. 8c; oz. 35c; 2 oz. 65c; ¼ lb. $1.25; ½ lb. $2.50; lb. $4.00.
BUCKBEE'S "Full of Life" TREE TOMATOES

The so-called Tree or Bush sorts are the most valuable Tomatoes for the home garden, where room is generally short, as they grow stiffly erect and have close, heavy foliage, allowing very close planting. Even if set as close as 12 x 12 inches apart, they will produce an abundant crop. All of these varieties are very productive and of the finest quality.

EARLY DWARF CHAMPION—Very early, hard to beat for home use. Color—purplish pink. Fruit smooth, symmetrical, solid and meaty. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. $1.30; 1 lb. $2.50.

BUCKBEE'S WORLD'S FAIR—The fruit is a beautiful golden yellow shade, good size, round and solid, with few seeds; flesh meaty and very sweet and mild. A handsome table sort. Pkt. 5c; oz. 25c; 2 oz. 50c; ¼ lb. $1.25; ½ lb. $2.30; 1 lb. $4.60.

BUCKBEE'S EARLY PROSPERITY—Prosperity is a Tomato of sterling worth, one that is bound to please. It is the earliest of the Tree Tomatoes, with large, perfect fruits; a SPlendid Keeper. An ENORMOUS YIELDER AND FINE SHIPPER. COLOR—BRIGHT SCARLET RED. Invaluable for the home garden, market garden or for shipping purposes. Pkt. 5c; oz. 25c; 2 oz. 50c; ¼ lb. $1.15; ½ lb. $2.90; 1 lb. $5.50.

NEW DWARF PONDEROSA
A cross between Dwarf Champion and Tall Ponderosa. The fruits are glossy, purplish-red, with solid, meaty, bright-red flesh; no core and but few seeds. They are fully as large as those of the Tall Ponderosa. Plants grow about 2 feet high, stocky and branching, bearing Tomatoes in great clusters from July until frost. Pkt. 5c; oz. 25c; 2 oz. 50c; ¼ lb. $1.25.

BUCKBEE'S NEW MASTERPIECE TOMATO

The Tomato that will surprise you for large size, handsome shape, beautiful rich crimson-purple color, thin and tough skin, solid meaty flesh, small seed cells with few seeds; rich appetizing flavor; smooth, clean fruit that does not crack, no hard or green core, and the true dwarf tree type; plants well balanced, strong and vigorous, phenomenally productive, bearing regular sized fruits continuously until frost. In fact, New Masterpiece is the SCHEME OF PERFECTION in the Tomato family, the largest fruited and best all-around dwarf growing sort. We have no hesitancy in offering "New Masterpiece" as a candidate for public favor, knowing a trial will convince the most skeptical it is the Tomato of Supreme Excellence.

We control the entire stock of this variety. Price, pkts. 5c; oz. 25c; 2 oz. 50c; ¼ lb. $1.15; ½ lb. $2.00; 1 lb. $3.50.
BUCKBEE'S "FULL OF LIFE" YELLOW TOMATOES

NEW GOLDEN PONDEROSA

A splendid novelty. Equals its famous parent, the red Ponderosa, in every respect but color. It possesses its large size, heavy meat and luscious quality, and in addition is of a striking rich golden yellow color, making a novel and most attractive table effect, especially when served sliced with a red variety. This is the largest of the yellow varieties in cultivation. The fruits are very uniform in shape and size, contain but little core and few seeds, and are a solid mass of succulent meat. Their skin is thin and they ripen the first fruit quite early, continuing to bear until frost. Pkt. 5c; oz. 35c; 2 oz. 65c; 1/4 lb. $1.25.

BUCKBEE'S GOLDEN PRIZE

New golden yellow sort. Flesh thick and of extra quality. Produces enormous crops of quite large fruits. Even if you should be prejudiced against a yellow sort, this will please you. Pkt. 6c; oz. 25c; 2 oz. 50c; 1/4 lb. 75c; 1/2 lb. $1.70; lb. $3.00.

MIXED TOMATO SEED

For the benefit of many customers who would like to try all kinds, we offer this mixture of many sorts. Pkt. 5c oz. 35c; 2 oz. 46c; 1/4 lb. 75c.

SMALL FRUITED TOMATOES

C U R R A N T R E D — Extremely small, exquisite flavor. Pkt. 5c; oz. 25c.

CHERRY RED — Fruit small, about five-eighths of an inch in diameter; perfectly round and smooth. Fine for pickles and preserves. Pkt. 5c; oz. 30c.

CHERRY YELLOW — Differ from Red Cherry in color only. Pkt. 5c; oz. 30c.

PEACH NEW ROSE — A most delicious and handsome Tomato with appetizing, fruity flavor not met with in any other variety. Pkt. 5c; oz. 35c.

BUCKBEE'S SNOWBALL. The New White Tomato—A grand new variety of recent introduction, which always gives the best of satisfaction. Color is pearly white inside, skin nearly the same shade, flavor unexcelled, flesh firm and solid. Almost a continual bearer, the fruit early and yielding throughout the season an abundance of fine Tomatoes which are 1 1/2 inches in diameter, round and smooth. No better variety can be found for table, pickling or canning purposes. Pkt. 5c; 1/2 oz. 35c; oz. 40c; 2 oz. 75c; 1/4 lb. $1.25.

PEACH NEW YELLOW—Same as New Rose Peach, but lemon-yellow. Pkt. 5c; oz. 25c.

PEAR RED—Bright red excellent flavor. True small pear-shaped. Pkt. 5c; oz. 25c.

PEAR YELLOW—Solid flesh of excellent flavor. True small pear-shaped. Pkt. 5c; oz. 35c.

PLUM YELLOW—Fruit 2 inches long, 1 inch across, with yellow skin and flesh. Pkt. 5c; oz. 35c.

RED PLUM—Same as Yellow Plum except color. Pkt. 5c; oz. 35c.

STRAWBERRY HUSK OR WINTER CHERRY—The fruit has a pleasant strawberry-like flavor and is much relished raw, but generally used for preserves, for which it is excellent. The small yellow fruits are enclosed in a husk, and when ripe are half an inch in diameter. Easy to grow, do well on any dry soil. Plants of low spreading growth; immensely productive. Pkt. 5c; oz. 30c.

MAMMOTH PURPLE GROUND CHERRY—Large fruits 1 1/2 to 2 inches in diameter. The flesh is green, the color of the skin is purple. When made into preserves has the appearance of Grenades. Pkt. 5c; oz. 30c.

STRAWBERRY HUSK—For the benefit of many customers who would like to try all kinds, we offer this mixture of many sorts. Pkt. 5c oz. 35c; 2 oz. 46c; 1/4 lb. 75c.

YELLOW PEAP—The illustration shows its exact shape and habit of producing fruit in numerous clusters. It is wonderfully productive, yielding double that of other sorts. Makes pickles and preserves of finest quality. Pkt. 5c; oz. 30c.

BURRANK'S NEW GRAPE—In habit of growth much like a Grape. The fruit is small, round, scarlet, 3/4 inch in diameter, of unusually sweet, rich flavor. The plants are of dwarf, stocky growth, with small, dark green potato-leaf foliage and bear their fruits in very long clusters. Pkt. 6c: 3 pkts. 15c; 1/2 oz. 55c; oz. 60c.

GOLDEN FIG—The illustration shows its exact shape and habit of producing fruit in numerous clusters. It is wonderfully productive, yielding double that of other sorts. Makes pickles and preserves of finest quality. Pkt. 5c; oz. 30c.

MIXED TOMATO PLANTS, SEE PAGE 88
Buckbee's Pedigree Tobacco Seed
Newest and Best Varieties

For cutters and wrappers, has long leaf of fine texture and makes fine, bright Tobacco. Pkt. 5¢; oz. 50c.

IMPROVED WHITE BURLEY—This variety is especially valuable to manufacturers, either for cut or plug Tobacco. Often used for wrappers. Leaf large, broad; cures a very desirable color. Pkt. 5¢; oz. 50c.

IMPROVED WHITE STEM ORONOKO—Fine for wrappers, cutters and smokers. Bright leaf of good width and length. Pkt. 5¢; ½ oz. 35c; oz. 60c.

IMPROVED YELLOW ORONOKO—For yellow wrappers, cutters and smokers. Cures easily a bright color, or can be cured for dark filler. It has good width and fine length of leaf. Pkt. 5¢; ½ oz. 50c.

KENTUCKY YELLOW—A very fine, large, broad-leaved Tobacco, suitable for stripes, dark fillers and wrappers. Pkt. 5¢; oz. 50c.

NEW CONQUEROR—One of the best Tobaccos for wrappers and cutters. Of a beautiful oval shape and makes the finest bright quality leaf. Pkt. 5¢; ½ oz. 35c; oz. 50c.

WARNE—A new variety for yellow wrappers. It is tough, silky; makes the finest quality leaf. Pkt. 5¢; ½ oz. 35c; oz. 50c.

STANDARD VARIETIES

BEATS ALL, OR LACKS—A heavy, dark type and makes a splendid mahogany. Good texture for dark wrappers and fillers. Pkt. 5¢; oz. 50c.

BLISS PRIOR—A large, long and broad leaf. Makes a rich, waxy Tobacco for black wrappers, strips and fillers. Pkt. 5¢; oz. 50c.

FLANNAGAN—Greatly used for making sweet fillers and mahogany wrappers. Pkt. 5¢; oz. 50c.

ONE BUCKER—A dark manufacturing sort; good breadth, long leaf and good, rich quality. Pkt. 5¢; oz. 50c.

STERLING—Early; makes silkiest of wrappers, brightest of cutters and sweetest of all. Pkt. 5¢; oz. 50c.

IMPROVED SWEET ORONOKO—Makes the finest fillers known. Cures a rich red, long and narrow leaf, tough and waxy. Pkt. 5¢; oz. 50c.

TENNESSEE RED—Excellent for dark strips. Pkt. 5¢; oz. 50c.

TUCKAHOE—Long leaf and extra fine; the perfection of a wrapper. Pkt. 5¢; oz. 50c.

YELLOW MAMMOTH—A new western variety of the export type. Large yielder that demands top prices. Pkt. 5¢; oz. 50c.

YELLOW PRIOR—Makes a fine wrapper, cutter, filler or smoker. Pkt. 5¢; oz. 50c.
BUCKBEE'S BEST TABLE TURNIPS

EXTRA EARLY VARIETIES

EXTRA EARLY PURPLE TOP MILAN
The very earliest Turnip grown. The tops of this variety grow very small and are distinctly strapleaved, growing very erect and compact. The roots are small and flat Turnip-shaped; skin purple on top of the root, clear white below. Flesh white, of mild sweet flavor. Pkt. 5c; oz. 15c; 2 oz. 28c; ½ lb. 50c; lb. 95c.

BUCKBEE'S EXTRA EARLY CAMEO
A grand acquisition from the land of the Czar, identical with Buckbee's Cardinal in every way except color, which is a beautiful pearl white. By all means include it in your order. Pkt. 5c; oz. 15c; 2 oz. 28c; ½ lb. 50c; lb. 95c.

BUCKBEE'S EXTRA EARLY CARDINAL
Called by some Scarlet Kashmyr—Very early variety, of magnificent shape, handsome appearance and wonderful keeping qualities. Outside skin brilliant cardinal red color, resembling a radish; the flesh is white, tender, crisp, of splendid table quality. It keeps well. Pkt. 5c; oz. 15c; 2 oz. 28c; ½ lb. 50c; ½ lb. 95c; lb. 91.75.

EARLY VARIETIES

EARLY SNOWBALL or SIX WEEKS
The earliest round variety. Roots of medium size, smooth, very beautiful and showy. Skin and flesh snow white. Very mild and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 50c; lb. 95c.

BUCKBEE'S RED OR PURPLE TOP STRAP LEAF
There is probably a larger amount of seed of this variety sown annually than any other turnip. As a market variety, without doubt the peer of all. Has single tap root and a bright purple top. Matures 8 or 9 weeks from sowing. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 50c; lb. 95c.

NEW GOLDEN GLOBE
Most delicious and sweetest of all yellow fleshed turnips, very superior for all general purposes. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 50c; lb. 95c.

NEW WHITE EGG
This is certainly one of the very choicest and finest varieties; producing beautiful egg-shaped roots with thin white skin. They are always firm, solid and of sweet flavor. A most profitable market sort. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 28c; ½ lb. 50c; lb. 95c.
BUCKBEE’S BEST TABLE TURNIPS—Cont’d.

Cow Horn

Sometimes called Long White. The roots are long, carrot-like, of cylindrical form but ending in a point and slightly crooked; they are 12 to 18 inches long by 2½ inches in diameter and grow partly above the ground. The color is pure white with a little shade of green on top. Well flavored and of rapid growth. Fine for Fall and early Winter use. Very valuable also as a soil enricher; can be sown broadcast in Fall on stubble ground, will grow on poor, wornout soils, and if plowed under will enrich it as much as a crop of clover. Pkt. 3c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

Improved Early Flat White Dutch

Excellent early garden variety and very much used. The roots are of medium size, very flat and the color white. Very early, sweet and tender. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

New White Flat Strap Leaf

Identical with Buckbee’s Red or Purple Top in valuable qualities—differing only in color, which is a beautiful ivory white. The leaves are few and grow upright. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

Yellow Aberdeen

A turnip of high merit. Very hardy, very productive; medium sized roots; late maturing. Unsurpassed for its long keeping qualities. The flesh is yellow, tender, sugary and very solid. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

Southern Seven Top

Cultivated extensively and with profit in the South for the tops, which are used and are most excellent for greens. It is very hardy, will grow all Winter, but will not produce a good root. In many sections of the South it is also a favorite green feed for stock, and its use as a pasture crop like rape is quite general. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

New Purple Top White Globe

A globular variety, very even in shape and of beautiful appearance. The flesh is white, of excellent quality and desirable for table and stock. Immensely productive, much more so than any flat variety. This variety is a good keeper and a fine market sort. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

THE BEST RUTA BAGAS

For feeding Stock in Fall and Winter there is nothing superior to Turnips and Ruta Bagas.

BUCKBEE’S GIANT

This is the finest of all Swedes, and a variety that should be sown in preference to all others.

Prize Winner Everywhere. This magnificent Ruta Bag, which we first offered in 1890, is unquestionably the most profitable to grow of all Swede Turnips. It is the largest of all, growing to much greater size than the American Purple Top variety, which is so much used in this country; it out-yields all other sorts; a crop of a thousand bushes and over per acre under careful cultivation, being a frequent occurrence; it is the most hardy of all Ruta Bagas, withstanding cold and drouth better than any other sort.

Bulbs are somewhat oval or slightly oblong in shape; purplish red above and bright yellow below the ground. They are quite smooth with but a small tap root and have a small top and very short neck and remain sound and good indefinitely. Flesh is of a beautiful yellow color, always sweet, tender, juicy and nutritious. Price: Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 70c; lb. $1.00.

New Monarch or Elephant

Very popular and is certainly a grand variety. Produces large, tankard shaped roots, with small necks, relatively small tops; skin dark purple above ground, yellow below. Flesh rich yellow, fine grained, of the best quality. It’s easy to harvest. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

Improved Purple Top Yellow

This magnificent Swede is the result of judicious selection; very hardy, productive and nutritious. A large, purplish top, yellow variety. Shape slightly oblong. Produces heavy weight per acre. Sweet and good keeper. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 50c; lb. 90c.

Buckbee’s Mammoth White Russian

One of the grandest sorts. Grows very large with single tap root, small top, short neck. Strong constitution; certain cropper. Will stand severest weather. Produces a very heavy weight per acre. Flesh white, hard, sweet, of better flavor than most yellow sorts. Fine for table and stock. Roots sound till late Spring. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.
Wonderberry Plant.

The Sunberry or Improved Wonderberry

THIS IS WITHOUT QUESTION LUTHER BURBANK'S GREATEST PRODUCTION; A LUCIOUS BERRY THAT MAY BE GROWN AND RIPENED FROM SEED IN ANY SOIL OR CLIMATE IN THREE MONTHS.

Fruit more like a great, rich, juicy blueberry than anything else. Blue-black in color, fine in flavor and unsurpassed for eating raw, cooked, canned or preserved in any form. It is easily the greatest garden fruit ever introduced, and equally valuable for the North, South, East or West, or, in short, any part of the world. Easiest plant in the world to grow. Succeeding anywhere and yielding great masses of rich fruit all Summer and Fall. The greatest boon to the family garden ever known. Everybody can have this grand fruit at small expense, as one or two packets of the seed will be sufficient for any ordinary garden and produce all the fruit wanted. THE QUALITY of the Sunberry or Improved Wonderberry is sweet and delicious when fully ripe. Like the grape it should have time to ripen well after turning black in fall sun. Skin, which may seem a little tough in a raw state, cooks tender. Seeds small, one-quarter the size of Tomato seed, and cook soft, and are not noticeable.

PRICE OF SEED. We can supply a limited number of nicely started plants at 10c each; 3 for 25c; 75c per doz. postpaid.

Strawberries from Seed

BRAZILIAN EVERBEARING

It will begin to bear fruit in about four months after seed is sown and continues to produce fruit until very late in the fall. Seeds sown in April will give ripe berries in July. The berries are not as large as the standard varieties, but are of superior quality and have the rich wild Strawberry flavor. The plant is everbearing in the true sense of the word, producing fruit all summer, and completely true from seed. It also makes a beautiful pot plant, will grow well in the house, and even fruit during the winter. Perfectly hardy everywhere and easy to grow. A packet of seed should produce 40 to 50 plants. Pkt. 10c; 3 pkts. 25c.

The Best Herb Plants

Peppermint.—From the leaves of this plant is distilled the well known peppermint of commerce. The green leaves and stems have the same effect as the essential oil, and to most persons the flavor is very pleasant. Hardy Perennial. Strong plants, each 15c; 2 for 25c.

Spearmint.—The plant which produces the mint of the markets and largely used for culinary purposes. It is also used in concocting the refreshing Mint Julep, so popular in some sections. Hardy Perennial. Strong plants, each 15c; 2 for 25c.

Holt's Mammoth Sage (Hardy and Everlasting).—Holt's Mammoth Sage is a great improvement upon the ordinary Garden Sage; its leaves being four to five inches long, clean and perfect. They are held well up from the soil, are rich in flavor and of great substance. Perfectly hardy; does not produce seeds. Each, 15c; 2 for 25c; Doz. $1.25.

Lavender (Old-Fashioned Sweet) The leaves are sometimes used for seasoning, but the plant is chiefly grown for its fragrant flowers which are used for the distillation of Lavender Water or oil, and used to perfume linen. Hardy Perennial. Strong plants, 9c each; 3 for 25c.
Buckbee's Reliable Vegetable Plants

DOZENS BY MAIL POSTPAID: HUNDREDS AND THOUSAND LOTS BY EXPRESS AT BUYER'S EXPENSE.

It is important that you order in early so that we may reserve your best plants for you; to be shipped as soon as ready. We can only supply the varieties of vegetable plants listed on this page.

We make a specialty of raising the most superior Grade of Vegetable Plants, especially Early Cabbage and Tomato Plants for gardening. Our plants are started early and grown under proper temperature, transplanted and thoroughly hardened; produced from the finest stock seed. By our perfect system of packing, we can guarantee the safe arrival by Express. No charge for packing or boxes. It is always best to send Plants by Express.

Time When Vegetable Plants are Ready for Shipment.—Early Cabbage and Cauliflower about April 25; Carrot and Pepper about May 15th; Late Cabbage and Late Cauliflower about June 1st; and Celery, June 25th.

Positively No Orders Filled for Less Than One Dozen of any Variety. DON'T ASK IT.

This List is Subject to Change Without Notice, owing to Damages from Bad Weather, Insects, etc.

Buckbee's Frost Proof Cabbage Plants Will Double Your Profit, Why?

There are a number of sea islands along the South Carolina sea coast where the soil and climatic conditions are just suited for growing tough cabbage plants during the winter and early spring. The seed is planted in the open field in the months of October, November, December, January and February. The plants make a slow growth, until at 8 to 10 weeks of age they are very tough and hard, the head being purple and the outer leaves a reddish brown. When in this condition they can be shipped to territory farther north and planted in the open ground a month to six weeks sooner than the home-grown hot bed or cold frame plants could be planted. These frost proof Cabbage plants will stand a temperature of 8 to 10 degrees above zero without injury; the land freezing, or the plants being covered with ice, slush or snow after they are planted will not injure them.

The top of the plant does not grow until your regular 'spring weather' has come, but the root crop is very large, and just as soon as spring weather starts, the established root growth assimilates the fertilizer in the soil, the plants grow fast, maturing headed cabbage 10 days to 2 weeks sooner than you can mature them from hot bed and cold frame plants. You know what the difference is; if your crop is matured and marketed before the general crop from home-grown plants is matured.

Asparagus Roots (See page 4)

Rhubarb Roots (See Page 62)
Wisconsin weighs acre on condition catch grain 35 barley try. varieties. It is the earliest barley known. It is six-rowed and beardless. The absence of beards makes it much more agreeable to handle in threshing and also makes it a safer and better feed for stock than bearded varieties. It is well known that many young pigs are lost annually by choking on barley heads. This beardless barley is without question the best nurse-crop which we have. It yields much less than other barley or oats, rarely lodges, and seems to be absent shade, although it never induces a meadow. Furthermore, being a very early variety, it can be cut and put out of the way before wheat and oats. It can be grown on any soil. Makes good yields on poor, thin lands and stands up well and yields big crops of 50 to 70 bushels on rich land. Success Beardless barley is a vigorous grower; has strong straw and heavy, well-filled heads. The grain has hulls like common barley and its quality is excellent.

Prices, postpaid, 10c; lb. 25c; 3 lbs. 70c.

ODERBRUCKER or WISCONSIN No. 55 BARLEY

A stiff-strawed, heavy-yielding, six-rowed, bearded variety. It is about the same as Manshury in time of maturity, manner of growth and general appearance, but has a plumper kernel and weighs more to the measured bushel. It has protein content of 15 per cent, or nearly double the amount of protein found in many other varieties. This makes it a very valuable feeding barley, which is an important consideration with the leading farmers and stockmen, who are now appreciating more and more the value of barley as a food for all kinds of stock, horses as well as cattle.

Prices, postpaid, per lb. 25c; 3 lbs. 70c.

FOR BULK PRICES BY EXPRESS OR FREIGHT SEE ORDER SHEET
SOY AND SOJA BEANS

Soy Beans are fast becoming a leading crop in all states of the Union. They can be grown as far north as corn and are always a sure, safe, and profitable crop.

Soy Beans grow erect, branching out in 4 to 6 stems near the ground, which attain the height of 5 to 6 feet. The branches are thickly leaved and pods from the ground to the top. On a single plant, as many as 200 pods, containing from 2 to 4 beans each, have often been counted.

They are more drought- and heat-resistant than alfalfa, grow on all soils, even on sandy and acid ones where clover fails. Growing erect, they can be easily cultivated with a seeder. 

Soy Beans are mostly grown for grain. This grain is equal in feeding value to oil meal and contains 5% times as much nitrogen as the Corn or Oats.

Sow hay is richer in protein than alfalfa and twice as nourishing as millet hay. Soy are largely used as a catch crop and can be sown as late as July.

As soy are valuable both for grain and forage, they are best mixed with fodder Corn, Millet or Sorghum. Soy Beans make a splendid legume pasture that can be used 4 to 6 weeks after sowing.

For Ensilage, Soy Beans are mostly used in combination with Corn or Japanese Millet, which makes the best of all silages, containing all the elements necessary for a complete balanced food for milch cows and livestock. If the right varieties are used, Corn and Soy Beans may be planted the same time, but the Japanese Millet being much earlier than either should be sown 1 to 2 weeks later. 

Two parts of Japanese Millet or Corn to 1 part Soy Beans for a perfect balanced ration, Corn and Soy Beans for ensilage are mostly grown separately, but if sown together, at the rate of one-half beans and two-thirds corn, they give splendid results. When Corn and Beans are grown together in the same rows there will always be a gain of 30% from one to two tons of silage per acre than when grown alone.

The sowing of Soy Beans in corn when intended for hogging down can be especially recommended; it has been a great success everywhere. In trials at the Iowa Station, pigs hogging down Corn and Soy Beans gained 20% more than those pastured on corn alone.

Soy are used with great profit as soil renovators, and are especially valuable on sandy soils. When the entire crop is plowed under they will add to the soil such a quantity of nitrogen alone which, in the form of commercial fertilizer, is worth over $18.00 per acre. This is twice as much as a crop of Cowpeas or Clover will furnish.

Soy will produce a crop without inoculation, but inoculated plants produce larger crops. It always pays to use inoculation seed when soy are grown for hay.

Sow the seed about corn-planting time when the ground is thoroughly warm, in rows 18 to 24 inches apart. The seed should be sown 1 to 2 inches deep; never roll. Cultivate two or three times, but never after the buds appear.

SOY OR BLACK BEAUTY—Matures in 11 to 12 weeks. Well adapted for all parts of the corn belt. Splendid for forage and for grain. For the retention of beans this is probably the best variety. It can support more than 60 bushels of grain and 5½ to 6 tons of straw per acre have been harvested of it. Postpaid, pkt., 10c; lb., 35c; 3 lbs., $1.00.

Buckbee’s Electric Tree Bean

The Earliest, Heaviest Cropping White Field Bean and the Best for Baking

Growing nearly 2 feet high, branching out in all directions, bearing its pods so high that they seldom touch the ground, enables it to stand a wet season without injury. Indeed, it has been noted during a season, while hundreds of our customers report yields of 40 and more bushels per acre under average cultivation. The crop matures in 80 days from planting. Seed medium sized, oval, pure white, very uniform, in size and shape. This variety is not only more productive, but also of much better quality and flavor than any other White Field Bean. They are very sensitive to both cold and wet, and should not be planted dry and warm.

Pkt., 10c; ½ lb., 20c; 1 lb., 35c; 3 lbs., $1.00.

FOR BULK PRICES BY EXPRESS OR FREIGHT SEE ORDER SHEET

FIELD BEANS

The common White Field Beans, We have selected a stock of this variety which ripens early. The plants are large, spreading with pods 3½ inches long, containing 6 seeds.

Pkt., 8c; ½ lb., 15c; 1 lb., 30c; 3 lbs., 55c.

WHITE TEPARY, FIELD BEANS

Grows and produces a Crop with Less Moisture than Any Other Plant Known. A Most Valuable Dry Farming Crop for the West

White Tepary Beans is a native of the Southwest but although it comes from the desert and has been raised in a country having a very light rainfall without irrigation, it thrives, nevertheless, to better conditions and we believe will be found profitable for general culture all over our country.

In the warm climate of the Southwest it ripens in about 60 to 65 days. It can be planted there after the grain is harvested and still make a crop.

It is hardy, will withstand a great deal of neglect and will quickly recover from drought when more favorable conditions set in. Profitable crops can be had on all soils where the rainfall is 8 to 10 inches and less.

In the Southwest, where these Beans have been grown, they produce very much larger crops than any other variety. At the Arizona Experiment Station, when ordinary Beans produced 1 to 2 pods to a plant, the Tepary Plants had as many as 20 pods each.

The Tepary can easily be distinguished from ordinary Beans by its more slender vines and thinner and smoother leaves. The pods are small, only about 3 inches long. The seed is smaller than that of the Navy, oval and of a pure white color.

As a food, Tepary is equal to any Bean known to commerce. When soaked in water they swell to twice their original volume and more than double in weight. A given weight will produce 49% more cans than will the same weight of ordinary Navy Beans. Its quick growth makes the bean also very valuable as a green manure crop. Drill in rows 2 to 3 feet apart and 3 inches apart in the rows. Sow 12 lbs. to an acre.

Postpaid, pkt., 8c; ½ lb., 15c; 1 lb., 30c; 3 lbs., 55c.

White Tepary.
VELVET BEANS

A valuable plant for the South, used for pasture, green manuring and green forage. It is the rankest grower of any of the legumes; 2 or 3 seeds planted 4 feet apart in rows 5 feet apart will literally cover the ground 2 to 3 feet thick with a mass of foliage and vines 20 to 25 feet long, no matter how poor the soil. It leaves a mulch on the ground that is very beneficial to the soil. 10 lb. per acre is recommended for effective growth.

100-DAY VELVET BEANS—The earliest and quickest-growing of all Velvet Beans, well adapted for districts further north than Velvet Beans ordinarly have been grown. They are to be preferred to Cowpeas, making two or three times as much growth and podding out before the latter. This legume is a valuable green manure, the sod that will show for years to come in your crop. Postpaid, pkt. 10c; ½ lb. 15c; lb. 35c; 3 lbs. 85c.

BUCKWHEAT

This desirable and profitable crop, should be more generally known. It is usually sown in the Northern States in July, and will fill up the vacant plots at a time when all other planting is past. Can be sown after a crop of Winter-wheat has died down, and will make a second crop maturing in about two months. It does well on light soils, gives a good crop even on land low in nitrogen. It makes a splendid flower food for bees and is valuable for a large grain yield, turned under it is a good soil improver; where weeds are thick, Buckwheat will smother them and put the soil in good condition for the crop to follow. It is prized as a poultry feed, being regarded as a stimulant to egg production, and when ground is profitably fed to hogs and other stock. It makes also a fine quality of flour—the kind that goes into the famous “Buckwheat Cakes.” 30 lb. to 1 bushel per acre. Postpaid, pkt. 10c; ½ lb. 20c; ib. 35c; 3 lbs. $1.00.

BUCKWHEAT

Entirely distinct from all other varieties. Has all the valuable characteristics of the old Japanese Buckwheat, and in addition is earlier and will yield at least one-quarter more per acre. On this account it can be grown farther north. It resists drought and is of a light-brown color, very rich in nitrogen. As much as 80 to 100 bushels to the acre have been harvested of this variety, making it very profitable to raise. More than a week earlier than Silver Hull. Choicest stock seed, postpaid, pkt. 10c; lb. 25¢; 3 lbs. 70c.

IMPROVED SILVER HULLED

This valuable variety is a decided improvement on the old black or gray sort. It is early, remains longer in bloom than others. A fine variety for honey bees. The grain is of a light-brown color, and is of the husk. rollers prefer Silver Hull, there being less waste, and it makes whiter, better and more nutritious flour than other varieties. It is more productive than the Japanese and the grain meets with a ready sale, bringing high prices. Choicest stock seed, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BUCKBEE’S GIANT JAPANESE

No. 25 or Primost Flax

This is a pure breed flax. It is selected from a variety which came to the Minnesota Experiment Station from the U. S. Department of Agriculture. Its record in the field test at the Minnesota Experiment Station showed an average yield for 3 years of 193 bushels, or 3.4 bushels more than the average of the best varieties. It is about 1 month earlier than common flax and is wilt-resistant to a considerable extent. This is no doubt the champion, best yielding variety of Flax. Our supply of this seed is limited. Send your orders early. Price, postpaid, pkt. 10c; per lb. 30c; 3 lbs., 85c.

BUCKBEE’S “FULL OF LIFE” FLAX SEED

No. 25 or Primost Flax

Quality Brush BROOM CORN

This is a big money making crop and can be grown successfully in all locations.

Broom Corn is planted only for its seed heads or brush used for the making of brooms. The seed makes as good feed as corn, but the crop of it is not very large. Broom Corn can be grown where corn grows and requires the same treatment. It should, however, be planted later, when the ground is quite warm, such as on July 1 or 15. A row of corn and a row of broom corn planted together will produce a double crop. Plant in drills 3 to 4 feet apart and 6 inches apart in the rows; 5 to 10 pounds are sown per acre. The demand exceeds the supply, which causes the present high prices for brooms. You will find a steady market for all the good Broom Corn you can grow.

BUCKBEE’S SUPERIOR EVERGREEN

No. 25 or Primost Flax

The Standard Tall Variety.

This is the most popular and most productive variety in the market. The original seed was brought from Tennessee, the acclimated, thus making the brush of better quality. In growing it, all imperfections cut out and the brush is raised and cultivated especially for brush. Sticks 8 to 10 feet high with long, straight brush, well fibred and of bright green color. Postpaid, pkt. 10c; ½ lb. 15c; lb. 25c; 3 lbs. 70c.

CALIFORNIA GOLDEN

Carefully selected and improved so that the brush is straight and long. Grows about 5 feet high, with straight brush, principally used for making whisk brooms. Very early. Postpaid, pkt. 10c; ½ lb. 15c; lb. 25c; 3 lbs. 70c.

OKLAHOMA DWARF

Grows about 5 feet high, with straight brush, principally used for making whisk brooms. Early. Postpaid, pkt. 10c; ½ lb. 15c; lb. 25c; 3 lbs. 70c.

PIÑON BEANS

This is the Bean that made New Mexico famous and added much to the wealth of the state; more than a thousand car- loads valued over $4,000,000 were shipped out of that state in a year. The crop per acre on an average brought about $10.00 to the grower. Large quantities of these Beans have also been grown in other southern and western states.

Pinto Beans are very hardy and as heat resisting as Toparies; they have done very well without irrigation on high altitudes with a light rainfall and wherever they can be grown, they produce larger crops than Toparies. They mature about 2 weeks later than Natives and have to be planted somewhat earlier. The dried Beans are larger than Natives and are brown striped in color; in flavor, they are much superior to the Navy or any other field bean. Postpaid, pkt. 10c; ½ lb. 20c; lb. 35c; 3 lbs. $1.00.
Buckbee's "Full of Life" Field Corn

We Grow and Furnish Corn Adapted for All Parts of This Country.

Seed Corn will not produce satisfactory results unless planted in localities with similar climatic conditions to those where it was raised. Corn, for instance, will mature in 90 days in Minnesota, and will require two to three weeks more in Minnesota, and Corn planted in the North should not be planted in the South unless for speeial purposes. For this reason we grow Seed Corn in different localities north and south and we state where each variety was grown and for what section it is best suited.

The Corn we offer is pedigreed stock, carefully bred, free from barren stalks, and the seed is tipped and bunted and of the highest vitality.

**FLINT VARIETIES**

**BUCKBEE'S EARLY NORTHERN**

The Greatest Yielding Flint Corn. Ears 10 to 15 inches long, of yellow color. Enormously productive, outyielding any other Flint Corn that we have ever seen in the far North. Matures exceedingly early, from 85 to 90 days being a fair average. The kernels are large and the stalks are of good height. The ears average two to four stalks. Growth is so rapid as to readily admit being cut by the harvester. The stalks grow very tall and leafy and make superb hay. Will yield the greatest value to the farmers of the far North, particularly the Dakotas, Northern Minnesota, Wisconsin, Michigan and the Canadian provinces. You will be pleased with this early and big-yielding Flint Corn. Postpaid, pkt. 10c; ½ lb. 25c; 1 lb. 35c; 3 lbs. $1.00.

**NORTH DAKOTA YELLOW FLINT**

This is the earliest Corn grown; matures in 70 to 75 days. Stalks about 7 feet high; ears about 8 inches long, growing 1½ feet above the ground. In localities where seasons are short and nights cool, it is the one variety which can be depended upon to yield a good crop. On good soil and in a favorable season, it yields 75 bushels per acre and more.

The Squaw Corn and also the North Dakota White and Gehu Flint, which last two are selections or hybrids of the Squaw Corn, are much planted now for hogging off, the ears growing very close to the ground. They could not be cut with the binder, but by turning the stock into the field and allowing it to harvest the crop nothing will be wasted. The labor of hunkering, cribbing, feeding, etc., is saved and the most pork is made with the least expense. The Iowa Experiment Station says: "The returns are equally as good in pork produced, where the hogs either feed themselves, as when it is hand-fed." The Squaw type of corns growing very fast, could be used for pasturing quite early in the season, and it is also very desirable where soy beans or rape are grown with the Corn, because these varieties could make better growth in the Flint Corn, there being less shade than in taller-growing varieties.

Cheroot seed stock, postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 50c.

**SANFORD'S WHITE FLINT**

This variety will mature in about 100 days. It is later than the other Flint Corns which we grow and is not suitable for the extreme northwest. However, it is a very popular variety everywhere else, especially in the eastern states, and is much used by dairymen for green fodder and for ensilage. The reason for its popularity is doubtless because it is more leafy than any other Flint Corn, has very tall stalks, and produces usually two to three ears to a stalk, which are 15 inches and more in length. These are smooth, of symmetrical shape and covered with rows of very large, white, plump kernels.

Cheroot seed stock, postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 50c.

**EXTRA EARLY KING PHILIP**

A Red Flint That Is Unbeatable.

Earliest and best variety of red Flint Corn. Ripens within 85 days from the time of planting. Ears 8-rowed, 19 to 12 inches long; very strong; makes a crop a foot before frost. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 82c.

**GREAT BRAZILIAN FLOUR CORN**

One of the Greatest Novelties Ever Introduced.

This Corn is inclined to stool, and one grain will produce usually more than one stalk. Each stalk bears 2 to 3 ears to 12 inches high, and beautifully white. It produces an abundance of fodder and is the best variety for ensilage. It yields 70 to 75 bushels of corn per acre, and the ears are fine for roasting, although not very sweet. It is good for cattle for more protein than any other Corn, and grown and boiled by the same process as wheat, gives a fine flour that will make bread, biscuits, etc., the same as the wheat flour, and good for hogging off. The small kernels in a hill and cultivate the same as other corn. For flour, plant 8 lbs. for fodder, 15 lbs. per acre. Postpaid, pkt. 10c; ½ lb. 20c; 1 lb. 30c; 3 lbs. 82c.

For Bulk Prices by Express or Freight, see Order Sheet.
BUCKBEE'S "Full of Life" SEED CORN

Dent Corns for the Northwest.

REGENERATED RED HACKBERRY OR IMPROVED NORTHEASTERN DENT

The earliest and hardest Dent Corn grown; it is the corn for the North, is very popular throughout the northwestern states and can be depended upon to mature in North Dakota, Northern Minnesota, Wisconsin, Montana and Manitoba; but it is also quite largely used in other states for early feeding, hogging down, and is very often grown with early soy beans for that purpose, and for late planting when other corn has been destroyed by frost or drought, as if planted as late as July it will generally mature before frost, it is also planted largely in drought-stricken sections of Kansas, Oklahoma, etc., where it is known as White Cap Red Butcher and often is the only variety that will make a crop, there, all home grown kinds being dried up.

The Red Hackberry, grown 6½ feet high, the ears are 7 to 10 inches long; setting 3 feet above the ground, they can be cut with the corn harvester; they have 10 to 14 rows of large red kernels with a yellow cap. This corn matures in 75 to 85 days and is very productive, yielding on an average 70 to 75 bushels per acre.

The stalks being shorter than those of later sorts, they can be planted close together; it is mostly grown in drills.

Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

MINNESOTA No. 13 or WIS. No. 8

This is the earliest yellow dent corn grown; largely grown all over Minnesota, Wisconsin, the Dakotas and Northern Michigan; there is no other Yellow Dent, fully as early, that is equally as productive.

The stalks are 7 feet high, are very leafy and furnish great quantities of fodder; there are usually two ears on a stalk which average 8 inches in length and have 16 to 20 rows of smooth, plump, rich yellow kernels. Minnesota No. 13 will ripen in about 90 days and yields from 60 to 80 bushels per acre in a good season. Our stock is true to type and ripens very early and uniformly.

Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

MURDOCK EARLY YELLOW DENT

The Murdock is the heaviest yielding Yellow Dent corn that can be grown in the Northwestern states; it is an ideal corn for Southern Minnesota, Southern South Dakota, the Southern half of Wisconsin and Northern Iowa. Murdock was awarded sweepstakes for the Northern zone at the National Corn Exhibition of 1909 and 1910 and received First Prize at the Wisconsin State Fair in 1914.

The stalks are 8 feet high, the ears setting 3½ feet from the ground. The ears are 8 to 9 inches long, 16 to 20 rowsed and have very deep, large grains, slightly rough which are sitting very compactly and solidly on the cob. There is no other extra early corn which grows as uniformly in type, size of ears and color as Murdock; a load of this rich, golden-yellow corn is a beautiful sight. Murdock matures in about 90 days of average corn weather and has a record of yielding a hundred bushels and more per acre.

Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

SILVER KING or WIS. No. 7

It may be called a small Silvermine not having quite so long a ear nor so deep a grain, but on the other hand it is 10 days earlier.

The ears are 8 to 9 inches long, very uniform in size and type and always filled out clear to the tips; the kernels are of good size, set compactly in straight rows and are pure snow white in color; the ear matures in 100 to 105 days. At the Wisconsin experiment station, Silver King gave an average yield on 22 acres of 93 bushels per acre.

The highest yield per acre of any corn grown in Wisconsin in 1913 was 137 6-10 bushels Silver King and in 1914, 132 bushels 64 pounds of Silver King.

Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.
Buckbee's New Early Prosperity

The best yielding 90 day Yellow Dent Corn for the Corn Belt

Every farmer in the Corn Belt who requires an early corn whether for late planting or for early feed, will find this variety most satisfactory. It will produce a big crop of corn, 20 to 25 percent larger than most other kinds ripening so early, and it also produces an abundance of leaves making it an ideal ensilage corn.

Stalks grow 7 to 8 feet high, setting their ears about 3 to 4 feet from the ground; the ears are about 8 inches long of fine golden-yellow color. This is a highly bred corn, yielding ears uniform in type, size and color and producing at least one ear but often two and three to a stalk; all barren stalks have been eliminated. The cobs are very thin and a bushel of 70 pounds ear corn makes more than 60 pounds of shelled corn. Postpaid, ptk. 10c; lb. 30c; 3 lbs. $1.00.

Buckbee's New Early Illinois

The best 90-day White Dent Corn for the Corn Belt

A fitting companion to Buckbee's New Early Prosperity, ripening in about the same time but yielding even better. We have grown these early Illinois corns on our farms here for several years, and the longer we grow them the better pleased we are with them; we have grown many different, highly praised varieties, but have yet to find their equals in earliness and yield for this section.

The ears of the Illinois corns are medium sized but of great weight and very solid; the size of the ears has no effect upon its yield and it is a fact that a large-eared variety is not necessarily a heavy yielder. The fodder, too, is medium sized. It gives big yields on rich soil and does well on poor landstands wet weather and drouth. Postpaid, ptk. 10c; lb. 30c; 3 lbs. $1.00.

Buckbee's Great Western Yellow Dent

This variety is about 10 days later than Early Prosperity but an entirely safe and sure cropper in Northern Illinois and the most productive yellow variety that is grown in this latitude; but it proved also one of the biggest yielders and most satisfactory variety in all other parts of the Corn Belt except the extreme northern. It is a wonderful corn. Many of our customers have planted it for years to the exclusion of all other kinds. It is strictly a thoroughbred corn always coming true to type and it is peculiarly free from barren stalks. It produces an abundance of foliage which makes it very desirable for fodder. The ears measure 10 to 12 inches in length, often weighing 1 pound or more; they are uniform in size and shape, with 16 to 18 rows of deep, pure golden-yellow kernels set on small-sized cob, which is well filled out over the tip and butt. The grains are of good size, long, flat and closely set together; and solidly fill the entire surface of the ear. This corn ripens in about 100 days. It is a corn for the grain farmer, feeder and dairyman; it can be depended upon to bring the highest market price or to furnish the most and the best feed for your cattle, sheep and hogs. Postpaid, ptk. 10c; lb. 30c; 3 lbs. 85c.

Buckbee's Great Western White Dent

A most marvelous variety of White Corn which will yield and quality surprise everyone who plants it.

Great Western White Dent will mature in about 100 days of good corn weather; compared with the Great Western Yellow Dent it is probably a few days earlier and gives on an average somewhat larger yields. We have sold this Corn for many years in all sections of the Corn Belt except the extreme Northern and wherever tried it has become a great favorite. It never failed to make a crop and in our experience we never found a corn white or yellow, that would give equally as good results under adverse conditions of weather and soil. The stalks grow about 7 to 8 feet high, many of the stems bear two and some three ears and there are no barren stalks. The ears are 10 to 12 inches in length and weigh 1 pound and over; they are uniform in size and shape with 16 to 20 rows of white kernels, which are very deep. The cob is thin and a bushel of ear corn will make not less than 62 pounds of shelled corn. Postpaid, ptk. 10c; lb. 30c; 3 lbs. 85c.

The Corns listed on this page are immense yielders, we are selling them at very reasonable prices; why take chances with common Corn which may yield only half as much as these thoroughbred strains?
BUCKBEE'S "Full of Life" SEED CORN

The Great Prize-Winning Show Corns of the Central and Southern Corn Belt

The two famous prize corns listed here, Boone County White and Reid's Yellow Dent, are the standard varieties for states in the latitude of Illinois and further south. More than 75 per cent of all corn raised in the cornbelt is grown of these two varieties, under these and other names. They are the greatest yielding white and yellow Corns known, have made records of bumper crops never reached by other sorts, and have won more prizes than all other varieties combined.

Our stock of these two varieties has been grown from prize-winning strains and was raised in Northern Illinois. These Corns are safe to plant as far north as Central Iowa. They mature at about the same time, requiring 110 to 115 days.

Reid's Improved Yellow Dent

Reid's Yellow Dent is the main Corn crop of the cornbelt. It outyields any other yellow variety and gave the highest yields of any variety tested at the Illinois Experiment Station for a period of over 20 years.

The stalks are 9 to 12 feet high, making an abundance of fine fodder. The ears are very large, 9 to 11 inches long and 7 to 8 inches in circumference, and have 20 to 24 rows of deep, wedge-shaped kernels, moderately rough and of light yellow color, which is characteristic of this variety. The ears are of cylindrical shape from butt to tip, with no lost space between the rows and tips, and butts are particularly well filled. The cob is red and small and easy to shuck. The ears are remarkably uniform in shape, size and color, and in this respect this variety is superior to all Corns. It shucks from 88 to 90 per cent of grain.

For Postpaid, pkt., 10c; lb., 50c; 3 lbs., $1.50.

Perfected Boone County White

The most popular and the heaviest cropping white Corn known. It is also the most highly bred Corn in the world. It does well on all classes of soil. On old corn land it should be planted in preference to yellow Corn. The root system is very extensive, deep growing, making the plant drought-resistant. The stalks are strong and exceedingly heavy from the ear down. They seldom blow down. The foliage is abundant, leaves broad and thick, furnishing an enormous quantity of forage. The ears are 9 to 12 inches in length, 7½ to 8½ inches in circumference, averaging a pound in weight, and contain 15 to 24 rows of exceptionally deep kernels of pure white color. They are solid as a rock, there being very little space between the rows; are of cylindrical shape, rounding off only within about an inch of the top, and are most uniform in size and shape.

For Postpaid, pkt., 10c; lb., 50c; 3 lbs., $1.50.

EARLY WHITE CAP YELLOW DENT

A very strong grower with heavy fodder and large ears. Matures in 90 days and is a good Corn for planting as far north as Southern Minnesota. The grain has a white cap and yellow body. Heavy yielder. For Postpaid, pkt., 10c; lb., 50c; 3 lbs., $1.50.

BUCKBEE'S EARLY GOLD MINE

This great variety will usually produce a crop in 90 days and has always matured in Northern Iowa. It can safely be planted in this section up to the middle of June and still be depended upon to ripen by the middle of September. It produces a magnificent yield, there generally being two cobbed ears to the stalk, with large kernels, cob well filled. For Postpaid, pkt., 10c; lb., 50c; 3 lbs., $1.50.

BUCKBEE'S GREAT LIBERTY FIELD CORN

This new variegated Corn combines more solid merit than any Corn in cultivation. Expert corn growers pronounce it a perfect field Corn as to yield, size of ears, color and length of grain and quality of fodder. For Postpaid, pkt., 10c; lb., 50c; 3 lbs., $1.50.

THOROUGHBRED LEANING

Deep golden color; striking uniformity. The ears range from 9 to 12 inches long. Kernels broad, thick, rather rough, rounded wedge-shaped. Red cob, medium in size. Matures in about 100 to 110 days. It is safe for planting in Central Iowa. For Postpaid, pkt., 10c; lb., 50c; 3 lbs., $1.50.
Fodder corn is a very valuable crop on the farm. It occupies a place that cannot well be filled by any other crop and should be largely planted by every farmer. Corn has no equal in yielding large amounts of valuable forage under a great variety of soil and climatic conditions. Used for forage, ensilage and hay, it furnishes the cheapest supply of healthy and nutritious food in winter, spring, summer and fall for dairy and cattle, for hogs and other live stock on the farm. When preserved as ensilage it can be stored perfectly in much less space than any other feed, keeps indefinitely and is always ready to feed. The growing of corn on a fair proportion of the farm will permit the keeping of more cattle and so increase the revenue as well as augment the manure supply so necessary to the maintenance of soil fertility. When other crops have failed and it is too late to plant anything else, fodder corn can always be grown and will furnish feed for the stock and make a paying crop. In selecting corn for fodder and ensilage, we do not recommend the very large, coarse and late varieties, which require a very long time to come to maturity, but according to our experience varieties which have medium sized fodder and ripen medium early in localities where they are to be planted are the most satisfactory. It is not necessary that the crop fully mature, but the nearer it comes to maturity the greater the food value and the more valuable it is to the stock feeding on it.

Sow in drills 3½ feet apart, using from 5½ to 6½ bushel per acre. The more seed is planted the more bulk, more stalks and leaves but the less grain will be harvested. About 20 pounds of seed is a good quantity to sow in the cornbelt; sown that thickly the plants will not get larger than a man’s thumb, look like a mass of leaves, have a high feeding value and are eaten without waste.

We offer the following corns for fodder and silo:

**Buckee’s Goliath Fodder Corn**
The World-Beating Fodder and Ensilage Producer. Surpasses Any Other Fodder Corn on Earth in Yield and Feeding Value.

A great variety which we have been developing for years. Thousands and thousands of our customers in every part of the country assert that it stands without a peer for feeding either in the green state or for silo purposes. It is very rich in nutritive and a wondrously immense yielder. Grows rapidly, is very strong, short, jointed, tall, in making an overfilling abundance of leaves and rich, juicy, sugary stalks, with a strong tendency to mature several ears. In favorable seasons, on good soil, it will produce from 52 to 68 tons per acre of the very best feed. We consider this corn the best and most economical fodder and silage variety for most parts of our country. It is grown in the North and South, even Manitoba is planting it largely, but it will mature only as far north as northern Iowa in an average season. The ears when fully grown are from 10 to 12 inches long and have very deep kernels of nearly white color. Postpaid, pt. 10c; ½ lb. 15c; 1 lb. 30c; 3 lbs. 85c.

**White Cob Ensilage Corn**
A Popular Standard Variety.

A pure white corn with a white cob of tall growth, short joints and leafy, giving an abundance of fodder; sweet, tender and juicy. It is a popular standard variety grown successfully in almost any latitude. Price, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

**Red Cob Ensilage Corn**
One of the Best Fodder and Silo Corns

Beyond doubt one of the best fodder corns, either to feed green, to put up for the silo, or to cure for hay. It is a pure white corn with a red cob. Grown out and the seeds sold, it is sweet, tender and juicy; has short joints and therefore an abundance of leaves, and grows to a fair height, but coarse-stalked. The seed is white and grown on a red cob, thus giving it the name. Price, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

**Sweet Fodder Corn**

One of the most valuable fodder plants in existence; every stock farmer should devote some land to it. The stalks are sweet, juicy, rich, tender and very nutritious, and the leaves are numerous, very large, broad and succulent. The plant contains more sugar and has a much greater feeding value than any other variety of corn, and whether fed as dry or green corn, is very palatable, and cattle and hogs will gladly eat every part of it. This Corn, if planted at the proper time in spring, will produce well-formed ears in any part of the Northwest before frost. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

**Edwards’ Genuine Legume Bacteria**

For Alfalfa, Sweet Clover, Red Clover, Crimson Clover, Japan Clover, Field or Garden Beans, Velvet Beans, Soja Beans, Field and Garden Peas, Sweet Peas, Peanuts, Vetches, Clover. The same cultures can be used for Red, Alkali or Crimson Clovers. All the other crops require a different culture for each as named. Be sure to state for what kind of seed the culture is wanted.

When new crops of legumes, such as alfalfa, etc., are to be sown, nitrogen-gathering bacteria, necessary for their successful growth, are usually not present in the soil and must be supplied either by seed inoculation or by the use of soil from an old field previously used for such crops. Edwards’ Legume Bacteria is, we believe, the best of the many Nitrogen Bacteria Culture for seed inoculation and the least expensive one now on the market.

The culture is applied to the seed before sown; the inoculation is done in a few minutes and the bacteria are carried into the soil and cause a nitrogenous infection of the roots when the germ plasm takes place.

Seed inoculation is not only used to secure good stand, but the crops also grow more vigorously, winter-kill less readily and in case of perennial legumes, like alfalfa, much larger crops are also harvested the second year than from uninoculated seed. Furthermore, inoculation increases the amount of nitrogen in the plants from 30 to 60 per cent., and increases, therefore, the value of the crops, whether they are used for feeding or green manuring. The cultures are good for 6 months after leaving our warehouse.

Price of Edwards’ Legume Bacteria Cultumes to inoculate 30 lbs. of seed, 75c; for 60 lbs. of seed, $1.40 postpaid.
BUCKBEE’S “Full of Life” OATS

Oats are a profitable crop if new seed of varieties that have merit is sown. There is no grain that demands a change of seed more often than Oats. Every second or third year the seed stock should be renewed, because if grown in the same soil and in the same neighborhood year after year they will deteriorate and become light and chaffy. Our prices are so low that every farmer can afford to buy new seed of our pedigreed, vigorous-growing varieties every year and harvest a paying crop.

BUCKBEE’S ILLINOIS

Introduced by us several years ago. At that time it was generally considered "the best seed of all Oats" and although many new varieties have since been offered, some of them with heavier grain and later maturating, we have outyielded the Illinois on some soils and under certain conditions and in some earlier varieties which were more productive in some sections but have a smaller berry not wanted by some farmers, we believe most of our customers will continue to sow the Illinois, which is an all-around good early oat, with good-sized grain, as a sure cropper year in and year out, adapted to the rich soils of the prairie states.

WHITE KHerson (Iowa No. 103)

A new production from the Iowa Experiment Station, which won the "Sweepstakes on all Oats" at the International Dry Farming Congress at Wichita, Kansas, in 1914. It has been tried largely in the last few years in the western and in the cornbelt states, and wherever grown it has outyielded all other varieties in the same neighborhood by about 20 bushels per acre. We do not seem to have a superior variety which, therefore, to offer it as the best Oats for the west and the cornbelt as yet produced.

White Kherson was bred from Yellow Kherson, or 60-day Oats, at the Iowa Experiment Station. It has all the good qualities of the old variety, is just as early, has strong, stiff, short straw, branching heads with very numerous small but exceptionally heavy berries with thin hulls, and in addition to this the new Oats has a better color, being pure white, and is a very much better yielding variety.

White Kherson matures earlier than the hot and dry season sets in and before blight and rust appear. This accounts for some of its big yields. It has also proven to stand up extra well on heavy, rich soil, and wherever the ground is rich and the Oats lodge or run to straw these new Oats will prove of special value. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

SILVERMINE

One of the most popular varieties and very largely grown in all central and western states. It is a medium early Oats, maturing about a week ahead of the Swedish Select, and is very hardy and prolific. Has long, stiff straw and grain of the clearest white color, usually plump and heavy with a reasonably thin hull. It is a pure cropper; will thrive under unfavorable conditions. It has the tendency to rust or lodge unless soil is very rich. Many people who have raised Silvermine think them the best Oats on earth. It is the standard variety for main crop in most parts of the United States. At the Experiment Station in Wooster, Ohio, the 10-year average yield of Silvermine was 61.98 bushels per acre, or the third best of 21 varieties, about a bushel less per acre than the highest yielder, Silverine has a record of yielding immense crops of 160 to 160 bushels per acre in favorable years. Our seed is very choice, pure stock. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

IMPROVED WHITE RUSSIAN

A distinct variety, being a side or horse-mane Oats. It originated in Russia, but has become thoroughly acclimated and is a great favorite everywhere. White Russian is as nearly rust-proof as any Oats can be. It is a medium late variety. It is much appreciated for its rugged hardiness, enabling it to withstand disease, insects, cold, unfavorable weather. It yields large crops. The berries are longer and larger than those of other varieties. It ripens with the Blue Stem Wheat. It has two kinds make a good combination for succotash. This variety is much grown and a very heavy yielder in the North. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

REGENERATED SWEDISH OATS

An improvement of the well-known Swedish Select; has given larger yields in this country than the old variety; it stools heavier, grows more vigorously, resists drought better and is free from rust and smut. In short, it possesses all the good qualities of the Swedish Select in a much higher degree than its parent.

Our stock is grown from the original’s seeds and is very plump, heavy and of bright color; pure, clean and entirely free from weeds and other grasses. It is ahead of the English stock. It is ahead of the Swedish in this country, and is therefore acclimated and will give much larger crops. Regenerated Swedish has been widely advertised and is one of the most popular Oats grown in this country. It grows on nearly all soils, except when very rich. It is especially well adapted to upland soils and seems to do better on poorer ground than any other variety.

The straw is coarse, very stiff and noted for its power to resist lodging. The heads are large, branching and filled with very large, thick grains of bright color. They are medium late. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

EARLY BLACK PROLIFIC TARTARIAN

Heaviest Cropping Variety of Pedigreed Black Oats.

Tests made by many progressive farmers convince them that these Black Oats are more reliable croppers than White Oats. They are very early. The grain is short and plump and of the best quality. Early Black Prolific Oats are practically drought-proof and rust-proof. The straw is stiff, the heads are long and the grain yield is heavy. These Oats are the best to grow on rich and also on cold and damp soil. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 60c.

WHITE KHerson (Iowa No. 103).

Silvermine.

Regenerated Swedish Oats.

Early Black Prolific Tartarian.
The Famous Quaker Oat

Buckbee's Famous

Quaker Oats

The Greatest Oats in the Country.
The Earliest of All Large Grained Oats.

Quaker Oats is a spreading variety, throwing out its heavily laden branches on all sides. It has thick walled, stiff straw of medium height, that carries the head without lodging, withstanding winds and storms better than most other varieties.

The grains of Quaker Oats are short, very plump and heavy, the heaviest of any oats we know of, generally weighing from 45 to 50 lbs. per measured bushel. They have a thin skin and heavy meat, and in addition the color is a fine white as bright and clean as a new silver dollar. Such oats grade higher on every market than common stock and usually bring a cent or two a bushel more for the crop, which will more than pay the extra cost of seed, not to say anything of the extra yield which may be secured.

These oats are medium early, a few days later than Silvermine. We have grown them now for many years, but never noticed a sign of rust, smut or blight on the straw.

The plants do well on most soils, standing up well on rich land, and owing to their strong root system, they are the best Oats for thin, upland ground and the best drought resister in dry seasons. They have been grown with great success in all parts of Northwest and in the central and eastern states. They are of strong, vigorous growth and remarkable for their great stabling capacity, which accounts for their wonderful yield; often more than 50 strong, healthy stems, each carrying a large head filled with heavy grains have been counted coming from one single seed. Yields of one hundred bushels per acre have been quite common of Quaker Oats, but even crops of 300 bushels and more have been harvested on well prepared land in a favorable season.

Sow Buckbee's Quaker Oats and do not miss your chance to get a start with this famous variety and harvest more Oats to the acre than ever before and Oats which would always bring a high price in every market, if you do not sell them for seed.

Our stock of Quaker Oats is very fine this year and the seed compares very favorably with that of any other variety. Ask for sample.

Cheapest Pedigreed Seed of our own growing. Postpaid, pkt., 10c; ½ lb, 15c; lb, 25c; 3 lbs, 70c.

Winter Oats

Winter Oats are of the greatest value for the states south of the Missouri line. They are grown there for fall and spring pasture and for grain. They also generally stand the winter everywhere in our state and in the southern half of Iowa. Our Winter Oats grown in the North are incomparably superior to southern-grown stock. They are more hardy, earlier, less susceptible to rust, of more vigorous growth, stand up better and are more productive.

Texas Red Rust-Proof Winter Oats

A standard favorite not only in Texas, from which it derives its name, but all through the Southern States. Texas Rust-Proof Oat has a very heavy berry, nearly every one has a distinctive beard, protecting it from the sun and enabling it to stand extreme heat. It has short, strong, stiff straw and does not lodge easily. These oats are much used on light, sandy soils and also for low grounds where Oats are likely to rust. These oats can be sown in Fall and Spring. Sow 2 bushels per acre. Postpaid, pkt., 10c; lb, 25c; 3 lbs, 65c.

Winter Turf Oats

Sometimes called Virginia Gray. This splendid variety has proven immensely popular and satisfactory wherever it has been grown. When sown early in fall and the roots thoroughly established in the soil, it is very hardy and will stand a great deal of cold. Its stabling propensities are remarkable, and on good soil yields from fifty to seventy bushels per acre. The grain is of a dark gray color, with a distinct stripe and weighs heavier than the ordinary oat. These oats can also be sown in Spring and if sown very early, will outyield ordinary Spring Oats. Sow 1½ to 2 bushels per acre. Postpaid, pkt., 10c; lb, 25c; 3 lbs, 70c.

New Appler Winter Oats

This is undoubtedly one of the best all round Oats for planting in the Fall as they afford a valuable pasture the greater part of the Winter and early Spring, thus reducing the quantity of other necessary food. They may be harvested early enough in the Spring for other crops to follow. This variety spreads and stands out enormously, especially when grazed, and if stock be taken off by March will yield a large crop of grain. This is a very popular Oat in the South, especially on the light sandy soils of the coast region. Prices, postpaid, pkt., 10c; lb, 25c; 3 lbs, 70c.
BUCKBEE'S NORTHERN GROWN COW PEAS

Cow Peas grow on almost all soils and thrive on land too poor for clover. They are drought-resistant, stand the heat of the southern summer and are largely grown in the South, but the early varieties listed here are of greatest value for all northern states.

BUCKBEE'S EXTRA EARLY MICHIGAN FAVORITE—Mature in about 50 days. In quality and productiveness it is equal to any of the well-known standard varieties. 8 to 12 tons of excellent fodder or 20 to 30 bushels of seed per acre is often harvested. Much used as a fertilizing crop. Postpaid, ½ lb. 20c; 1 lb. 55c; 3 lbs. $1.00.

NEW ERA—Upright, remarkably prolific. Ripens in 60 days. Yields 2 crops in the South. Postpaid, pkt. 10c; ½ lb., 15c; 1 lb., 35c; 3 lbs. 55c.

IMPROVED WHIPPOORWILL—Upright. A week later than New Era, a favorite in the South and Middle West. Very productive. Much used for pasture and fertilizer. Postpaid, pkt. 10c; ½ lb., 15c; 1 lb., 25c; 3 lbs. 70c.

BRABBHAM—The most valuable Cow Pea today. One of the most productive in yield of forage and of shelled peas. Of upright growth, retains foliage exceptionally well. An early variety and very similar to a green bean, but is bound to supplant this variety on account of its wilt-resisting qualities. Postpaid, pkt., 10c; ½ lb., 15c; 1 lb., 30c; 3 lbs., 35c.

PROLIFIC BLACK EYE—One of the earliest; will mature seed in about 60 days. Of the same value as a forage and soil improving crop as the other varieties, but also grown for table use. Postpaid, pkt., 10c; ½ lb., 15c; 1 lb., 25c; 3 lbs., 70c.

BUCKBEE'S NEW EARLY SNOWFLAKE FIELD PEAS

BUCKBEE'S NORTHERN GROWN FIELD PEAS

For the northern states there is no crop of greater value than Field Peas. They can be grown under most any condition of soil or climate and yield a profitable crop no matter for what purpose it is grown for pasture, soilage, hay, grain or fertilizer. Field Peas make their best growth when the weather is cool and the earlier they are seeded the better they will do. When sown in March or April in the Northern states they will be ready for cutting the latter part of June, coming before any good nutritious feed suitable for soilage or hay.

Field Peas are sown alone at the rate of 3 bushels per acre, but the most satisfactory way has been found to be, if sown with oats, about a bushel of peas to a bushel of oats per acre.

When clover or grasses are frozen out or are liable to fall an account of dry weather, then peas and oats will furnish the quickest returns of any forage plants and in feeding value are equal to clover hay. The feeding may commence as soon as the oats are headed out and the peas are in bloom. When the grain reaches the dough state the crop has attained its maximum feeding value, and if wanted for hay it should be cut at that time. If grown for pasturage, as soon as the peas are fully developed the stock can be turned in. The best way of seeding Peas and Oats is to plant the peas under not more than 4 inches deep; then sow the oats in the usual way.

BUCKBEE'S NEW EARLY SNOWFLAKE—By far the best Field Pea. Immensely productive. Height of vine 3½ to 4 feet. Dry pea is of a beautiful pearly white color. Price; postpaid, pkt., 10c; ½ lb., 15c; 1 lb., 35c.

BANGALI—An exceptionally heavy cropper for an extra early Pea. It is easily a week to ten days earlier than the famous June Pea, and two to three weeks earlier than the Canada Pea. The vines are very heavy. The Peas are somewhat wrinkled, very heavy and a beautiful light green in color and decidedly distinct from the W. Canada variety.

Aside from its drought resisting character and big cropping habit, it is a very early variety, which is a fine quality in a Field Pea. Prices, postpaid, pkt., 10c; ½ lb., 30c; 1 lb., 90c.

IMPROVED WHITE CANADA FIELD—A well known and standard variety. Prices, postpaid, lb., 30c; 2 lbs., 80c.
Spring Spelts or Emmer

A valuable grain closely related to wheat; the kernels, however, are tightly enclosed in a hull, which is not easily removed. Spelts has more hardy and is well suited to the climate of the United Kingdom and more northern areas of North America. It is a staple crop in many European countries and is often used in traditional breads and baked goods.

New White Bearded Winter Spelts

This Winter Spelts has the same characteristics as Spring Spelts. As the name indicates, this variety is well adapted to cold climates and can be grown in areas where Winter Wheat can be grown. It is more cold hardy than Winter Barley and Winter Oats, and we especially recommend it for growing in areas with severe winters. It is not affected by rust like many other grains. Winter Spelts is as hardy and resilient as any other winter grain and is well suited to the climate of the United Kingdom and more northern areas of North America. It is a staple crop in many European countries and is often used in traditional breads and baked goods.

MAMMOTH SPRING RYE

Spring Rye is entirely distinct from Winter Rye, and we call particular attention to the fact that we offer genuine Spring Rye. It can be sown in Spring a little later than other spring grain and a crop harvested the same season; on that account it is much used as a catch crop, especially where Winter Winter has been killed out. There is an increasing demand for this variety; it is a very profitable farm crop to grow anywhere, and farmers are finding out its value. It does not grow quite as tall as Winter Rye, but yields as well and is of fine quality. On good ground the yield is never less than 46 bushels per acre. As it does not stoln as much as Winter Rye, not less than 2 bushels are usually sown per acre. Postpaid, ptk. 10c; lb. 25c; 3 lbs. 70c.

WINTER RYE

The hardest and earliest grain crop grown; is a grain crop for sandy soils; in fact, the standard of the farmer in very sandy sections. Winter Rye is one of the most valuable grain crops for all sections of the country, and it can be depended upon when other crops fail. It can be grown in areas where Winter Barley has been killed out. Winter Rye can be sown in Spring a little later than other spring grain and a crop harvested the same season; on that account it is much used as a catch crop, especially where Winter Barley has been killed out. There is an increasing demand for this variety; it is a very profitable farm crop to grow anywhere, and farmers are finding out its value. It does not grow quite as tall as Winter Rye, but yields as well and is of fine quality. On good ground the yield is never less than 46 bushels per acre. As it does not stoln as much as Winter Rye, not less than 2 bushels are usually sown per acre. Postpaid, ptk. 10c; lb. 25c; 3 lbs. 70c.

Giant Winter Rye

A heavy crop, with stiff straw, large heads and plump, heavy grains. Postpaid, ptk. 10c; lb. 25c; 5 lbs. 70c.

New Rosen Winter Rye

The famous Ryan, originated by the Michigan Experiment Station, has now proven its superiority over all other winter rye. It is a stiff straw, and very hardy variety, and is well suited to the climate of the United Kingdom and more northern areas of North America. It is a staple crop in many European countries and is often used in traditional breads and baked goods.
**SPRING WHEAT**

**NEW MARQUIS**

Ten days earlier and yields 10 bushels more per acre than any other hard spring wheat known.

Pronounced by both farmers and millers the finest spring wheat for the Northwest and it is also the best heardest variety of spring wheat that can be raised in the Cornbelt. This wheat has very stiff straw of medium height, which does not lodge easily, the heads are hard and quite heavy, have smooth yellow chaff; the kernels flinty, more round than those of other spring wheats, thicker and more plump, and of dark red color. Marquis weighs 64 to 68 lbs. per bushel, a five-year average yield at the Brandon, Manitoba experiment station was 64 bushels per acre. Almost without exception it will grade No. 1 Hard, and is superior to any known variety in milling and baking qualities. Postpaid, pkt. 10c; lb. 35c; 3 lbs. 85c.

**EARLY JAVA**

A very early hearded variety and one of the most prolific ones, about 10 days earlier than Velvet Chaff or other standard varieties and about as early as winter wheat. One of the heaviest varieties to grow in the Cornbelt. Very stiff straw, long well-filled heads with round, plump grains of the best milling quality. Sow 1½ bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

**MACARONI, KUBANKA OR DURUM**

This is the host of the Macaroni varieties for milling purposes. It is very early and very productive, generally yields 10 to 20 bushels more per acre than any other spring wheat. The heads are hearded, the grain very large, hard, glossy and of yellosih color. Sow 1½ to 2 bushels per acre. Postpaid, pkt. 10c; lb. 35c; 3 lbs. 70c.

**VELVET CHAFF**

This is a hearded, smooth chaffed variety, very hardy and a big yielder. It yields from two to ten bushels more per acre than the Blue Stem. It is early in maturity, from 110 to 115 days. The Minnesota Experiment Station reports a 14 year average yield of 26.7 bushels. Pkt. 10c; lb. 35c; 3 lbs. 70c.

**BLUE STEM MINN. No. 169**

One of the heaviest yielding varieties for the Northwest; originated at the Minnesota experiment station. Fine, plump, grains. Large bald heads. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

**WINTER WHEAT**

Winter Wheat is the best paying crop on the farm; wherever possible it should be grown instead of Spring Wheat, for if the right varieties are used it will give one-third larger yield and it is sure a crop.

**BUCKEES RED TURKEY**

This is a hearded variety and is the hardest known; it can be planted in almost all parts of the Northwest and is also the best adapted sort for the states of Nebraska, Kansas, Oklahoma, etc. It is one of the earliest varieties of winter wheat and matures before rust and chinch bugs appear. The heads are long, well filled with large, flinty grains of reddish-amber color equal to No. 1 Hard spring wheat. Postpaid, pkt. 10c; lb. 35c; 3 lbs. 85c.

**HARVEST QUEEN**

A beardless variety, white chaff, golden-yellow grain; a splendid yeldier; while not as hardy as our Red Turkey, it has been grown with good success in Southern Minnesota. This and Harvest King are the hardestest varieties of beardless winter wheats known, giving excellent results in all parts of the Cornbelt. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

**HARVEST KING**

Another beardless or bald variety, red chaff, very large dark amber-colored grains larger than most other bald varieties, of splendid milling qualities. The earliest hardless wheat, very hardy. Often sold as Red Cross wheat. One of the most productive kinds in the Cornbelt, quite hardy as far north as Winona, Minn. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.
GRAIN OR NON-SACCHARINE SORGHUMS

These varieties are more resistant to heat and drought than Corn, and are therefore more profitable to grow, where—because of drouth, hot winds and shallow soils—Corn is not reliable. They yield as much grain as Corn, make excellent fodder and silage and will grow on any soil where Corn will, and on many too poor for Corn. They are unsurpassed as a grain and fodder crop, for dry, alkali lands. The feeding value of the grain, forage and silage of these Sorghums is about equal to that of Corn.

They should be planted about 10 days later than Corn, as they do not withstand the cold and dampness of Spring like Indian Corn, but are strictly hot weather plants. Sow for grain, 4 to 8 lbs.; for silage, 8 to 12 lbs., and for hay, 1 to 2 bushels per acre.

BUCKBEE'S EARLY KAFFIR CORN

The Standard Grain Sorghum and the Best for Forage and Silage.

Early Kaffir Corn not only produces excellent forage and silage, but the seed is, as a grain, almost if not equal to Indian Corn, while it is probably grown on land high and low, rich or poor and whether the season is wet or dry.

Plants attain the height of from 5 to 8 feet, growing upright. Stems have a stalky tendency and produce numerous wide leaves; they do not harden as do many other Sorghums, but keep green, brittle and juicy, making the best silage or forage, either green or dry, of any of the grain Sorghums, and are highly relished by all stock.

Early Kaffir is grown more extensively than any other grain Sorghum, and it usually out-yields all other varieties and also Corn for forage as well as grain. It does well in most parts of the corn belt.

Early Kaffir matures in about 110 to 115 days. Very choicest “Full of Life” seed of strong germination. Postpaid, pkt., 10c; ½ lb, 18c; lb, 30c; 3 lbs., 85c. 

WONDERFUL MILO MAIZE

An Early Grain Sorghum. A Sure, Dry-Weather Crop.

This Dwarf Milo is extensively grown for grain in sections where the season is short. It matures in 50 to 55 days; an earlier and more crop than Kaffir and superior in feeding value. Admirably adapted to dry-land farming. The grains are the largest of all Sorghums. Stalks 3 to 5 feet high; coarse and less lealy than those of Kaffir. Postpaid, pkt., 10c; ½ lb, 18c; lb, 30c; 3 lbs., 85c.

FETERITA—The Earliest and Most Drouth Resisting Grain Sorghum.

Introduced by the United States Department of Agriculture from Africa. It produces a stalk 7 to 8 feet high and a large head, well filled with bluish-white seeds. The grain is softer and larger than that of Milo and Kaffir and in feeding value is equal to either of them. Feterita is an excellent drouth resister; it yields from 50 to 60 bushels of grain per acre. It stands erect, branches out from the root, matures 35 days earlier than Kaffir, ripening in about 85 days. Oftener used as catch crop to follow Winter Wheat or early Corn in the South. Not as leafy as Kaffir and not so much used for forage. Postpaid, pkt. 10c; ½ lb, 18c; lb, 30c; 3 lbs., 85c.
Sugar Cane or Sweet Sorghum

Sugar Cane can be profitably grown in all portions of the United States where corn is grown, and it is more drought resistant than corn. It remains fresh and green through periods of drought that ruin corn.

As a sowing crop it has a very high value. Milch cows are exceptionally fond of Sugar Cane, and it is excellent as a feed for the fattening of swine. It furnishes the finest quality of succulent food, outyielding corn for forage, and it is fed with much less waste. At the Iowa Agricultural College 25 tons were harvested per acre. As a pasture crop it is mostly used for hogs and sheep.

It makes splendid hay, which is very palatable, nutritious, and much relished by all kinds of stock, including hogs.

The silage of Sugar Cane has practically the same feeding value as that of corn and alfalfa, but Sugar Cane generally produces a much larger crop than those varieties and is the most profitable crop to grow for silage. Where Sugar Cane is not wanted exclusively for silage it may be mixed with Field Corn with most satisfactory results.

As a catch crop, Sugar Cane is much used. It could be sown after an early grain crop, or in place of other crops, if they have been destroyed by frost, flood, drought, etc. The plants grow very quickly, reaching maturity in about 70 days. It yields a large quantity of Seed, about 25 to 30 bushels per acre, which can always be saved, no matter for what purpose the crop is wanted, if the cane is cut only when the seed is nearly ripe. The seed has a very feeding value.

It makes a fine feed for all stock if crushed and mixed with oats, peas, or soy beans. One of the most common uses of cane seed is as poultry feed, and it is especially recommended for laying hens.

For hay, sow broadcast or in drills at the rate of 50 to 100 lbs.; for silage and forage, sow in drills 3½ feet apart, using 12 to 15 lbs.; and for syrup, use 4 to 5 lbs. per acre.

The seed should be sown about 10 days later than corn. Cut for hay when grain is in the milk and for silage and syrup when in the dough stage.

**Buckeye’s New Honey Syrup Cane**

The Favorite Syrup Producer.

This is the earliest Cane, and our seed is grown in the North, is entirely pure, not mixed with any other sorghum. As a syrup producer it has no equal, being exceedingly juicy and sweet, making from 2 ½ to 3 gallons per acre, highly flavored, and very productive. It is very prolific, sometimes producing 5 to 7 stalks from one seed. Matures about the middle of August to October, according to time of planting; will keep green and retain height even in frosts of 30 degrees; is free from disease, and will grow to a height of 8 to 10 feet to harvest for syrup. In addition to the syrup, a crop of seed could be grown with advantage. Price, postpaid, pkt. 10c; lb. 50c; 3 lbs. $1.00.

**Buckeye’s Improved Early Amber**

An exceedingly valuable variety. Very large, of strong and vigorous habit. Frequently produces 240 gallons or over of beautiful amber syrup and highly prized forage, 10 to 12 tons of cured hay per acre. About 1 to 2 weeks later than Early Amber, but taller and producing a heavier quantity of forage. Price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

**Buckeye’s Improved Early Orange**

An exceedingly valuable variety. Very large, of strong and vigorous habit. Frequently produces 240 gallons or over of beautiful orange syrup and highly prized forage, 10 to 12 tons of cured hay per acre. About 1 to 2 weeks later than Early Amber, but taller and producing a heavier quantity of forage. Price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

**Australian Salt Bush**

A valuable forage plant for soils containing alkali and for all regions subject to periodical drought; will grow freely on soils that will produce no other vegetation. It seems to take up from the soil the salinity substance which is so detrimental to the growth of other plants, and after 3 or 4 crops of it have been grown the soil is capable of producing any other crop. The plant is a perennial in the South, but not hardy in the North, and has to be sown there every year.

Sow in Spring or Summer, when soil is warm and moist, after rain; do not cover seed. When once started it will grow strong and vigorously during the driest season. The plants are of spreading habit, branching freely; they make a thick mat of stems and foliage 3 to 4 feet in diameter, yielding about 20 tons of green forage per acre, which makes about 10 tons of hay. This is very nutritious and eagerly eaten by all live stock. When dry it contains about 8 to 12 per cent of salt matter. One pound of seed will seed one acre. Postpaid, pkt. 8c; oz. 15c; ½ lb. 35c; lb. $1.25.

**Thousand-Headed Kale**

Similar to and now frequently used in place of rape, as it yields a heavier crop, which is estimated at about 100,000 lbs. per acre in one season.

Thousand-Headed Kale attains a height of 3 to 4 feet, the stem is covered with rosettes of leaves. It grows well on almost any kind of soil and is hardy. All farm animals are fond of it, but it is of especial value for feeding hogs and sheep. Sow same as rape; broadcast, and should appear 2 inches high in 10 days. Postpaid, pkt. 10c; ½ lb. 40c; lb. $1.25.

**Giant Beggar Weed or Florida Clover**

A splendid forage and soil renovating crop for the South.

An erect leguminous annual plant, from 3 to 8 feet high, with abundant foliage; excellent as a pasture crop, makes hay of the finest quality. The feed is much relished by stock and is highly nutritious, comparing favorably with that of red clover and vetches. It is especially recommended for thin, sandy soil, and on land too poor to grow any other crop it has produced 3 to 5 tons of cured hay per acre. If cut when about 2 feet high, the crop may be stowed out at the bottom, yielding a successful crop. It is an excellent crop to turn under for green manure. It can be easily eradicated. Sow when soil is warm in June, 3 or 4 lbs. in drills 2 feet apart, or broadcast 10 lbs. per acre; cover 1 to 2 inches. Will mature in 60 days. Postpaid, oz. 10c; ½ lb. 25c; ¼ lb. 40c; lb. 75c.
Buckbee's Wonderful Dwarf Bonanza Rape

There is no other forage plant which can be grown so advantageously in the northern part of the United States and which furnishes such an abundance of succulent forage during Summer and Fall when the supply of grass and clover is often limited as Rape. It is indispensable for raising sheep and hogs and is much relished by all stock.

Rape belongs to the Cabbage family, grows 2 to 3 feet high and is never troubled by insects.

Buckbee's Dwarf Bonanza is undoubtedly the heaviest yielder of all varieties of Rape. Crops of nearly 50 tons of green fodder per acre have been reported of it, while Dwarf Essex not more than 10 to 20 tons have been harvested.

Rape is best adapted to cool and moist climates, but has also successfully been grown in warm and dry sections.

Rape does well on most any kind of soil, especially rich in vegetable matter, as it is a gross feeder. Land that produces a good crop of corn and wheat is suitable for Rape.

In the northern states Rape is sown from April to August, and in the South from August to October.

Four to five pounds of seed are used per acre if sown broadcast, and 3 to 5 pounds if sown in drills 21 to 28 inches apart to allow cultivation. It may be sown alone in Fall after the grain has been harvested, or it may be sown in the Spring in the Winter or Spring grain, when this is 2 to 3 inches high, at the rate of 2 lbs. per acre.

With a good stand of Rape in the stubble, sheep can be turned in in about 3 weeks after the grain is cut. It is also sown in the corn at the last cultivation.

When the crop is cut it is best to follow with a cultivator, as it will cause the stems to send out new shoots more rapidly.

Rape is usually ready for use in about 2 months from sowing the seed, it is used as a soleing crop in many places, but its chief value is for pasture and especially for hogs and sheep. Its fattening properties are twice as good as clover.

There is no danger to hogs from bloating, but cattle and sheep may suffer seriously if it gets too hot and the rain is not taken. When on Rape they should at all times have access to salt.

Rape must not be fed any more after it has been frozen.

Postpaid, pkt. 10c; 1/4 lb. 35c; 3 lbs. 95c.

Dwarf Essex Rape

This is a comparatively unknown but really valuable addition to our food supplies. The seeds should be sown in Spring in drills and no further attention is required until August or September, when the plants are ready to gather. The seeds keep well in the pods and should only be removed as occasion requires. They are cooked after the manner of beans; they also make excellent soup.

Postpaid, pkt. 10c; 1/4 lb. 25c; lb. 75c.

Lentils

An annual leguminous plant, very valuable for ploving under to reclaim poor soil, particularly sandy and cool, wornout land. It makes a very good fodder in either the green state or as hay. The seeds are very fattening when used with hay. Sow in the early Spring at the rate of 60 to 90 lbs. per acre.

Postpaid, pkt. 10c; 1/4 lb. 25c; lb. 75c.

Field Lupines

An annual leguminous plant, very valuable for ploving under to reclaim poor soil, particularly sandy and cool, wornout land. It makes a very good fodder in either the green state or as hay. The seeds are very fattening when used with hay. Sow in the early Spring at the rate of 60 to 90 lbs. per acre.

Postpaid, pkt. 10c; 1/4 lb. 25c; lb. 75c.

Giant Spurry

An annual fodder plant. It flourishes on sandy, wornout soils where no other plant will grow, it grows from 1 to 3 feet high. Can be sown any time from April to August. It comes next to clover as a fertilizer. It is of very rapid growth and can be used for pasture 4 to 6 weeks after sowing. Sow broadcast at the rate of 10 pounds per acre if needed for fertilizer, and cover lightly by broadcasting. For fertilizer plow under when from 15 to 20 inches high. Two crops can be plowed under in one year on account of its quick growth. It is readily eaten by cows.

Postpaid, oz. 10c; 1/4 lb. 35c; 1 lb. 90c.

Sunflower

Sunflower seed makes a splendid food for all farm animals; it is relished by horses and cattle, fattens sheep and swine, but it is especially valuable as a food for fowl and is the best egg producing food known. It also keeps the fowl in strong, healthy condition; gives it a bright, lustrous plumage and is said to prevent roup. The strong, thick stalks can also be used as fuel. Sunflower is one of the cheapest foods known. Can be raised cheaper than corn.

The variety we offer is an immense yielder and often produces crops of 100 to 125 bushels per acre.

Sunflowers are planted in rows or hills and cultivated the same as corn. If you cannot spare land to cultivate them, plant them in the waste corners. The heads should be cut from the stalks before they are fully ripe, as they are apt to mold on the stalks. Spread heads out thinly on the barn floor or corncrib, and as soon as dry enough remove the seeds from the heads; this is done the easiest way by rubbing the inverted head over a coarse screen. Three pounds of seed will sow one acre.

Mammoth Russian—This is the largest of the Sunflowers. There is no variety which produces more than this one. Single heads measure 15 to 22 inches in diameter and contain an immense amount of seed. It is very productive.

Postpaid, oz. 5c; 1/2 lb. 35c; 1 lb. 90c; 3 lbs. 2.25c.

Bird Seeds

CANARY, best Sicily

Postpaid, 1/2 lb. 15c; 1 lb. 30c; 3 lbs. 85c.

HARD, re-cleaned

Postpaid, 1/2 lb. 18c; 1 lb. 36c; 3 lbs. 85c.

BIRD RAPE, strictly pure

Postpaid, 1/2 lb. 18c; 1 lb. 36c; 3 lbs. 85c.

MILLIET, for birds

Postpaid, 1/2 lb. 15c; 1 lb. 25c; 3 lbs. 70c.

MIXED BIRD SEED, for Canaries, etc., strictly clean

Postpaid, lb. 35c; 3 lbs. 70c.
Buckbee's Hardy Northern American Alfalfa

There is no State in the Union where it cannot be successfully grown.

**Facts about Alfalfa**

One acre of alfalfa yields as much protein (the milk and meat producer) as three acres of common clover or nine of Timothy, or twelve of Bromus Grass. It does not exhaust the soil; it enriches the soil.

**Culture of Alfalfa**

**Soil**—The soil must be well drained. alfalfa will grow as far West as the Rocky Mountains, but they are very old, but still productive. This seed comes from very old, very long-established fields on dry, non-irrigated land which lived through the severest winters. The fact that our seed is taken only from very old fields and the actual results our customers obtained with it in the North and South prove it an extremely hardy frost and drought-resistant and almost everlasting strain of alfalfa, as opposed to the new and late cutting without injury and stood as much cold as any other alfalfa seed raised in Montana and Dakota, except the hybrid varieties like Grimm, etc. Besides being very hardy, our strain grows very tall and is more productive than most other kinds on the market.

**Buckbee's Hardy Northern Whole of Life**

Price, Postpaid, Pkt. 10¢; lb. 50¢; 3 lbs. $1.10.

**Siberian Alfalfa**

The following varieties are the best of the new kinds of alfalfa brought by Prof. N. E. Henson, of the South Dakota Experiment Station. They have been planted in the North Dakota in a growing season. These varieties have been grown now for many years in the North-West and have made good; they grow luxuriantly on the dry-land west of Missouri and as far North as Alaska, standing adverse conditions of drought and cold in which no other forage plant will survive. They never winter kill.

**Cossack**—A hybrid of purple-flowered and hardy yellow-flowered alfalfa. It resembles Grimm, but is a larger producer. It is also malted yellow and blue flowers, often both on the same stem and many intermediate shades. It can readily be distinguished by its flowers from common alfalfa which makes it valuable. Tall, upright growth, recoverers quickly after cutting.

**Orenburg**—A pure, hardy, yellow-flowered variety. Probably the most valuable of all alfalfas and entirely different from all other alfalfas now grown. In root system is entirely different from those of others, having hardly any tap root, but a mass of laterals spreading out in all directions and for great distance, making it impossible for the plant to grow where water is near the surface. The crowns are 6 inches below the surface and of mature plants average about 1 foot in diameter. They send up hundreds of stems which are finer than those of common alfalfa and much more leafy. Orenburg makes the best forage of all alfalfas, but it does not grow quite as tall as others.

**Pedigreed Grimm Alfalfa Plants**

By setting plants a full stand is assured and a gain of one year is made; the plants grow quickly after being set out and secure a foothold in the soil which dry weather cannot overcome. By root planting alfalfa bacteria are easily established in the soil as they cling to the roots when planted and save the expense of inoculation.

To secure best results, set the plants in rows two to three feet apart and 18 inches apart in the row. They may be pivoted in by setting a furrow and plowing against them. The crown should be set four inches beneath the surface. Cultivate to keep down the weeds. When planted as suggested about 5,000 to 15,000 plants are required to the acre.

We ship Alfalfa Plants during the months of April, May and October.

**Prices:**

Strong Two-Year-Old Plants, by mail, postpaid, per 100, $1.00; by express, not postpaid, per 500, $2.00; per 1,000, $5.00.

**Inoculated Alfalfa Soil**

The best and surest way to inoculate a field with alfalfa bacteria is by applying soil of an old alfalfa or sweet clover field at the rate of 100 pounds per acre; scatter the soil over the field in the afternoon and harrow it in immediately; do not allow the sun to strike it.

We can furnish alfalfa soil free of weeds at the following prices:

- By Express or Freight at buyer's expense, sacks included, 100 lbs. sack, $2.75; 500 lbs., $8.75; 1,000 lbs. for $15.00.
BUCKEEB’S "FULL OF LIFE" CLOVERS
BUCKEEB’S "FULL OF LIFE" CLOVERS ARE THE HIGHEST GRADE OBTAINABLE

These seeds are carefully tested and are of the highest vitality and purity; they are free of noxious weeds and other foreign seeds, in fact, we aim to have on our hands of Buckeeb's "FULL OF LIFE" Clover Seeds that we send out cease 95 per cent or better for purity and 95 per cent or better for germination. These seeds are also very plump, heavy, being well ripened, so as to insure a good stand and big crop.

Alsike or Swedish Clover
Alsike seems to be especially adapted for the Northern States; it is a perennial clover and lives longer than Medium Red; it is also more hardy, and withstands the severest cold of all clovers; it does not hay out of the ground in winter and the severest cold does not injure it and it resists the extremes of drought and wet. It is the only clover that will thrive on most soil, but it will also grow fairly well on stiff clays. It is mostly grown in bottom lands and is often mixed with Timothy; these varieties seem to be well adapted for the soil and ripen at the same time.

Alsike is a hybrid of the Red and White Clover. It grows 2 to 4 feet high. The stems are thinner than those of Red Clover, and the leaves are more numerous. Making a hay of most texture, which is eaten without waste by stock; the feeding value of the hay equals that of Alfalfa. The yield of Alsike Clover is fully as large as that of Medium Red Clover.

For hay, cut when in full bloom; it can be cured easier than other clover, the stems being less coarse.

For seed, cut when 2/8 of the heads are ripe; an average crop is about 4 bushels of seed per acre.

For pasture, Alsike is preferred to Medium Red, it being more permanent. Alsike is one of the best honey producing plants that can be grown. Now at the rate of 1 to 3 pounds per acre in Fall or Spring, it may be sown alone, but does well if sown under cover of grains. The seed of Alsike being smaller, it takes less seed to sow an acre than of Red Clover.

Price, postpaid, Buckeeb’s Alsike, “Full of Life,” pkt. 10c; lb. 75c; 3 lbs. $2.15.

Alsike and Timothy Mixed
When Alsike and Timothy grow together it is impossible to make a complete separation of the seeds of these two varieties. We are purchasing these mixtures for less money than we could have separated seed and can, therefore, sell it for less. Those desiring to sow Alsike and Timothy together, at the same time, can save money by buying the seed in mixture as originally harvested. This, we believe, is the cheapest Clover and Grass Seed Mixture you can buy.

Alsike and Timothy make an excellent combination for hay and pasture; they are adapted for the same kinds of soils and can be sown alone or with small grain in the Spring or Fall. Price, postpaid, Buckeeb’s Alsike, “Full of Life,” pkt. 10c; lb. 53c; 3 lbs. $1.25.

Medium Red or June Clover
This is the most valuable and most universally grown clover throughout the country. It is a dependable variety for pasture and meadow. It lives 2 years, grows 2 to 4 feet high, makes 2 crops each year. The first one is generally cut when in blossom for hay; the last crop may be harvested for seed. cut for hay or plowed under, to add fertility to the soil.

Medium Red Clover furnishes a splendid pasture; all animals thrive on it, especially cattle, sheep and pigs.

For sowing, it is much used, furnishing succulent food all season. It yields about 8 tons of well cured hay per acre.

This clover, whether used as hay or green fodder, is very nutritious and always greedily eaten by all farm stock: less grain is required where clover is fed to keep stock in fine condition. Clover adds to the fertility of the land on which it grows. When the clovers add nitrogen to the soil on which they grow, it can be drawn upon by subsequent crops, and crops following a crop of clover are larger and of better quality than when grown on the land not improved by clover. It is estimated that a full crop of Medium Red Clover turned under adds $1.30 worth of nitrogen alone to the soil per acre. It pays therefore, to grow clover if for no other use than green fertilizer; and it would save the cost of fertilizers and the expenses of using farm manure.

Medium Red Clover does well on a great variety of soils, and it thrives most luxuriantly on strong, well-drained loams. It may be sown in the Spring or Fall, and if sown alone, 8 to 12 lbs. are used per acre.

Buckeeb’s “FULL OF LIFE” Medium Red Clover—the plumpest, purest, cleanest seed of the highest vitality. Price, postpaid, pkt. 10c; lb. 75c; 3 lbs. $2.15.

Mammoth Red or Sapling Clover
Mammoth Red Clover is quite distinct from Medium, being larger of coarser and more robust growth, and two to three weeks later. It is also more hardy, stands frost better, and more particularly, sells one crop, and pasture after that. On rich, loamy soils it attains an immense growth; yielding much more bulk than Medium Clover. It grows well on land too poor and on soil too low for Medium Red, and is therefore largely used to restore fertility to wornout soil. Mammoth Red Clover should be in every permanent pasture, as it retains its greenness throughout the Summer and furnishes a larger amount of forage than Medium Clover; it is especially used for permanent hog pastures. As a fertilizer for green manuring it also surpasses Medium Clover, growing more rank and making more bulk to plow under. Sow 8 to 12 pounds of seed per acre.

Buckeeb’s “Full of Life” Mammoth Clover, price, postpaid, pkt. 10c; lb. 53c; 3 lbs. $2.15.

White Clover for Lawns
A low growing clover, spreads rapidly and is very hardy; valuable for permanent pastures, being sweet and nutritious. For lawns it is also much used. Round, white, fragrant heads, which make excellent pasturage for bees. It grows on most any kind of soil but succeeds best on moist ones. Price, postpaid, pkt. 10c; lb. 53c; 3 for $2.50.

White Clover.
White Bokhara, Sweet or Bee Clover (Melilotus Alba)
A Money-Making Crop for All Sections of the Country. Valuable for Soilage, Pasture, Hay, as a Honey Plant, and Especially as a Fertilizer. It is the most important one and the most widely grown. It is biennial; if not allowed to reseed, it will die out the second year. It grows 6 to 8 feet high; the flowers are white, giving a strong smell of honey and appear only the second year from sowing.

Swell Clover can be grown successfully in all parts of our country and on most soils except those containing salt or alkali. It thrives best on alkaline soil and also on gumbo land. It will endure more drought, frost, wet than Alfafa or any other clover.

Sweat Clover is a hardy, robust and nutritious grass, and must be inoculated; the bacteria being the same for Alfafa and Sweat Clover, old soil of one will inoculate the field of the other. We can furnish Alfafa soil (page 105), and also Edwards Lemure Bacteria for the inoculation of Sweat Clover, see page 96.

There is no other legume which furnishes as much pasturage when 5 or 6 inches tall the cattle could be turned on it, if it lasts. It turns out fresh growth as fast as eaten off; it should not be allowed to grow taller than it will then get hard and woody. It thrives splendidly in pasturing sheep and hogs. For a permanent pasture it is much sown with Bromus inermis, using about 10 lbs. of each per acre. Sweat Clover yields 1 ton crop of hay the first year and the second year. It should be cut for hay before it comes into full bloom and about a foot high. Otherwise the plants may be killed. For Seed, Sweat Clover should be cut when about 3/4 of the pods have turned brown; an ordinary clover bulker will thresh the crop clean. It yields from 6 to 19 bushels per acre.

As a honey plant, White Sweat Clover is most valuable. It blooms early, and yields a heavy honey of excellent quality.

Sweat Clover is the greatest of all fertilizer plants which we have; when a full crop of it is plowed under it will add four times as much nitrogen to the soil as clover. Buckbee’s “Full of Life,” hulled seed, postpaid, pkt. 10c; lb. 50c; 3 lbs. $1.40.

Yellow Sweat Clover (Melilotus officinalis) – This is a biennial variety like the white; it does not grow quite so tall, only about 4 to 5 feet high, the stalks and branches are, however, more slender, making fine hay. It blooms with a monthly vetch and is used extensively, the clover and vetch are sown together and the vetch is purchased. This is a splendid all-the-year-round pasture. Sow broadcast in early Spring from July to October. Price, hulled seed, postpaid, pkt. 10c; lb. 45c; 3 lbs. $1.25.

Japan Clover or Lespedeza
A valuable perennial clover for the South. Stands excessive drought and is particularly suitable for forst use in southern lands. It is winter hardy and will freeze. Sow in early Spring, the growing grain or in aBroadcast. Seed ready for Spring. Sow broadcast in early Spring as late as July. Price, hulled seed, postpaid, pkt. 10c; lb. 45c; 3 lbs. $1.65.

Crimson Clover (Giant Incarnate)
Valuable for Pasture, Sowing, Hay, But Especially for Plowing Under to Restore Worn-Out Soils

Crimson Clover forms upright branching plants, 2 to 3 feet high, blooms a month earlier than Red Clover. It roots very deeply and is a great provider of nitrogen. It grows luxuriantly on fertile loam, yet it will thrive better on thinner and poorer soil than Red Clover. It is more efficient for green manuring than the latter. A plowed under crop of Crimson Clover is equivalent to 20 tons of stable manure per acre. It is the cheapest source of nitrogen, has revolutionized the methods of farming in many states, and has restored to profitable cultivation thousands of acres of poor land.

It is an annual Clover, where the climate is warm like in the Atlantic and Southern States; there it is mostly planted in the Fall and lives over Winter. However, in the Northern states it would winter kill, and here it should be planted only in Spring.

It is one of the best clovers for use in the silo, producing up to 29 tons of green for every ton of seed. For silage and for pasture it is frequently sown with Rape, Winter Rye or Vetches. Sow at the rate of 15 pounds per acre.

Price, postpaid, ptk. 10c; lb. 50c; 3 lbs. $1.45.

Buckbee’s Great Sand Vetch (Vicia villosa)
The Sand Vetch, also called Winter Vetch or Hairy Vetch, is an annual plant, similar in growth to a Pea Vine, but more slender, more branching and leafy; it grows from 6 to 8 feet high, and is a valuable cover for winter, especially when used in connection with Sweat Clover or sweet clover. As the name indicates, it has a special adaptation for sandy soils; it succeeds well on light, sandy soils, but will give bigger crops on richer land.

Although fair crops have been obtained without inoculation, it is our experience that inoculated seed produces larger and bigger yields. We can furnish Nitrogen Inoculation for Vetch, see page 96.

Sand Vetch is of great value for pasture, hay, and for the clover of either green or red clover, and is relished by all stock. It is very rich, nutritious, containing even more protein than Alfafa. It is cut for hay when pods are forming, and is worth 40c to 50c a ton.

Sand Vetch is, however, mostly grown and is of the greatest value as a fertilizer; it is the best legume for enriching soils of low fertility, the total value of a crop of Sand Vetch, if plowed under is estimated by the Department of Agriculture at $1.00 to $1.50 per acre, which makes it as much as 6f or 7f a dollar per acre.

Sand Vetch is in full flower, makes a splendid legume, and is as important a legume as the clover, but its value is not fully appreciated. Sand Vetch is in full flower, makes a splendid legume, and is as important a legume as the clover, but its value is not fully appreciated.

Sow in early Spring and with Sweat Clover or with Sweet Clover. Sand Vetch is sown in Spring and in Fall in the northern states not later than the middle of August; in the corn belt not after middle of September, but later farther west in the Winter. Before the first of July it generally freezes out, but if sown later it lives over Winter, goes to seed in June, and blooms.

Sown early in Spring alone or with a nurse crop of barley or oats, it furnishes good Summer and Fall pasture. The best returns, however, are obtained of this plant when sown in the fall and it may be sown alone, or in the corn fields with a nurse crop. Sown in the fall, it comes on early in Spring and may yield a bountiful crop of hay or splendid pasture till June; or can be sown later and will make a good pasture by May 10th in the north, when it will be a mass of green masses. To sows in the Fall or later, with a nurse crop of Winter Rye, or Winter Vetch, etc.

Sow 20 to 40 pounds of Sand Vetch if sown alone; or 2 pounds Vetches with 1 bushel of Oats or 6 pounds of Winter Rye in Fall. For Vetch, Sow about the 2nd of June.

Price, postpaid, ptk. 10c; lb. 50c; 3 lbs. $1.10.

Spring Vetches
An annual, sown in Spring only: does not do as well in the north as Sand Vetch. Sow alone 50 lbs. per acre, or 40 lbs. Vetches and one bushel of Oats. Postpaid, ptk. 10c; lb. 50c; 3 lbs. 55c.

Buckbee’s Sand Vetch

For bulk prices by express or freight see order sheet.
BUCKBEE'S "FULL OF LIFE" GRASS SEEDS

Are of the HIGHEST GRADE obtainable, both as respects purity and high germination; they are pure and clean, free from noxious weeds and foreign seeds and are plump, heavy and well ripened, so as to insure a good stand and a big crop.

Timothy

Timothy is the most popular and most important of all hay grasses and is adapted to a wider range of conditions than any other variety of grass. It is one of the most certain grasses to grow and without our reservation; no other kind will stand the extremes of heat and cold better than this one; no other variety equals it in average yields, excels it in feeding value.

It luxuriates on clay and moist soil and is unsurpassed on peat, but it does not root as deep and is not considered, therefore, as much an improver of soils as many other grasses; consequently it should not be sown on land drained in basins or on soils of light, sandy nature. It flowers in July and should be cut when in full bloom, as if left until later the hay becomes hard and coarse. The hay is very nourishing and can be reserved for a long time, it is greedily eaten by all cattle and horses are especially fond of it. On average soils it is frequently sown along with Mammoth Clover and on lower soils generally with Alsike; these two clovers mature with the 2 ft. The practice of sowing the common Red Clover with Timothy is not advisable, as they do not ripen together and either one or the other must be cut at a stage which will not give results. For pasturing alone it is recommended. If sown alone its growth is not thrifty enough and close pasturing is very injurious to it. For pasturing, therefore, it should be sown along with other grasses and the varieties best suited to grow with it, both for pasture and meadow are Red Top and Meadow Fescue which are some of our most hardy, perennial varieties, and ripen at the same time as Timothy. We have also added Timothy to most of our Clover Grass mixtures wherever good results could be expected (see page 11). Timothy attains the height of its productiveness in the first year after being sown. It has proven itself especially well adapted to the Northwest and seldom fails to make a good stand on prairie soil when sown early in the season on suitable conditions.

Height, 2 to 3 feet; yield of hay on good ground, 2 tons per acre. If sown alone, use 3 bushel per acre; to sow with clover, use 9 pounds Timothy and 2 pounds of Alsike, or 5 pounds of Mammoth Clover.

Buckee's "FULL OF LIFE" brand will stand the test of all Pure Seed Laws and has a purity higher than 95 per cent and a vitality of more than 95 per cent. It is pure, bright seed, very little hulled. Our prices, postpaid, ptk. 10c; lb. 35c; 3 lbs. $1.30.

Red Top or Herd's Grass

A very hardy native grass and probably the most perennial variety we have. Red Top accommodates itself to a variety of soils, even to quite dry situations, but succeeds best on moist land, where it attains a height of 2 to 2 1/2 ft. It thrives and improves year by year, taking possession of the land, gradually supplanting other grasses; but it is easily eradicated in case it is desired to put the land in cultivated crops. It is especially valuable for a permanent pasture where the grazing is continuous; it does better on undrained, moist soils, which are occasionally overflowed, than any other grass. It is very nutritious and much relished by all farm stock. Sow 10 pounds solid seed per acre.

Buckee's "FULL OF LIFE" Red Top, price, postpaid, ptk. 10c; lb. 40c; 3 lbs. $1.15.

Meadow Fescue or English Blue Grass

One of the most valuable grasses for all parts of the country. Drought and frosts resistant, furnishing an abundance of pasturage from early Spring until late Fall. Meadow Fescue is well suited to a wide range of soils, does well on loamy clay and gravelly soils, and thrives on heavy, silty loam, strong and low-lying soils, but is not adapted to light, sandy soils. Of all grasses, Meadow Fescue is the surest crop. It comes up quickly and in three weeks after sowing it will be about 4 inches high and cover the ground perfectly.

It lives longer than most other kinds of grasses, and although it produces the first year a good crop of hay or pasture, it does not reach the highest stage of growth until 2 or 3 years, and for this reason it is best adapted for permanent pastures and meadows. It would not be advisable to sow the seed for hay pastures 1 year or two years old. It excels most other grasses in the quantity of its produce and nutritive matter, producing four to five tons of hay per acre. It is always tender and succulent, and the forage, either green or dried, is very nourishing and greatly relished by cattle.

Meadow Fescue matures at the same time as Timothy and Red Top and Alsike Clover, and for meadow purposes these varieties are often grown together. It grows 3 ft. to 3 1/2 ft. high. It flowers in June and July. Sow 15 to 25 pounds per acre broadcast without nurse crop. Buckee's "FULL OF LIFE" Meadow Fescue, price, postpaid, ptk. 10c; lb. 45c; 3 lbs. $1.55.

Orchard Grass

A valuable grass for pasture or hay land, and on account of its earliness especially valuable for permanent pasture. It furnishes green grass very early in the Spring and until late in the Autumn. When closely cropped it grows up very quickly and is ready for grazing again in ten to twelve days.

It is succulent and nutritious, furnishing excellent crop of hay or pasture. When grown for hay, two crops in most places can be obtained in one season. The roots extending to a great depth, it will stand drought better than most other grasses; it is very hardy. It grows in tufts, and is, therefore, best sown with other grasses. It is well suited for shady places, such as orchards and groves. Grows on all kinds of land, but does best on deep, rich, sandy loam or clay soils. Height, 3 feet. Flowers in June, three weeks earlier than Timothy and about the same time as Red Clover and Tall Meadow Oat Grass.

Buckee's "FULL OF LIFE" Orchard Grass, price, postpaid, ptk. 10c; lb. 45c; 3 lbs. $1.35.

Kentucky Blue Grass

One of the most widely distributed and valuable native grasses. It is a true perennial, lasting indefinitely and growing every year. It forms a close turf, starts very early in Spring and lasts until frost. It succeeds in almost every soil except very light or very sandy soils, and stands long, continuous dry weather. It remains green the first year, but becomes fully established the second year. It is especially valuable as a pasture grass and is also one of the very best grasses for the lawn. It is very productive and nutritious. Sow 25 to 35 pounds per acre.

Buckee's "FULL OF LIFE" Kentucky Blue Grass, price, postpaid, Kentucky Blue Grass, ptk. 10c; lb. 40c; 3 lbs. $1.25.
BROMUS INERMIS

A most wonderful grass that has proven a great boon for the dry, arid districts of the West, North and South. It does not need irrigation. It supplies the feed needed for large stock ranches of the plains. Bromus adapts itself to nearly all conditions of soil and climate, equally in quality and quantity and in yield almost any other grass. It is a good grass for all States of the Union, does well on poor and on rich soil, has proven one of the best grasses for love, and has given good results on poor, sandy soil where Timothy was an entire failure. Bromus is one of our hardest perennial grasses. The amount of cold will kill it; it withstands the severest drought and water manure and it is a weed with little injury to it. It is one of the deepest rooted of the cultivated grasses and greatly improves the physical conditions of the soil it grows on. It is as a pasturage grass that it is of the greatest value; it would make a most valuable pasture grass and keeps green in Fall longer than any other grasses. It does not become woody at any time, but always remains succulent and is always greener cut by any other grass stock, and if it spreads by seeds or by underground root stock, and a thin stand thickens up quickly. It forms a dense sod 6 to 8 inches thick, thus binding the soil together and preventing it from being wind blown, and at the same time completely eradicateing all noxious weeds, such as thistles, mustards, etc., within a few years.

Bromus Inermis obtains a height of from 4 to 5 feet, producing an abundance of leaves, and yields on good soil about 4 tons of cured hay per acre, which has about the same feeding value as Timothy hay. Farm animals are fond of it, and cattle and sheep like it the best of any of the grasses. Mixtures are sure with White Sweet Clover, using 10 lbs. each per acre. Sow 15 to 20 pounds per acre.

Buckeye's "FULL OF LIFE" Bromus Inermis is of the highest vitality and free of all dangerous weeds, especially of quack grass. Price, postpaid, pkt. 10c; lb. 65c; 3 lbs. $1.25.

TALL MEADOW OAT GRASS

A hardy grass of rapid growth, luxuriant, and reaching a height of 4½ feet on rich soil by June 15th. Makes excellent hay on sandy loams, but is particularly suited to rich soils and clay formations. It has a wonderful capacity for enduring leaf blights and is usually very useful in the South it does much better than Timothy. To make good hay it should be cut immediately when it blooms. It frequently produces twice as much hay as Timothy. It possesses the advantage of early, quick and late growth, till in and is admirably suited for a pasture grass. When kept in a close state of feeding it has been found most beneficial. It is often sown together with Orchard Grass and with Medium Red Clover, which at the same price. Sow 25 to 30 pounds per acre. Buckeye's "FULL OF LIFE" Tall Meadow Oat, price, postpaid, pkt. 10c; lb. 60c; 3 lbs. $1.75.

CANADA BLUE GRASS

A very hardy perennial grass with creeping root stocks. It grows on the poorest and driest soils—sandy, gravelly or clayey, standing extremes of wetness or drought, and keeping green until the severe frosts of Winter. It is especially valuable for dairy pastures. It is distinguished from the Kentucky Blue Grass by its flattened, wiry stems and by its decidedly bluer color. Sow 10 to 15 pounds per acre.

Prices, postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.

ENGLISH OR PERENNIAL RYE GRASS

Invaluable for permanent pastures. It produces an abundance of remarkably fine foliage, fills up close to the ground and soon forms a compact sward. After being cut it grows up in a very short time and remains bright and green throughout the season; it is consequently well adapted for lawn mixtures. It is also a good variety for hay if cut when in blossom, as it is then most nutritious; if cut much later it becomes woody and adapts itself to a great diversity of soils, but flourishes best on rich soils in moist situations.

It will last three to four years. Sow 25 to 30 pounds per acre. Buckeye's "FULL OF LIFE" English Rye, price, postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.

ITALIAN RYE GRASS

A remarkably rapid grower; stands extremes of temperature, remaining green until late in Fall and retaining its freshness in the hottest Summer. When sown very thick or in mixture with other sorts it makes a good dense turf, and it is used with much satisfaction on lawns. On rich, moist soils it is exceedingly productive and may be cut in four or five weeks after sowing, and every six weeks after that until frost. For temporary meadows, on good soils, it is a most valuable grass. Not perennial, but lasts two to three years. Sow 25 to 30 pounds per acre.

Buckeye's "FULL OF LIFE" Italian Rye, price, postpaid, pkt. 10c; lb. 35c; 3 lbs. $1.00.

BERMUDA GRASS OR SOUTHERN BLUE GRASS

(Cynodon dactylon)

A most valuable grass for our Southern States, both for pasture and lawns. It is of dwarf habit, with long creeping stems rooting at the joints and covering the ground with a matting of fine turf which no amount of trampling will impair. It is also useful for binding drifting sand and for steep embankments subject to wash. It requires heat and moisture to start it. As it cannot stand the cold, it is best for the warmer parts of the North of Virginia. It thrives in the poorest, and sandiest soil, and resists extreme drought and heat. Sow at the rate of 6 pounds to the acre. Postpaid, pkt. 10c; lb. 90c; 3 lbs. $2.65.

JOHNSON GRASS

(Sorghum Halapense)

When carefully handled, one of the most satisfactory hay crops for the Southern farmer, yielding even during hot and dry seasons three to four cuttings of one and a half to two tons each per acre on good soil. To keep it within bounds the seed could never be allowed to ripen. Besides, when it is once established it is very hardy and resists better than corn stalks, but, cut before the seed tops appear, it is better than Timothy. It is specially adapted to sandy and light soils, and is little injured by being clouded or seeded where desired for permanent meadows. Sow 25 to 40 pounds per acre. Postpaid, pkt. 10c; lb. 60c; 3 lbs. $1.75.

TEOSINTE

Here is a truly wonderful forage plant worthy of general cultivation. Give it a rich, warm, balmy soil and it will yield from 25 to 29 tons of green fodder per acre. It is simply marvelous. Down in Georgia, in Florida and Louisiana its yields are all around 15 tons each year. Its green fodder feeds per acre. It grows to a height of 10 feet in those states, while a single kernel would produce from 80 to 190 stalks of the most magnificent green fodder imaginable. On our Rockford Seed Farms, where the soil is sandy and warm, it always yields a much greater amount of green feed than corn, cane or any other forage plant, and when the season was favorable we cut two crops. One third of seed is required per acre. Price of Seed, postpaid, oz. 15c; ½ lb. 30c; lb. 90c.
Buckbee's "FULL OF LIFE" Northern Grown Sudan Grass. Price, postpaid per pt., 10c; lb., 10c; 2 lbs. $1.15.

GRASS AND CLOVER SEED MIXTURE (Sow One To Two Bushels per Acre.)

All authorities agree that FOR PASTURE and HAY best results are obtained from the use of grass seed IN MIXTURE. The reasons are obvious: First—A NUMBER OF SPECIES will insure a much DENSER GROWTH than the same number of seeds of one or two species, and provide less exhausting to the soil. Second—You live in a great extent on different conditions, and a change is required in different parts. So that with mixtures failure is PRACTICALLY IMPOSSIBLE. The seed used in these mixtures is of the finest quality obtainable.

**BUCKBEE'S SPECIAL HOG PASTURE MIXTURE No. 8.**

Especially prepared for quick results and a full crop. This mixture is composed of the following ANNUAL VARIETIES:

**FIELD PEAS, SOYA BEANS, VETCHES, COWPEAS, CRIMSON CLOVER, RAPE, SUGAR CANE, JAPANESE MILLET, TURNIPS, RUTABAGAS, SPELTIS, RYE and other grains and forage plants all in the right proportion.
MILLET
BUCKBEE'S CALIFORNIA BEAUTY MILLET
The Best Hog and Stock Millet

The most remarkable leafy, bushy, vigorous growing Millet in the world. Yields as high as fifteen tons of hay per acre. It will make a magnificent crop of hay if sown immediately after your oats and wheat are cut, as it will ripen in from sixty to ninety days. It is positively the Millet wonder—very leafy, prolific and exceptionally fine for hay and feed. This Millet, unlike any other, stands the burning heat of the Dakota, the burning prairies of Kansas and flourishes on the semi-arid soils of Western Nebraska and Colorado—in fact, it grows where no other Millet grows. Sows one-half bushel per acre. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 60c.

LIBERTY OR GOLDEN MILLET

Grows very rank, 4 to 5 feet high, and is one of the best varieties for hay, being sweet, palatable and milk producing. On good rich soil it yields 5 tons of hay and more per acre. The hay seems coarse, but very tender, and cows, horses and all other farm stock are exceedingly fond of it. Should be cut when in full bloom. Sows 3 pecks (35 to 40 lbs.) per acre. Postpaid, pkt. 8c; lb. 15c; 3 lbs. 70c.

HUNGARIAN MILLET

A luxuriant, vigorous growing and very leafy Millet which is relished by all farm stock; the hay is not so coarse as that of the Liberty Millet, but the yield is nevertheless quite large, averaging 3 to 4 tons an acre. It is earlier than Liberty Millet and is often used as a second crop to follow Barley and early Potatoes. It is claimed this hay to be less dusty than that of other Millets. Sows 3 pecks (3 to 40 lbs.) per acre. Postpaid, pkt. 8c; lb. 15c; 3 lbs. 70c.

NEW WHITE WONDER

The most striking feature of White Wonder Millet is the size of the heads, which will fill up to fifteen inches, and a single head will have as many as 15,000 seeds. The yield of White Wonder is extremely heavy, being half again as heavy as that of Common Millet. Some growers of White Wonder Millet claim that it will outyield other Millets three to one. Another desirable feature of White Wonder Millet is its carliness. The foliage is very low, and produces less browse, and therefore it produces an immense amount of excellent fodder which cures very readily. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

HOG OR BROOM-CORN MILLET

It is a very early variety ripening in 50 to 60 days from time of sowing. The leaves are not heavy, while the fodder is not leafy. It is grown for both hay and seed with best success; it yields from 60 to 70 bushels of seed per acre, and as good fodder hay. The seed is very desirable for the North Western States, being very early and very hardy it will prosper under conditions when other varieties fail. Postpaid, pkt. 8c; lb. 25c; 3 lbs. 70c.

Japanese Millet

Also Called Million Dollar Grass.

Entirely distinct from any other Millet, grows 6 to 8 feet high and produces an enormous crop, often yielding 15 to 20 tons of green fodder or 6 to 8 tons of cured hay per acre. The feeding value of this Millet is much superior to that of corn fodder and it is relished by all kinds of stock. Japanese Millet is mostly used for feeding green, but on it is also most excellent for silo use and frequently a good crop of this Millet can be raised under conditions which would not admit the growing of corn for silage. An ideal ensilage mixture may be composed of two parts of Japanese millet to one part of Soja Beans, mixed when filling the silo; this mixture forms a complete balanced ration for milk cows, without the addition of grain. The seed of this millet makes good food for poultry and hogs, as it contains almost as much fat and extract matter as shelled corn and a little more protein.

Sow the seed at the rate of 2 lbs. to 2 acres. Postpaid, pkt. 8c; lb. 20c; 3 lbs. 60c.

PEARL MILLET OR PENCILARIA

This quick-growing forage plant has been long known under the name East India or "Cat-tail" Millet. Sown in drills 4 feet apart and cultivated like corn, the plants attain a height of 8 to 15 feet with slender, long-bladed leaves. These stalks can be cut for winter use and the seed makes an excellent poultry food. But the best use of the plant is to cut the stalk for green forage when about 3 feet high and allow the plants to make a second growth for fall feeding or ensilage. On richly manured land these plants grow with tropical luxuriance and on other crops will yield as much forage. Pearl Millet is of exceptional value for sections subject to protracted droughts where natural grasses dry up, as it will keep on growing and furnish a good crop in the driest season. Eight pounds of seed are required per acre, if sown broadcast, and 5 to 6 pounds if sown in drills. Postpaid, pkt. 10c; lb. 40c; 3 lbs. 111c.
Buckbee's Famous "Full of Life" Lawn Grass Seed

Our Lawn Grass Seed

Produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, deep and elastic turf, and is generally ready for mowing in six weeks from time of sowing and is composed of a thoroughly balanced combination of native and foreign fine-leaved, deep-rooting grasses of interweaving habit, that flourish under varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety award free from clumps is maintained from snow to snow without burning brown in the hot months of summer.

A lawn may be established either by "sodding" or "seeding." The latter is not only much less expensive but much more satisfactory, as better grasses can thus be obtained, and the quality and variety of the grasses have a great deal to do with the appearance and the permanency of the Lawn.

Buckbee's World's Fair Lawn Grass

The Very Best Lawn Seed Ever Offered.

This famous Prize-Winning Lawn Grass is made up of a most evenly balanced combination of native and foreign fine-leaved, deep-rooting grasses that interweave and flourish in different soils and climates, each showing its best strength at seasons different from the others, and thus keeping the lawn vigorous and green from winter's end to winter's next advent.

Was awarded the great Columbian Prize at the World's Fair. This mixture was used by the World's Fair authorities to produce the beautiful Lawns, which were without question one of the greatest features of the Fair. It is the Ideal Mixture, and is unrivaled for purity and luxuriance in growth and will give complete satisfaction wherever sown. With ordinary care anyone can, by using this mixture, secure a beautiful Lawn. Complete and explicit directions on "How to Make a Lawn" accompany every package of this seed. The quantity table on this page shows the amount of seed to plant in a given area. Price, postpaid, ½ lb. 35c; lb. 60c; 2 lbs. $1.15. Large quantities, by express or freight, not prepaid, 5 lbs. $1.50; 10 lbs. $2.90; 15 lbs. $4.30; 25 lbs. $7.00.

How to Make a Lawn

Is fully described in our new pamphlet, which will be given free with every package of Lawn Seed.

Special Quotations

We shall be pleased to quote special prices to Golf Clubs, Institutions, Parks and others who require Lawn Grass and Clover Seeds in large quantities.

Shady Place Lawn Grass

The Very Best Obtainable—Carefully Blended.

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get a grassy, but with this mixture there need be no further difficulty. It is a combination of fine dwarf-growing, evergreen varieties which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently "sour" and if the drainage is defective it is apt to be covered with moss and coarse bog grasses. In such cases an application of slaked lime at the rate of one bushel to each thousand square feet, or forty bushels to the acre, is an excellent corrective and sweetener, but the moss should be first removed. Sow from 5 to 60 pounds per acre for a new lawn or bowling green; 15 to 20 pounds per acre will be sufficient to improve existing turf. Price, postpaid, lb. 30c; 3 lbs. $1.80. By express or freight, not prepaid, 5 lbs. $1.65; 10 lbs. $3.30; 15 lbs. $4.05; 25 lbs. $7.50.

Velvet Green Lawn Grass

A Splendid Standard Mixture.

This special mixture does not include so great a number of expensive grasses as "World's Fair Mixture," but full provision is made for a succession of growth and a careful blending in proper proportion and thoroughly mixed for quickly producing a permanent, thick and velvety award of uniform growth and rich green grass free from coarseness. Price, postpaid, ½ lb. 30c; 1 lb. 45c; 3 lbs. $1.00. By express or freight, not prepaid, 5 lbs. $1.40; 10 lbs. $2.75; 25 lbs. $6.50.

Buckbee's Extra Special Lawn Fertilizer

Makes the Lawn Strong and Keeps It Healthy.

The lack of a good fertilizer is the reason there are so many poor, rusty-looking, unsightly lawns. Use this Lawn Fertilizer if you would have a beautiful and sturdy growth of grass. This fertilizer, used in connection with any of our special Lawn Grass Seed Mixtures, will enable you to produce a perfect lawn. Price, postpaid, lb. 20c. By express, not prepaid, 5 lbs. 90c; 10 lbs. 50c; 25 lbs. $1.00; 50 lbs. $1.80; 100 lbs. $3.50.
BUCKBEE’S “FULL OF LIFE” POTATOES

Pedigreed Stock, Grown in the Famous Red River Valley of the North Expressly for Seed.

No Seed Potatoes can be compared with those produced in the North, either for vigor and freedom from disease, or for producing and long-keeping qualities. Furthermore, our stock is all grown from hill selected Potatoes and only from plants which have produced a large number of market-sized tubers, and it will easily yield a hundred more bushels per acre than common stock. By cutting out all unnecessary soil, compost, fertilizer, cultivation, protection against disease and insects you give the crop, the fact remains that the yield is dependent very largely on the seed you plant.

DATE OF SHIPTMENT.—Potatoes will be shipped at any date ordered, at purchaser’s risk, but where no special instructions are given to the contrary, we will hold same until our judgment there will be a minimum danger from freezing. Of the many varieties that claim public favor, we have selected the best in cultivation.

BUCKBEE’S EXTRA EARLY ROCKFORD

A new Extra Early Variety of great promise. Makes an extremely quick growth and, considering its extra earliness, is a wonderfully heavy yielder. Is of very handsome appearance, with pinkish tinged skin and white flesh. Of delightful flavor. Prices, postpaid, 1 lb. 35c; 3 lbs. $1.00.

EARLY SIX WEEKS

A fine Potato of the Ohio type and as early as that variety. It is in demand everywhere. As now improved we consider it one of the best extra early market varieties grown. As table Potatoes they are not excelled. Prices, postpaid, 1 lb. 25c; 3 lbs. 75c.

NEW EARLY WHITE OHIO

It is a true Ohio of the best type in all except color, which, instead of being pink, as in the parent, is a beautiful creamy white with pink eyes. Prices, postpaid, 1 lb. 35c; 3 lbs. 50c.

IRISH COBBLER

Sometimes called Early Eureka. A most excellent extra early variety, maturing good sized tubers seven weeks from time of planting. It has also the remarkable characteristic of producing almost only tubers of large size. The vines make short, upright growth, allowing close planting. The tubers are of round shape with a yellow skin, and the flesh is pure white, with a clean, smooth skin, and fine quality they are excellent, always cooking dry and mealy. They are splendid keepers and, taking it all in all, are one of the most reliable and satisfactory first early sorts, excelling in productivity many of the late varieties. Specially suited to dry climates on account of its deep roots and by far the best white Potato for the South. In a comparative test of sixty-seven varieties, reds and whites, made at the Station at Fayetteville, Ark., the Irish Cobbler gave the best yield of all, which was 188.49 bushels per acre. Chosen Pedigreed Stock Seed. Prices, postpaid, 1 lb. 30c; 3 lbs. 55c.

IMPROVED EXTRA EARLY OHIO

It is fully two weeks ahead of the Early Rose, and is a general favorite with potato growers and market men alike, and the most profitable Potato they can possibly grow. Maturing early, it brings the highest prices. The tubers grow compact in the hill, are easily dug, with very few small ones—nearly every Potato is of marketable size; has few eyes which are even with the surface. Our Improved Extra Early Ohio is very fine, pure stock and uniform in shape. Prices, postpaid, 1 lb. 25c; 3 lbs. 75c.

BUCKBEE’S NOROTON BEAUTY

This and Bliss Triumph are the earliest Potatoes grown. Noroton is fully as productive as many main crop sorts. It is handsome in appearance, having a russety white skin and pinkish eyes, and being more uniform in size and shape than any other variety. Little troubled by bugs; almost blight and disease resistant. Its table quality is superb. Prices, postpaid, 1 lb. 30c; 3 lbs. 55c.

BLISS RED TRIUMPH

The standard extra early Potato much planted in the South. The tubers are nearly round, are smooth, medium in size, reddish pink in color. Vines are small and compact, with short, thick stalks and bread leaves. This is one of the hardest varieties known, and is not susceptible to rot, scab and other diseases; in fact, it can be grown on the most heavily manured land, and is a sure producer. Price, postpaid, 1 lb. 30c; 3 lbs. 55c.

PURE EARLY ROSE

The good old favorite, which continues in great popularity. A prolific yielder, sure cropper and popular market Potato. The seed we offer is the purest and best on the market. Prices, postpaid, 1 lb. 35c; 3 lbs. 75c.

A Valuable NEW BOOK OF Practical Information

HOW TO GROW SEEDS AND FLOWERS

A complete guide for the house and garden. Price 50c, postpaid, or we will send a copy FREE with an order amounting to $1.00 or upwards if requested on the order.

Irish Cobbler.
BUCKBEE’S IMPROVED GREEN MOUNTAIN POTATOES

Green Mountain is fast becoming the most popular late variety all over the country. In fact, in many sections it has now superseded all other late varieties, being the heaviest cropper of them all and yielding, especially on light soils, often one-third more than the older late sorts; it is medium late, earlier than most main crop varieties. It thrives in all soils and all localities. On good soils the potatoes are as good a good sized and entirely free from small tubers. This is a strong and vigorous grower with an abundance of bushy vines with light green leaves. The tubers are large, smooth, of oblong to roundish form, somewhat flattened. The skin is a yellowish or slightly russet tinged, is finely netted, indicating fine quality. Eyes are few and of medium size and well distributed. The flesh is white, solid, fine grained, cooks well white, dry and mealy and has a very fine flavor. It retains its fine eating qualities all through winter. Buckbee’s Improved Green Mountain is selected stock, very pure and a higher class stock by others, and is entirely free from all disease, scab, etc. Prices, postpaid, lb. 50c; 3 lbs. $1.00.

CARMAN No. 3

The Carmar No. 3 is one of the greatest yielding Potatoes ever introduced. The tubers are very close to the plant, a single row of the fork turning out every Potato. It is of a large size and of the shapeliest form. Eyes are few and shallow. It is a perfect keeper and is not surpassed as a table variety. Skin and flesh of extreme whiteness. It has no hollow heart or any dark parts. We recommend this Potato to our customers as being, unqualifiedly, one of the best of all late sorts. Prices, postpaid, lb. 25c; 3 lbs. 70c.

BURBANK

Continues in good demand and is one of the most largely used kinds. It ripens medium late, is of good size, of fine oblong form and an excellent yielder. The flesh is white, very mealy and of fine flavor and quality. The best Potato for baking. This variety is well adapted for heavy soils and is a long keeper. Prices, postpaid, lb. 25c; 3 lbs. 70c.

RURAL NEW YORKER No. 2

One of the largest yielding varieties in existence, Large, oval form and rather flat, with few and shallow eyes; the smoothest and cleanest potato grown; skin white, as also the flesh, which is of best quality; comes dry and floury. Medium late and best drought resistant. Although it is a late yielder, it grows but few and small vines. It is hardy and will stand the heaviest manuring without getting scabby or spotted. Under ordinary circumstances they will yield from 300 to 400 bushels per acre, but by heavy manuring this yield can be doubled. Prices, postpaid, lb. 25c; 3 lbs. 70c.

SIR WALTER RALEIGH

A white-skin main crop Potato much resembling Rural New Yorker No. 2, of which it is a seedling. It is decidedly better than its parents; the tubers being quite uniform in size, with but few small ones among them. It is from four to six days later than the parent stock. This is the same, the skin and flesh being white. It is very fine grained. Prices, postpaid, lb. 25c; 3 lbs. 70c.

WE GUARANTEE SAFE ARRIVAL IN GOOD CONDITION FOR PLANTING.

Every farmer knows the heavy expense in sending whole Potatoes long distances by Express or Freight, the charges often costing more than the Potatoes. Then, too, if shipped during the Winter and early Spring they usually freeze, and if not sent until this danger is past, they oftentimes arrive too late for planting. The Eyes as put up by us, will live 60 days or more in good condition for growing, as if freshly cut from the Potato, and will produce just as good a crop as if the whole Potato was planted; hence one who has a garden can order at any time during the Winter or early Spring (no matter how far away) and test the new a d choice varieties of Northern-Grown Potatoes we offer, at trilling cost and save Express or Freight Charges, as we guarantee safe arrival to any post-office in the United States. All orders for the South can be sent at any time during the Winter with perfect success. The orders for the North and West will be booked when received, and sent when Spring creeps or planting time arrives.

New Hybridized Potato Seed from the Flower Ball: Headquarters Stock

Growing new and distinct Potatoes from the Seed-Ball-Seed is intensely interesting and fascinating. They will produce innumerable kinds, colors, shapes, sizes, forms and qualities. Some may be of immense value. This incomparable mixture contains choice selections for the United States, Italy, Chile, Switzerland, South America, France, Africa, Mexico and Europe. New creations of merit bring rich returns and your fortune may be in one of these. POTATO SEED, Postpaid, Pkt. 10c; 3 Pks for 25c.
BUCKBEE’S FLOWER SEEDS

ASTERS
Queen of the Market
The best early Aster, coming into bloom fourteen days earlier than most other kinds. Good-sized double flowers on long stems; 1 foot high. Separate colors: White, Pink, Scarlet, Rose, Lavender, Purple. Each pkt. 5c; ½ oz. 25c. Finest Mixed, pkt. 5c; ½ oz. 30c.

New Japanese or Tassel
Entirely distinct and novel. Plants of pyramidal growth about 18 inches high, bearing on long stems from 40 to 50 flowers, averaging 5 inches across, composed of wavy and twisted needle-shaped petals, making the flowers free from the stiff and formal appearance usual to asters and offer a most striking contrast with those of any other variety. The color is of a soft flesh pink and rose, the two colors mixed. Pkt. 5c; ½ oz. 35c.

Paeony Flowered Perfection
One of the most beautiful and perfect, and deservedly one of the most popular of all Asters; very double, large, beautiful flowers, with incurved petals; height, 18 inches. Blooms in August. Separate colors: Bright Crimson, Clear White, Peach Blossom, Violet, Blue. Each, pkt. 5c; ½ oz. 25c; any 6 pkts., for 20c. Finest Mixed: Pkt. 5c; ½ oz. 25c; oz. 1.25.

Buckbee’s New Upright Mammoth Wonder
See Painting from Nature on Back Cover
Each of the above: Pkt. 15c; ½ oz. 55c.
Mixed, all colors, postpaid: Pkt. 15c; 2 pkt. 25c; ½ oz. 50c.

Buckbee’s Improved Victoria
Mammoth flowers, massive and showy, with regular overlapping petals clear to the center. The flowers measure 4 inches and over across and are of rich and varied colors. The plants grow very evenly, pyramidal in form, about 18 inches high, and carry from 25 to 40 flowers. The stems being long and strong, make them fine for cut flowers. Separate colors: Snow White, Flesh Color, Rich Purple, Dark Crimson, Peach Blossom, Light Blue. Each, pkt. 6c; ½ oz. 40c. VICTORIA CHOICEST MIXED, pkt. 5c; ½ oz. 30c.

Canary Bird
Brightest Sulphur Yellow.
The best yellow variety known; the flowers are of large size, of a rich golden color, perfectly double and imbriated. Its greatest value lies in its rich color, which shows to best advantage when grown with other colors. The flowers are borne upon long, erect stems; excellent for cutting. Pkt. 8c.

We grow on Rockford Seed Farms large quantities of flower seeds, and will be glad to quote you prices on any amounts you may need.
**ASTERS—Continued**

**FIRE KING**

The Most Brilliant Aster Ever Produced and the nearest approach to scarlet yet obtained, a color previously unknown in this popular flower. Habit very compact, not more than 10 inches in height, with large, beautifully incurved flowers. Pkt. 8¢; ¼ oz. 40¢.

**SNOWBALL**

A most profuse bloomer, a single plant often producing as many as 25 to 80 pure snow-white flowers, globular in form and of good size. 10 inches high. Pkt. 8¢; ½ oz. 40¢.

**THE KING**

Large, massive, double flowers, 6 inches in diameter, with long narrow more or less quilled petals which are curled and incurved in the center. Plants 18 inches high, branching; blooms August to October. Separate colors. White King, Pink King, Crimson King, Lavender King, Violet King. Each, Pkt. 8¢; ¼ oz. 30¢.

**BUCKBEE’S RADIANT BRANCHING**

The flowers are the most beautifully formed of all large Asters, and quite different in several respects from any Aster known. The branching habit is accompanied with great vigor of growth and production of bloom. The flowers are very large, 6 to 8 inches across, very double, borne on long, stiff stems and the colors are clear and handsome. The petals are of thick, durable substance and in consequence the flowers last long in perfection. These magnificent blossoms being gracefully poised on strong, well-leaved stems 15 to 15 inches long, are unsurpassed as cut flowers for vases and home decoration. Bloom from the end of August until frost. We offer the following separate colors: Pure White, Dark Blue, Rose Pink, Lavender, Crimson. Each, Pkt. 8¢; any 5 for 35¢; ¼ oz. 40¢.

**BUCKBEE’S NEW GIANT COMET**

Or Mammoth Ostrich Plume. Grand American Asters, a magnificent strain of Comet or Ostrich Plume Asters, finer and larger than Crego and Asterama. The plants grow 18 to 24 inches in height, branching freely. Each plant bearing from 20 to 50 magnificently flowers from 4 to 6 inches in diameter, composed of long, curled, twisted petals, forming loose, fluffy, globular heads. The whole flower has a distinctly feathery effect greatly resembling that of the fine Japanese Chrysanthemums. We offer the following separate colors: Pure White, Purple, Clear Carmine, Bright Rose, Lilac. Each pkt. 8¢; Any 5 pkts. for 35¢; ¼ oz. 35¢. Finest Mixed, all the desirable colors. Pkt. 6¢; ¼ oz. 30¢; oz. $1.25.

**NEW GIANT QUILLED**

The flowers are produced on long, thin, wiry stems, are very large, perfectly double, with long needle or quilled-shaped petals giving the blossoms a very distinct appearance. The plants are of healthy and vigorous habit and grow to a height of about 18 inches Choice Mixed, pkt. 6¢; ¼ oz. 35¢.

**NEW ROYAL**

An early strain of the late Branching Aster, coming into bloom only a little later than Queen of the Market, but superior to it in every way. The flowers measure from 3½ to 4 inches across, of perfect form, exceedingly double, are carried on long, strong stems and are unsurpassed as cut flowers. Plants 24 inches high. Separate Colors: White, Pink, Rose, Lavender, Purple. Each, pkt. 6¢; any 5 for 35¢; ¼ oz. 30¢.

**MIXED COLORS:** Pkt. 7¢; ¼ oz. 35¢; oz. $1.25.
ASTERS—Continued

TWO NEW AMERICAN BEAUTY ASTERS

Identical, except in color. See illustration.

NEW PURPLE AMERICAN BEAUTY—Now offered for the first time. The color is a deep, rich, bright purple, of the same habit of growth as the American Beauty. Some wonderfully perfect flowers, usually four and even five inches in diameter, borne on long, stiff stems 18 to 24 inches long. Large Pkt. 10c; ½ oz. 75c.

CARMINA AMERICAN BEAUTY—The beautiful Carmin-a-rose shade. First offered by us in 1918, of upright and vigorous growth, producing immense flowers 4 to 5 inches across, stems long and strong. Flowers are double to the very center and are of a lovely shade of bright carmine-rose, almost identical to the famous American Beauty Rose. This and the New Purple should be in every garden. Large Pkt. 10c; ½ oz. 65c.

BUCKBEE’s SUPERB Mixture OF GIANT ASTERS

Absolutely Unexcelled.

Producing beautiful flowers, gigantic in size, gorgeous in colors, perfect in form. This mixture includes the cream of all the Asters on this and the following pages, together with many other sorts of the mellowed in alcohol, make a most unusual colors. Especially selected from the finest large-sized, double-flowered types and the most critical flowers, this is undoubtedly the finest and must have this mixture; it will give satisfaction. Pkt. 10c; ½ oz. 40c; oz. 75c.

BUCKBEE’s Fine Mixed ASTERS

A splendid collection of the leading types of Asters in choice mixture. We have cut the price so low that you cannot pass it by. Pkt. 5c; ½ oz. 20c; oz. 75c.

PERENNIAL ASTERS (Michaelmas Daisies)

Single, Fall blooming, hardy plants, with bright, beautiful flowers; if sown early will bloom the first year. Mixed Pkt. 10c; ½ oz. 50c.

ALYSSUM

LITTLE GEM—This should really be called “Snow White Carpet Plant,” for the plants, which are only a few inches high, grow so dense and are so completely covered with snow-white blossoms that it creates the impression of a beautiful carpet spread over the ground. We know of no other white flower which is so particularly well adapted to borders, rockeries, etc., as “Little Gem” Alyssum. The plants commence to bloom when quite small, and will flower uninterrupted all summer long until late in the fall. Added to all this is the sweet fragrance, and we cannot see how a garden could be completely without it. Pkt. 6c; ½ oz. 25c.

SWEET—Pure white, free bloomer. Pkt. 5c; ½ oz. 40c.

SAXATILE COMPACTUM (Basket of Gold)—Showy, deep, pure yellow flowers. One foot high; fine for edging. Hardy Perennial. Pkt. 6c; ½ oz. 35c.

BALSAM (Lady Slipper)

A favorite garden flower producing its brilliantly colored flowers from early summer until frost. Plants strong growers and sure bloomers. About two feet high; flowers extremely double.

DOUBLE WHITE PERFECTION—Pure white. Always in bloom. Pkt. 8c; ½ oz. 30c.

DOUBLE PURPLE PERFECTION—The richest, darkest blue. Pkt. 8c; ½ oz. 25c.

DOUBLE LIGHT PINK PERFECTION—The beautiful sea-shell pink shade. Pkt. 8c; ½ oz. 20c.

DOUBLE SCARLET PERFECTION—Brilliant and dazzling. Pkt. 8c; ½ oz. 20c.

BUCKBEE’s SUPERB DOUBLE MIXED—The most perfect in form and largest double-flowered Balsam yet developed. Unexcelled diversity of rich and delicate colors; flowers often two inches across and borne in wonderful profusion.

We offer a very choice selection of numerous hybrid sorts and a most careful blending of the finest colors in a painstaking mixture. Pkt. 7c; ½ oz. 35c.

GOOD MIXED—This mixture is comprised of the standard sorts, and will give good results. Pkt. 6c; ½ oz. 20c; oz. 60c.

BALSAM APPLE

A beautiful climbing plant with quer-shaped fruits which, if preserved in a good, dry, warm place, the vines run 10 feet or more during the season. Pkt. 6c; ½ oz. 15c.

New Aster American Beauty.

Ageratum, Blue Perfection.

AGERATUM

One of the best for bedding. The plants start readily, grow rapidly and soon come into bloom, and flower uninterruptedly throughout the season.

BLUE PERFECTION—Deep amethyst blue. Pkt. 6c; ½ oz. 20c.

FINEST MIXED—Pkt. 5c; ½ oz. 10c.

ABUTILON

Frequently called “Flowering Maple” or “Chinese Bell Flower.” Blooms quickly; easily grown. Please everybody. New Fancy California Seedlings, Mixed. Pkt. 8c.

AMBROSIA

A hardy annual, exceedingly fragrant. It is as desirable as the Rose Geranium as a plant with fragrant foliage and for making into bouquets and other floral work. Pkt. 5c.

ANCHUSA

The Heavenly Blue Flower. A hardy annual of more than ordinary beauty. It grows about two feet high, branching freely and bearing a profusion of the most lovely flowers similar in all respects to the Forget-Me-Not, though the blossoms are much larger and of finer color. It is always taken for a beautiful large flowering Forget-Me-Not, and for bouquets and out flowers. It is indeed superior to it. It blooms early and continues all summer. Pkt. 5c; ½ oz. 10c.
BABY'S BREATH (Gypsophila)

ELEGANS, ALBA, GRANDIFLORA
An annual that should be in every garden, for it thrives everywhere and furnishes the loveliest material for all kinds of bouquets, pure white flowers. Pkt. 5c; 1 oz. 10c.

PANICUM AGRICOLOSUM—One of the favorite hardy perennials; white flowers; fine for bouquets; two feet high. Pkt. 10c; ½ oz. 25c.

BALLOON VINE
A rapid and graceful climber; tender annual; 6 feet high. The flowers resemble small balloons. Pkt. 5c; ½ oz. 15c.

BEANS

SCARLET RUNNER—A favorite Old-Fashioned Climber. Both ornamental and useful. It grows rapidly to a height of 10 to 12 feet, and is covered from July till frost with clusters of beautiful scarlet flowers. Pkt. 5c; ½ lb. 15c.

WHITE RUNNER—Same as above with exception of the flowers which are white. Pkt. 5c; ½ lb. 15c.

BIRD OF PARADISE FLOWER
This striking and attractive flower has lately become widely popular. The blossoms are of a rich golden yellow, about 3½ inches in diameter, produced in large trusses, the most striking feature being the long, incurving stamens and petals of a beautiful bright crimson color. Seed should be soaked in warm water and started indoors or under glass in a light sandy soil. A sunny situation is required in dry warm soil. Plants should be carefully hardened by gradual exposure to fresh air before going into the open ground. If the seed is started early it will bloom the first year. Pkt. 5c.

BEGONIA VERNON
One of the most satisfactory pot plants for the house and a popular bedding plant for the garden or lawn. Flowers a brilliant orange carmine with bright yellow centers, and the foliage waxy and glossy. Pkt. 5c.

BEGONIA PLANTS—See page 114.

CANAAN

But few people know that these beautiful flowers can be so easily grown from seeds, and bloom the first Summer it sown before April. One of the most popular of bedding plants, while even single specimens are most attractive in the garden. Sow singly in small pots as soon as convenient. The roots can be kept in the cellar over Winter.

CHOZY'S NEW DWARF—Mixed. Immense flowers in brilliant colors. Pkt. 6c; ½ oz. 15c.

COMMON TALL MIXED—A splendid assortment of exceptionally fine varieties. Pkt. 5c; ½ oz. 10c.

FOR CANNA PLANTS SEE PAGE 112.

CANTARY BIRD FLOWER—(Tropaeolum Canariense)

Beautiful climber, the charming little canary-colored blossom bears a fancied resemblance to a bird with its wings half expanded. The plant has a luxuriant, rambling character, and if seeds are planted by the side of arbor or trellis will run about 20 feet and will blossom from July until frost. Tender annual. Pkt. 5c; ½ oz. 30c; oz. 50c.

CALLIOPSIS OR COREOPSIS

ANNUAL MIXED—Very handsome and showy plants of the easiest culture; require no care and thrive in any garden. Produce flowers in nearly every shade of yellow, orange, crimson, red, brown. It is one of those flowers which will grow in any situation and always be admired. New Dwarf Coreopsis Strain. Pkt. 5c; ½ oz. 10c.

LANCEOLATA GRANDIFLORA—One of the finest hardy annuals; blooms the first year from seed and produces on long stems bright yellow flowers, 2 or 3 inches across continually from June till frost. Very valuable for cutting. Pkt. 6c; ½ oz. 20c.

BUTTERFLY FLOWERS (Schizanthus)

Also called Poor Man's Orchids. Wonderfully showy annuals; very decorative for garden beds and unsurpassed for pots for the house. They form compact plants 1½ to 2 feet high, with finely cut foliage, and when in bloom are literally covered with beautiful, orchid-like flowers, and all delicately fringed and curiously marked with crimson, lilac, purple and yellow blotches. They are as easily raised as a weed, either in the garden for Summer display or in pots for Winter. Finest Mixed. Pkt. 5c; ½ oz. 10c.

BURNING BUSH

This beautiful annual bush is rapidly coming into prominence. It grows to 2½ feet high and resembles a close-cliped ornamental evergreen. The globe-shaped or pyramidal bushes are close and compact, and of a pleasing light green color. The plant may be grown singly or in the form of a hedge or background. In Autumn the whole bush turns carmine or blood red. Pkt. 5c; ½ oz. 10c.

GIANT FROSTPROOF BURNING BUSH

A new grand foliage plant for the garden and also pot plant for Christmas and New Year decoration. Differs from foregoing in being twice the size and more hardy. Growing outdoors often till New Year, while the old variety dies early in Fall. Pkt. 10c; 3 for 25c.

CACTUS SEED

There is a great deal of pleasure derived in growing Cactus from seed. You will be surprised at the odd looks of the Cactus just sprouting, and this is also the only way to acquire new and rare varieties. The Seed may be sown in finely sifted sand in flat pans or boxes, which should be kept moderately moist and covered with a piece of glass. Seeds will come up in three to four weeks. Cholla Mixed. Pkt. 10c.
CARDINAL CLIMBER

The finest new annual climber introduced in many years. Very graceful and beautiful, growing rapidly, and in a warm, sunny location. In good soil, it reaches a height of 20 feet and is densely lacedinated palm-like, rich green leaves, bespangled with clusters of very scarlet, tubular, spear-shaped flowers, measuring 1½ inches across. Pkt. 10c.

CACALIA
(Tassel Flower.)
Annual, with tassel-shaped flowers; golden-yellow and scarlet. Pkt. 5c; ½ oz. 20c.

CANDY TUFT

Giant Hyacinth Flowered.

MARGUERITE—Most desirable for cut-flower purposes, producing a very large elongated head of quite large, pure white florets. The immense broad heads frequently measure six inches in length. Pkt. 5c; ½ oz. 25c.

PERENNIAL (Sempervirens) — Unexcelled for cemetery work, being perfectly hardy. White flowers. Pkt. 6c.

CANTERBURY BELLS

Well-known popular perennials, producing bell-shaped flowers of many colors; bloom very freely throughout the summer. MEDIUM SINGLE MIXED—All colors: Pkt. 8c; ½ oz. 10c. MEDIUM DOUBLE MIXED—All colors: Pkt. 6c; ½ oz. 20c.

CALYCANTHÆM—(Cup and Saucer) — The finest Campanulas. Mixed colors: Pkt. 6c; ½ oz. 25c.

CARNATIONS

GIANT-FLOWERING MARGUERITE—These lovely fragrant Carnations produce fine double flowers which often measure 3 inches across. The variety of color includes white, blush, deep pink, salmon, carmine, scarlet, dark crimson, maroon and many beautifully variegated flowers. Most of them have beautifully fringed petals, and are delightfully fragrant. One great merit of these Carnations is that they commence to flower in about 12 weeks’ time from seed. Spring-sown plants will bloom from August until frost; sow in Summer for the winter-flowering plants. They are alike valuable for pot culture and for garden planting. Pkt. 10c; ½ oz. 30c.

MARGUERITE CARNATIONS MIXED—Ordinary strain. Pkt. 5c; ½ oz. 25c.

GREENHOUSE ETERNABLOOMING CARNATIONS—This is the famous Carnation that is grown so extensively by Florists for Cut Flowers. Our seed is saved from our wonderful collection of Carnation Plants grown in our celebrated Forest City Greenhouses at Rockford, and is obtained by hand fertilization of the best and most varied colored flowers. Mixed colors: Pkt. 10c.

(See young Plants of the leading varieties of this class are listed on page 115.)

CENTAUREA CYANUS
(Bachelor’s Button.)
Also known as “Corn Flower.”

BLUE EMPEROR — Single, dark blue, much in demand for cut flowers. Pkt. 6c; ½ oz. 10c.

SINGLE MIXED—Blue, white, rose, etc. Pkt. 5c; ½ oz. 10c.

DOUBLE BLUE—Largely grown by florists for buttonholes. Pkt. 8c; ½ oz. 25c.

DOUBLE FINE MIXED—Flowers are 80 per cent double and semi-double, with beautiful bright colors. Pkt. 5c; ½ oz. 15c.

CENTAUREA (New Marguerite)
The Most Fragrant and Longest Blooming Cut Flower.

The flowers are the size of a medium Carnation, freely produced on long stems; colors mostly pure white. The flowers are sweet scented and their lasting quality after being cut is remarkable. From Spring sown seed they commence to flower in July. Pkt. 5c; ½ oz. 15c.

CENTAUREA (Dusty Miller)
Silver foliage plants used for edging. Pkt. 8c.

CANDIDISSIMA — Broadly cut, silvery leaves. Pkt. 8c.

GYMNOCARPÆ—Fine-cut, silvery leaves. Pkt. 5c.
COCKSCOMBS (Celosia.)

DWARF QUEEN—This is the best dwarf growing Cockscobm; plants about 8 inches high, heads 10 to 12 inches across. Color rich ruby red. Pkt. 6c; ½ oz. 30c.

OSTRICH PLUME—A new Cockcomb which bears feather-like plumes of bloom, more like ostrich feathers or pampas grass than any in its class. Plumes are 1 to 2 feet in length, and of all colors from sulphur yellow to deep rich crimson. A plant in bloom is one of the very brightest and showiest of all garden annuals. All Colors Mixed, Pkt. 6c; ½ oz. 15c.

CHINESE WOOL FLOWER

A valuable novelty. A unique form of the Feathered Cockcomb. The plants grow 2 to 3 feet high, branching freely. Each branch terminates in a large ball-shaped flowerhead or rich crimson color, looking as if made of some silky wool material. They flower profusely from early July till frost. Very effective in beds and borders and valuable for cutting. When dried, the bright color is retained for a long time. Pkt. 10c; 3 for 25c.

BABY GOLDEN GLOW—Annual. Two feet high; flowers early and profusely. Bright yellow double blossoms. Pkt. 5c.

SNOW BALL—Same as above, except pure white. Pkt. 5c.

COLUMBINE HYBRID

One of the most popular house plants. Rich and vivid colors—blue and crimson shades. Most of the varieties have a well defined white eye, while the flowers are sharply margined with some high contrasting color. Flowers 2 inches across. Large Flowering, Finest Mixed, Pkt. 10c.

COLUMBIAN CLIMBER

The most superb of all climbers, and used almost exclusively for decorating pillars, etc., at the World's Columbian Exposition, where it was the admiration of all. It is a fine, rapid grower, of easy culture and always a mass of exquisite green, showing no bare spots. Large purple flowers. Pkt. 6c; ½ oz. 30c.

COLEUS HYBRIDUS

One of the best known and most universally admired ornamental foliage plants.

EXTRA FINE MIXED HYBRIDS—Finest and showiest varieties. Pkt. 8c.

FINE MIXED, Pkt. 6c.

COLEUS PLANTS—See page 150.
CYPRESS VINE

A most beautiful climber with delicate dark green feathery foliage and an abundance of bright, star-shaped rose, scarlet and white blossoms. Tender annual. All colors, mixed. Pkt. 5c; ¼ oz. 1½c.

CHINESE LANTERN PLANTS

Produces numerous large inflated husks, much the shape of Chinese lanterns; at first a beautiful green color, changing to a yellowish hue and then to brightest scarlet. Pkt. 5c.

CLARKIA ELEGANS

Beautiful, hardy annuals with rose, white and purple flowers in delicate shades. Double mixed, Pkt. 5c; ½ oz. 10c.

COSMOS

GIANTS OF CALIFORNIA—This strain is noted both for beauty and the gigantic size of its flowers, which measure 4 to 5 inches across. The colors are very varied and beautiful. Chosenest mixed. Pkt. 5c; ½ oz. 15c.

NEW EARLY FLOWERING—Grace, daintiness and brilliancy are the characteristics of this pretty flower, with its yellow heart, encircled with broad, daisy-like petals, carried on long slender stems, rising from a cloud of feathery foliage. Blooms from July to November. Superb mixed. Pkt. 6c; ½ oz. 15c.

NEW DOUBLE—A new hybrid strain. The flowers vary considerably in their degree of doubleness, some are absolutely double, others have a frill or collar surrounding the double disc, and others again are single, but all are very large and beautiful and are produced in great profusion in fall. (See Illustration.) Mixed colors. Pkt. 10c.

CYCLAMEN

Charming plants, with beautiful foliage and richly colored, fragrant flowers. Universal favorites for Winter and Spring blooming. The Giant varieties have large leaves and stout flower stalks, throwing the flowers well above the foliage. Seed may be sown any time during the Spring or Autumn. (For Cyclamen Bulbs see page 139.)

PERSICUM—Persian splendid mixed. Pkt. 10c.
GIGANTEUM—Very large flowered mixed. Pkt. 12c.

DIGITALIS—Fox Glove

Handsome and highly ornamental hardy perennial plants of stately growth, succeeding under almost all conditions, and with but little attention will give a wealth of flowers during the Summer. If the spikes are cut out as soon as they commence to fade, new shoots will keep up a profusion of flowers for a long time. Flowers, mixed. Pkt. 5c; ½ oz. 15c.

Datura

CORNOCOPIA (Horn of Plenty)

—Very hardy and beautiful. Flowers are trumpet-shaped, measuring 8 to 10 inches in length and 5 to 7 inches across the mouth and form three distinct flowers growing each within the other. Very fragrant. Pkt. 5c; ½ oz. 20c.

DRACAENA

INDIVISA—Beautiful ornamental-leaved plants, long, narrow, green foliage. Indispensable for vases and house decorations. Large specimens are also very useful on the lawn. It will stand full exposure to the sun. Pkt. 10c.

CORN, Burbank’s Ornamental Rainbow

A highly ornamental plant. Leaves striped crimson, yellow, cream, white, bronze, green, etc. Pkt. 5c.

DOLICHOS

(Hyacinth Bean.)

A showy annual climber, grows luxuriantly about 10 feet high, branching out well from the bottom, and is clothed with dense, insect-proof foliage. The sweet-Pea-like white and purple blossoms are borne in long, wisteria-like clusters, often a foot in length, which are followed by exceedingly ornamental seed pods. Finest mixed. Pkt. 5c; ½ oz. 15c.

DAHLIAS

The Dahlia still holds its place as king of all the outdoor Autumn flowers, and they may be grown to the greatest perfection from seed, blooming beautifully the first Summer. Anyone can have a magnificent display of these regal beauties at very small cost. They continue to bloom profusely until frost, when the bulbs may be taken up, stored where they will not freeze, then set out again the following Spring. This may be continued year after year with success.

BUCKEYE’S DOUBLE LARGEST FLOWERING MIXED—A superb mixture of the finest double varieties of the largest size and finest colorings. Pkt. 8c; ¼ oz. 40c.

DOUBLE CACTUS FLOWERING MIXED—The most beautiful in cultivation. They are unequalled for rich and varied colors and perfection of form. Pkt. 5c; ¼ oz. 35c.

DOUBLE FINE MIXED—Pkt. 5c; ¼ oz. 25c.

SINGLE NOVELTY MIXED—Brilliant flowers running through a wide range of striking colors. Pkt. 5c; ¼ oz. 15c.

FOR DAHLIA PLANTS, SEE PAGE 142
DIANTHUS PINKS

Dianthus Pinks are one of the most useful and desirable plants, and for beauty and variety of colors and markings cannot be surpassed. A bed of these in a flower garden will make a grand display as a small cost. Plants from seed grow and bloom very quickly.

ROCKFORD FAVORITE MIXED—Comprises over 50 of the choicest Chinese and Japanese varieties, and includes, besides the standard sorts, all the new and brightest colors in spotted, striped and handsomely fringed varieties of late introduction, both single and double. This magnificent mixture contains the cream of the Dianthus family, and unexpected results may be obtained by planting a package. We cannot recommend this mixture too highly. Pkt. 6¢; ½ oz. 25¢.

DOUBLE ROYAL PINKS—The flowers range in color from blood-red to pure white, and are beautifully frill-ed and fringed. The enormous blooms are especially adapted for cutting, the stems being long. Mixed colors. Pkt. 6¢; ½ oz. 10¢.

DIANTHUS PINKS

ROCKFORD FAVORITE MIXED

FRINGED AND RUFFLED (Laciniatus Mirabilis)—Petals are deeply cut into fine strips of thread-like fringes for about half their length, and are twisted in all directions, presenting a novel aspect. In color they vary greatly, having all shades from pure white to deep purplish-red with red and rose zones. Single mixed colors. Pkt. 5¢; ½ oz. 20¢.

HARDY GRAN'S PINKS (Pheasant's Eye Pink)—Single—The old reliable favorite. Fringed edge, white flowers with dark centers. Delightfully clove scented. Pkt. 5¢; ½ oz. 15¢.

DOUBLE CLOVE PINKS (Pluraris flore pleno)—Double and semi-double varieties. Good range of colors, having a strong clove fragrance. Pkt. 6¢; ½ oz. 10¢.

DIANTHUS PINKS

MIXED CHINA OR INDIA PINKS—Our mixture includes all the best colors and shades. Double mixed. Pkt. 5¢; ½ oz. 10¢.

DOUBLE FIREBALL—A beautiful, very dwarf and compact growing pink, only 10 to 15 inches in height. Flowers are perfectly double and color a rich velvety blood red. Effective for garden beds or pot culture and as cut flowers. Pkt. 6¢; ½ oz. 30¢.

DOUBLE SNOWBALL—This dwarf Dianthus belongs with Double Fireball, and is equally beautiful, differing only in being pure white instead of red. It has all the sterling qualities of the last sort, and is equally hardy and desirable. Pkt. 5¢; ½ oz. 50¢.

MOURNING CLOAK—A distinct new variety with very double large flowers of a dark mahogany, almost black; petals margined pure white. Pkt. 3¢; ½ oz. 25¢.

DIANTHUS PINKS

HARDY FLOWER—Our hardy flower mixture includes nearly all the hardy sorts of Dianthus, and is especially adapted for planting in the open field, or in beds in the garden. Pkt. 5¢; ½ oz. 10¢.

DIANTHUS PINKS

BERTHOLD'S—A very fine mixture of the best yellow sorts of Dianthus, in which the color is retained in all kinds of weather. Pkt. 5¢; ½ oz. 10¢.

DIANTHUS PINKS

MIXED PINKS—A mixture of single, semi-double and double Dianthus Pinks, suitable for cutting. Pkt. 5¢; ½ oz. 10¢.

DIANTHUS PINKS

A Superior Selection of the Best Pinks—A guarantee that the plants you receive from us will be superior to any others you can obtain. Pkt. 5¢; ½ oz. 10¢.

DIANTHUS PINKS

A PLEASANT GIFT—A very choice mixture of the best pinks, especially adapted for making a pleasing gift. An attractive little assortment of single and double pinks, including a choice assortment of varieties. Pkt. 5¢; ½ oz. 10¢.

DIANTHUS PINKS
FORGET-ME-NOT (Myosotis)

QUICKBLOOMING—This type may be treated as annuals and be sown at any time of the year, beginning to flower in from 8 to 10 weeks’ time. The plants are of round, bushy form, 6 to 7 inches high, and when fully grown are perfectly covered with clusters of exquisite flowers. Valuable for winter flowering in pots, as well as for garden beds and edgings. Pkt. 10¢; ½ oz. 35¢.

VICTORIA—This is the finest variety of the beautiful old favorite Forget-Me-Not. Makes low bushy plants 6 to 8 inches high and the same in width, and bears a profusion of lovely azure blue flowers. Fine for edging and also for growing in pots and for cutting. Pkt. 5¢; ½ oz. 25¢.

SEMPERVIOLENS—A hardy perennial. Large, clear blue flowers in pretty shades. Everblooming, in flower from May until frost. Pkt. 18¢.

Feverfew

WHITE GEM—A fine, old-fashioned bedding plant; also suitable for pot culture. It grows about 18 inches high with numerous branching flower stems which are literally covered with very double, pure white flowers an inch in diameter. Pkt. 6¢; ½ oz. 10¢.

GOLDEN FLEECE—Especially adapted for edging, as the foliage is beautifully serrated. Flowers very double, of a rich golden color. Pkt. 5¢; ½ oz. 10¢.

GIANT GHOST FLOWERS

In often called Wedding Bells. Blooms always. Fine for house culture and outdoors. The flowers are drooping, bell-shaped, over a foot long, 9 inches wide, of creamy white color and very fragrant. Pkt. 6¢; ½ oz. 25¢.

GERANIUMS

They will bloom from seed in four to five months, and will frequently reward the cultivator with charming new varieties; in fact, propagation by seed is the sure way to obtain new varieties.

CALIFORNIA GIANTS—Seed saved from the finest double, semi-double and single varieties of the most gorgeous and brilliant colors; all shades of scarlet and crimson, rose, pink, salmon, cream veined, pink, bluish, snowy white, and all new auricole types. Pkt. 10¢.

APPLE SCENTED—The old-fashioned favorite apple-scented Geraniums. Pkt. 5¢.

ZONALE—Mixed—A superb strain. Pkt. 7¢.

LADY WASHINGTON—These are the well known richly colored show Pelargoniums. Our mixture includes all the best varieties. Pkt. 15¢.

New fragrant tree fern

This new ornamental foliage plant introduced from China is an annual, and owing to its fast growth reaches its full size during the year of growing. It forms grand pyramidal bushes of 3 to 5 feet high. As a solitary plant it looks like a nicely grown-out Christmas tree. Also as pot plant it is very pretty, and may also be successfully grown in groups and borders, similar to Kochia Triechophylla, or Burning Bush. The color of the finely pinnated foliage is a rich dark green. Last, but not least, it may be mentioned that cut branches last very long, and may, to the greater advantage, be used for wreaths, decorations, etc. For its great availability and its most easy culture this novelty may most warmly be recommended to all amateurs. Pkt. 5¢.

GEUM (Mrs. Bradshaw.)

A very showy, hardy perennial. 2 feet high. Blooms from June till frost. Flowers deep orange-carmel, 3 inches in diameter, semi-double, resembling the large Carnations. Blooms first season if sown early. Pkt. 5¢.

GAILLARDIAS (Blanket Flower)

ANNUAL VARIETIES—Greatly admired for their fine forms and rich blending of colors, the gay colored flowers being abundantly produced from July until frost, when they thrive anywhere. Single and double mixed. Pkt. 5¢; ½ oz. 15¢.

PERENNIAL—Grandiflora Hybrids—One of the showiest hardy plants. Growing about 2 feet high and succeeding in any soil in a sunny position, beginning to flower in June, then continuing the entire season. The flowers are of gorgeous coloring. The center is dark red brown, while the petals are marked with rings of brilliant crimson, orange and vermilion, and often a combination of all in one flower. Excellent for cutting. Pkt. 5¢; ½ oz. 15¢.

Fuchsia

Fuchsias are as easily grown from seed as from cuttings, and from seed many new varieties are obtained. They will flower freely the first year in the open ground, while the plants can be taken in the house in Winter where they will flower still more freely. Choicest Double and Single mixed. Pkt. 10¢.
GLOXINIA

Lovely Summer-blooming pot plants. They flower profusely and have gorgeous color. Many are magnificently spotted and marked. Easily grown. Blooms in four to five months from time seed is sown. Hybrid forms mixed. Pkt. 10c.

ORNAMENTAL GOURDS

Tender annual climbers of rapid growth, vines often growing 20 to 30 feet long. They have luxuriant foliage and are immune from insects. Fruits curiously shaped in various colors and peculiarly marked. Forms may be wonderfully varied by tying strings around the young fruit or by enclosing some curving mold while growing. Many of these fruits keep for years, being very hard shelled. Mixed. Pkt. 5c; oz. 15c.

GODETIA

Beautiful hardy annuals of compact growth, about 1 foot high, bearing freely large flowers, 3 to 4 inches across, of delicate color and shades that glister in the sunshine like silk. Fine for bedding or for pots. They do best on rather poor soil and in a not too sunny location. Mixed. Pkt. 5c; ½ oz. 15c.

ICE PLANT

Handsome and curious trailing plants for hanging baskets, or vases and the garden, the foliage appearing as though covered with ice crystals. This is one of the most beautiful and effective basket plants that can be grown. Dwarf annual trailer 6 inches high. Pkt. 5c; ½ oz. 15c.

HELIOtrope

CHOICEST MIXED—Our new selected Heliotrope, is a universal favorite on account of its delightful fragrance and duration of bloom, flowering equally well as bedding plants in Summer, or as pot plants in the house during the Winter. Seed sown in the Spring makes fine plants for bedding out, and are as easily grown as Verbena. The colors of the blossoms range from white through all shades of violet to the deepest purple. Pkt. 5c; ½ oz. 35c.

REGAL—A new variety of dwarf Heliotrope. Compact growth and immense flower heads. All shades mixed. Pkt. 10c.

For HELIOTROPE PLANTS, see page 155.

HUMULUS

(Japanese Hop.)

Japonicus—One of the most rapid climbers grown. Seed can be sown in the open or in Spring and the plant will attain enormous dimensions very quickly. The foliage is irregular and it is one of the best plants for covering verandas and trellises. Heat, drought, and insects do not trouble it. Pkt. 5c; ½ oz. 10c.

NEW LEOPARD LEAVED—Beautifully variegated white, green and lemon yellow. Highly ornamental. Will grow anywhere. Pkt. 5c; ½ oz. 15c.

HIBISCUS

HARDY HYBRIDS—A fast-growing perennial, fine for clumps. Enormous flowers—as large as tea-saucers—white, bluish, pale and deep pink, rose, crimson, orange and yellow. Indian plant seed will bloom in September. Mixed colors. Pkt. 5c; ¼ oz. 20c.

NEW GIANT FLOWERING RAINBOW—The most striking introduction of hardy plants for many years. Grows about 6 feet high, producing huge blossoms in many shades of pink, rose, brick red, and also white. They bloom from July until frost. Perfectly hardy and grow anywhere. If sown early, will bloom the first season. Mixed colors. Pkt. 10c; ½ oz. 45c.

LANTANA

Well known shrubbery plants with clusters of Verbena-like flowers, and producing their pink, yellow, orange and white heads in summer and fall. They have an agreeable aromatic perfume. Hybrida finest mixed. Pkt. 5c; ½ oz. 15c.

HOLLYHOCK

Unequaled Double Strains

Nothing is more beautiful than a background of stately double Hollyhocks. Our named colors can be depended upon to come true, while our Mixtures believe to be the finest in the land.

DOUBLE WHITE—Clear, pure white. Pkt. ½ oz. 30c.

DOUBLE MAGENTA—Fine bright variety. Pkt. 7c; 1½ oz. 30c.

DOUBLE ROSE—Rich solid color. Pkt. 7c; ½ oz. 30c.

DOUBLE SCARLET—Intense blood red. Pkt. 7c; ½ oz. 30c.

DOUBLE LEMON—True lemon yellow. Pkt. 7c; ½ oz. 30c.

PRIZE DOUBLE MIXED—Perennial. The perfect doubleness and large size of this magnificent flower will please the most critical. The seed has been saved from our own unrivaled collection of plants. All colors mixed. Pkt. 5c; ½ oz. 50c.

DOUBLE ALLEGHENY—Perennial. Rich colors, fringed petals. Pkt. 5c; ½ oz. 35c.

NEW ANNUAL EVERBLOOMING

The perennial varieties do not bloom until the second year, if grown from seed; these annual kinds, however, bloom the first year, and if sown in the open ground in May, they will be in flower in August, but if started indoors and set out in May, they will bloom in July. They are continuously covered till frost with large flowers—some semi-double, but mostly double with fringed petals, and all are unusually large, often measuring 5 inches across. Double mixed. Pkt. 6c; ½ oz. 35c.

For HOLLYHOCK PLANTS, see page 170.
LARKSPUR—DELPHINIUM

NEW DOUBLE HYBRIDS (Hardy Perennial)—Produce beautiful spikes of miniature flowers, semi-double and double, from 2 to 3 feet in length. The colors are very beautiful, ranging from pure white through all the shades of lavender and blue, to deep purple. Mixed colors. Pkt. 65c; 1/2 oz. 25c.

DWARF DOUBLE GIANT HYACINTH—This is one of the best known hardy Hyacinths. Our strain of Giant Hyacinth is a vast improvement over the old varieties, as more flowers being double and all of them much larger and finer colors. They make handsome beds and borders and are of exceptional value for cutting purposes, the long spires being borne on long stems and keeping well for a long time when cut. A vase of one color or of mixed colors is most charming. Sown in the open ground early in Spring, plants will be in bloom at the beginning of July and give a continuous succession of flowers until cut down by frost, a record not surpassed by any other annual. Mixed. Pkt. 5c; 1/2 oz. 10c.

LINARIA—Annual

MAROCANNA EXCELSION HYBRIDS—Hardy annual plants, 18 inches high and producing beautiful flowers resembling small Snapdragons. They are very desirable for bedding, bouquets and table decoration and are the easiest to cultivate. The flower heads are long and are produced on long up-right stems.

The flowers are open, 3 inches across, mostly of violet and light purple shades; each has a white tip with a yellow blotch which gives a bed of them a light tone and makes it very pretty for borders and beds, and very useful for hanging baskets. They are easily grown from seed. Pkt. 5c; 1/2 oz. 10c.

LUPINUS (Sun Dias).

ANNUAL SORTS MIXED—Free-flowering, easily grown varieties, with beautiful spikes of various colored pea-shaped flowers and graceful, seven-flowered foliage. Valuable for mixed borders and for cutting. Two feet high. Pkt. 9c; 1 oz. 35c.

PERENNIAL SORTS MIXED—(Polyphyllus)—Hardy perennials which should have a place in every garden. The long spikes of pea-shaped flowers are produced in a great variety of colors. They bloom in May and June. Three feet high. Pkt. 5c; 1/2 oz. 20c.

MATHiola (Evening Scented Stock).

The wonderful perfume plant. An old-fashioned hardy annual which has no beauty to recommend it, the flowers of a dull purplish-blue color but which deserves being grown in every garden for the exquisite perfume exhaled profusely in the evening and after showers. One foot high. Pkt. 15c; 1 oz. 35c; 1/2 oz. 15c.

MARIGOLD

LEMON BALL—The extra large flowers are perfectly rounded—of nearly ball-like form; the color is a clear canary-yellow; the brightness of coloring and perfection of form make them resemble large double Yellow Dahlias, only produced so much more abundantly and for a longer season. Pkt. 6c; 1/2 oz. 15c.

ELDORADO—The flowers are from 3 to 4 inches in diameter, fabericated and perfectly double. They embrace four shades of color—the lightest primrose, lemon, golden and yellow and deep orange. Pkt. 6c; 1/2 oz. 15c.

TALL AFRICAN, DOUBLE MIXED—Very early, profuse bloomers. Pkt. 5c; 1/2 oz. 15c.

DWARF AFRICAN, DOUBLE MIXED—Pride of the Garden—Compact bushes, 15 inches high with immense double yellow and orange flowers. Pkt. 6c; 1/2 oz. 15c.

FRENCH DOUBLE MIXED—A class of showy and extremely effective plants. Finely double flowers of rich and beautiful colors. Pkt. 5c; 1/2 oz. 15c.

LEGION OF HONOR—A beautiful single dwarf bushy variety, bearing rich golden yellow flowers with garnet blotches in the center of each petal. Pkt. 5c; 1/2 oz. 10c.
Buckbee's Everblooming Mignonette

BUCKBEE'S ROCKFORD—FINES MIXED
The finest Mignonette Mixture ever blended. It includes all the well-known sorts, together with many new Hybrids. No garden is complete without this mixture. Sow in early Spring and again in July to keep up a succession of flowers till frost. When grown under favorable conditions spikes will not only be of remarkable size, but deliciously fragrant. The individual florets are of immense size, forming a graceful as well as compact spike. Of extraordinary keeping qualities, retaining their grace and fragrance until every bud opens. Pkt. 5c; ½ oz. 15c; oz. 25c.

IMPROVED GOLDEN QUEEN
Golden-yellow flowers; very sweet and fragrant. Pkt. 5c; ½ oz. 10c.

MILES' GIANT WHITE SPIRAL
Very showy; fragrant blossoms. Pkt. 5c; ½ oz. 15c.

NEW GIANT RED FLOWERED
Intense red. Very sweet-scented. There is no Mignonette except Red Goliath which can equal this. Its flowers are larger in every way than those of other sorts, the spikes are very dense, its foliage is distinct, being crinkly, while its odor is strong and most delicious. Pkt. 5c; ½ oz. 15c.

SWEET FLOWERED
The old favorite Sweet Mignonette with small spikes, but very sweetly scented. Pkt. 5c; oz. 15c.

RED GOLIATH
The grandest Mignonette ever introduced. Remarkable for color, size, fragrance and profusion of bloom. The plants are of strong yet compact growth with rich green foliage. The giant flower spikes are borne on erect, strong stalks, and measure from 5 to 6 inches in length, by 2 ½ inches in diameter. The individual florets are of an immense size, forming a graceful as well as compact spike which is of a fire-red shade, surpassing all other varieties in brilliance of color. The fragrance is rich and powerful and the keeping qualities are remarkable, the flowers remaining fresh in water for 5 to 10 days. Pkt. 10c; ½ oz. 25c.

MOONFLOWER
NEW CROSS-BRED OR HYBRID VARIETY
—Of great value for the North, as it is in full bloom one month before the White Seeded. Will grow 38 to 49 feet in a single season. Its flowers are 4 to 6 inches across, very numerous, are open every evening and on cloudy days. Pkt. 5c; ½ oz. 25c.

NEW IVY LEAVED (Day Blooming)—A new Moonflower which opens its blossoms early in the morning (instead of evening), and remains open nearly all day. Flowers pink or creamy white; leaves ivy-shaped. Pkt. 5c.

WHITE SEEDED—This is the variety most generally grown, being larger in flower and of sweeter odor than the Black Seeded variety. Pkt. 5c; ½ oz. 20c.

MAURANDIA
(Climber)
Elegant twining, climbing plants, with handsome, graceful foliage and flowers. Particularly adapted for hanging baskets, vases and light trellises. A half-hardy perennial, flowering in July from Spring-sown seed and continuing till frost. If desired for Winter culture in the house, take up before frost. Mixed colors, blue, mauve and white. Pkt. 5c; ½ oz. 35c.

MUSCAT FLOWER

MONKEY FLOWER

MIMULUS TIGRinus—Tender little plants about one foot high, producing in great profusion very showy, large, Gladiolus-like flowers, brilliantly colored, blushed and striped in every conceivable manner and ranging in colors through white, yellow, rose, crimson and maroon. Excellent for house culture, baskets and vases, and also have a brilliant effect in beds and borders. They thrive in shady and moist situations. Mixed. Pkt. 5c.

MUSK PLANT

MIMULUS MOSCHATUS—A well-known and favorite plant, both for outdoor borders and for pot culture. Cultivated on account of the musky odor of its flowers. Flowers small, yellow. Pkt. 7c.
MORNING GLORY

NEW IMPERIAL OR GIANT JAPANESE

The flowers are of gigantic size and the colorings and markings beyond description ranging from snow-white to black purple, with all the possible intermediate shades, such as pink, rose, fiery red, copper red, carmine, crimson, pale blue, deep blue, royal purple, maroon, bronze, indigo, slate, brown, cherry and ash gray. Others are edged with white, having throat of one of the above colors; there is also an endless number of flowers spotted, marbled, striped, flaked and splashed. Choiceest mixed. Pkt. 6c; oz. 12c; 2 oz. 30c; ½ lb. 55c.

IMPROVED TALL OR CLIMBING

Most popular climber in cultivation. Of rapid growth. Our seed is selected from the best varieties only, and is a great improvement over the old sorts. Select mixed. Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c.

DWARF MORNING GLORY

The wonder of the age as a Winter house-blooming variety. Flowers richly colored. Mixed. Pkt. 5c; oz. 15c.

NEW FUCHSIA-FLOWERED—TALL

The vines or shoots are gracefully slender, but very numerous and most densely set with five-fingered deep green leaves, growing very rapidly. Bear pretty, light rosy-pink flowers. Finest mixed. Pkt. 5c.

BUCKBEES' NEW DOUBLE—TALL

This Double Morning Glory will be greeted as a welcome addition to this class of plants. It is of rapid growth, producing its large double flowers very freely. They are of beautiful form and coloring. Mixed. Pkt. 10c.

DAMASCENA — A popular old-fashioned flower, free flowering with finely cut foliage surrounding the curious looking flowers and seed pods. Mixed. Pkt. 5c; ¼ oz. 15c.

MISS JERKY, BLUE— An improved large flowering variety of the above with double cornflower blue blossoms. Pkt. 6c; ¼ oz. 25c.

MISS JERKY, WHITE — A counterpart of the blue with pure white flowers. Pkt. 8c; ¼ oz. 25c.

Buckbee's New Double Morning Glory

Nicotiana
Sweet Scented Tobacco Plant

AFFINIS—Handsome and well-known hardy annuals that grow easily from seed, forming compact bushes about 3 feet high which are in continuous bloom throughout the season. Their blooms are tube-shaped, pure white, very sweet-scented and desirable as cut flowers. Pkt. 5c; ¼ oz. 15c.

AFFINIS HYBRIDS—Similar to the Affinis, but the flowers are larger. Colors, white, purple, red, salmon, pink, violet, etc. Very showy; bloom profusely all Summer and Fall. Mixed colors. Pkt. 6c; ¼ oz. 25c.

Nolana
Beautiful trailing plant, fine for growing in masses, and unsurpassed for baskets, pots, vases or rock work. Flower is similar in shape to the Morning Glory. Fine Mixed. Pkt. 5c; ½ oz. 10c.
BUCKBEE'S NASTURTIUMS

Buckbee's Tall Giant Flowering Mixed
A wonderful diversity of rich colors and new and striking combinations are found in this unequaled mixture. A row in full bloom is truly gorgeous beyond description, containing as it does every shade and tint of yellow, rose, scarlet, carmine, orange, lemon, bronze, violet, purple, maroon, ruby, cream and pink, both in solid colors and mottled and striped in many showy and exquisite ways. Pkt. 5c; oz. 15c; ½ lb. 55c; lb. $1.40.

Tall Selected Mixed
This mixture is a most beautiful assortment of rich and brilliant colors and is surpassed only by Buckbee's Giant Flowering Mixture. Pkt. 5c; oz. 18c; ½ lb. 35c; lb. 90c.

Hybrids of Madame Gunter
A most beautiful dark-leaved strain of climbing varieties, flowering profusely and having a wide range of bright and distinct colorings. Pkt. 6c; oz. 18c; ½ lb. 60c.

New Tall "Ivy-Leaved"
The plants are of running growth, but have the same foliage and flowers as the Dwarf Ivy-Leaved varieties. Pkt. 6c; ½ oz. 20c.

New "Ivy-Leaved" Dwarf Mixed
A new class, with thick, green lobed leaves resembling those of the English Ivy. The flowers, which are borne in the greatest abundance throughout the season, are of medium size, and peculiarly cut and fringed, giving them an airy butterfly effect. Pkt. 6c; ½ oz. 20c.

New Tall Variegated Leaved
The leaves are so beautifully variegated with yellow, white and green that the plants would be worthy of culture for the foliage alone. The flowers are of the same size, form and colors as the regular tall Nasturtiums. Superb Mixed. Pkt. 6c; ½ oz. 20c.

New Dwarf Variegated Leaved
The very best of the variegated leaved Nasturtiums. The leaves are marked with white, green and yellow and contrast nicely with the large showy flowers which are of all colors. Pkt. 6c; ½ oz. 20c.

Buckbee's Giant Flowering Dwarf Mixed
These grand New Bedding Nasturtiums are brilliant in the extreme. They produce in wonderful abundance large flowers of the most gorgeous hues. The colors are very intense, making a sharp diversity of color not to be found in common mixtures. The plants are strong and vigorous, growing very quickly and producing erect, symmetrical bushes, with foliage from light green to deep blue green. Pkt. 5c; oz. 15c; ½ lb. 55c; lb. $1.60.

Dwarf Fine Mixed
A first-class mixture from selected colors that harmonise beautifully. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. 95c.

Lilliput or Miniature Mixed
Very beautiful varieties smaller in growth, leaf and flower than the other dwarf sorts, forming dwarf compact bushes 6 to 8 inches high, freely hidden throughout the season by flowers of a great variety of brilliant colors. Pkt. 5c; oz. 20c.
Pansies are a universal favorite with young and old and, aside from their great beauty, we all treasure them as the symbol of modest worth and true affection. The smallest yard must have its Pansies. Not poor, forlorn plants, struggling with heat and drouth and hard baked ground, though even there, yielding us handfuls of cheery bloom; but, rather, strong, vigorous plants, riotous in the cool, deep, mellow beds they love, made rich with fertilizers, kept free from weeds, and shaded from the hot afternoon sun. In such a bed one may gather great, velvety Pansies by the handfuls—flowers so radiantly beautiful that they scarcely seem of the earth. Pansies are now produced in an almost infinite variety of colors and markings. Their brilliancy of shading, extended season of blooming and longkeeping characteristics make them general favorites. We have been interested in the bringing forward of advanced types of large varieties in this country as well as in Europe, and our stocks are the very best obtainable. We spare neither pains nor expense to satisfy the most critical trade. Poor Pansy seed is dear at any price. Ours is saved with great care and is the best.

**Buckbee’s Mammoth Sunrise Mixture**

This splendid mixture is a blended combination of mammoth flowering Pansies. It contains all colors and will prove a delightful surprise in regard to the great size and rich and varied colorings of its flowers. Very popular. Pkt. 10c; ½ oz. 75c.

**Buckbee’s Sweet Scented Mixture**

The Perfume of the Violet. The Beauty of the Pansy.

This new class is the result of crossing the Pansy with the Sweet Violet; the resulting hybrids, in addition to retaining the delightful violet perfume, produce the most beautiful Pansy-like blossoms, 2 to 2½ inches across, of great substance and of an endless variety of colors. Mixed. Pkt. 8c; ½ oz. 60c.

**Giant Flowering Pansies in Separate Colors**

They Are the Largest and Most Beautiful Pansies in Cultivation

**GIANT YELLOW PRINCE**—Pure golden yellow, sometimes with the three lower petals marked with purplish or red blotches and hair lines. Pkt. 8c.

**GIANT SNOW QUEEN**—The largest pure white Pansy without blotches. Edge of petal is frilled. Pkt. 8c.

**GIANT STRIPED**—The flowers are striped and mottled in various tints. Pkt. 8c.

**GIANT ADONIS**—Light blue with a white center setting off the dark blotches on the petals in striking manner. Pkt. 8c.

**GIANT BEACONFIELD**—This is a great favorite on account of the rich combination of purple and lavender, shading to white towards the top. Pkt. 8c.

**GIANT PSYCHE**—Velvety violet-blue with a broad white edge. Petals waved and ruffled after the Masterpiece style. Pkt. 8c.

**GIANT EMperor WILLIAM**—Rich deep blue. Pkt. 8c.

**GIANT VOLCANO**—The best red Pansy. Each petal is marked with a very-large dark blotch. Pkt. 10c.

**GIANT BLACK PRINCE**—The rich, glossy black has a peculiar soft, velvety appearance, the magnificent large flowers are of fine circular form. It flowers so profusely that a bed of the Black Prince makes a sight not often equaled. Pkt. 8c.

**GIANT BRIDESMAID**—Rosy-white, with darker blotches. Pkt. 8c.

**BUCKBEE’S COLLECTION OF GIANT PANSIES**—1 Pkt. each of the above 10 sorts for 75c.
BUCKBEE'S "FULL OF LIFE" PANSIES

BUCKBEE'S GIANT FLOWERING MIXED

In this magnificent mixture of giant flowering Pansies, the colorings are wonderfully rich and varied; every shade and tint of rose, canary-yellow, black, white, cream, lavender, garnet, sky-blue and orange are produced in endless variations and striking combinations, while others have silvery grounds, heavily spotted at the base of each petal with a dark, rich shade. The enormous flowers are of thick, velvety texture, perfect form, and borne on long stems well above the foliage. The compact, rounded plants are of sturdy habit and deep rooted, so that they bear the gigantic flowers profusely and continuously. Pkt. 10c; ½ oz. $1.00; oz. $7.00.

BUCKBEE'S WORLD'S FAIR PRIZE MIXED

This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture, producing flowers of rare beauty in both colorings and markings. Pkt. 6c; ½ oz. 55c.

IMPERIAL SPLENDID MIXED

Much used for bedding. The flowers, while not giants, are very large, of fine form, and of a wonderful variety of colors, this mixture embracing over fifty varieties. Pkt. 5c; ½ oz. 50c.

GIANT MADAME PERRET

A superb new strain; large flowers and beautiful colors, blossoms ranging through all the shades of red, from a pink to a fine, deep purple, with an intermediate bright red, edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. The extraordinary size of the flowers, which reach as much as 3 to 3½ inches in diameter, makes it a novelty of the first rank. Pkt. 7c; ½ oz. 60c.

GIANT "MASTERPIECE"

This magnificent Pansy comes nearer to double Pansies than anything ever introduced under that name, the border of every petal being conspicuously crimped and curled in such a fashion that the flowers appear double. The color combinations and variations are very odd and striking, and contain some very lovely tints that cannot be found in any other strain of Pansies. Pkt. 15c; 2 for 25c.

BUCKBEE'S BEDDING PANSIES

IN SEPARATE COLORS

These are very early and free flowering, and of good size.

EMPEROR FREDERICK—Velvety brown, shaded into a narrow band of deep golden yellow, which borders each petal. Pkt. 6c.

EMPEROR WILLIAM—The flowers are of the true ultramarine blue color, with well defined violet-purple eye. Pkt. 6c.

FAUST or KING OF THE BLACKS—Almost coal-black. Pkt. 6c.

FIRE KING—Lower petals with large blotch of deep brown-red, margined yellow; upper petals fiery red-brown. Pkt. 7c.

LORD BEACONSFIELD—Deep purple-violet, shading to white on the upper petals. Pkt. 6c.

NEW RED MIXED—A mixture of all the best red and fiery shades which have been produced up to date. Pkt. 6c.

PEACOCK—Upper petals ultramarine blue; lower, deep claret with white margin. Pkt. 6c.

PURE WHITE—Pure white, without blotches. Pkt. 6c.

ROSY MORN—Purplish white, without blotches. Pkt. 6c.

YELLOW GEM—Pure yellow, without edge. Pkt. 6c.

BUCKBEE'S COLLECTION OF BEDDING PANSIES—1 Pkt. EACH OF THE ABOVE 19 KINDS FOR 55c.
Buckbee's Mammoth Prize Mixed Phlox
The Finest Mixture Ever Offered

Buckbee's Mammoth Prize

Their long duration in bloom, combined with their almost unequalled richness of color, renders these Phlox of invaluable service in the flower garden. The color ranges in every conceivable shade. The flowers are twice the size of common Phlox, of great substance and beautiful form. The plants are of stout branching habit, always erect. BUCKBEE'S MAMMOTH PRIZE, Grandest of All Phlox, in Finest Mixture. Pkt. 8c; ½ oz. 25c.

New Double

Double Phlox are most desirable annuals for cut flowers, lasting longer than single ones. We have secured a particularly fine strain from France, which has a large percentage of pure white and cream color and is perfectly double and semi-double. The white is especially valuable as a cut flower. The semi-double flowers are fully as desirable as the doubles; in fact, many claim they are even prettier. This Phlox is not rivaled among garden flowers in brilliancy of bloom. They are strong growing, healthy plants, with pretty foliage, and belong in every garden, being one of the most brilliant and at the same time one of the earliest and most satisfactory plants, which can be readily grown from seed. The fine blooms, produced in large trusses, furnish a grand display in the garden and are very effective for table decoration. We are sure our customers will be greatly pleased with them. Select Mixed. Pkt. 8c; ½ oz. 40c.

Hardy or Perennial

(For Plants, See Page 108)
The great rich heads of flower masses are simply magnificent. The most admired sorts and the best bloomers. Mixed. Pkt. 10c.

Finest Mixed

Contains in splendid blend many varieties. Invaluable for bedding and cut-flower purposes. Pkt. 5c; ½ oz. 15c.

Starred and Fringed

In the fringed flowers the petals are fringed, three-toothed, of a great variety of magnificent velvety colors with a bright eye in the center and a white border. In the Starred Phloxes the central teeth of the petals are five or six times as large as the lateral ones, and projecting beyond them like little spines, give the flowers a distinctively star-like form. All colors mixed. Pkt. 5c; ½ oz. 25c.

Cecily, New Dwarf, Compact, Large Flowering

A lovely strain with immense flowers. The plants grow erect, only 6 to 8 inches high. For bedding alone, or as borders in beds with taller varieties, it is one of the most brilliantly effective annual flowers. A choice mixture of countless shades. Pkt. 8c; ½ oz. 50c.

Double Portulaca, or Moss Rose

DOUBLE GIANT FLOWERED MIXED—One of the most showy and beautiful annuals with abundant highly colored flowers. For baskets, beds, masses or edging it is invaluable. Pkt. 5c; ½ oz. 35c.

SINGLE MIXED—A great variety of colors. Mixed. Pkt. 5c; ½ oz. 15c.
BUCKBEE'S "FULL OF LIFE" PETUNIAS

GIANTS OF CALIFORNIA
A California strain of great beauty, size and luxuriance. The flowers are of immense size, often measuring 5 to 6 inches across. The variety of colors, markings, veining and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. Pkt. 10c.

BUCKBEE'S NEW DOUBLE FANCY FRINGED
A mixture of the best large flowered and Fringed Double Petunias. It embraces a wide range of colors and shows finer combinations than we have here before found in any double Petunias, including delicate mauve, porcelain blue, white, garnet and velvet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other Petunia in cultivation. Mixed, Pkt. 15c.

HYBRIDA—Single Mixed
A splendid mixture, embracing all colors, including striped and blotched varieties. Are excellent for bedding or massing, remaining in bloom the entire summer. Pkt. 5c; ½ oz. 35c.

DWARF—Single Mixed
Neat, compact growing erect bushes about 8 inches high, covered with a multitude of flowers all season. Valuable for edging and pots. Pkt. 10c.

GRANDIFLORA—Single Large Flowering
One of the richest colored mixtures in cultivation, beautifully veined with various shades of purple, rose, lavender, yellow and crimson. Mixed. Pkt. 8c.

Buckbee's Giant Single Petunias

ROSY MORN—One of the prettiest soft carmine-pink with white throat. Very fine for beds or porch boxes. Pkt. 5c.

HOWARDS STAR—Color is a rich rose with well defined white star-like stripes. Pkt. 5c.

SNOWBALL—Dwarf and compact plant. Blooms profusely the entire season. Flowers pure satin white. Pkt. 5c.

STRIPED—Flowers not quite as large as above, but all are beautifully striped and blotched. Pkt. 8c.

Petunia Plants—See Page 159

BUCKBEE'S "FULL OF LIFE" POPPIES

Although the Poppy may be termed by some an old fashioned flower, it is as indispensable today as it was in our Grandmother's garden. Innumerable flowers of the brightest and most varied colors with their graceful, feathery foliage makes this one of the most desirable of our easily grown annuals.

BURBANK'S SANTA ROSA GIANT SHIRLEY
A great advance in single-flowering annual Poppies. The flowers are immense, often measuring 3 to 4 inches across, the petals are fluted and crinkled and in the sunlight appear like rumpled satin. Bloom in continuous succession for weeks. Flowers white, white-reined pink, white-splashed crimson, rose banded with white, salmon, carmine, blush, scarlet, and many splashed, striped, dotted and edged, etc. Pkt. 5c; ½ oz. 15c.

BUCKBEE'S GIANT GRANDEST DOUBLE MIXED
A dazzling mixture of beautiful double Poppies, giant-flowering kinds of the richest and brightest colors, as well as the daintiest and softest tints. Pkt. 5c; ½ oz. 15c; oz. 25c.

PAEONY FLOWERED
Large, showy, double, globular flowers. Fine Mixed. Pkt. 5c; oz. 15c.

ICELAND
Hardy perennials, bloom the first year from seed. Brilliant flowers. Mixed Colors. Pkt. 5c; ½ oz. 20c.

ORIENTAL HYBRIDS
Hardy perennials with enormous gorgeous flowers. Mixed Colors. Pkt. 5c; ½ oz. 20c.

POPPY PLANTS—See Page 170
Ricinus

**Ricinus**

**Ricinus Zanzibariensis or Giant Castor Oil Bean.**

Showy Annual of Easy Culture. Eighteen inches in height. The flowers are produced singly on long, stiff stems and have a diameter of 2 to 3 inches. Large rounded purplish cone in center, with narrow petals around the base of cone. Petals are a deep orange-yellow, heavily marked with brownish red on inner portion. Pkt. 5c; ½ oz. 10c.

Penstemon

**Penstemon**

A most showy perennial; as a bedding plant takes rank with the Petunia, Phlox, etc. Colors, rose, red, carmine, cherry, pink, lilac, purple, etc. The plants grow 2 feet high; every branch is a spike of large flowers, gloxinia-like in size and shape. Not quite hardy and is best treated like an annual, sown early indoor and set out as soon as the weather permits; it will bloom from July till frost. Cholest Mixed. Pkt. 5c; ½ oz. 25c.

Ricinus

**Ricinus**

( **Castor Oil Bean**)

**ZANZIBARIENSIS GIANT MIXED**—From seeds sown in the open ground in May the plants are in full foliage early in July, and attain a height of 12 to 14 feet. The enormous leaves, beautifully lobed, measure 2½ to nearly 4 feet across. Pkt. 5c; oz. 15c.

**GOOD MIXED**—Many choice varieties. Pkt. 5c; oz. 10c.

Prunella

**Prunella**

**Primula Sinensis or Chinese Primrose.**

One of our most beautiful and indispensable plants for Winter or Spring blooming in the house or conservatory. Unequaled as Winter bloomers—easily grown.

**CHINESE PRIMROSE, Buckbee's Superb Mixed**—An elegant mixture embracing all the best large-flowering varieties, and also including the fringed sorts. Pkt. 10c.

**CHINESE PRIMROSE, Finest Double Mixed**—A splendid strain of the finest large-flowering fringed varieties. Our mixture includes the most brilliant colors. Pkt. 18c.

**Primula Obconica Grandiflora**

**BABY PRIMROSE**—Primula Obconica is as near an everblooming plant as is possible to obtain. It has been known to flower for over twelve months without a break. Pkt. 10c.

Pyrethrum

**Pyrethrum**

**HYBRIDUM GRANDIFLORUM, Single**—Large, bright and showy, daisy-like flowers ranging in colors from white, light pink, to deep red, with bright yellow centers, bloom in spring and again in fall. The flowers are invaluable for cut flowers, being borne on long stems and lasting a long time. The foliage is most elegant in its finely cut, fern-like form and fresh deep green color and is attractive at all times. Nothing surpasses these Pyrethrum for profusion of flowers during the season, and being so simply and easily cultivated, they ought to have a place in every garden whether large or small; height 2 feet. Hardy perennial. Mixed. Pkt. 10c.

**HYBRIDUM DOUBLE**—Hardy perennial; large double, beautiful flowers, resembling a refined China Aster. Height 1½ feet. Pkt. 20c.

Rudbeckia

**Rudbeckia**

**Rudbeckia.**
SALVIA OR SCARLET SAGE

**SPLENDENS**—The original Scarf Sage with beautiful long spikes of bright scarlet color. It is a standard bedding plant and keeps the garden bright with color until frost. Pkt. 5c; ¼ oz. 25c.

**SCARLET DRAGON**—The most magnificent summer and autumn flowering bedding plants. The old Salvia Splendens or Scarf Sage has long been a favorite, and our customers can partially appreciate the superiority of this new variety when we state that the flowers are nearly double the size, closely crowding the immense long spikes that often measure 6 inches across. Full-grown plants in bloom form compact bushes 3 feet high, and bloom from ground to summit. We know of nothing that can equal the gorgeous effect of a row or bed of these fine Salvias when in full bloom; the waving masses of glistening scarlet against green surroundings of lawn or foliage is matchless. Grows very easily from the seed. Pkt. 5c; or 3 pkts. 25c; ½ oz. 45c.

**Salvia Plants**—10c each; 3 for 25c, postpaid. By express at buyer’s expense, $7.00 per 100.

**SALPIGLOSSIS**

Very showy bedding or border plants with richly colored, erect, funnel-shaped flowers. The flowers are very beautifully marked and penciled purple, scarlet, crimson, yellow, buff, blue, and almost black. Bloom from August to October.

**NEW EMPEROR**—This variety shows a very marked distinctiveness from the older type in habit of growth as well as in flowers. It forms only one leading stem about 30 inches high, from which branch out near the top numerous side shoots, each bearing a larger flower, thus forming a very beautiful bouquet of the most beautiful flowers, each one richly veined with gold.

A bed of Emperor Salpiglossis in flower is strikingly beautiful. Mixed colors. Pkt. 5c; ¼ oz. 25c.

**LARGE FLOWERING MIXED**—Pkt. 5c; ½ oz. 15c.

**SENECIO ELEGANS**

A beautiful fall flowering annual. Flowers purple, red, crimson, rose and white; perfectly double. Pkt. 5c; ¼ oz. 25c.

**SENSITIVE PLANT**

An interesting and curious plant with globular heads of pink flowers. It affords much amusement by its sensitive character—e'en when touched slightly, the leaves instantly close and droop for a short time. Pkt. 5c; ½ oz. 15c.

**SCABIOSA OR MOURNING BRIDE**

This is one of the most attractive of the old-fashioned flowers. Great abundance and long succession of richly colored fragrant blossoms borne on long stems make it one of the most useful of the decorative plants of the garden.

**BLACK KNIGHT**—Deep velvety purple. Pkt. 5c; ¼ oz. 25c.

**FIERY SCARLET**—Rich vermillion red. Pkt. 5c; ¼ oz. 25c.

**APPLE BLOSSOM**—Delicate shell pink. Pkt. 5c; ¼ oz. 25c.

**SNOWBALL**—Purest white. Pkt. 5c; ¼ oz. 25c.

**DWARF DOUBLE LARGE FLOWERING MIXED**—Pkt. 5c; ½ oz. 15c.

**TALL DOUBLE LARGE FLOWERING MIXED**—Pkt. 5c; ½ oz. 15c.

**CAUCASIA** (Blue Bonnet) or **CAUCASIAN**—Hardy perennial, 3 feet high. Flowers lilac-blue on long stem; fine for cutting. Pkt. 5c.

**SNAPDRAGON** (Antirrhinum)

Snapdragon now rivals the Sweet Pea in popularity, and it is one of the most valuable flowers which can readily be grown from seed, whether intended for cutting or for show in the garden.

**FIRE KING**—Deepest cardinal red. Pkt. 5c; ¼ oz. 25c.

**YELLOW BEAUTY**—Bright orange yellow. Pkt. 5c; ¼ oz. 25c.

**SILVER PINK**—One of the best. Pkt. 5c; ¼ oz. 25c.

**QUEEN VICTORIA**—White shaded cream. Pkt. 5c; ¼ oz. 25c.

**GIANT**—The flowers of this new type are double the size of older sorts; are more closely set on the stems and the colors most clear and brilliant. They grow about 12 inches high. All colors, mixed. Pkt. 5c; ¼ oz. 25c.

**TOM THUMB**—Six inches high. Finest mixed, all colors. Pkt. 5c; ¼ oz. 25c.
STOCKS

LARGE FLOWERING GLOBE PYRAMIDAL—This is the best class for outdoor bedding for Summer blooming, and is the earliest of all to come into flower. Spikes and flowers very large, the individual blooms frequently measuring 2 to 2½ inches in diameter. The large, double and perfect flowers are produced in great profusion, and the plant is of pretty shape. Seed saved from named sorts of various colors. Grand Mixture. Pkt. 5c; ½ oz. 45c.

GIANT FLOWERING BEAUTY STOCKS—A magnificent new strain of early flowering winter stocks, forming bushy plants about 2 feet high with tall, strong spikes of unusually large, very double, deliciously fragrant flowers. These plants do not bloom as early as Globe Pyramidal Stocks, but longer and more profusely. Mixed Colors. Pkt. 7c; ½ oz. 40c.

DWARF—Large Flowering, Ten Weeks—Fine Mixed—A very popular strain. Pkt. 5c; ½ oz. 25c.

VESUVIUS—Brightest crimson. Pkt. 10c; ½ oz. 50c.

MONT BLANC—Clear white. Pkt. 10c; ½ oz. 50c.

MONTE CARLO—Pure yellow. Pkt. 10c; ½ oz. 50c.

BLUE BIRD—Purplish blue. Pkt. 10c; ½ oz. 50c.

PRINCESS ALICE PERPETUAL—Cut and Come Again—A pure white double variety, about 2 feet high, producing endless numbers of side branches. Every branch bears a cluster of delightfully fragrant flowers, and new ones are produced to replace those which are removed. Pkt. 6c; ¼ oz. 30c.

SUNFLOWERS

NEW CHRYSANTHEMUM FLOWERED—Fine, perfectly double golden flowers, resembling Japanese Chrysanthemums. Height, 6 feet. Pkt. 5c; ½ oz. 15c.

NEW DOUBLE MULTIFLORA—The plant is pyramidal in shape and the handsome, double flowers are produced at base of each leaf. Pkt. 5c; ½ oz. 15c.

STELLA—Flowers star-shaped, of brightest golden yellow, with dark centers. Borne on long stems. Four feet high. Pkt. 5c; ½ oz. 15c.

RED SUNFLOWER—A unique and gorgeous novelty. The plants grow 4 to 5 feet and produce large flowers from 5 inches to a foot in diameter. The color also varies greatly, but the majority of flowers have a more or less wide red circle around the purplish black center, and the tips of the petals are golden yellow. Pkt. 8c.

FINEST MIXED—For background or screen to hide unsightly places. Pkt. 5c; oz. 15c.

SWEET ROCKET

Hardy perennials, bearing purple or white flowers. Plants 2 to 3 feet high. Flowers fragrant. Fine mixed. Pkt. 5c; ½ oz. 15c.

WINCA

Ornamental free flowering house or bedding plants. Flower the first season. Glossy green foliage; handsome circular red and white flowers about 1½ inches across. Will flower in the garden all season, and if potted in Fall will bloom all winter. Mixed. Pkt. 8c; ½ oz. 25c.

WINCA

Ornamental free flowering house or bedding plants. Flower the first season. Glossy green foliage; handsome circular red and white flowers about 1½ inches across. Will flower in the garden all season, and if potted in Fall will bloom all winter. Mixed. Pkt. 8c; ½ oz. 25c.

SWEET WILLIAM

NEW HARDY EVERBLOOMING. The Floral Wonder. Blooms in 20 days from sowing of seed—Flowers all Summer and Fall—Lasts for years.

The old favorite Sweet William, as all know, does not flower until the second year, from seed, but this new hybrid-strain, a cross of the old perennial sort with the Chinese Pink, begins to bloom in 10 to 15 days from seed sown in Spring, and continues to flower all Summer and Fall. It is entirely hardy and will last for years, doing better each succeeding year.

The flowers are very fragrant and like those of the old Sweet William in size, form, marking and colors. Some of them have smooth edges, while others are fringed. The colors embrace every tone and shade from pure white to deep crimson, the flowers are self-colored, but the majority are two-colored.

The plants are about one foot high, are neater and prettier than the old variety, and bloom long after they are gone. The Everblooming Sweet William may be started indoors or sown directly in the garden. All Colors Mixed. Pkt. 10c; ½ oz. 45c.

PERENNIAL SWEET WILLIAM

PERENNIAL FINE SINGLE MIXED—Various beautiful shades and markings. Pkt. 5c; ½ oz. 15c.

PERENNIAL FINE DOUBLE MIXED—A splendid strain. All colors. Pkt. 5c; ½ oz. 25c.

VIOLET

(Viola odorata)

The true hardy violet. This should not be wanting in any garden, on account of its fragrance and early appearance. Succeeds best in a shady, sheltered place and can be easily increased by dividing the roots. Finest Mixed. Pkt. 6c.

SUNFLOWERS

NEW CHRYSANTHEMUM FLOWERED—Fine, perfectly double golden flowers, resembling Japanese Chrysanthemums. Height, 6 feet. Pkt. 5c; ½ oz. 15c.

NEW DOUBLE MULTIFLORA—The plant is pyramidal in shape and the handsome, double flowers are produced at base of each leaf. Pkt. 5c; ½ oz. 15c.

STELLA—Flowers star-shaped, of brightest golden yellow, with dark centers. Borne on long stems. Four feet high. Pkt. 5c; ½ oz. 15c.

RED SUNFLOWER—A unique and gorgeous novelty. The plants grow 4 to 5 feet and produce large flowers from 5 inches to a foot in diameter. The color also varies greatly, but the majority of flowers have a more or less wide red circle around the purplish black center, and the tips of the petals are golden yellow. Pkt. 8c.

FINEST MIXED—For background or screen to hide unsightly places. Pkt. 5c; oz. 15c.

SWEET ROCKET

Hardy perennials, bearing purple or white flowers. Plants 2 to 3 feet high. Flowers fragrant. Fine mixed. Pkt. 5c; ½ oz. 15c.

WINCA

Ornamental free flowering house or bedding plants. Flower the first season. Glossy green foliage; handsome circular red and white flowers about 1½ inches across. Will flower in the garden all season, and if potted in Fall will bloom all winter. Mixed. Pkt. 8c; ½ oz. 25c.

SWEET WILLIAM

NEW HARDY EVERBLOOMING. The Floral Wonder. Blooms in 20 days from sowing of seed—Flowers all Summer and Fall—Lasts for years.

The old favorite Sweet William, as all know, does not flower until the second year, from seed, but this new hybrid-strain, a cross of the old perennial sort with the Chinese Pink, begins to bloom in 10 to 15 days from seed sown in Spring, and continues to flower all Summer and Fall. It is entirely hardy and will last for years, doing better each succeeding year.

The flowers are very fragrant and like those of the old Sweet William in size, form, marking and colors. Some of them have smooth edges, while others are fringed. The colors embrace every tone and shade from pure white to deep crimson, the flowers are self-colored, but the majority are two-colored.

The plants are about one foot high, are neater and prettier than the old variety, and bloom long after they are gone. The Everblooming Sweet William may be started indoors or sown directly in the garden. All Colors Mixed. Pkt. 10c; ½ oz. 45c.

PERENNIAL SWEET WILLIAM

PERENNIAL FINE SINGLE MIXED—Various beautiful shades and markings. Pkt. 5c; ½ oz. 15c.

PERENNIAL FINE DOUBLE MIXED—A splendid strain. All colors. Pkt. 5c; ½ oz. 25c.

VIOLET

(Viola odorata)

The true hardy violet. This should not be wanting in any garden, on account of its fragrance and early appearance. Succeeds best in a shady, sheltered place and can be easily increased by dividing the roots. Finest Mixed. Pkt. 6c.
A Spray of GIANT HYBRID SWEET PEAS

New Yellow Sweet Peas

One of the most beautiful, interesting and easily grown plants in existence. This beautiful novelty has been much admired by visitors because of the unusual waving of its duplex or double flowers. A few sprays form quite an imposing bunch. The flowers are of a rich primrose color, generally borne three on a stem, and produced extremely early.

Large Pkt. 15c.

Select List of Named Giant Hybrid Sweet Peas

WHITE

DOROTHY ECKFORD—Grand pure white, shell-shaped flowers of extra large size; borne three on a stem.

PRIMROSE

HON. MRS. E. KENYON—Beautiful primrose yellow.

MISS WILLMOTT—Brilliant orange-pink; very large.

ST. GEORGE—Orange-scarlet; magnificent.

BLUSH

PRIMA DONNA—Exquisite clear light pink.

JANET SCOTT—A grand deep rich pink.

PRONE OF WALES—The finest bright rose.

SCARLET

QUEEN ALEXANDRA—Intense pure scarlet.

LAVENDER

FLORA NORTON—Clear bright blue.

LADY GEORGE HAMILTON—A grand pale lavender.

MRS. WALTER WRIGHT—Beautiful mauve.

BLUE AND PURPLE

LORD NELSON—Rich, deep navy-blue.

DUKE OF WESTMINSTER—Purple tinted violet.

MAROON

BLACK KNIGHT—Very deep maroon, shaded black.

STRIPE OR MOTTLED

AMERICA—Striped blood-red on white.

BLANCHE FERRY—The popular pink and white.

DAINTY—White, daintily edged with pink.

HELEN PIERCE—White, mottled bright blue.

MAID OF HONOR—White, shaded with blue.

PRICES—For any of the above 20 varieties: Pkt. 5c; oz. 15c; 2 oz. 25c; ½ lb. 45c; post-paid.

Buckbee's Pedigreed Gilt Edge Mixture

This mixture is carefully blended by ourselves from all the finest selected colors in the right proportion for the most beautiful show and without question it cannot be surpassed for gorgeousness of colors and brilliance of effect; embracing every known good sort to date in the large-flowering, new and best standard varieties. Large packet 6c; oz. 15c; 2 oz. 25c; ½ lb. 45c; post-paid.

FINE MIXED

A cheap mixture, but a real good one, and will please those who do not care for the fancy new varieties of late introduction.

Pkt. 5c; oz. 10c; 2 oz. 15c; ½ lb. 25c; ¼ lb. 35c; post-paid.

Cupid or Dwarf Sweet Peas

In Fine Mixture.

These little beauties only grow 8 to 6 inches high, and excite wonder wherever seen; are very fragrant; bear full-sized flowers of fine substance. Two or three on each stem; are profuse bloomers. Excellent for beds, borders and pot culture. As they cover the ground so closely they are not so likely to suffer from drought as the tall sorts. Our mixture includes all the desirable colors and shades. Pkt. 6c; oz. 15c; 2 oz. 30c; ¼ lb. 55c.

EVENING

EVERLASTING

Perfectly hardy perennial. Handsome, free-blooming climber with clusters of elegant Sweet-Pea-like blossoms, which are produced in the greatest profusion. They come up year after year, and also bloom earlier than other Sweet Peas. Especially suitable for covering arbors and trellises. Mixed, All Colors. Pkt. 8c; ¼ oz. 25c.

Double Flowing Sweet Peas

In Fine Mixture. Under favorable conditions they will produce a large percentage of double flowers. Usually the double and single flowers are borne about half-and-half. They are regular tall-growing Sweet Peas. Our mixture includes every desirable shade and color. Pkt. 6c; oz. 25c; 2 oz. 50c; ¼ lb. 90c.
BUCKBEE'S Grand Mixture of Giant Spencer or Orchid Waved Sweet Peas

This grand mixture is composed exclusively of Spencer Hybrids in proper proportion for most brilliant effect. It contains some most superb seedlings that have not yet been introduced. New and exquisite colors and shades, such as apricot, lavender, light and dark blue, several shades of pinks and scarlets from light shades to deep rose; also striped and mottled varieties, with purple and deep maroons, all of the waved and fluted Spencer type. Without exception this is the very finest mixture it is possible to make. Grow them liberally and they will make the finest display of Sweet Peas ever seen in your neighborhood. Price, large pkt. 7c; oz. 35c; 2 oz. 35c; ½ lb. 65c; postpaid.

BUCKBEE'S Orchid Flowered or Giant Waved Sweet Peas

A wonderful type, quite distinct from the old sorts, with beautifully formed huge, open and upright standards and immense wings, the flowers measuring from 2 to 2½ inches across. Both standards and wings are daintily waved. A very large percentage of these varieties bearing four or more of these immense flowers to the stem, making them unsurpassed as cut flowers. The following are the best of the new and old sorts:

WHITE

CONSTANCE HINTON—The best black-seeded white
KING WHITE—New, hailed as the King of the Whites—Immense blooms, faultlessly frilled and waved.

PRIMROSE

DOBBIE'S CREAM—The largest and finest primrose-yellow.

ORANGE

THOMAS STEVENSON—Fiery orange-scarlet, most striking color fully formed huge, open and upright, surpassing all in class.

VERMILION BRILLIANT—Rich bright scarlet; surpassing all other scarlets in color, size, form and profusion of bloom.

LAVENDER

R. F. FELTON—Soft lavender-blue; flowers of enormous size.

FLORENCE NIGHTINGALE—The largest and finest purple lavender.

BLUE AND PURPLE

WEDGWOOD—Clear silvery blue, the best blue Spencer.

ROYAL PURPLE—Immense flowers, rich royal purple.

MAROON

KING MANUEL—Giant wavy flowers, rich, glossy, deep maroon.

PRICE FOR ANY OF THE ABOVE 20 NAMED VARIETIES: Pkt. 8c; oz. 25c.

BUCKBEE'S New Early Flowering Giant Spencer Sweet Peas

A New Race Five to Six Weeks Earlier Than the Regular Spencer Sweet Peas

These new varieties have been developed by crossing Spencer Sweet Peas with Early Blanche Ferry. The plants are very vigorous growers, profuse and continuous bloomers. They come into bloom two to six weeks earlier than other Spencers, and if grown outdoors and the flowers are kept picked, will bloom in the Northern states until destroyed by frost. They are much better adapted for our Southern states than the late flowering varieties and will not only supersede all other types in warm climates. They are already very popular and in great demand for forcing under glass for watercress and window gardens. The flowers are of immense size, measuring fully 2½ inches in diameter, beautifully waved and are carried on stiff stems of great length usually in threes and often in fours.

EARLY SONG BIRD—A soft shade of pale pink.

EARLY MELODY—Deep rose-pink.

EARLY SPRING MAID—Exquisite light cream-pink.

EARLY SNOWFLAKE—The purest white early Spencer.

EARLY HEATHER KELL—A rich pleasing mauve-lavender.

EARLY RED ORCHID—Rich bright crimson.

YARRAWA—The new famous early blooming Australian variety. Commences flowering two weeks before any other large flowering sort and continues weeks after other Sweet Pea. Large, waved, rose-pink flowers.

EARLY FLOWERING GIANT SPENCER MIXED—Made up especially for our customers from the above and many other new varieties. Any of the above Early Flowering Spencers: Pkt. 15c; any two for 25c.
VERBENAS
BUCKBEE'S GIANT COSMOPOLITAN MIXED
This selection and mixture embraces all the choice and most desirable colors in the Giant Flowering Verbena. The shades are mosty very delicate and dainty; in fact, perfectly exquisite, there being very little of the common blue and purple colors among them. Many of the individual flowers are nearly as large as a silver half dollar. Pkt. 10c; ½ oz. 35c.

CHOICEST PRIZE MIXED
From a most superb collection of named varieties. Very large in flower and corymbs, and of the richest and most brilliant colors. Pkt. 5c; ½ oz. 35c.

MAMMOTH SortS In Separate Colors
BLUE KING—Showy and distinct, best blue.
BURBANK'S MAYFLOWER—Lovely pink.
GOLDEN BEDDER—Scarlet, yellow foliage.
ITALIAN STRIPED—Striped flowers.
PURPLE—Dark purple. Very rich color.
PURE WHITE—A fine strain.
SCARLET DEFANCE—Brightest scarlet.
YELLOW—Soft yellow or primrose.
Price for above, each: Pkt. 10c; ½ oz. 35c. The set of eight colors, one pkt. each, 65c.

Lemon Verbena
Fragrant plant, easily grown from seed. Pkt. 5c.

Verbena Odorata Sweet Scented
Very sweet scented. Flowers pure white. Pkt. 5c; ½ oz. 35c.

Water Lilies
Flowers of the most exquisite coloring, and so profuse blooming that a tub of them is never without flowers from early summer until frost. They will bloom in ten weeks from seed. Anyone can succeed with them. Mixed Colors. Pkt. 10c.

Wild Cucumber Vine
Undoubtedly the best climber for covering verandas, trellises, etc., never suffering from the heat and never infested with insects. Pkt. 5c; ½ oz. 15c.

Zinnias
BUCKBEE'S NEW GIANT FLOWERED—A superb new class of Zinnias, giant in size, measuring 5 to 6 inches across and perfectly double flowers of richest, most varied colors and shades. Plants grow 3 feet high. Choicest Mixed. Pkt. 6c; ½ oz. 35c.
BUCKBEE'S SUPERIOR DOUBLE MIXED—The grandest mixture of double flowers. Large size, brilliant colors. Pkt. 5c; ½ oz. 25c.
GIANT CRIMSON—Pkt. 8c; ¼ oz. 25c.
GIANT ORANGE—Pkt. 8c; ¼ oz. 25c.
GIANT WHITE—Pkt. 8c; ¼ oz. 25c.
GIANT PINK—Pkt. 8c; ¼ oz. 25c.
MAMMOTH ZEBRA—The finest strain of striped or Zebra Zinnias in cultivation. Pkt. 5c; ½ oz. 35c.
LILIPUT MIXED—Half the height of ordinary Zinnias. Blossoms small, double and of very brilliant colors. Pkt. 5c; ½ oz. 35c.

Wall Flower Garden
A mixture of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season, and is especially suited for those who wish only a few seeds each of the leading varieties. In no other manner can so many seeds be obtained at such a small cost. Large pkt. 5c; oz. 15c; ½ lb. 50c.

Everlasting and Ornamental Grasses
ACROCLINIUM—Double Mixed. Pkt. 5c; ½ oz. 15c.
AGROSTIS NEBULOSA (Cloud Grass)—18 inches, delicate and graceful. Pkt. 5c.
COIX LACHRYMAE (Job's Tears)—Pkt. 5c; oz. 10c.
GOMPHERNA (Globe Amaranth)—2 feet, many colors. Mixed. Pkt. 5c; ¼ oz. 15c.
HELICHRYSUM—Double mixed, 2½ feet high. One of the best. Pkt. 5c; ¼ oz. 15c.
RHODANTHE—One foot high. Mixed. Pkt. 5c; ½ oz. 15c.
MIXED EVERLASTINGS—Pkt. 5c; ½ oz. 15c.
ORNAMENTAL GRASSES—Mixed. Pkt. 5c; ½ oz. 15c.
BUCKBEE'S SUMMER FLOWERING BULBS

WE GROW AND OFFER ONLY THE MOST POPULAR SORTS THAT ARE EASILY GROWN, REQUIRE SCARCELY ANY CARE, AND MAKE A SHOWY AND GORGEOUS DISPLAY. ALL OUR BULBS ARE SURE TO GROW AND BLOOM.

Many of our best bulbs are grown for us in Europe, and orders for them are taken only subject to our receiving the bulbs from our growers; we will ship as soon as received, or return amount paid for them.

*Amaryllis Formosissima*  
**Jacobeau Lily**  
There is hardly a flower which has such deep, rich velvety crimson color, a color so intensely brilliant as this. It is a free bloomer and succeeds well either in pots or in the open ground, and blooms very soon after planting. Few flowers can equal this in richness and beauty of color; blooms profusely every year. 25c each; 3 for 50c.

*Apios Tuberosa*  
**Wistaria, Hardy Tuberous Rooted**  
A valuable and desirable tuberous-rooted twiners, resembling Wistaria in form of leaf and flower, but smaller. Grows to a height of 8 to 10 feet. Dies to the ground each Winter, but the tuberous root is perfectly hardy. The numerous clusters of deep purple, pea-shaped blossoms have a strong, delicious violet fragrance. A valuable vine for trellises or rock work. Plant two or three bulbs near together to produce a mass of vines and flowers. 10c each; 3 for 25c; doz. 75c, postpaid.

*Cyclamen*  
**NEW GIANT FLOWERED PERSIAN VIOLET**  
Most beautiful of all pot plants, giving the richest profusion of elegant flowers; foliage decidely handsome, being variegated with different shades of green, helping to show off the richly-colored flowers. In fact, a plant in bloom resembles a tastily arranged vase of flowers and beautiful foliage. Price of choice bulbs, 25c each; 3 for 60c, postpaid.

*Cinnamon Vine*  
Beautiful foliage, dainty flowers, exquisite perfume  
Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, the vines dying down to the ground in early Autumn, but growing very rapidly in early Spring, soon covering any trellis or arbor. Where you wish to hide unsightly places we would suggest planting the Cinnamon Vine. Every tuber sure to grow. Plant any time in Spring. Please order at once. Price of bulbs, 10c each; 3 for 25c, postpaid.

*Caladium*  
**NEW FANCY LEAVED VARIETIES—For window boxes, house or greenhouse growing this is one of the most decorative plants. Their leaves, handsomer than Begonia, are spotted, marbled, veined and striped with white, pink and dark red. These bulbs, though comparatively rare, are easily grown, and their handsome foliage is much admired. Bulbs should be started into growth in a warm place. Selected Plants, 25c each; 3 for 75c, postpaid.

Elephant’s Ear  
**Caladium Esculentum**—A handsome plant of tropical aspect, bearing leaves sometimes a yard or more in expanse. Effective as a single plant on a lawn, or in groups; also useful for decorative effects near streams or ponds. We make a specialty of supplying bulbs of this splendid plant, and handle them in large lots. Good size bulbs, 3c each; $1.20 doz. Larger bulbs, 25c each; $3.00 doz. Mammoth bulbs, 35c each.

A Valuable New Book  
of Practical Information  
How to Grow Seeds and Flowers  
A complete guide for the house and garden, profusely illustrated. Price 50c, postpaid, or we will send a copy FREE with an order amounting to $1.50 or upwards, if requested on the order.
Giant Summer Hyacinths (Hyacinthus Canticans)
A species of Hyacinth which blooms during August, September and October, if planted in Spring. The bulbs are large, round and solid, and throw up large flower-stems 3 to 5 feet high, with gigantic spikes of thimble-shaped white blossoms. A bed of a dozen or more bulbs produces a grand effect. A few planted in the center of a bed of Verbenas, Petunias or other flowers make a beautiful display. For a cemetery nothing can be more beautiful or appropriate and nothing thrives better in any situation. Strong bulbs sure to bloom, producing 3, 5 and even 4 flower-stems. 10c each, 3 for 25c; doz., 75c. Postpaid.

New Tango Flower
Fragrance of the South,
This exquisite flower is found on the high table lands or mesas of Central Mexico and Peru. Its pure and chaste sweetness, delightful and subtle fragrance are indescribable. The bulbs can be planted as soon as danger of frost is over, and will bloom in four to six weeks. Each bulb as it grows in the ground will form bulblets, each of which sends up a flower stalk, thus keeping up one mass of bloom from early summer till frost cuts them down. The flowers appear from ten to twenty to each stalk, are snowy white, star-like, petals thick, like wax, filling their surroundings with the fragrance they exhale. Select Bulbs—Each 10c; 5 for 40c; doz., $1.00. Postpaid.

Rare and Beautiful Flowering Bulbs
Mammoth Ever-Blooming White Calla
One of the grandest of all Callas, being a great favorite everywhere. Its foliage alone makes it desirable as a decorative plant being of perfect form, with large stately leaves of a bright green color, giving it a tropical appearance. Add to this its profusion of superb white flowers, yielded throughout the season, and you have a plant you may well be proud of. Our select stock is adapted for pot culture everywhere; can also be set out of doors in summer. Try this beauty. Strong bulbs which will please you. Each, 20c; 3 for 50c. Postpaid.

New Spotted Leaf or Bouquet Calla
A great favorite everywhere, each being a veritable bouquet in itself. It is of the dwarf, compact, bushy habit, producing a mass of amazingly beautiful leaves, and an abundance of small, pure white Callas so small that they serve admirably for corsage bouquets. Foliage is deep green, covered with innumerable white spots, giving the plant a magnificent appearance. Each 20c; 3 for 50c. Postpaid.

The New Yellow Calla
The bulbs are strong and send up numerous flowers, which are golden yellow with black center. The color is one of the most beautiful shades of yellow seen among flowers and the jet black center lends to the blossoms a peculiar charm. Each 30c; 3 for 85c. Postpaid.

True Little Gem Calla
The pet of all is this new and beautiful miniature Calla, growing only about 3 inches high. It is, indeed, a beauty, completely enveloped in its regal white blossoms, through the entire season. As early as May it is grown as the other Callas. Each 30c; 3 for 50c. Postpaid.

Madeira Vine (Climbing Mignonette)
A rapid growing vine, covering a large space in a short time. Fleshy, heart-shaped leaves of a light green, and in late Summer, numerous racemes of feathered flowers of powerful and delicious fragrance. A very beautiful and popular vine. 5c each, 12 for 50c. Postpaid.
Monstrous Tuberose.

This variety blooms year after year, and produces single pure white flowers of a fragrance similar to that of the "Jasmine." It makes a splendid cut flower and should be in every one's garden. Each 8c; 4 for 30c; doz. 75c, postpaid.

Resurrection Plant

Most Unique Novelty, A Marvel of Plant Life.

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaves, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water; for in a short time there is a great, luscious, expanded foliage of fine fern-like leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. Each 1c; 3 for 3c; 10 for 10c, postpaid.

Fairy Lilies (Zephyranthes)

Pretty flowers, similar to the Amaryllis, but of miniature growth. The best way is to plant several bulbs in a box or flower-pot. They can also be planted in the open ground in the spring and lifted in the fall, and treated the same as Gladiolus. All colors mixed. Each 10c; 3 for 25c, postpaid.
CANNAS

King Humbert

Canna.

NOVELTY CANNA SET

The foregoing are the finest of the latest novelties. They are magnificent sorts with immense trusses of enormous flowers. Price, each, 25c; doz. $2.50. The set of 6 for $1.50, postpaid.

DAZZLER—2½ feet. A clear, brilliant rosy carmine. Price, each, 25c; doz. $2.50. The set of 6 for $1.50, postpaid.

PANAMA—4 feet, flowers brilliant, fiery cinnamon-red, dark foliage.

GUSTAV GUMPER—4 feet, rich golden yellow, scarlet centers.

NEW GIANT ORCHID-FLOWERED CANNAS

These Canna are giants in every way. They are in a class by themselves, because of their wonderful size, and the rare and beautiful formation of their flowers, which has given them the name of ORCHID-FLOWERED CANNAS. The following six varieties are the most distinct and desirable of this class:

Price, each, 25c; doz. $2.00. The set of 6 for only $1.00, postpaid.

KING HUMBERT—5 feet. Gigantic trusses with flowers 6 inches in diameter, of brilliant orange-scarlet; massive foliage of rich coppery-bronze.

MONT BLANC—3½ ft. Pure white flowers; green foliage.

MRS. KARL KELSEY—6 to 7 feet. Orange-scarlet, wondrously striped and fringed with golden-yellow, wavy-edged petals.

QUEEN HELEN (Yellow King Humbert)—Rich, clear canary yellow, with crimson spots in the center. Five feet. The flowers are truly gigantic in size.

WINTZER'S COLOSAL—5 feet. The largest-flowered Canna, also the earliest and most prolific bloomer. Immense trusses of vivid scarlet flowers.

BEST LARGE FLOWERING BEDDING CANNAS

Price, each, 15c; 6 for 75c. The set of 12 for $1.50, postpaid.

EGANDELLA—3½ ft. Pure foliage, a rich color, currant red.

FLORENCE VAUGHAN—5 ft. Yellow, spotted red; green foliage.

HUNGARIA—3½ ft. The most delicate pink in Cannas.

ITALIA—1½ feet. Color brilliant red, the outer half of each petal a band of clear yellow. The flowers are produced on massive stems, set well above the foliage, which is large and heavy.

METEOR—5 ft. Flowers bright scarlet. Bronze leaved.

QUEEN CHARLOTTE—4 ft. Orange scarlet, gilt edge. Green foliage.

SPLENDOR—4 ft. Crimson flowers; green foliage.

MIXED LARGE FLOWERING CANNAS

Every season we have a considerable number of unnamed Large Flowering Canna, including some very rare sorts mixed by accident, and otherwise which we offer (our selection) at the very low price of 15c each; $1.00 per dozen, postpaid.

PLEASE NOTE: We send out Growing Canna Plants only.

Our prices are low; in fact, we are only charging what most firms sell dormant roots at—but OUR SPLENDID STARTED PLANTS ARE EASILY WORTH twice as much.

BUCKBEE'S GIANT ORCHID FLOWERING GLADIOLI

This new race of extraordinary beautiful Gladiolus represents the perfection of this genus since its introduction. The flowers have reached enormous dimensions, often 7 to 9 inches across, far surpassing any others and much resembling Orchids of the brightest hues. Mixed, 8c each; 85c per doz., postpaid.

The Gladiolus deserves a place in every garden, large or small, being of easiest possible culture. They make grand beds and the bulbs can be planted any time during Spring and early Summer.
THE BEST HARDY LILIES

ALL STRICTLY FIRST SIZE BULBS. Lilies are especially adapted to planting in borders, or between shrubs, etc.

LEOPARD LILY—Lilium Pardalinum
An elegant and very beautiful lily from California; rich, scarlet and yellow flowers, spotted with purplish brown. Splendid bulbs. Each, 20c; 3 for 55c. Postpaid.

LILIAM TIGRINUM SPLENDENS—Improved Tiger Lily
A grand lily, sometimes 6 feet high, with large pyramids of orange-red flowers spotted with black, often as many as 8 flowers on one plant. Very hardy. Splendid bulbs. Each 20c; 3 for 55c. Postpaid.

LILIAM TIGRINUM FLORE PLENO—Double Tiger Lily
This is a plant of stately habit, growing from 4 to 6 feet high, bearing an immense number of double bright orange red flowers, spotted with black. Blooms in August. Splendid bulbs. Each 25c; 5 for 75c. Postpaid.

THREE POPULAR JAPANESE LILIES

LILIAM UMBELLATUM
One of the very best classes of the hardy garden lilies; strong, sturdy habit, growing from 2 to 3 feet high, having large, showy flowers held upright and in clusters at the summit. They are of easy culture, flowering in June and July. Mixed colors. Splendid bulbs. Each, 20c; 3 for 55c. Postpaid.

LILIAM WALLACEI
This lily is very floriferous, each bulb throwing up from 4 to 6 flower stems, each one of which is crowned with 8 to 10 beautiful upright blossoms, of a delicate, bright apricot color. It is very perfect in form, and a most desirable sort. Splendid bulbs. Each, 20c; 3 for 55c. Postpaid.

JAPANESE LILIES

Auratum (The Gold Banded Lily). Immense blooms nearly a foot in width when open, are produced in profusion and are deliciously fragrant. The large white petals are thickly spotted with chocolate-crimson, and have a bright golden-yellow band through the center of each. Blooms from July to September. Large bulbs. Each 38c; 2 for 75c. Postpaid.

Speciosum Album. Pure white flowers with a greenish band through the center of each petal. They are of great substance and very fragrant; blooms in August and September. Mammoth bulbs. Each 36c; 2 for 75c. Postpaid.

Speciosum Rubrum. The six broad white or pink petals are thickly dotted with rose or crimson spots; very effective and desirable; thrifty and hardy; blooms in August and September. Large bulbs. Each 94c; 2 for 55c. Postpaid.

WONDERFUL MAGIC LILY
This wonderful flower produces in early spring attractive green foliage which grows until July, when it ripens off and disappears, but about a month later, as if by magic, the flower stalks spring to a height of three feet, with a cluster of 8 or 10 lily-shaped flowers three to four inches across, of a delicate Lilac-pink, shaded blue. Price, strong blooming bulbs, 40c; 3 or $1.00.
Our List of Plants for House Culture, also for outdoors has been carefully revised and is up-to-date and we offer only the most valuable, easily grown and popular varieties that cannot fail to give satisfaction, to Growing Millions of Buckbee's Famous

Asparagus Sprengeri

The Charming Emerald Feather Fern.

Grows freely the whole year round, producing sprays 4 to 5 feet long, of fresh, green, feathery foliage. Valuable for cutting, particularly in use with large Roses. Grown in suspended pots, it makes a very pretty decorative house plant. Strong plants, 15c to 25c each, postpaid. Larger plants, 35c to 50 to $1.00 each, by express, not prepaid.

Artillery Plant

(Pilea Serpaefolia.)

Graceful, frond, like leaves. When in flower, produces a snappy sound when water is shown on the leaves. A thin, smoky vapor will also arise when the leaves are sprinkled. Altogether a very attractive novelty, besides being an ornamental house plant. Each, 15c; 2 for 25c. Postpaid.

Asparagus Plumosus

THE BEAUTIFUL LACE FERN.

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No finer decorative plant has ever been produced. As a house plant it is deservedly popular as it will thrive under almost all conditions. Strong plants, Lie to 35c each, postpaid. Larger plants, 25c, 50c, 75c to $1.00 each, by express, not prepaid.

The Wonder Bedding Plant Acalypha

Brighter and More Attractive than Coleus.

BICOLOR, AUTUMN TINTS—A most wonderful plant, surpassing the finest Coleus or Begonia in the rich color of the leaves, which are beautifully marked with a bright green color margined with a wide irregular band of lemon yellow and having wide yellow bars running lengthwise of the leaf, and also thickly dotted with yellow blotches. Its most important feature is its wonderful qualification for bedding, as it will stand bedding out like a Coleus; in fact, in the sunniest place it produces the highest coloring. 20c each, 3 for 50c.

Anthericum Mandaianum

A new variegated decorative plant well adapted as center to jardinières, porch boxes and hanging baskets. The leaves are about 6 inches long, dark green with a band of bright yellow through the center. Each, 20c; 3 for 50c. Postpaid.

Chinese Paper Plant

A magnificent pot plant, with splendid Camelia-like deep shining green foliage. Comes to bloom when small and continues throughout the year. When older it is literally covered with blossoms of a dazzling rosy crimson, with deep golden yellow anthers. Each, 20c; 3 for 50c. Postpaid.
Rex or Painted Leaf Begonias

Rex Begonias are the most beautiful and desirable of decorative foliage plants for house and conservatory culture. They are stately, bushy growers and their grand ornamental leaves are exceedingly beautiful and always greatly admired.

MIKADO—This is the finest and largest of any of the Rex family. It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. Fine plants, each 30c.

LORD PALMERSTON—The leaves are extra large with a dark bronze center, broad band and irregular bronze border. The edge of the leaf is dull and irregular. Under side a pea green with red veins. Fine plants, each 35c.

LOUISE CLOSSON—Coloring of this variety is magnificent; center of leaf deep bronze with broad band of silvery rose, edging bronze, giving the whole leaf a purplish tint. The brightest colored Rex yet introduced. The habit and freedom of growth is exceptionally good, while the metallic lustre is very bright. Fine plants, 30c each.

ALFONSO—Leaves very large, soft, rich, velvety green splashed all over with silver, shaded and veined with rose and pink. Fine plants, each 30c.

SPECIAL OFFER:

One choice plant of each of the above six new and rare Rex Begonias for only $1.65, postpaid.

Finest Flowering Begonias

The Flowering Begonias are among our most beautiful and satisfactory flowers for house decoration and bedding. They grow nicely, make neat, handsome plants, bloom constantly, and their pretty, wax-like flowers and glossy, bright-colored leaves and stems are always greatly admired.

OTTO HACKER—In a class by itself. A strong, vigorous grower, of fine upright habit, with large shining deep green leaves eight to ten inches long. Flowers bright coral-red, borne in immense clusters eight to ten inches across. Each, 25c.

ARGENTEA GUTTATA—It has pure-bronze leaves, oblong in shape, with silver markings and large trusses of white flowers. Each, 15c.

METALLICA—This elegant variety has very large, glossy leaves shaded with green, crimson and olive, with a peculiar metallic lustre over all. Flowers large, rose or pinkish white. It is one of the most popular, desirable and showy varieties in cultivation. Each 30c.

THURSTON—This Begonia is a cross between Metallica and Sanguinea, having the bright red foliage and veining underneath the leaves, and bright green shading to red in the younger growth on top. The flowers are a beautiful rosy-white. Each, 25c.

BEGONIA ROHSTRA—This stem and under side of the leaf are Indian-red; the upper side of the leaf glossy olive green. The petals are white with a pink stripe in the center and are enlivened by golden anthers; the buds are coral red. Each, 15c.

SPECIAL OFFER

The full set, each of the 10 flowering Begonias on this page, for $1.65, postpaid.

Watermelon Begonia

A Most Beautiful Ornamental Plant from the Sandwich Islands.

Excellent for display on the dinner table or parlor window. The leaves are distinctly variegated white and green, thick and waxy and have the appearance of being powdered with frosted silver, Price, 25c each; 3 for 70c, postpaid.
BUCKBEE'S Ever-Blooming CARNATIONS

The Novelty Carnation "Blue King"
This greatest novelty in Carnations is a marvel of beauty, bearing a flower of entirely new and distinct shape. 25c, a color hitherto unknown in Carnations, which catches the eye at once. A color of beauty which blends with all others. "What an exquisite color!" The flower is best described by the words—bluish, purplish-crimson, rich, deep and intense, the blue shade being at times very pronounced, with ox-blood shading. Flowers very perfect, measuring 3½ inches across when well grown; long, strong stems. A healthy and vigorous grower, very fragrant and a fine bloomer. It is the richest and most startling color in the Carnation family. Price, 25c each or 3 for 70c. Postpaid.

Exhibition Collection
Of 10 Best and Newest Carnations for Only $2.25, Postpaid.

CRYSTAL WHITE—A grand novelty. Large full flowers of the purest glistening white; very early and very floriferous. Undoubtedly the finest white; has been awarded the American Carnation Society’s Gold Medal and numerous other prizes. 25c each.

MADAM BUTTERFLY—New. A giant variety, a wonderful grower, producing flowers on every shoot. Color glowing cerise with scarlet shading. A splendid flower in every way; carries everything before it on the exhibition table. Awarded Gold Medal of the American Carnation Society. 30c each.

YELLOW PRINCE—A very pretty flower, bright clean yellow; very large, fine form, and free blooming. 20c each.

LADDIE—A pure intense, glowing deep pink; flowers 3½ inches across and everlasting; makes everyone exclaim, "What an exquisite color!" The flower is best described by the words—bluish, purplish-crimson, rich, deep and intense, the blue shade being at times very pronounced, with ox-blood shading. Flowers very perfect, measuring 3½ inches across when well grown; long, strong stems. A healthy and vigorous grower, very fragrant and a fine bloomer. It is the richest and most startling color in the Carnation family. Price, 25c each or 3 for 70c. Postpaid.

Paradise Collection
Of 8 Lovely Carnations for Only $1.45, Postpaid.

M, A. PATTEN—The newest striped Carnation. Color, white with red stripes. Blooms large and spreading, stiff stem and a fine grower. 20c each.

SUNBEAM—Strong grower and free-flowering; long stem; flowers three inches in diameter and a deep golden yellow, with faint red stripes. 20c each.

VICTORY—Intense scarlet with a bright orange glow to the coloring. Very popular. The flowers are borne in great profusion, the plant makes a vigorous growth. Has stiff, wiry stems. 20c each.

AFTERGLOW—Deep pink; extra long stems and large flowers. A strikingly handsome and very valuable new sort. 20c each.

Surprise Collection
Of 6 Beautiful Varieties for Only 75c, Postpaid.

WHITE ENCHANTRESS—An old favorite; one of the finest white carnations, produces large flowers constantly throughout the season. 15c each.

BEACON—the standard scarlet; the finest flowering carnation in existence. 15c each.

DORIS—Brilliant maroon-crimson. A wonderfully free and persistent bloomer. 15c each.

MRS. C. W. WARD—The most popular pink; a pure deep pink, a brilliant shade; perfect form. 15c each.

DOROTHY GAY—Variegated; pink with white stripes; a very prolific bloomer. 15c each.

ELDORADO—Large, finely formed flowers of light clear yellow, petals edged with a narrow band of light pink. A strong, vigorous grower with healthy foliage. 20c each.

Bargain Collection
Of 4 Sterling Carnations for Only 50c, Postpaid.

FLORA HILL—One of the very choicest white varieties; of large size. 15c each.

RED WING—A clear, bright scarlet; nicely formed flowers; they do not split the calyx and keep well when cut. 15c each.

MAY BUCKBEE—An exquisite shade of saffron pink; has a fine stem. Strong calyx and the freest bloomer extant. 20c each.

CARDINAL—Bright crimson flowers of an enormous size. This new Carnation has taken several prizes at the latest shows. It is a strong grower indoor as well as out. It is an early and continuous producer. 15c each.
CHRYSANTHEMUMS

Early Collection

The Three Earliest Large Flowering Varieties

ADVANCE—The earliest large pure white known. Flowers 5½ inches across have been cut July 26th. Indispensable for the cut-flower trade. Each, 15c.

GOLDEN GLOW—Flowers, 5½ inches across, bright yellow. In bloom the middle of August. The very earliest large yellow. Each, 15c.

UNARA—Lavender-pink flowers, of large size and great depth; incurved, broad petals. In bloom October first. Each, 15c.

The set of these THREE Earliest Large Flowering Varieties only 37c, postpaid.

Christmas Collection

The latest giant flowering varieties which produce their flowers during holiday season.

DR. ENGUEHRAND—Very largely grown. A valuable variety, bright pink. Each, 10c.

POCKETT'S CRIMSON—Flowers, 9 inches across, crimson with gold tips. The finest of its color. 25c each, postpaid.

WILLIAM H. WAITE—Brilliant deep bronze, shading to scarlet. One of the most gorgeous and beautiful Chrysanthemums. 25c each, postpaid.

WILLIAM RIGBY—Beautiful, bright car-

nary yellow. Lower petals 1½ inches wide. One of the largest flowers. 25c each, postpaid.

The set of these SIX Rare Varieties only $1.35, postpaid.

Sweepstakes Collection

Mid-season varieties all of which have been awarded numerous prizes at exhibitions. They produce mammoth flowers in great profusion about November first.

GLENVIEW—A magnificent large globe of dark red incurving petals. 15c each.

WILLIAM TURNER—Globular, snow-white flowers of enormous size. 15c each.

MARIgold—A monster yellow flower, unsurpassed in size and color; the brightest yellow known. 15c each.

G. W. POOK—A beautiful shade of salmon terracotta. Most unusual color and quite distinct from all others. 15c each, 2 for 25c.

W. DUCKHAM—Massive incurved flowers of beautiful light pink. 15c each, 2 for 25c.

LILIAN COPPARD—Chestnut on gold ground. A large flower of fine form and good keeping qualities. 15c each, 2 for 35c.

The Set of these SIX Mid-season varieties only 75c, postpaid.
Buckbee’s Grand Prize Winners

Garden Collection

Early Hardy Outdoor Chrysanthemums

The Glory of the Full Garden

These are all very early varieties with full double, good sized flowers, selected for their earliness and hardiness. They begin to bloom the last of August and being frost-resistant, will continue to flower profusely until a very hard frost, often well into November, giving color, life and beauty to an otherwise empty garden. They are also root-hardy and will stand the winter most anywhere if given some protection of litter or leaves.

CRANFORDIA—Large, deep bronze yellow; very early.
LESLIE—Rich buttercup yellow.
NORMANDIE—One of the earliest and best creamy whites.
WINNETKA—Pure snow-white; free flowering. From July onward.
FIREFLIXT—Brilliant Carmine shaded scarlet.
GOACHER’S CRIMSON—Large, bright crimson.
EDEN—Rose pink.
PROVENCE—Large, bright pink petals with gold points.
ROSIE—Deep terracotta, large.
L’ARGENTUILLAIS—Deep chestnut.
PETIT LOUIS—Large, silvery mauve.

Any of the above varieties, 15c each. The set of the ELEVEN kinds for $1.45, postpaid.

Glory of Seven Oaks

Pompon Collection

Early Flowering Hardy Pompon or Button Chrysanthemums

The only sorts which are entirely hardy in the Northern states. Small but very double, perfect flowers which will bloom outdoors despite early frosts. Also grand as pot plants.

ACTO—Deep bright rose. Each, 15c.
BROWN BESSIE—Reddish bronze. Each, 15c.
ETOILE D’OR—Bright yellow. Each, 15c.
INGA—Beautiful, bright red. Each, 15c.
MINTA—Pink. Each, 15c.
MODEL—Pure white. Each, 15c.

The set of these SIX Pompons for 75c, postpaid.

Caprice Collection

Early flowering varieties especially adapted to grow for pot plants, being short, compact-growing and producing a wealth of very large, double flowers.

BRUTUS—Golden bronze.
BUTLER’S CAPRICE—Deep pink.
KATHLEEN THOMPSON—Crimson.
LADY LYDIA—Pure white.
PURPLE CAPRICE—Purple.
YELLOW CAPRICE—Yellow.

Any of the above, 15c each. The set of SIX Caprices for 75c, postpaid.

Giant Flowering Collection

The Latest Introductions

DUBLIN LADY—A changeable glistering purplish bronze. 15c each, postpaid.
CRUSADER—Flowers of enormous size, glistening white: the finest white Mum with reflexed petals. 25c each, postpaid.
COZ FRED STERLING—An extremely handsome yellow. Color is bright and pure. 30c each, postpaid.
MACEPEPA—Flowers of immense size, deep rose-pink. A handsome and striking variety. 20c each, postpaid.

Crusader
COLEUS

Beautiful Fancy Varieties.
These beautiful new Coleus are much used for planting in beds and borders; also for pots, window boxes, vases, etc. SPECIAL OFFER $1—Each, except where noted, 10c, or the full set of 5 new Coleus for 50c, postpaid. Price per 100, except where noted, by express at buyer's expense, $6.00.

BECKWITH'S QUEEN—A beautiful fancy variety with large leaves and finely scalloped edges. The center of leaf is dark velvety-maroon, bordered with fire-red; the edge is green, changing to creamy-yellow at the point of leaf.

GOLDEN BEDDER—Clear yellow when well developed, edge somewhat crinkled, with center rib of lighter yellow.

TRAILING BEAUTY—This Coleus is entirely new. It is the only one that trails. The foliage is most glorious, having a large, distinct center of bright pink or red, with a broad border of emerald-green, suitable for hanging baskets, window boxes, vases or for pot culture. 15c each; 2 for 25c, postpaid. By express at buyer's expense, 100 for 89.00.

New Comet Plant

The most Unique Flowering Plant of the Century. Fluffy, trailing, tail-like blossoms, soft crimson scarlet, 20 to 30 inches long on specimen plants. Try one or more of these fine plants; they are always in bloom. Fine plants, 25c each; 3 for 75c, postpaid.

Crown of Thorns

The Great Biblical Plant. On the Wild Rocky Hills of Judea this emblematic plant is found. Very popular, thorny, with a few bright green leaves and an abundance of light rose blossoms. Easy to grow, can be trained to assume any desired shape. Fine plants, 25c each; 3 for 75c, postpaid.

Cigar Plant

(Cuphea)

Bushy plants of neat habit about 15 inches high, bearing great numbers of narrow, tubular flowers, bright scarlet, with purple and white tips. Bright and attractive, always in bloom. Useful for setting beautifully in hanging baskets, vases, etc., are also fine as pot plants in the living room and good for bedding outdoors. Each, 15c; 2 for 25c, postpaid.

Dragon Plant

(Dracaena Indivisa)

One of the best decorative foliage plants largely used for house adornment. It is much used as the center-part for vases and window-boxes. Its numerous, graceful, slender, arching, green leaves harmonize with and set off advantageously any other and all plants used in conjunction with it. Price, postpaid, 25c each; larger plants, 35c; extra large specimen plants by express, not prepaid, $1.00 each.

Daisies

MRS. T. SANDERS—Flowers of the most glistening white throughout, frequently measuring five inches across. The center of the flower is a mass of closely arranged fringed florets, surrounded or edged by broad shining petals, produced on long stems. 25c each; 3 for 50c.

PINK DAISY—(Agathea Coelestis)—A beautiful bedding plant and an excellent indoor bloomer. The flowers are daisy-shaped, of a delicate light hue with a yellow disc. Flowers all the year round. 15c each; 2 for 25c, postpaid.

PARIS DAISY—These plants are the favorites of all as they are of the easiest culture and make beautiful cut flowers. They are a delight in the garden where their conspicuous flowers and rich green indented foliage blend harmoniously with any other bedding plants; they are equally valuable as potted plants, blooming throughout the winter. 15c each; 2 for 25c, postpaid.

GOLDEN ALEXANDRA—The New Mammoth White Paris Daisy. Single, semi-double and often double blooms appear on the same plant. Any one of these types is beautiful, but the combination is superb. The flowers measure 2½ to 3 inches across. 15c each; 2 for 25c, postpaid.

NEW YELLOW DAISY—(Etoile d'or)—The New Yellow Paris Daisy; a rich golden color. 15c each; 2 to 25c, postpaid.
BUCKBEE’S FULL OF LIFE FERNS

BOStON FERN
This is one of the old standbys, and still one of the best. Its long, graceful, drooping fronds often attain a length of five or six feet in a single year. Fine young plants 15c, 25c and 35c each, postpaid. Larger plants 50c and $1.00 to $1.50 each, by express, not prepaid.

MAIDEN HAIR FERN
Always in great demand for table and house decoration; will thrive nicely in parlor or living room, and grow more beautiful each year. Price, 25c each, or 3 for 70c, postpaid.

NEWPORT PARLOR FERN
Resembles the Boston in some respects, but grows more erect, has shorter, narrower fronds and makes three times as many of them. Thrives nicely in parlor or living room, requires very little attention. Fine young plants 6c to 30c each, postpaid. Larger plants 75c, $1.25 and $1.75 each, by express not prepaid.

NEw ROOSEVELT FERN
In general characteristics it resembles the Boston Fern, but it produces many more fronds, making it a bushier and handsomer plant. Fine young plants 15c, 25c, 35c and 5c each, postpaid. Larger plants $1.00, 2.00 and 3.00 each, by express, not prepaid.

THE NEW CRESTED FERN
Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib, and so thick they seem almost crowded. It is a healthy, vigorous grower. Fine young plants 25c, 35c and 45c each, postpaid. Larger plants $1.00, $2.00 and $3.00 each, by express, not prepaid.

MOSS FERN
A new upright growing Moss with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain a height of twelve to fifteen inches. Always fresh and green. Easily grown. 25c, 30c and 40c each, postpaid.

THE OSTRICH PLUME FERN
A strong, vigorous grower, but the fronds are heavy and feathery, and arch over in a most graceful manner, showing two shades of green and producing a lovely mossy effect, which adds greatly to its beauty. Fine young plants 25c and 35c each, postpaid. Larger plants $1.00, $2.00 and $3.00 each, by express, not prepaid.

FERNS FOR FERN DISHES
We have grown a large quantity of small ferns suitable for fern dishes. Assorted varieties. Each 15c, 3 for 50c, postpaid.
TRAILING and GLOIRE exquisitely profusion of flowers. Sepals bright scarlet, with rich violet-purple corollas. Vigorous growing, free flowering, beautiful habit. A most charming window plant, remarkable for its constant profusion of exquisitely beautiful flowers, and truly one of the most desirable Fuchsias in cultivation. 15c each; 2 for 25c, postpaid.

PHENOMENAL—The largest flowering Fuchsia in cultivation. The plant is a tall grower, branching like a tree; the leaves are dark, glossy green, with veins of dark crimson, giving the foliage a rich ornamental appearance. The flowers are enormous size, a single flower measuring 3½ inches across; sepals bright scarlet, with rich, violet-purple corollas, very double. 15c each, 2 for 25c, postpaid.

SPECIOSA—(The True Winter Blooming Fuchsia.) This lovely Fuchsia blooms with greatest profusion during Winter, is scarcely ever without flowers from September till June; the flowers are large and of the most graceful form; color, rich carmine and rose; a most charming window plant, remarkable for its bright glossy green leaves and constant profusion of exquisitely beautiful flowers. 15c each, 2 for 25c, postpaid.

TROPHÉE—(Double)—Violet blue corolla; very dark rich red sepals, waxy luster. Plant of fine form, easy to grow, continually in bloom. Positively one of the grandest varieties ever offered. 15c each, 2 for 25c, postpaid.

LOVELY—Large semi-double flowers, color rosy mauve with rich scarlet sepals. Exquisite. 15c each, 2 for 25c, postpaid.

GLOIRE DES MARCHES—Undoubtedly the finest Double White Fuchsia ever sent out; makes a neat compact plant, branches freely and is covered nearly all the time with exquisite large flowers, having brilliant deep scarlet sepals and a corolla of pure snowy whiteness. 15c each, 2 for 25c, postpaid.

BLACK PRINCE—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the finest in blooming. Blossoms of a beautiful waxy-carmine or pink color. Certainly a plant for easy culture. 15c each, 2 for 25c, postpaid.

TRAILING QUEEN—This is an entirely new variety, different from other large-flowering varieties in its habit of growth, as it is a trailing vine. The young plants, as they commence growth, creep out to the edge of the pot and then go trailing downward. It continues growing and branching in this way until the vines are a solid wavy mass of the most elegant foliage and perfect flowers. The flowers are borne in large, drooping clusters, very large, long, graceful, sepals scarlet, corolla purple. 15c each, 2 for 25c, postpaid.

A Valuable BOOK of Practical New Information.

New American Beauty GERANIUM

The Semi-Double of the Purest American Beauty Color.

The only Geranium of its color. The plants are compact, medium tall, of stately shape; lustrous green foliage with a brownish circle. The flower heads are gigantic and the individual blooms measure 2½ inches across; often as many as eight spikes have fully opened, several half open flowers and more are in buds. It surpasses all other Geraniums—in brilliancy of color, in size of its blossoms and trusses and in constancy and profusion of blooms. Fine, strong plants, 20c each; 3 for 50c, postpaid.

Double New Life GERANIUM

A Curious and Beautiful Novelty.

Always scarce and difficult to obtain. The petals are dark red and in the center of each there appears a small pure white floret, giving the flowers a novel and curious appearance. Very beautiful when flowers are perfect, but variable and best for house culture. This is a grand and strikingly beautiful variety, but at the same time one of the most easily grown and satisfactory of all flowering plants. 20c each; 3 for 50c, postpaid.

Standard Single Sorts

NONESUCH COLLECTION of FOUR—Only 46c, Postpaid

LIBERTY—Immense trusses; color: bright beautiful salmon-colored Geranium. 15c.
GRANVILLE—Single clear rose pink. Immense bloomer, covered with flowers the whole season. 15c.
LAUDE—One of the finest single large snow white varieties. 15c.
JACQUERIE—Single large rich scarlet. Immense trusses on very long stems; fine bedder. 15c.

Maryland, New American Beauty.
BUCKBEE'S BEAUTIFUL GERANIUMS

Ivy Leaf Geraniums
These are among the prettiest flowers we have; they are of exquisite colors and borne in large clusters all the year round; the plants are of graceful trailing growth, with bright, glossy, oval-shaped leaves; fine for pots, window boxes, vases, etc., also for bedding.

MADAM MARSHALL FOCH—Blush-white, upper petals feathered deep pink. 25c each.
RYCOFT'S SURPRISE—Charming clear rose-pink. 20c each.
JOAN D'ARC—A beautiful pure white. 20c each.
ACHIEVEMENT—Rose with white eye. 20c each.
CAESAR TRAFK—Soft, rich crimson. 20c each.
SOUVENIR DE CHAS. TURNER—Pink and maroon. 20c each.
THE SET OF SIX FOR ONLY 90c POSTPAID.

Pelargoniums

Lady Washington Geranium
Some of the most beautiful of our Summer and Fall flowering plants; they offer a rich and varied assortment of colors, easily grown.

EASTER GREETINGS—A New Everblooming Variety. Flowers large and free; bright amaranth red, each petal marked with a large black blotch. This variety is distinct from the rest, and remarkable on account of its long blooming season, producing its prime crop very early in spring and continuing throughout the Summer and Fall. 50c each; 3 for $1.00.

CRIMSON KING—Intense rich crimson, single flowers of extra size. 30c each; 3 for 85c.
MRS. ROBERT SANDIFORD—Extra large flowers perfectly double and beautifully laced and ruffled, of glistening snowy white color, exceedingly beautiful. 35c each; 3 for $1.00.
MAD. THIBAUT—Bright pure pink; flowers perfectly double, 2 inches across; petals heavily ruffled. 30c each; 3 for 85c.
The Set of 4 for only 81.15, postpaid.

The Strawberry Geranium
One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped freely with silver bands; blooms white, of great beauty and borne in spikes nearly 12 inches high; of easiest growth. Adapted for hanging baskets, vases, etc. Will stand neglect and mis-treatment. 20c each; 3 for 50c, postpaid.

Pansy Geranium

The Pansy Geranium
A Grand House Plant of easiest growth, dwarf habit, and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivalling the Pansy in uniqueness of coloring. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, ready to bloom, 35c each; 3 for $1.00, postpaid.

Sweet-Scented Geraniums
15c each; 3 for 40c. The set of 5 for only 60c, postpaid.

LARGE LEAF ROSE—Indispensable in the formation of bouquets.

MRS. TAYLOR—Rose-scented. Flowers scarlet.

NUTMEG—Highly scented. Very valuable.

OAK LEAVED—One of the best fragrant sorts.

LEMON—Lemon scented. A grand variety.

Variegated or Silver Leaved Geraniums
Very pretty for bedding and edgings, but particularly valuable for pots and window culture.

HAPPY THOUGHT—Foliage beautiful green and yellow; magenta flowers. 20c each.

MAD SALLERIO—Foliage, green, edged white. 15c each.

SILVER LEAVED S. A. NUTT—Remarkably beautiful variegated foliage. the green and white about evenly apportioned; flowers of the same character and color as the famous S. A. Nutt. 20c.

MRS. PARKER—Double pink flowers, leaves silver, margined white. 25c each.

MRS. POLLOCK—Leaves bronze-crimson edged yellow; pink flowers. 20c each.

W. LANGGUTH—Pretty scarlet flowers, silver leaf. 20c each.

THE SET FOR ONLY 90¢ POSTPAID.

Easter Greetings.
HELIOTROPES

These are universal favorites on account of their delightful fragrance. Flower equally well as bedding plants in Summer, or as pot plants during Winter.

ALBERT DELEAUX—Foliage is a bright golden-yellow, marked slightly with a delicate green. Flowers deep lavender. Each, 15c; 3 for 45c, postpaid.

PICTORA—Rose-silk, almost red, with a distinct, white center, producing immense heads of flowers well above the foliage. Each, 15c; 3 for 40c, postpaid.

MME. DE BLONAY—The finest large flowering white. Each, 15c; 3 for 40c, postpaid.

MADAME BRUANT—Very large trusses of rich dark purple flowers. Very free flowering. Each, 15c; 3 for 40c.

CZERN—Strong, sturdy growth, heavily corrugated dark foliage; immense clusters of semi-double flowers, rich purple. Each, 15c; 3 for 40c.

Special Offer G2 The full Set, one each of the above 3 varieties of Heliotrope, only 50c, postpaid.

Hydrangeas for Pot Culture

Grand low growing bushy shrubs; used for decorating lawns and porches during Summer; they bear enormous heads of flowers; not being entirely hardy are usually kept in tubs or boxes, set out in Summer and taken to cellar over Winter.

French Hydrangeas

ATTRACTION—By far the best pink; trusses of immense size; color, clear baby pink; blooms early. 25c each.

LA LORRAINE—Large flowers of pale rose color; has become a general favorite during the last few years. 25c each.

MME. E. MOULLERI—The most popular white; very free flowering; of large size and fine form; awarded silver medal at the National Flower Show in Boston, 1911. Each, 30c.

MOUSSELINE (The Famous Blue Hydrangea)—The color is a mauve-rose with creamy-colored center. Flower heads very large and held erect. Each, 20c.

OTAKA—A Japanese variety used extensively for Easter decorations. It produces enormous trusses of intense pink (sometimes blue) flowers throughout entire summer. Each, 20c.

THOMAS HOGG—Splendid variety. Attains a height and width of over 6 feet, and is covered with immense trusses of creamy white flowers, measuring 14 inches in diameter. Price, 25c each.

Special Offer G3 One each of the 6 HYDRANGEAS. Fine, strong young plants, for only $1.00, postpaid.

Hibiscus

ORANGE QUEEN—Large, double, orange-colored flowers. Very novel and attractive. 25c each; 3 for 50c, postpaid.

BRILLIANT KING—Semi-double flowers of a bright vermilion-scarlet; petals waved and recurved; very handsome flowers. 25c each; 3 for 50c, postpaid.

APPLE BLOSSOM—This is a truly surprising house plant, the flowers are so immense and yet so beautiful that you can scarcely believe that they are not artificial in some way. It is a rapid, erect grower, with bright glossy green leaves and immense double flowers like Roses, 4 to 6 inches in diameter. Color rich bright pink, with deep crimson center; likes heat and moisture and begins to bloom very quickly. 25c each; 3 for 75c.

ENGLISH IVY—Queen Victoria—This is a hardy true evergreen climbing vine, with dark glossy green leaves. Much used for covering walls of churches, etc., and for cemetery work: also one of the very best plants for house culture. 15c each; 3 for 25c, postpaid.

PALMER OR ORIENTAL—A quick growing trailing plant of delicate green foliage; fine for hanging baskets, etc. Each 5c; 3 for 25c, postpaid.

VARIEGATED GROUND IVY—(Glechoma)—A graceful and beautiful half hardy perennial creeping plant, which quickly and densely carpets the ground; equally attractive for vases or hanging baskets. The charming foliage is bright green and white and emits a refreshing fragrance. Each 15c; 2 for 25c, postpaid.

Night Flowering Jasmine

Star Jasmine

Sweet Scented.

Almost continuously in bloom. A valuable house plant in the north especially during Winter, but perfectly hardy in the South; flowers star-shaped, pure white and very fragrant. The ideal plant and one of the sweetest flowers. Easily grown, even small plants bear a profusion of bloom; small, glossy evergreen foliage. Each 20c; 3 for 50c, postpaid.
Scarlet Fountain Plant (Russella)
A Charming Basket or Vase Plant.
A novel and beautiful plant, suitable either for bedding or pot culture. Has long, wavy, leafless stems, drooping and bearing quantities of long, tubular flowers of the most vivid scarlet color. Especially adapted for hanging baskets, vases, window boxes, etc., where a delicate and graceful effect is sought. It is literally covered with brilliant coral-red buds and flowers, the full size being three-fourths to seven-eighths inches long. The great drooping masses of bloom are like a fountain of coral, scarlet and green. In the South it is perfectly hardy and a superb garden flower. In any climate it is one of the very easiest of plants to grow, and one of the most brilliant and persistent of bloomers. Price, 15c each, 3 for 40c.

Lopesia Rosea
A Very Beautiful Christmas Plant.
Called Weeping Scarlet Fountain Plant, because very similar to that variety but a better winter-bloomer; it is in fact the most persistent winter-bloomer which we have, beginning in bloom continuously from November to May; it is a very neat Christmas plant. The plants are covered with thousands of small spider-like flowers of a beautiful rose color. They are of the easiest culture. Each 25c, 3 for 75c.

New Climbing Lily-of-the-Valley
A beautiful new pant of climbing or trailing habit. It has beautiful heart-shaped leaves and branches freely, growing in most fine symmetrical form. It is in bloom all the time, the pendulous blossoms appearing at the axils of the leaves and are bell-shaped, pure white, and about the size, form and color of Lily-of-the-Valley. As a specimen pot or basket flower for the window it is a splendid acquisition, grows very rapidly and makes a lovely plant in a short time. Fine Plants, 15c each, 3 for 40c, postpaid.

Pomegranate
A beautiful, shrubby plant of symmetrical growth, equally good for bedding or pot culture in the house. The blossoms are of a beautiful orange-scarlet color. It is quite hardy in the South, remaining uninjured there in open ground. In the North the plant may be stored in the cellar to protect it against severe frost. Each 20c, 3 for 50c postpaid.

Manettia Vine
One of the handsomest little vines, easily and quickly grown and blooms continuously. Adapted for hanging baskets, pot culture, vases or bedding. The flower is of the shape and about four times the size shown on bottom of our illustration, and of brilliant scarlet, tipped with clear golden yellow, making it most wonderfully attractive. Each 15c, 3 for 25c, postpaid.

Solanum Jasminoides
A beautiful plant of climbing habit attaining a height of 8 to 10 feet, but can be pinched back and grown in bush form. Its flowers are star shaped and borne in enormous clusters often a foot across; they are pure white with a violet tinge on back of petals and on the buds. A splendid pot plant both for Summer and Winter, and makes a grand show outdoors when trained against a wall. Each 20c, 3 for 50c, postpaid.

Oleanders
These old-fashioned shrubs have become immensely popular again. They are very attractive plants that can be grown in almost any soil or situation and kept growing all the year or rested in the cellar. The dark green willow-like foliage is in itself neat and pleasing.

LUTEA, Yellow—Large and very beautiful. Each 20c, postpaid.
LILLIAN HENDERSON, White—Large blossoms, each double blossoms, Each 20c, postpaid.
ROSE WORNS—Pink—Large blossoms, rosy pink. Each 20c, postpaid.
VARIATED—Leaves bordered with creamy white; flowers pink, very double. A magnificent Winter, in contrast of foliage and delicate color of blossoms being very striking. Each 25c, postpaid.

SPECIAL OFFER G1. The full set, one each of the 4 varieties of Oleanders for 70c, postpaid.
FRUITS FOR POT CULTURE

SPECIAL OFFER A-1

FOR ONLY $1.10.
We will send by mail, postpaid, one each of the five rare tropical Fruits illustrated on this page. Strong Selected Plants. Safe Arrival Guaranteed.

Surinam Dwarf Cherry

Ornamental as well as useful, both in flower and fruit. The fruits are rich bright red in color and most delicious flavor. Being of dwarf growth, it makes a most desirable pot plant and will interest the "shut-ins" for house culture. Strong plants, each 35c, 3 for $1.00, postpaid.

Otaheite Orange

An extra fine pot plant, with glossy leaves, the true fragrant Orange blooms and abundant little bright Oranges that will hang on the little bush like balls of gold for six months after they are ripe. They will bloom and fruit in a two-inch pot; and we have seen a plant in a common window, that was but 15 inches high and had 29 oranges on it. Our price: Nice young thrifty plants, postpaid, 15c to 30c each. Select extra strong plants, 25c each, postpaid. Fine 3-year-old plants for immediate effect, by express, 75c each. Extra large plants, by express, $1.50 to $2.50 each.

Buckbee's New Everbearing Ponderosa Lemon

A Lemon that can be as easily grown in a pot as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high, growing in pots. It is everbearing and its fruit is delicious for lemonade and culinary purposes. The enormous Lemons have a thin rind and are full of acid juice. Will thrive in any good soil, either indoors or out. One of the very finest plants for house culture. Our price is for the very best plants: Select, each, postpaid, 25c. Smaller, thrifty plants, postpaid, 15c to 30c each. Splendid 2-year-old plants, for immediate effect, by express, 75c each. Extra large plants, by express, $1.50 to $2.50 each.

Buckbee's New Giant Plume Pansy

A native of Brazil, of the easiest possible culture, and does well in all kinds of soil, and in any situation. It is a strong, rapid grower, and throws up long shoots, each of which is tipped with the beautiful pink, plum-like flowers, the ends of every petal drooping in a most charming manner. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. 25c each, 3 for $1.00.

Absolutely the finest stock we have ever grown. None but the choicest Magnificent colors. Well grown and stocky, producing flowers of wondrous beauty. Ready for shipment March 15th until June 1st. We ship them at the following prices.

LOOK AT THE PRICES! POSTPAID.

12 Handsome Pansy Plants

50 Handsome Pansy Plants

100 Handsome Pansy Plants

LARGE ROOTS, ALL TRANSPLANTED. SURE TO PLEASE.
PALMS AND OTHER FINE DECORATIVE PLANTS

CHAMAEROPS EXCELSA (Japanese Fan Palm).—One of the hardest of the Fan Palms. Foliage dark green; the segments of the fan-shaped leaves deeply cut, the edges covered with tooth-like spines. Grows from 15 to 20 feet high; very desirable for lawn decoration. Fine plants, 10c each, postpaid.

KENTIA BELMOREANA.—Exceedingly popular parlor Palm. Decidedly rugged under all kinds of treatment. Fine plants, 40c each, postpaid.

KENTIA FOSTERIANA.—Without exception the most hardy Palm in its class. Quite graceful and scarcely has an equal for table decorations. Fine plants 40c each, postpaid.

Palm (Screw Pine) Veitchii

Australian Silk Tree

A fine plant for house culture, of rapid growth, finely cut foliage. The young fern-like leaves are of a light brown color, the tips being covered with a soft down, closely resembling raw silk, hence the name "Silk Oak." In its native place it grows large and has bright, orange-colored flowers. 15c each; 3 for 40c.

Resurrection Plant

When dry it looks like a ball of dead leaves, but as soon as dropped in water it transforms into a rosette of green beautiful leaves. 10c each; 2 for 25c.

The Beautiful Tiger House Plant Sansevieria Zebrina

A beautiful decorative plant which will stand any amount of neglect and should be grown for positions where other plants do not thrive. It will grow where nothing else does, in a sunless window, a dark hall, a cool bedroom, or stand on the mantel in a heated sitting-room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. Erect, rigid, sword-like leaves, in some old specimens reaching a length of from four to six feet. The leaves are thick and fleshy, a dark green color, with clouded bars of white. In May and June it sends up long, soft, feathery, white flower spikes. The splendid outlines of this plant, together with its distinctive marbling, make it a superb plant for parlor-jrornes, centers of vases, etc. It will also grow splendidly out of doors in summer. Fine plants, postpaid, each 50c; 3 for 1.00. Larger plants by express, not prepaid, $1.00 to $1.50 each.

Latania Bambocica—This is one of the very best Palms for house culture, so hardy as to thrive in any ordinary living room, in spite of heat, cold, dust or draught. Has elegant fan-shaped leaves, rich dark green, beautifully fringed. Grows easily, needs no petting or cooing. Fine plants, 35c each, postpaid.

Phoenix Canariensis—Beautiful, strong-growing Palm with glossy, dark green foliage. Sure to please and easily grown. Fine plants, 60c each, postpaid.

Seaforthia Elegans—A magnificent plant for jardinières or center of tropical bed. Most graceful. Leaves of rare beautiful formation. Fine plants, 30c each, postpaid.

Pandanus (Screw Pine) Veitchii

India Rubber Plant (Ficus Belgica)

The India Rubber Tree is well known as one of the finest plants for the parlor and table decoration. It has large, thick olive green leaves and graceful polished stems. Will stand much more neglect than most plants. Rigs by express, fine plants, 50c, 75c to $1.00 each. Larger plants, $1.50 to $2.00.

Umbrella Palm

As a decorative as a palm, hardy, useful and beautiful window plant for all seasons, always fresh, green and attractive. Invaluable as an aquatic plant. Stems 2 to 3 feet high, surmounted by whorls of leaves. Price 15c each, or 3 for 40c.
BUCKBEE'S LARGE FLOWERING DOUBLE PETUNIAS

The Double Petunia is one of the finest bedding plants for massing mixed borders and also for vases. The brilliancy and variety of its colors, combined with the long duration of its blooming period, render it invaluable for garden decoration. It is the flower for everybody, the smallest yard and the finest park is not complete without these butterflies among flowers, that mind neither heat, drought nor rain, but bloom in profusion the whole season. Our collection is unsurpassed for brilliancy of color and size of bloom.

MAJESTIC
Rich, deep purple, shaded crimson. 15c each.

PINK BEAUTY
A very handsome shade of pink, the only pink variety known. 20c each.

SEA FOAM
The finest petunia grown; color a sea-foam white; flowers of the largest size and beautifully frilled. 15c each.

STRIKING
Rich purple, mottled and edged white. A most beautiful combination of colors fully meriting the name Striking. 15c each.

SPECIAL OFFER 66. FOR ONLY 50c, WE WILL SEND POSTPAID THE FOUR LOVELY PETUNIAS LISTED ABOVE.

SWAN FLOWER (Swainsonia)
ALBA—This is a very beautiful plant, both for flower bed and house culture. Flowers are pure, snowy white, and borne in pretty sprays all over the plant. Price, 15c each; 2 for 25c, postpaid.

ROSEA—Same as Alba except in color, which is bright, rich, royal red. Price, 15c each; 2 for 25c, postpaid.

Lemon Verbena
A universal favorite and invaluable for its pale green fragrant leaves, so graceful when mixed with bouquets. They will retain their fragrance for years when dried. As a plant for the garden or for pot it is equally valuable. 15c each; 2 for 25c, postpaid.

New Blue Star Flower
As a pot plant for window culture it is one of the very finest things ever introduced and a perpetual bloomer both Summer and Winter. As a bedding plant it is equally valuable, standing sun and drought and showing a great profusion of blossoms all season. Fine plants for blooming at once. 15c each; 2 for 25c, postpaid.

SHOWER OF GOLD
(Genista)
A beautiful yellow flowering plant that grows and flowers freely with ordinary care, covering the plant literally with its rich golden-yellow blooms when well grown. A very popular plant for Easter decorations, at which time it is usually a mass of bloom. 20c each; 3 for 50c, postpaid.

SWEET VIOLETS

THE CALIFORNIA—Flowers single, of immense size; color, clear violet purple. The fragrance is delightful. Each, 15c; 3 for 40c.

GOVERNOR HERRICK—Rich, dark purple; single flowers of lovely fragrance. Each, 15c; 3 for 40c.

IMPROVED MARIE LOUISE—One of the finest double Blue Violets grown. Very fragrant and a continual bloomer. Each, 15c; 3 for 40c.

THE BRIDE—A grand pure white variety. Flowers are double and immense in size, extra early and deliciously fragrant. Each, 15c; 3 for 40c.

HARDY VIOLETS—See page 170.
BUCKBEE'S EVERBLOOMING MONTHLY ROSES

CHATEAU de CLOS VOUGEOT—The black rose, blackish crimson shaded fiery red; the richest color of all roses. 25c each; 3 for 50c.

COL. R. S. WILLIAMSON—Color satiny-white with deep bluish center; very large, beautiful flowers. 25c each; 3 for 50c.

COLUMBIA—Enormous flowers often 6 inches across, very deep, and full double. Color true glowing red, becoming more intense when maturing. Almost thornless. Each 35c; 2 for 60c.

DUCHESS OF WELLINGTON—(Orange Killarney). Intense saffron-yellow or orange color. Very attractive and without a rival in its class and color. Large, full flowers, delightfully fragrant. Very free flowering. 25c each; 3 for 50c.

FRANCIS SCOTT KEY—Rich crimson-red flowers, very large, well formed and of unusual substance. A strong sturdy growing variety. 25c each; 3 for 50c.

GOLDEN EMBLEM—A new, most wonderful rose. At its best it surpasses Marechal Niel in shape and coloring. Rich, deep golden-yellow color. Perpetually flowering. 25c each; 3 for 50c.

KILLARNEY—Brilliant—Brilliant rich pink. Larger and more double than its parent the old Killarney. A truly magnificent Rose. 25c each; 3 for 50c.

LOS ANGELES—By all odds one of the finest Roses ever introduced. Truly magnificent in vigor of growth, color, form, fragrance and in everything required of a first class Rose. The color is a luminous flame-pink, toned with coral-red and shaded with transparent gold at the base of the petals. The long pointed buds expand into intensely fragrant beautiful flowers of the largest size. 45c each; 2 for 75c.

MARC VERDUN—A truly magnificent rose. Deep, velvety crimson, almost black, without thorns. 25c each; 3 for 50c.

MRS. CHARLES RUSSELL—Grand, rosy-pink blooms, fully as large as American Beauty on stems 3 feet long. Each 25c.

MRS. GEO. SHAW—Brilliant deep pink, very large blossoms, carried on 3 to 4 feet stems. 25c each.

BUCKBEE'S EVERBLOOMING MONTHLY TEA ROSES

LADY ALICE STANLEY—A beautiful shade of deep coral-rose. Perfect in every way; magnificent, large, full, double blooms of great fragrance. 20c each; 3 for 50c.

LAURENT CARLE—Large, brilliant, velvety carmine flowers of perfect form and intensely fragrant. One of the finest Roses grown. 20c each; 3 for 50c.

MADAME RAVARY—Rich, deep nankin-yellow, becoming lighter as the flowers expand; flowers of splendid form, full, double and very fragrant. 20c each; 3 for 50c.

MRS. CHARLES RUSSELL—Grand, rosy-pink blooms, fully as large as American Beauty on stems 3 feet long. Each 25c.

MRS. G. SHAW—Brilliant deep pink, very large blossoms, carried on 3 to 4 feet stems. 25c each.

MY MARYLAND—Color, salmon-pink which brightens as the flower expands. Very large, double, fragrant flowers. 25c each; 3 for 50c.

NATIONAL EMBLEM—A perfect garden Rose. Color dark crimson shading to vinous at the edges. Each 25c.

OPHELIA—Salmon-flesh shaded with rose; large flowers of perfect shape. 20c each; 3 for 50c.

SUNBURST—Beautiful old gold shaded coppery-crimson with sunset tints. A magnificent free-blooming rose. 20c each; 3 for 50c.

WHITE KILLARNEY—Pure waxy white flowers more double and larger than Pink Killarney. 20c each; 3 for 50c.

BUCKBEE'S EVERBLOOMING MONTHLY TEA ROSES

BESSIE BROWN—Creamy white flowers of immense size; deliciously fragrant. A strong, vigorous grower. 25c each; 4 for 100c.

GRUSS AN TEPLITZ—Dark, rich crimson with velvety fiery-red center. So free blooming as to present a mass of scarlet. 15c each; 3 for 40c.

H. W. BUCKBEE, ROCKFORD, ILLINOIS

Gruss an Teplitz.
BUCKBEE'S 1920
ROSE COLLECTIONS

Hardy Baby Ramblers

CRIMSON BABY RAMBLER—A dwarf bush form of Crimson Rambler; is fully covered with large clusters of rich crimson-red flowers throughout the season. The size of the cluster and the number of its flowers is marvellous.

PINK BABY RAMBLER—The flower stalks contain 50 to 60 flowers and buds at one time. Flowers cerise pink, measuring two inches across, with a double row of twisted petals; center, chrome yellow.

WHITE BABY RAMBLER—Of free, compact growth and very attractive. Produces double pure white flowers in great abundance.

Any of the Baby Rambler Roses, Fine Plants, 20c each; the set of 3 for 5c. Large two-year-old Plants, 45c each.

Famous Soupert Roses

CLOTHILDE SOUPERT—A strong dwarf grower and a truly wonderful bloomer, producing cluster after cluster of the finest formed flowers. In form they are perfectly full and double and deliciously sweet. The color effect is beautiful—ivory-white shading toward the center to silvery rose. Hardy everywhere.

WHITE SOUPERT—The Genuine White Soupert. Identical in every way with Clothilde Soupert except in color, which is ivory-white. Free blooming and Hardy.

YELLOW SOUPERT—Everybody's Rose. The flowers are very double and are produced in immense clusters; buds exceedingly dainty. A strong upright, bushy grower. Color, white on beautiful light yellow ground; center, chrome yellow.

Any of the Soupert Roses, 15c each; the set of 3 for 42c. Large two-year-old Plants, 40c each.

Everblooming Cochet Roses

PINK MAMAN COCHET—Flowers of enormous size, very full and of great depth and substance. Color, clear, rich pink, changing to silvery rose. Deliciously sweet, a hardy, vigorous grower; flowers the whole season.

RED MAMAN COCHET (Mrs. B. R. Caut)—Magnificent, perfectly double flowers of a bright rosy red color, produced in wonderful profusion all season.

WHITE MAMAN COCHET—A sport of Pink Maman Cochet and identical with it except in color, which is pure snow white, the finest bedding Tea Roses in existence.

YELLOW MAMAN COCHET—One of the finest ever-blooming yellow Roses. Gracefully molded buds, magnificent, large, very double and sweet flowers of deep sulphur yellow color.

Any of the Cochet Roses, Fine Plants, 15c each; the set of 4 for 33c. Large two-year-old Plants, 40c each.

Unexcelled La France Roses

PINK LA FRANCE—The color of this is an exquisite shade of silver pink tinged with crimson. The buds are large, beautifully forced and the open flower exceedingly handsome, with a delightful fragrance. In continuous bloom all Summer and late into the Fall until stopped by frost.

RED LA FRANCE—It is much deeper in color than its pink sister, being a brilliant rose pink, handsetly shaded, deeper toward the center.

WHITE LA FRANCE—The flowers are distinctly striped with pearl-white and satin-rose.

Any of the La France Roses, Fine Plants, 25c each; the set of 4 for 75c. Large two-year-old Plants, 50c each.
BUCKBEE'S HARDY HYBRID JUNE ROSES

AMERICAN BEAUTY—The National Rose of America. The largest, sweetest and best of all hardy Roses. Immense size, rich color, exquisite form and delicious fragrance, magnificent buds and large, deep, double flowers. Color is a rich, rosy crimson. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

Clio—One of the most beautiful hardy Roses grown. Flowers very large, lush color, shaded in center to rosy-pink. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

GLOIRE LYONAISE—Flowers large, pale yellow shaded with white, orange and fawn, buds beautiful, being long and pointed. Fine strong plants, postpaid, 20c each; 3 for 50c. Large 3-year-old plants, 50c each.

GEORGE ARENDS or Pink American Beauty (New).—The color is a tender rose pink; the flowers are the same large size and beautiful form as the American Beauty. They are also delightfully fragrant. Strong plants, postpaid, 25c each; 3 for 70c. Large 3-year-old plants, 50c each.

MRS. JOHN LAING—Soft pink, beautiful form, large size, exceedingly fragrant and free flowering. Strong plants, postpaid, 20c each; 3 for 50c. Large 2-year-old plants, 50c each.

MRS. R.H. SHARMAN CRAWFORD—Color deep, rosy pink, outer petals shaded with pale flesh, white at base of petals; beautiful in every respect. Strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

PAUL NEYRON—Probably the largest Rose in cultivation and one of the best blooms. Color a bright shining pink, clear and beautiful. Strong plants, postpaid, 20c each; 3 for 50c. Large 2-year-old plants, 50c each.

PRINCE CAMILLE DE ROHAN—The Black Hardy Rose. Large, handsome, fragrant flowers. Color deep rich, crimson maroon, shaded black. Postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

ROGER LAMBERTIN—The finest variegated Hardy Rose. Glowing crimson edged with white border. Single plants, postpaid, 25c each; 3 for 50c. Large 2-year-old plants, 50c each.

ULRICH BRUNNER—Cherry-red, brilliant and showy; intensely fragrant. Strong plants, postpaid, 20c each; 3 for 50c. Large 2-year-old plants, 50c each.

Beautiful Hardy Moss Roses

A class of Roses which are much admired. The beauty of the flower consists of the delicate mossy covering which surrounds the bud, and which gives the opening flower a unique appearance. They are strong, vigorous growers, perfectly hardy.

HENRY MARTIN. Rich deep rose red, tinged with crimson; large globular flowers, very full and sweet; finely mossed. Price, strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

MOUSSELINE. Large cluster of snow white, extra large, full and double flowers delightfully perfumed; buds thickly covered with lovely deep green moss. Price, strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

PRINCESS ADELAIDE. Rich, glossy pink, tinged with crimson; large globular flowers, very full and sweet; finely mossed; one of the finest. Price, strong plants, postpaid, 25c each; 3 for 70c. Large 2-year-old plants, 50c each.

Special Offer C-9 One each of these three beautiful Moss Roses in strong one-year-old plants, postpaid, for only 70c; or one each of the 3 large 2-year-old plants, for $1.40.
CLIMBING AMERICAN BEAUTY—One of the finest climbing Roses. Same size and same dark rose-crimson color and exquisite fragrance as American Beauty, but blooms more profusely not only in Spring, but throughout the season. Strong plants, 50c each; 3 for 70c, postpaid. Large 2-year-old plants, 50c each.

AMERICAN PILLAR—Popular single, hardy climbing Rose of a brilliant carmine-rose with a white eye and yellow stamens; they are 3 to 5 inches across. Strong plants, 20c each; 3 for 50c, postpaid. Large 2-year-old plants, 45c each.

MARECHAL NIEL—Golden yellow. Its magnificent buds are known the world over. A rapid grower, making shoots 20 feet high in a single season. Fragrance delicious. Fine plants, postpaid, 50c each; 3 for 70c. Large 2-year-old plants, 50c each.

PRAIRIE QUEEN—Bright, rose-red, large, globular flowers. A rapid grower and always popular. Strong plants, 15c each; 2 for 25c. Large 2-year-old plants, 40c each.

EXCELSA OR RED DOROTHY PERKINS—The flowers are very double, produced in large clusters of 30 to 40 and of an intense crimson-maron with the tips of the petals tinged scarlet. Strong plants, 20c each; 3 for 50c, postpaid. Large 2-year-old plants, 45c each.

TIGER—Flowers creamy white, semi-double, produced in large clusters freely and continuously. Strong plants, 20c each; 3 for 50c. Large 2-year-old plants, 45c each.

TAINE'S ENGLISH OR 1000 BEAUTIES—Exceedingly distinct, rapid growing and almost thornless. Flowers are very large, fully 3 inches across and show every shade from pure white to deep pink. Fine plants, postpaid, 20c each; 3 for 50c. Large 2-year-old plants, 50c each.

WHITE DOROTHY—A pure white sport of the well-known Dorothy Perkins of the same habit of growth and freedom of flowering. Fine plants, 20c each; 3 for 50c, postpaid. Large 2-year-old plants, 50c each.

IMPROVED YELLOW RAMBLER—Large clusters of medium sized full double flowers of a saffron yellow, deepening to golden yellow in the center. Fine plants, 20c each; 3 for 50c, postpaid. Large 2-year-old plants, 45c each.

IMPROVED CRIMSON RAMBLER—Absolutely hardy, vigorous grower, prolific bloomer, producing a gorgeous mass of crimson blossoms which remain on the plant a long time. Often grows 12 to 15 feet in a single season. Fine plants, 20c each; 3 for 50c, postpaid. Large 2-year-old plants, 50c each.

NEW HARDY CLIMBING BABY RAMBLER

A new member of the Climbing Rose class, with all the freedom of bloom and bright coloring. The past year, this climbing Rose has proven an attractive, vigorous grower and with a continuous show of bright colored bloom, clusters fully as large as those of Baby Rambler, produced all through the summer. The foliage is bright green, thick and healthy, not so liable to mildew as the old Climbing Rambler whose unsightly foliage has been cause for annoyance to every Rose lover. Strong young plants, 20c each; 3 for 50c. Large 2-year-old plants, 45c each.

THE BLUE ROSE

Veldeblaten or Violet Blue—Newest Climbing Rose “The Sensation of the Century” After years of effort rosarians have been rewarded by the production of a Blue Rose, which will be welcomed with the greatest interest by all lovers of the garden. This new climbing Rose surpasses all others of recent introduction in having a pure blue color. The flowers appear in large clusters after the manner of the Climbing Rambler and are semi-double and of medium size. Upon first opening the color is partly bright red and partly bright rose, turning soon to a cool blue. The color is best described by saying that it resembles that of early violets. This variety is a strong grower, having shining green foliage and few thorns. Strong plants, 25c each; 3 for 70c, postpaid. Large 2-year-old plants, 50c each.
CHOICE HARDY ORNAMENTAL SHRUBS

No flowering plants are more worthy of cultivation than shrubs, and none can be cultivated more easily.

HARDY BUTTERFLY BUSH or SUMMER LILAC VEITCHII—A pretty shrub of spreading habit, growing 4½ feet high and flowering freely the first season. The long tapering flower-spikes, often 12 to 15 inches long, are covered densely with lilac-like violet-mauve colored blooms from June till frost. Delightfully fragrant. During the Summer this plant is a Mecca for butterflies, and for this reason it is named the "Butterfly Bush." Price, strong, thrifty plants, 20c each; 3 for 50c, postpaid.

ASIATICA—The white Butterfly Bush, with pure white fragrant flower-spikes, larger and finer than the above variety. Not quite hardy in the North. It is a glorious pot plant for winter blooming. Each 25c; 3 for 75c, postpaid.

SWEET SCENTED SHRUB or Calycanthus

Of spreading growth, bearing throughout the Summer great numbers of double, dill brownish purple flowers of exquisite strawberry-like fragrance. The wood and leaves are also sweet scented, which causes it to be known as Sweet Scented and Strawberry Shrub. Each 25c; 3 for 70c, postpaid.

SWEET PEPPER BUSH (Clethra Alnifolia)

A low-growing shrub with dense, pale green foliage, covered with spikes of delightfully fragrant white flowers, produced from July to October, when flowers are of such value. A hedge of it fully equals the wonderful Jessamine hedges of the South, both in beauty and fragrance. Strong plants, each 25c; 3 for $1.00, postpaid.

NEW HYDRANGEA ‘HILLS OF SNOW’

Immense snow-white panicles of blooms, literally covering the bush; absolutely hardy, standing 20 degrees below zero without injury. This magnificent, hardy American shrub is the finest addition to this class of plants found in many a year. The heads of blooms, which are of large size and pure snow-white color, are produced in marvelous profusion, covering the bush with a magnificent mass of glistening pure white flowers. The foliage is finely finished, lacking entirely that coarseness found in so many of our best known shrubs. One of the most valuable characteristics is its coming into bloom just after the passing of all the early Spring shrubs; while its long season, from early June, through September, renders it doubly valuable, not only to the florist for cut-flowers, but also to the owner of a garden— as there is no shrub so grandly decorative. The large heads of bloom are superbly attractive, and the habit of the plant is excellent. This splendid hardy shrub is bound to become most widely grown, just as soon as its great value becomes known. We have a fine stock of this valuable shrub growing and can offer them to you at the following very reasonable prices: Strong Plants, postpaid, each 25c; doz. $2.50. By Express, not prepaid, Larger Plants, each 50c; doz. $5.00; or Extra Large Plants, each 75c; doz. $7.50.

HYDRANGEA—PANICULATA GRANDIFLORA

THE MOST POPULAR OF ALL HARDY SHRUBS

Hundreds of thousands of them are sold every year and the demand is constantly increasing. Unsurpassed for the lawn, a hedge, or for cemetery planting. It readily attains a height of 5 to 7 feet; hardy in all localities, needs no protection in Winter; blooms the first and every season in July and August and continues to bloom for two or three months; the flowers are massive, cone-shaped, sometimes 10 inches in length, and changing from the original pure white to pink, and finally to a beautiful rich coppery red. Fine Plants, postpaid, each 15c; doz. $1.50. Larger Plants, by Express, not prepaid, each 25c; doz. $3.50. Extra Large Plants, each 50c; doz. $5.00.
CHOICE HARDY ORNAMENTAL SHRUBS — Contd.

GOLDEN ELDER

One of the best yellow foliage shrubs; the color is remarkably bright, rich and constant, and makes a fine contrast in the shrubbery border. Bears small fragrant white flowers in early summer, followed by clusters of black berries. Strong plants 25c each; 3 for 75c, postpaid.

PERSIAN TREE LILAC

Popular Favorites for Their Beauty and Perfume.

A neat, handsome little tree, growing 7 to 8 feet high, with slender branches and long, narrow foliage. The flowers grow in immense clusters, delightfully and deliciously sweet and fragrant. It is perfectly hardy, a vigorous grower, and flowers abundantly with a fragrance and beauty that is surpassed by no other shrub. A general favorite for planting in the dooryard or on a lawn. We offer nice, strong plants.

PERSIAN BLUE, 30c each; 3 for 80c, postpaid.

PERSIAN WHITE, 30c each; 3 for 80c, postpaid.

LONICERA, BUSH HONEYSUCKLE

TARTARICA (Tartarian Honeysuckle)—A large shrub with numerous upright, spreading branches. The flowers are of pink color, are borne in great profusion in late Spring, and contrast beautifully with the foliage. The fruits are red, ripen in Summer, persist till Fall and are very showy. Strong plants, 25c each; 3 for 50c, postpaid.

GRANDIFLORA—Large bright red flowers striped with white; blooms in June. The two honeysuckles appear to fine advantage if planted together. Strong plants, 25c each; 3 for 75c, postpaid.

FORSYTHIA

Fortune's (Golden Bell).

A splendid old shrub with dark, shining foliage, lighting up the garden in early Spring with its great masses of bright golden-yellow flowers, which are borne in great profusion all over the bush before the leaves appear. Strong plants, 25c each; 3 for 75c, postpaid.

THE NEW HARDY JAPANESE SNOWBALL

This Japanese variety of the old-fashioned Snowball is one of the grandest and most striking of all hardy shrubs. It forms an erect, compact plant, 6 to 8 feet in height, blooms late in the Spring, and is filled with hundreds of big snowy balls that glister with ethereal whiteness like gems in the sunlight. Price 25c each; 3 for 75c, postpaid.

SNOWBERRY

A well-known dwarf shrub with small pink flowers and large white berries that hang on the plant the greater part of the winter. Strong plants, each; 3 for 75c, postpaid.

SYRINGA MOCK ORANGE

(Philadelphus Coronarius.)

Beautiful creamy white flowers, deliciously fragrant and borne in great profusion in late Spring and early Summer. A very showy and desirable shrub. Strong, thrifty plants, 25c each; 3 for 75c, postpaid.

EVA RATHIKE—A remarkably free bloomer, flowering continuously throughout the Summer and Autumn; of an entirely distinct color, being a rich ruby-carmine, borne in clusters all along the branches. One of the finest all-around flowering shrubs. Strong plants 25c each; 3 for 75c, postpaid.

ROSEA NANA VARIEGATA—One of the most useful dwarf shrubs with beautiful leaves, broadly variegated green, pink and creamy white; the flowers are delicate rose-pink. When in its double beauty of bloom and foliage it is without a peer. Strong plants 25c each; 3 for 75c, postpaid.

OUR GRAND SPECIAL OFFER 5

Twelve Best Hardy Shrubs.

1 Hydrangea.
1 Sweet Pepper Bush.

1 Bush Honeysuckle.
1 Mock Orange.

For $1.00 we will send one plant each of the twelve varieties by express, not prepaid.

Or for $2.50 we will send the complete collection by mail, prepaid.
AMPELOPSIS

VEITCHII (Boston or Japan Ivy)—The fashionable and most hardy wall climber of the day. Clings tightly to rock, brick, etc. and it is a wall of living green the Summer through, turning in Autumn to a flaming crimson, when it is certainly gorgeous. It stands the dust and dry air of cities admirably. Strong plants, 25c each; 3 for 70c, postpaid.

ENGLEMAN'S IVY (Englemania)—A desirable variety with clinging tendrils by which it will climb walls or trees and cling as close as the Boston Ivy. The foliage resembles Quinquefolia, but is much more dense. Strong plants, each 23c; 3 for 70c, postpaid.

VIRGINIA CREEPER (Quinquefolia)—A native vine of rapid growth, with large, luxuriant foliage, which in the Autumn takes on the most gorgeous coloring. Strong plants, each 35c; 3 for $1.00, postpaid.

CLEMATIS

Hardy
Perpetual
Flowering

Of all the vines used either for shade or decoration, none can compare with the Clematis in its many and varied forms, producing hundreds and thousands of picturesque and strikingly beautiful blossoms.

Clematis Jackmanii.

Mountain Beauty Vine
(ANTIGONON LEPTOPUS)

A beautiful new Climbing Vine, not quite hardy here, but specially recommended for the South and Pacific coast; it is a vigorous climber, suitable for covering porches, verandas, etc.; has handsome foliage and is covered for months at a time with splendid clusters of rose-pink flowers of the most exquisite color; leaves heart-shaped. Price, fine strong plants, 35c each; or 3 for 70c, postpaid.

Bitter Sweet (Celastrus Scandens)

A native vine with good foliage; yellow flowers in June, and bright, ornamental orange and scarlet berries throughout Fall and Winter. It is very hardy; grows in sunny or shaded places, and is not surpassed as a vine for covering trellis-works, trees, rocks or walls. Each 20c; 3 for 50c, postpaid. Larger size 35c each.

CLEMATIS HENRY—Fine, large, creamy white flowers. The very best of the white varieties; a perfect bloomer. Large field-grown roots, 3 years old, only 75c each, postpaid.

CLEMATIS STANDISH—One of the most striking beauties ever offered. In color it is a most exquisite lavender-blue of large flowers, often measuring 6 inches across. Thousands of flowers may be grown on a single plant. Every year's growth adds to its beauty. It is a perpetual bloomer. Large roots, 3 years old, 75c each, postpaid.

CLEMATIS JACKMANI—A perfect beauty. 5,000 blossoms have been counted on a single specimen plant. Jackmanii is of rapid growth, early, abundant and continuous bloomer. Perfectly hardy and adapted to all kinds of culture. In flower from middle of June to middle of October. The blossoms are of large size, intense royal velvety-purple when in full bloom, varying through all the exquisite shades of violet, 6 inches across, richly veined and handsomely shaded. The most striking and picturesque variety known. Strong field-grown, 3-year-old roots, price 75c each, postpaid.

CLEMATIS MAD, EDOUARD ANDRE—An entirely distinct, and most novel variety, and the nearest approach to a red ever sent out. Thousands of flowers produced on a single specimen plant. Large 3-year-old roots, price 75c each, postpaid.

CLEMATIS PANICULATA—(Japanese Virgin's Bower)—One of the most beautiful of our hardy flowering vines. The flowers are pure white, three-fourths of an inch in diameter, star-shaped, and are borne in great clusters, or clusters of bloom, fairly covering the plant. These clusters are carried on long, slender stems, and stand out boldly from between the glossy-green leaves. The fragrance of the flowers is delicious, resembling the English Hawthorne blossom. It begins to bloom in August, at a time when most other hardy climbers are out of bloom—an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from 15 to 20 feet and spreading out when trained to wires or strings. It is perfectly hardy in all sections of the country, and it is, in our opinion, the most valuable among hardy climbing vines. A grand porch climber. Good, strong Plants, 25c each; 3 for 70c; large strong Plants, 50c each; 3 for $1.25, postpaid.

Notice—We have extra strong roots of the above 5 varieties of Clematis at $1.00 each, prepaid.
Honeysuckles
Favorite vines of strong, rapid growth in any soil or location. They are well adapted for all trellis-work, for climbing over arbors, for training to posts and along fences. They are beautiful when used for ground-cover to ramble in a wild and natural way. The vines take root where they touch the ground, and this habit makes them suitable also for retaining purposes on slopes and banks. They withstand shade and make a ground cover in places where grass will not grow.

HALLEANA—(Hall's Japan)—For real home vines there is nothing prettier than Honeysuckles, and Halleana is considered by many the sweetest and most beautiful of all. It is a strong, rapid grower, perfectly hardy. Blooms constantly and profusely from June to November. Flowers are pure white, changing to yellow and of peculiarly delicious fragrance. Fine for trellises or pillars. Foliage bright, glossy green; makes dense shade. Strong plants, 50c each, or 3 for 30c, postpaid.

GOLDEN LEAVES—Marvelously effective. It bears innumerable sprays of the most perfect little leaves, that are covered with a network of gold and green, often marked with pink also. A strong grower with white blosom. A unique vine. Strong plants, 20c each, or 3 for 50c, postpaid.

The Wonderful Hardy Japanese Kudzu Vine
(Pueraria Thumbergiana, "Jack-and-the-Bean-Stalk" Vine)
The most remarkable and rapid growing of all hardy vines, often making a growth of fifty to seventy-five feet in one season and flourishing where nothing else will grow; will last for 25 years or more. North the plant goes to the ground in Winter, coming up again from the roots in the Spring. It has clusters of delightfully fragrant purple flowers all Summer and Autumn. The large, beautiful, deep green leaves admirable for covering porches, arbors, fences, old trees, etc.

Price
Strong, 1-year-old roots, 25c each, or 3 for $1.75. Large, 3-year-old plants, each 35c; 3 for $2.75, postpaid.

Trumpet Creeper
(Bignonia Radicans)
A familiar, high and rapid growing vine, with rich green foliage and large, showy, trumpet-shaped scarlet flowers. Very desirable for covering summer-houses, training over arbors, and to climb over trees, rocks and rustic bridges. Bignonia will grow in almost any soil and are very hardy. Strong, 3-year-old Plants, each, 35c, 3 for 60c, postpaid.

Chinese Wistaria
One of the most elegant and rapid growing Hardy climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple lilac flowers in May and June, and again in Autumn. Price, large 3-year-old plants, 35c, postpaid.

Evergreen Bittersweet (Euonymus Radicans Vegeta)
The Best Evergreen Vine for America.
A most valuable, new vine. A hardy, very strong, robust evergreen vine, climbing by aerial rootlets, ascending a height of 25 to 30 feet in one season. It climbs to walls, rocks and trees for which it makes a splendid dense evergreen cover. The leaves are large, rounded, glossy green, absolutely holding the color in the hottest summer as well as in the coldest winter. In the fall it bears a profusion of bright orange-red berries which remain on the plant the greater part of the winter. There is no better climbing vine for this country than Evergreen Bittersweet. It is easy to grow, will grow in any soil and climate; it has the advantage over deciduous vines being blooming 365 days of the year, instead of a few weeks or months. It is more hardy than English Ivy.

Strong plants, 50c each, postpaid. Larger plants 75c each.

Matrimony Vine
A vigorous, hardy climbing plant. It covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long. It will grow and thrive in any situation, either shade or bright sunlight. Strong Plants, each 35c; 3 for 70c, postpaid.
**PAEONIES**

No flower exceeds them in popularity, and none are more easily grown. Everyone knows the old-fashioned "Flag" of our grandmother’s garden. There is no other flower that will give you such an attractive display of flowers and supply of cut flowers. When once planted they practically take care of themselves, and are well adapted for planting in the border bed or in solid beds. They are among the showiest and most useful of all hardy plants.

Chiffon—A deep rich red

Special Offer E8 One each of Chiffon, Venus and Zada Paeonies for only 80c postpaid.

---

**JAPANESE IRIS**

The magnificent Iris are among the most beautiful of our Summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for five or six weeks. Many of these flowers measure from 10 to 12 in. in diameter, and rival the Orchids in their rich colorings and markings. For cut flowers they should be cut in early state, allowing the bloom to expand when placed in water. Price, postpaid, Choisest Mixed, all colors, each 25c, $1.50 per doz.

---

**HARDY PHLOX**

No class of Hardy Perennials is of more importance than the Phlox which succeed under almost any conditions and flower from the end of June until late in the Fall; and while they will continue in good condition and flower freely for many years without attention, still they are much improved by liberal cultivation. There are quite a number of different varieties, but we offer only the latest and best varieties and entirely distinct sorts, the finest in their respective color. Our select assortment contains the very cream of the Phlox family.

**ALBION**—White, suffused pink and pink eye.

**ELIZABETH CAMPBELL**—Light salmon-pink with dark red eye. Each, 25c; doz., $2.50.

**EUROPA**—Pure snow-white with crimson eye, immense florets and trusses.

**MRS. JENKINS**—Pure snow-white; gigantic trusses and flowers. The finest white Phlox.

**JEANNE D’ARC**—Pure white, late.

**KATIE**—Deep reddish violet with deeper eye. One of the darkest.

**RIVERTON GEM**—Mauve-rose with carmine-red eye.

**RHYNSTROM**—Carmine-rose.

**THOR**—Deep salmon-pink with a scarlet glow. Each, 25c; doz., $2.50.

**WIDAR**—Lovely violet-blue with white eye.

Prices, any of above, unless noted, 25c each; $2.50 doz.

**SPECIAL OFFER E II**. One each of the above 10 Hardy Phlox, postpaid, $1.75.

**MIXED HARDY PHLOX**—A fine assortment. Each, 15c; doz., $1.50. post-paid.

---

Flag Iris or Fleur de Lis

The Fleur de Lis is one of the most desirable early Spring-flowering plants. No garden is complete without a collection of these beautiful flags. They are most effective if planted in masses on the lawn or among shrubbery, etc. They are hardy everywhere, and succeed in any soil without cultivation or care of any kind.

**BLACK PRINCE**—Deep, rich royal purple. Very effective.

**CELESTE**—Bright, satiny blue.

**DARIUS**—Lemon yellow and lilac. Distinct and beautiful.

**HER MAJESTY**—Beautiful, rosy lilac. Very large.

**MADAME CHIERAU**—White broadly margined violet.

**PLUMERI**—Deep, coppery bronze. Very free flowering.

**Price**: any of the above, 25c each; $2.50 doz., postpaid.

**SPECIAL OFFER E 8**. The set, one each of six named Fleur de Lis, postpaid, for only 98c.

**Mixed All Colors**: 15c each; doz., $1.50, postpaid.
BUCKBEE'S CHOICE
"FULL OF LIFE"

HARDY PERENNIAL PLANTS

The old-fashioned hardy garden flowers are very popular, and deservedly so. No feature of the garden can be more satisfactory than a good assortment of these hardy plants, producing from early Spring to late in the Fall a continuous succession of charming flowers, which are equally valuable for garden ornamentation and cutting purposes. No class of plants will yield better or more pleasing results for the money invested. They require very little care or attention, are perfectly hardy and yield a rich harvest of bloom.

LADY IN WHITE (The Famous Cemetery Plant)—One of the very best white flower-plants for the border. The flowers are borne in the greatest profusion the entire Summer on strong, erect stems, pure white in color. Select plants, post-paid, 20c each; 3 for 50c; $1.55 per doz.

ACQUILEGIA (Columbine)—Long-spurred varieties of many rich and varied colors and with broad petals. Two feet high. Columbines are a most important part of the hardy garden and should be grown in quantity. With their airy grace they will serve to lighten up a too stiff and formal planting. Their lasting flowers and long stems are also splendid for cutting.
Prices, post-paid, 25c; 3 for 50c; $1.55 per doz.

ARMERIA (Thrift)—Attractive, dwarf plants for low edgings, forming rosettes of narrow evergreen leaves on the ground, from which they send up stiff, wiry stems with dense heads of flowers; bloom all season. Pink and white flowers. Prices, post-paid, 25c; 3 for 75c; $2.50 per doz.

BABY'S BREATH (Gypsophila Paniculata)—A beautiful old-fashioned plant possessing a grace not found in any other perennial. Beautiful pure white flowers. Plants grow 2 to 3 feet in height and bloom the same in diameter. Each 50c; 3 for 50c; $1.55, postpaid.

BLEEDING HEART (Dicentra, or Dicentra)—An old-fashioned favorite; its long and graceful heart-shaped pink flowers are always attractive. Prices, post-paid, 25c each; 3 for 75c; $2.50 per doz.

CANTERBURY BELLS (Campanula Medium)—Beautiful large bell-shaped flowers in blue, rose and white colors. The Medium is the most satisfactory of the Campanulas. It grows 2 feet high on good soil and blooms for a long time, if flowers are cut immediately upon fading and if planted in a half-shady place. Mixed colors. Each 20c; 3 for 50c; doz. $1.55, postpaid.

CHIMNEY BELL-FLOWER (Campanula Pyramidalis)—The most conspicuous of the Campanulas, producing spikes 4 to 6 feet high, crowded with salver-shaped flowers July till frost. Colors: blue and white. Each 25c; 3 for 75c; doz. $2.50.

COREOPSIS (Lanceolata Grandiflora)—One of the most popular hardy plants. The flowers are of a rich golden yellow and invaluable for cutting; continues in bloom the entire Summer and Fall. Each 15c; 3 for 40c; doz. $1.50, postpaid.

CORN FLOWER ASTER (Stokesia)—A most charming and beautiful native plant. Grows from 18 to 24 inches high, bearing freely from early in July until October its handsome Corn Flower-like blossoms, which measure from 4 to 6 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. Mixed colors, blue, purple, pink, yellow and white. Each 20c; 3 for 50c; doz. $1.55, post-paid.

DAGILY SHASTA (Alaska)—The very best daisy. These new Hybrids of Shasta Daisy give us flowers of different forms and a large range in shape from fully double to single, and in color from pure white to pale lemon yellow—some solid colors, some prettily variegated with yellow disks. The plants are very free flowering and in bloom throughout a long season, making as effective a field show and as profitable a cut flower supply as any hardy perennial grown. Each 20c; 3 for 50c; doz. $1.55, post-paid.

DAY LILY, HEMEROCALLIS—Popular beautiful plants belonging to the Lily Family; succeed everywhere. Flowers close at night, very fragrant. Three feet high; blooms in June and July. We offer the following distinct varieties:
White—Pure glistening, snow white. Each 25c; 3 for 75c; doz. $2.50.
Variegated—Variegated foliage. White flowers. Each 25c; 3 for 75c; doz. $2.50.

Bleeding Heart—The best yellow. Each 25c; 3 for 70c; doz. $2.50.

Japanese Double—Large orange flowers with darker shadings. Each 25c; 3 for 75c; doz. $2.50.

DELPHINIUM OR LARKSPUR (Gold Medal Hybrids)—These flowers are being used with telling effect in our parks and public grounds. They are one of the few hardy blue flowers of any note. By cutting off the flowers as soon as faded, a second and third crop will succeed. Each 20c; 3 for 50c; doz. $1.55, postpaid.

FOX GLOVE (Digitalis)—Another good old-fashioned but dignified and stately perennial. The strong flower stalks—often 4 to 6 feet high—always give an appearance of strength wherever planted. Mixed colors. Each 20c; 3 for 50c; doz. $1.50, postpaid.

CORN FLOWER ASTER (Stokesia)—A most charming and beautiful native plant. Grows from 18 to 24 inches high, bearing freely from early in July until October its handsome Corn Flower-like blossoms, which measure from 4 to 6 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. Mixed colors, blue, purple, pink, yellow and white. Each 20c; 3 for 50c; doz. $1.55, post-paid.

HARDY PERENNIAL PLANTS

Continued

GAILLARDIA GRANDIFLORA—One of the showiest and most effective hardy plants, about 2 feet high, and continuous bloomers from June till cut down by the frost. The flowers are of gorgeous coloring: the center is of dark red-brown, with petals marked with rings of brilliant crimson, orange and vermilion. Excellent for cutting. Each 15c; 3 for 40c; doz. $1.50, postpaid.

HIBISCUS (Mallow) CRIMSON EYE—Noble, shrub-like plants, 3 to 4 feet high. Large fine green foliage and flowers of immense size, pure white, with a large spot of deep velvet crimson in the center. Each 15c; 1 for 50c; doz. $1.50, postpaid.

NEW GIANT RAINBOW HIBISCUS—The most notable and striking introduction of hardy perennial plants for many years. Plants 6 feet high, with huge blossoms 10 to 12 inches across, in white and all shades of pink, rose and scarlet. These flowers remain open all day, whereas other Mallows close about noon, and they are producers from July till frost. Each 25c; 3 for 70c; doz. $2.75, postpaid.

HOLLYHOCK—Few hardy plants combine as many good qualities as the Hollyhock. The flowers form perfect rosettes of the most lovely shades of color. It requires a rich, deep soil, well drained, and will repay in quantity and elegance of bloom any extra care. A slight protection during the Winter will be beneficial. Each 20c; 3 for 50c; doz. $1.55, postpaid.

HYPERICUM MOSHERIANUM (St. John’s Wort Gold Flower)—A hardy perennial. Enormous, rich golden-yellow flowers with yellow stamens and crimson anthers nestling amongst the bright green foliage. Marvelously free flowering the entire season. Each 25c; 3 for 70c; doz. $2.75, postpaid.

MONARDA DIDYMA (Prairie Balm Oswego Tea Mint)—Showy plants 2 to 3 feet high, with aromatic foliage and brilliant crimson-scarlet flowers from July to September. Each 20c; 1 for 50c; doz. $1.55, postpaid.

MYOSOTIS—A true Forget-Me-Not. Azure blue flowers hardly ever out of flower, useful in shady spots. Price 15c each; 3 for 40c; doz. $1.50, postpaid.

PHYSOSTEGIA (False Dragon Head)—Native perennial, 3 to 4 feet high, forming dense bushes and bearing all Summer showy spikes of pretty, tubular flowers of delicate pink color, resembling a large heather. Prices, postpaid, 20c each; 3 for 50c; $1.50 per doz.

PINKS, HARDY GARDEN—Old favorites bearing their sweet clove-scented flowers in the greatest profusion during the Summer months. Each 20c; 3 for 50c; doz. $1.55, postpaid.

POPPY, ORIENTAL—Nothing can equal these Poppies during their period of flowering for a gorgeous display of a rich, brilliant coloring. Select plants, price, postpaid, 25c each; 3 for 70c; $2.50 per doz.

PLATYCODON (Balloon Flower)—Nest, branching bushes, 2 to 3 feet high, with 10 to 12 stalks covered with large bell-shaped flowers from July till September. Blue and white flower. Each 20c; 2 for 50c; doz. $1.50, postpaid.

RUDBECKIA, GOLDEN GLOW—It is a question whether any other hardy perennial has ever met with greater popularity than this. It is a strong, robust grower of 5 to 6 feet, and produces masses of double golden-yellow cactus dahlia-like flowers from July to September. Price 20c each; 3 for 50c; $1.95 doz., postpaid.

SAGE, VARIEGATED—Pretty, dwarf bushes about one foot high, with small oval leaves neatly margined yellow; very fine for edging. This is a hardy perennial, the leaves may be used for the same purposes as the common herb. Price 20c 3 for 50c; $1.95 per doz.

SILENE ORIENTALIS (Cathry)—Dwarf, charming plants with large heads of dark rose flowers appearing continuously from Spring till frost. Suitable for edging and for rock gardens. Price 30c each; 3 for 50c; $1.55 each; 3 for 70c; $2.50, postpaid.

SWEET WILLIAM (Dianthus Barbatus)—Beautiful old-fashioned favorite border plant. The stock we offer has been grown from a select strain; various colors. Price 15c each; 3 for 40c; $1.50 per doz., postpaid.

TRITOMA (Red Hot Poker Plant)—Surpasses the finest Cannas for attractiveness and brilliancy; blooms incessantly from August until November. Plants show from six to ten grand flower stalks all the time, each holding at a height of 3 feet a cluster of fantastic scarlet flowers. Prices, postpaid, 25c each; 3 for 70c; $2.50 per doz.

VIOLET, HARDY ENGLISH—This Violet is entirely hardy; of a deep Violet purple color and most deliciously fragrant and perfectly double. Will grow and bloom in any garden and in any soil, even the poorest. Nothing is more appropriate for a cemetery plot than the Hardy English Violet. Prices, postpaid, 25c each; 3 for 70c; $2.50 per doz.

YUCCA FILAMENTOSA (Adam’s Needle)—One of the finest and most effective hardy foliage and flowering plants. Broad, sword-like foliage and tall, much-branched flowering spikes, often 5 to 6 feet long, densely packed with large, fragrant, drooping, creamy-white flowers during June and July. Price 25c each; 3 for 70c; $2.50 per doz.
MONEY MAKING STRAWBERRIES

The QUEEN OF ALL BERRIES

STRAWBERRY PLANT ORDERS

Will be shipped direct from our Strawberry Farms and cannot be shipped with other goods. Send your orders in early and they will be filled in rotation just as early in the Spring as possible.

WHEN WE SHIP STRAWBERRY PLANTS—In this locality Field Grown Strawberry Plants are ready for shipment in April. We can also make Fall shipments if desired. We ship Strawberry Plants during the months of March, April, May, October and November only. Be sure to state exact date you want your plants shipped when ordering. Otherwise we will use our best judgment.

My plants are suited to all soils and climates. 100 Plants will supply an ordinary family with fresh fruit all season.

Set Out BUCKEE’S “Full of Life” STRAWBERRY PLANTS, Start Right! Get the Best. ORDER EARLY.

We Warrant all shipments of Strawberry Plants to reach you in good growing condition and when so accepted, no orders will be duplicated or replaced for any cause.

EVERBEARING OR FALL-BEARING STRAWBERRY

A dish of luscious strawberries in Fall is a luxury which everyone who owns a garden could enjoy. Plant at least a dozen plants, but if you can spare the room plant 100 or more. Keep all blooms picked off in Spring and do not allow the plants to bear regular crops in June, thus conserving their strength for the Fall crop.
BUCKBEE'S SELECT LIST OF SMALL FRUITS

BLACKBERRIES

Burbank's New Thornless

Perfection—The latest introduction, created by crossing Fay's Prolific with White Grape. It combines the best qualities of both parents. In color it is a beautiful bright red and of a larger size than Fay, the clusters averaged larger and the size of the berries maintained to the end of the bunch. It is one of the most productive Currants, and its quality is superior to anything in the market today, being of a rich, mild, sub-acid flavor and having plenty of pulp with few seeds. Price, 25c each, or $2.50 doz., postpaid.

Perfection Currants.

MOAMOTH—The Giant of All

The berries are enormously large; in fact, the largest Black- Mammoth Blackberry, berries in the world. They measure from 2 to 2½ inches long, thus eclipsing any other. For cooking purposes fulfills all the desired qualities of other Blackberries, and as a fresh fruit is generally preferable, owing to larger size and having more pulp and less core. Price, strong plants, each 25c; doz., $2.50, postpaid.

ELDORADO—A very vigorous growing, perfectly hardy variety. Fruit very large, borne in clusters which ripen very evenly; quality unsurpassed and an excellent shipper. Price, 10c each, or 90c doz., postpaid.

GRAPES

Campbell's Early—The berries are large, often an inch or more in diameter, glossy black with a purple bloom, sweet and juicy, with few seeds. As a keeper and shipper this variety is unequalled by any other American Grape. Price, 2-year-old strong plants, 25c each, or $2.50 doz., postpaid.

White Diamond—Valuable for all sections of the United States. Best white, healthy and perfectly hardy. Prices same as Campbell's Early.

Moore's Early—One of the best early ripening varieties. The bunch is large, round and with a black-blue bloom. In quality surpassing the Concord. Price, 2-year-old strong plants, 25c each, or $2.50 doz., postpaid.

Concord—The well-known standard black-blue variety. It succeeds wherever Grapes are grown. Prices same as Moore's Early.

Worden—A large black Grape of the Concord type, but 5 to 10 days earlier. Price same as Moore's.

Special Offer E3 The set of 5 choice Grapes one of each variety, by mail, postpaid, Only 90c

IMPORTANT NOTICE—CURRANTS AND GOOSEBERRIES

Owing to the embargo placed by our Government, we cannot ship Currants and Gooseberries into any states west of the Mississippi River nor in Illinois. Customers living in these Western States will please not order them and save unnecessary correspondence.

GOOSEBERRIES

Champion—An excellent new variety originated in Minnesota. A vigorous grower, very hardy, free from mildew and rust and very productive. The fruit ripens early, is of large size, round, smooth, of greenish white color with thin transparent skin and of most excellent quality. The very best Grade known today. Price, Strong Plants, 25c each, or $2.50 doz., postpaid.

Red Jacket—A bright shiny red, a most beautiful and attractive berry. Flavor is most delicious and commands the very best market price. Plants and foliage are at all times vigorous, clean, healthy and mildew and leaf blight proof. Thoroughly hardy and enormously productive. Prices same as Champion.

Burbank's Thornless Blackberry

Burdal's Early Grape

Campbell's Early Grape.
RASPBERRIES

RED RASPBERRIES

ST. REGIS EVERBEARING. Bears Fruit Perpetually for Four Months—It is the first Red Raspberry to give ripe fruit, and continues to produce berries without intermission until October. The berries are surpassing in quality—rich, sugary, with full raspberry flavor. They are of exceedingly large, firm texture, and keep in good condition for a very long time after being gathered. St. Regis is very hardy, an excellent shipper and wonderfully prolific. Fine, strong, selected plants, 20c each; $1.75 per doz., postpaid.

HERBERT—The hardiest Raspberry; a strong, vigorous grower; fruit bright red, very sweet and juicy. Earlier and with larger berries than most others. Price, 15c each; $1.25 doz., postpaid.

BLACK RASPBERRIES

CUMBERLAND—New. The largest Black Raspberry known, averaging 3½ inch in diameter. Good and firm as the Grenz, but the bush is harder. A strong, vigorous grower and wonderfully productive. Mid-season. 15c each; $1.25 doz. Postpaid.

COLUMBIAN—Purple or dark blue color, rich flavor, very large size. An excellent shipper, and the best for canning and drying. Late. 15c each; $1.25 doz. Postpaid.

IMPROVED RUSSIAN MULBERRY

An ornamental, hardy, fruit-bearing tree. Suitable for all sections of this country. Makes a beautiful tree for the lawn. Fruit larger than blackberries and of delicious flavor. It is a very rapid grower, often reaching the height of 60 feet and from 3 to 5 feet in diameter, and is perfectly hardy. Commences to bear when two years old, and is very prolific, the fruit larger than the average blackberry, has a fine, aromatic flavor and sub-acid, sweet taste, and is used for dessert as we use blackberries or raspberries. Price, 15c each, or 3 for 40c, postpaid.

THE STRAWBERRY RASPBERRY

(Tree Strawberry)

Bush from 18 inches to 2 feet in height, entirely hardy and impervious to heat and drought. Berries are larger than the largest Strawberries, bright, shining scarlet, with an exquisite bloom. MAKES DELICIOUS JELLY, JAMS AND TARTS, having a delicious flavor entirely different from any other fruit. It is an immense yielder, producing regularly and abundantly. It bears the first season and gets stronger and larger each year. All lovers of fruit should give it a trial. It will be a surprise to you. Price, 30c each, 5 for 50c, postpaid.

BURBANK’S HYBRID BERRY “PHENOMENAL”

Burbank’s Latest Berry Triumph—Largest Berry Known. A cross between a Dewberry and a Raspberry. The color and flavor are those of the Raspberry, while in size and shape it is more like the Dewberry. The berries grow in clusters from five to ten each, and single berries, grown under favorable conditions, have measured 3½ one way by 3½ to 4½ the other way. The color is a bright crimson. They are of delicious flavor. Price, Strong Plants, each 30c; doz. $1.75, postpaid.

THE WONDERFUL HIMALAYA BERRY

The Greatest Wonder of All. Ripening after all other berries are gone and extending the berry season several weeks. It is an exceedingly strong grower and should be grown on trellis, as the vines will grow from 30 to 40 feet in one year. The berries are large, black and borne in clusters. They are of oblong shape, very sweet, juicy and with almost no core. They begin ripening the last of June and as fast as the ripe fruits are pulled off more ripen. Price, Strong Plants, each 30c; doz. $1.75, postpaid.

NEW LOGAN BERRY (Blackberry-Raspberry)

This Thornless Blackberry-Raspberry originated in California. It is an exceedingly strong grower, making the growth of 10 feet in one season. The fruit is as large as the largest sized Blackberry, of the same form and shape, and the color when fully ripe, is a dark bright red. It is excellent for the table. The fruit is extremely firm and the vines are enormous bearers. The fruit ripens before Raspberries and Blackberries. Price, 20c each, or $1.75 per doz., postpaid.

DEW'BERRY

AUSTIN’S IMPROVED—The berries are much larger than those of any other Dewberry or Blackberry. It requires no trellises or stakes. The fruit is jet black and of superior flavor. For productiveness it outrivals all other Dewberries. Price, 10c each, or 10c doz., postpaid.
BULBS FOR FALL PLANTING ONLY

IMPORTANT NOTICE—None of the bulbs listed on this and the following two pages can be planted in the spring or summer. Bulbs are grown for us in Europe and orders for them should be postmarked to us by August 1st so as to receive the bulbs from the grower. We want your order now so that we can reserve our best “Full of Life” bulbs for you and ship to you as soon as received or return amount paid for them. Single bulbs or dozens prepaid; larger quantities by express or freight not prepaid.
